KIDNEY-WORT

THE ONLY MEDICINE

That Acts at the Same Time on

THE LIVER, THE BOWELS, and the KIDNEYS.

These great organs are the natural cleansers of the system. If they work well, health will be perfect: if they become clogged, dreadful diseases are sure to follow with

TERRIBLE SUFFERING.

Billiousness, Headache, Dyspepsia, Jaundice, Constipation and Piles, or Kidney Complaints, Gravel, Diabetes, Sediment in the Urine, Milky or Ropy Urine; or Rheumatic Pains and Aches,

are developed because the blood is poisoned with the humors that should have been expelled naturally.

KIDNEY-WORT

will restore the best by action and all these distressing evils will be banished; neglect them and you will live but to suffer.

Thousands have been cured. Try it and you will add one more to the number. Take it and health will soon make glad your heart.

Why suffer longer from the torment of an aching back?

Why bear such distress from Constipation and Piles?

Why be so painful because of disordered urine?

KIDNEY-WORT will cure you. Try a pack-age at once and be satisfied.

It is a dry vegetable compound and

One Package makes six quarts of Medicine.

Your Druggist has it, or will get it for you. Insist upon having it. Price, $1.00.

Cuticura

From the Hon. WM. TAYLOR, State Senator of Massachusetts.

MESSRS. WESTON & POTTER: *Gentlemen,*—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel it in every sense of the word. I have been a great sufferer with skin diseases for the last twelve (12) years. My head and face being covered with sores, I could not rest with the burning heat and itching of the parts affected, and was confined to my house for three weeks at a time. My disease has been called Eczema, of a most aggravated type, by many physicians, but I doubt if ever fully understood by any of them. It was more like a combination of several skin humors. I have spent much money seeking a cure, and in 1867 I went to Europe, and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr. —— (whose reputation for the cure of those diseases was of the highest order) could cure me. I waited on the doctor; he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians, and among them Dr. —— of East Boston, and Dr. ——, of city proper, but all to no purpose. They did me no good; their remedies were so ineffectual that at no time did I feel that a cure would result from them.

I have swallowed five hundred arsenic pills, 5.20 grain, and taken bottle after bottle of internal remedies, besides all the external applications I have used but the effect was the same. I became satisfied that I could not be cured, but might be kept from getting worse.

Now, about three months ago, Mr. Meehan, a gentleman well known to Boston people, called my attention to your CUTICURA, and promised wonderful results if I would only make a trial. He told me of his own experience with it, and so persevered on me that I went with him to a drug store and bought two large boxes of CUTICURA, and some CUTICURA SOAP, and commenced to use it according to the directions. There was so much humor lodged within the skin, that as soon as I commenced the use of CUTICURA it came to the surface and festered, until vast quantities had come out and greatly intensified my sufferings for about two weeks. But I did not mind this, as I felt that I was going to get rid of the humor when I saw it coming to the surface in such large quantities. After the first two or three weeks' use of this remedy, I was greatly encouraged by a gradual lessening of the inflammation or a number of painful sores. I carefully, faithfully, and cheerfully followed the directions to the letter, feeling each week nearer a cure, until at present, after three months use of CUTICURA, and twelve years of as constant suffering as was ever endured, I can say that I am cured, and pronounced my case the most remarkable on record. I have been so elated with my success that I have stopped men on the street who were afflicted, and told them to get the CUTICURA, and it would cure them. This is why I am so grateful to you, for I believe it to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I may add that I took no internal medicine but the CUTICURA RESOLVENT. WILLIAM TAYLOR.

Boston, Aug. 22, 1878.

THE CUTICURA REMEDIES

CUTICURA RESOLVENT is the most powerful Blood Purifier and Liver Stimulant ever compounded.

CUTICURA is the great external remedy for all Humors of the Skin and Scalp, and all Sores.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; or SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundred edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of long experience in these matters, and awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

THE

New Hampshire Gazette

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or, to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

—THE—

NEW HAMPSHIRE GAZETTE

Contains more original matter

POROUS CAPCINE PLASTER

BENSONS CAPCINE PLASTER

That the public may be protected against imitations and fraud we specially caution all purchasers of BENSON'S CAPCINE POROUS PLASTERS to see that the word CAPCINE on each plaster is spelled correctly. Do not allow some other plaster to be palmed off under similar sounding names, with the assurance that it is the same thing or as good.

Bear in mind that the only object such vendors can have in the fact that they can buy imitations at half the price of the genuine, and they hope by this substitution to gain a small additional profit. ☞

THE BEST REMEDY FOR Diseases of the Throat and Lungs.

AYER'S CHERRY PECTORAL

Diseases of the pulmonary organs are so prevalent and fatal, that a universal reliable remedy for them is invaluable to every community. Ayer's Cherry Pectoral is such a remedy, and no other so eminently merits the confidence of the public. It is a scientific combination of the medicinal principles and curative properties of the finest drugs, chemically united, to insure the greatest possible efficacy and uniformity of results, which enables physicians invalids to use it with confidence. It is the most reliable remedy for diseases of the throat and lungs that science has produced. It strikes at the foundation of all pulmonary diseases, affording in certain relief, and is adapted to the use of any age or either sex. Being free from the youngest children take it without fear. In the treatment of Coughs, Colds, Sore Throat, Bronchitis, Influenza, Clergyman's Sore Throat, Asthma, Croup, and Consumption, the efforts of Ayer's Cherry Pectoral have been marvelous, and multitudes are now living who, but for its timely use, would have long ago yielded to these fatal diseases. It should be kept in every household, for the prompt relief it affords in sudden attacks, for Croup and Consumption, a remedy so efficacious, that dealers in medicine generally agree that it cures those which Ayer's Cherry Pectoral has effected all over the world, and everywhere that it will be known, the best results. As a preventive against sudden changes, which so fatally prevail in our climate, it should be in every family. Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, Lowell, Mass. THE GREATEST LIVING AUTHORS, such as Prof. Max Müller, Rt. Hon. W. E. Gladstone, Mrs. A. Fronde, Prof. Huxley, R. A. Proctor, Edw. A. Freeman, Prof. Tyndall, Dr. W. B. Carpenter, Frances Power Cobbe, the Duke of Argyll, Wm. Black, Miss Thackeray, Mrs. Mulock-Craik, George MacDonald, Mrs. Oliphant, Jean Ingelow, Mrs. Alexander, Prof. Tristram, Hardy, Matthew Arnold, Henry Kingsley, W. W. Story, Turguenief, Carlyle, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh* year, admittedly unrivalled and continuously successful. During the year it will furnish to its readers the productions of the most eminent authors, *at home and among others*; embracing the choicest critical but not lookers-on the *Leading Foreign Novelists*, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and scientific matter, gleaned from the prime of the *foremost essays as Scientific, Critical, Discoverers and Editors* representing every department of Knowledge and Progress.

THE LIVING AGE is a *weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents in an inexpensive form, certainly its great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactory, fresh and COMPLETE combination of an indispensable current literature, *indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"It affords the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Episcopal Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that through its pages alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Hartford Daily Times.*

"To read it weekly is a liberal education."—*Episcopal Recorder, Philadelphia.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a through compendium of all that is admirable and note worthy in the literary world."—*Post, Boston.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Cotton Planter, Boston.*

"The best literature of the day."—*New York Times.*

Published WEEKLY at $8.00 a year, *free of postage.*

EXTRA OFFER FOR 1880.

To all new subscribers for 1880 will be sent gratis those numbers of 18 3 which contain, besides other interesting matter, the first chapters of THE WHO WILL NOT WRITE BE MAY," a new story by MRS. OLIPHANT, now appearing in THE LIVING AGE from advance sheets.

Club Prices for the best Home and Foreign Literature.

"Possessed of the LIVING AGE and one or other of our vivacious American monthlies, a subscriber will find himself in command of the *whole situation*."—*Daily Bulletin.*

For $10.50 THE LIVING AGE and *either* one of the American $4 monthlies (or *Harper's Weekly* or *Bazar*) will be sent for a year, *both postpaid*; or, for $9.50 THE LIVING AGE and the *St. Nicholas*, or *Appleton's Journal*. Address,

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or interrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name: no other preparation is a substitute for this under any circumstances.

MPORTANT LETTE

From a Distinguished Physician.

NO single disease has entailed more suffering on the human race than Dyspepsia. It has baffled the skill of the physician, and the world is filled with victims who have tried in vain every so-called remedy, because they strike at the result of the disease, viz: *acid in the blood*, while it leads the unbiased inquiry to the conclusion that there is only one remedy that can be relied on, and that is SANFORD'S RADICAL CURE. It is the only medicine that can be taken by the most delicate female, without fear of injury, and is the only one that can be taken by the most robust of constitutions without exciting unpleasant results

calm.

'Hard a-starboard!" shouts Cap'n Jed; 'Clap on your port forebraces and brace the hend yards up sharp!'

He were none too soon, for with a roar like ten thousand topsail sheets blocks fore nor'wester came and struck us. Both the to'gallantmasts went over the side at the first gust, and the force of the wind were so tremendous that, although only the single sail I told you of were set, the old brig listed till her lee rail were in the water. We daren't try to get her off afore it and scud her because of the old southeast sea, into which she'd drive and beat her bridge out. Leyin' to weren't much better, 'cause her head would come up to west-sou'west and fall off to south-sou'west, the old sea heavin' up a'in her lee beam and cau'in' her to labor awful. By daylight all of the lee bulwarks—new stuff that we'd had put on at Dieppe—was washed out and the stanchions left bare. Our two to'gallant masts was a swingin' about, playin' Isaac and Josh on their own accounts, and we be to git some sort of lashin's onto 'em to keep 'em tranquil till sich times as it should moderate so as we could send 'em down.

If you don't mind, sir, we'll let him bring a couple of apple-jacks. I'm told, sir, as this are to be the American drink of the future, to take the place of whiskey, either corn or rye. I'm informed that by a new process of di'-tillation it are much improved, and though it aint a tipple as I knows much about, it strikes me this is a good time for to try it.

There's this comfort, sir, about a nor'-west wind; it are almost always accompanied with fine weather, and on this mornin' the sun rose to a bright, clear, blue sky, and here about five miles dead to leeward of us were a vessel, and a wreck apparently, tos-in' in the sea, her broken spars tangle' in all directions above her deck. Arter takin' a long look at her through the glass our old man handed it to the mate, sayin': 'She's a fam'ly vessel, Mr. Pinkham, and by the look of her worse off than us. Guess we shall have to try and edge off to her, as there may be life to save.'

'Wouldn't wonder if there was,' says the mate, 'and it may be our own, for the port pump has just giv' out and we can't do much with the other one.'

Greenback Gathering.

The greenback State committee and other prominent greenbackers held a meeting at the National house in Manchester, on Thursday evening, which is reported as having been quite enthusiastic. A vigorous campaign is to be inaugurated, during which many of the prominent greenback speakers will address the people. The following resolution was unanimously adopted:

Resolved, That the chairman of the State committee be instructed to convey to the legislature of the State of Maine our hearty congratulations upon their brave and steadfast resolution in confronting social insult, clerical slander, military terrorism and judicial usurpation with such noble courage and manly patriotism, and in asserting the independence of the people's legislature and executive of their co-ordinate branch of the State government. We express our full confidence that they will make no compromise, and will resolutely refuse all fellowship with the illegal convention now holding stolen possession of the State house under an armed partisan guard, thus earning the full measure of their loyal self-sacrifice in the lasting honor and admiration of all good and law-abiding citizens.

Voted, That a copy of the same be sent to Hon. John D. Lamson and John C. Talbot at Augusta, Me.

News and Notes.

In Congress, Thursday, the House refused to pass the national bank reserve bill to a third reading, by a vote of 158 to 79. This indicates that there will be no financial legislation at this session.

Elder Buck, of New Hampton, Iowa, is suspected of having sacrificed his little son, a 14 Freeman of Pocasset, Mass. The boy has been missing since last autumn, and Buck has fled.

The Ortiz mining grant near Santa Fe, New Mexico, containing 63,000 acres, was sold in New York on the 22d inst., for over half a million dollars.

Naval Affairs.

The U. S. S. Swatara, which sailed from Boston on the 21st inst., is bound for the Asiatic station via the Suez canal.

The sailing-ship Constellation, which recently arrived at New York from Europe with the officers and crew relieved from the Trenton, is to go out of commission. Most of her officers have been detached, and placed on waiting orders.

The training-ship Constitution arrived at Martinique on the 29th ult., and exchanged salutes with the French flagship. She arrived at St. Croix on the 10th inst.

The U. S. S. Nipsic arrived at St Thomas on the 11th inst., and sailed on the 15th for Venezuela, to investigate the alleged troubles of American citizens at that place.

The statement that Capt. Percival C. Pope, U. S. M. C., recently ordered to the Trenton as fleet marine officer of the European squadron, had been obliged to give up the position on account of ill health, is pronounced entirely without foundation.

The Florence Nightingale of the Nursery.

The following is an extract from a letter written to the *German Reformed Messenger*, at Chambersburgh, Penn.:—

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "A blessing on Mrs. Winslow!" for helping her to survive and escape the griping, colicking, and teething siege. Mrs. Winslow's soothing Syrup relieves the child from pain, and cures dysentery and diarrhœa. It softens the gums, reduces inflammation, cures wind colic, and carries the infant through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists. 25 cents a bottle. 1

New Hampshire Items.

The house of Ebenezer Fifield, at East Tilton, was burned on the 22d inst., with its contents. Loss $1000; insurance $500.

Stearns Kendall Abbott, who is suspected of having murdered Mrs. Crue at Groton, Mass., was discharged in November last from the New Hampshire State prison, where he had served three years for stealing.

Various State papers say that "Streeter, the victim of the murderous assault at McIndoes Falls, is much better, and unless a change occurs he will recover. Probably no arrests will be made." This affair has been greatly exaggerated. The facts of the case are: two French woodchoppers quarrelled, and Ellison, who lives on the Vermont side of the river, crossed over to Streeter's house, on the New Hampshire side, and attacked him. In the melee Streeter's head was slightly cut with a stove cover, and then Mrs. Streeter ran Ellison out of the house and across the river. The "revolver" which she used was simply an ordinary broomstick. Streeter has since been able to go out chopping as usual. Since the quarrel neither of the men has dared to cross the premises of the other.

IS PERFECTION.

A Noble Record: near Half a Century. Established 1832. *Improved* 1879.

The nature of the great improvement is in its wonderful life-properties to faded or fading hair, and MORE QUICKLY CHANGING GRAY OR WHITE HAIR to its natural youthful COLOR and BEAUTY.

IT IS NOT A DYE.

It requires only a few applications to restore gray hair to its youthful color and lustrous beauty, and induce luxuriant growth, and its occasional use is all that is needed to preserve it in its highest perfection and beauty. DANDRUFF is quickly and permanently removed.

Sold by all Druggists, $1.25 Per Bottle.

AROUND HOME.

The male quartette of New Hampshire Lodge of Odd Fellows will sing several pieces at the bethel services in Bow mission hall, Sunday afternoon.

There was so much sea in the lower harbor, Friday, that the tug Leyden was unable to go alongside the Plymouth to take out the remainder of her stores.

The Eldredge Brewing company commence to cut and house ice from the pond back of the brewery on Monday. The ice on Thursday last was thirteen inches thick.

The schooner Mary S. Hontret brought in 5000 pounds of fish on Friday, the storm preventing the crew from getting their usual good fare. The schooner will make one or two more trips at shore fishing, and then fit out for the Grand banks.

Four hundred and seventy-five shares of Eastern railroad stock sold at the brokers' board in Boston on Friday at $31 per share; 120 shares of Portsmouth, Great Falls & Conway sold at $19 per share; 4 1 2 per cent bonds of the latter road to the amount of $8000 went at 75; Eastern 4 1-2s brought 87.

The fine residence of Hon. Warren Brown of Hampton Falls, recently completed, is the most imposing and elegant dwelling in the town, and the most complete in its fittings and furnishings. It is heated by steam, and has a radiator in every room, and hot and cold water also; the steam works cost $1500. There are 2700 yards of plastering in the house.

An order was received at the navy yard on Friday, reducing the pay of foremen who have no men under their charge. The foremen belonging in Portsmouth and affected by this order are Stephen L. Marston, foreman plumber, Charles A. Wendell, foreman of spar makers, and Charles Osgood, foreman of calkers. The pay of these foremen is reduced from five dollars a day to three dollars.

The following-named military gentlemen from this city attended the 1st annual reunion of the commissioned officers of the New Hampshire National Guard, at Concord on the 21st inst.: Col. Wm. H. Sise, Col. D. J. Vaughan, Capt. Edw. D. Coffin, Capt. Shirley B. Cunningham, Lieut. Appleton Tredick, Lieut. R. H. Perkins, and Lieut. Fred P. Wilson. Capt. Cunningham was chosen a vice president, and Capt. Coffin one of the executive committee, of the National Guard Association that day organized.

Of Alice Oates, who is to appear at Music hall next Wednesday evening in "The Little Duke," an exchange in announcing her appearance in another city says: "The irrepressible and enthusiastic little queen of opera bouffe, Alice Oates, is so well known as to require no heralding; but it may not be amiss to say that her singing and acting have lost none of the electric spirit characteristic of this vivacious little lady, and we are told she is growing more handsome as she approaches the meridian of life, as it were. She is the only American singer who has combined the powers of acting and singing to that degree which opera bouffe requires, and her success in that line of business is a really artistic one—the result of a long study of the French methods of acting, and the adaptation of their style to our stage."

The Concord *Patriot* goes for a well-known showman thus: "It is understood that Mr. J. H. Haverley has cancelled his dates for this place, and the Mastodons will not put in a night in Concord. Mr. R. M. Hooley, proprietor of Emerson's Magatherian minstrels, states that for the past three months, as soon as his agent would bill a town, one of Haverley's men would put up the lithographs for the Mastodons, announcing their coming shortly after, and advising the people to wait, and on the day of the Magatherians' entertainment Haverley would cancel his engagement. This may be a trick of the trade and may do for some places, but we can tell Mr. J. H. Haverley that it will not work with the people of this city. He may have some grudge against Mr. Hooley, but he cannot long afford to insult whole cities in this manner." The same game was placed in this city, but in spite of it and of unfavorable weather the Magatherians had a good audience, and gave the best entertainment of the kind ever presented in this city, at least within our memory.

Hon. Frank Jones is spending the week in Washington.

The thermometer stood at sixty-eight degrees above zero in the shade, at noon on Thursday.

The Exeter machine works have declared a semi-annual dividend of three per cent, payable March 1st.

Mr. John C. Lewis of this city has accepted a position as caterer in a large eating saloon in central Pennsylvania.

The Good Templars of Newcastle cleared $26 by a recent social entertainment, and laid out the money for regalia and jewels.

Mr. William P. Israel of this city is conducting a series of protracted meetings in the church at Beach ridge, York, the present week.

The annual meeting of the Rockingham Farmers' mutual fire insurance company will be held in the town hall at Exeter, on Monday, Feb. 2d, when officers will be elected for the ensuing year.

After having the location for a camp meeting for the last five years, Seabrook is again without a place in the woods for social worship. The seats and buildings on the camp-ground have all been sold, and nearly all of them have been removed.

In Exeter, last year, there were two deaths from typhoid fever, one from diphtheria, and three from old age. The entire number of deaths of children under five years of age, was eight; of persons between eighty and ninety years old, eight. A good record, that.

The Great Falls *Journal* says: "Counterfeit $100 bills are circulating in Portsmouth and other neighboring towns." An item something like this has been going the rounds of the press for some weeks, but we have not yet heard of any person in the city who has seen one of the counterfeit bills alluded to. We have n't had one of them passed on us these six months.

The Exeter *News-Letter* waxes wroth concerning the recent appointment to a government office of Mr. Joseph R. Curtis of this city, for the reason that he was a Greeley man. If it proposes to read out of the republican party all persons who supported Horace Greeley, it will have a heavy job. Hon. Mason W. Tappan, for one, was an active worker for Mr. Greeley.

The Middle street Baptist society on Thursday evening elected as wardens, Jos. D. Ackerman, John M. Tebbetts and L. W. Brewster. The latter declined, and Geo. W. Plumer was chosen. A vote was passed that the pastor be tendered the full amount of his salary—he having generously returned $200 of it to the society for several years. The vote embodied an expression of the high esteem in which he is held by his people.—*Journal.*

An item is still going the rounds of the papers concerning a big cod-fish recently brought into this port by the schooner Josie Johnson, saying the cod was "the largest ever caught, weighing one hundred and eighty pounds." The actual weight of the fish was one hundred and eight pounds, as correctly given at the time in this paper; and at about the same time the schooner Comet, Capt. John Handy Robinson, landed one weighing one hundred and twelve pounds.

Mr. George F. Pinder, one of the Great bay smelters on crossing the Simpson stream on Thursday morning, fell through the ice. Mr. Edward Watkins, who fortunately happened to be in his company at the time, helped him from his difficulty and perhaps from drowning. Mr. Pinder remained on the ice in his wet condition, and caught twenty-five pounds of smelts. The ice on the bay this season is thin and rotten, and considered very dangerous. There are about one hundred and fifty persons who fish there daily, although the catches have been light, and prices small; love of the sport and the hope of better luck attracts and keeps them a-going.

It will be remembered that during the latter part of last summer the United States training-ship Portsmouth, while on her way from this port to Portland, blundered upon Moore's rock, close in to the York shore, and was helped off by the fishing schooner Lydia A. Davis of Newburyport, which vessel was brought to an anchor near by the grounded ship, enabling the latter to heave off the rock by means of a bawser made fast to the schooner's mast. The owners of the schooner have received no compensation for the aid rendered, and now seek some recognition of their vessel's services through the efforts of Congressman Loring of the Newburyport district.

A SCHOONER RACE.

A correspondent at the Shoals gives the following account of an exciting schooner race: "For a year or more it has been the practice among the fishing vessels to interfere with each other's trawls when it could be done safely. As in all other business, men become bold and even reckless the longer they are in this business. One day recently a vessel's crew were discovered hauling the trawls belonging to another. The schooner to which the trawls belonged gave chase to the freebooter, and there was an exciting time for an hour or more. The vessel whose chief business it is to haul and not to set gear was a fast sailer, as was the one that gave chase. Sail after sail was set on each craft,—topsails, staysails, ringtails, and all kinds of sails they could rig, until they were actually flying. The freebooter saw he was being beaten, when he rigged out a sail that never before was seen on a schooner, which gave her the advantage and the chase was given up. The vessel continued on her course toward Cape Cod, where it is said she belongs."

SUPREME COURT.

Cordelia Westcott, of Auburn, vs. Jeremiah Westcott; divorce decreed.

Charles A. Larrabee, of Exeter, vs. Mary A. Larrabee; nullity of marriage decreed.

FRIDAY, Jan. 23d; *Clark, J.*

Charles A. Odiorne vs. Elvin Rand and als.; case continued from Thursday. The defendants are selectmen of the town of Rye, and the action is one of trespass to recover damages for the value of a wagon ($125) distrained by the collector of taxes. The case was concluded, and there being no questions for the jury a verdict was taken for the defendants by agreement, and plaintiff reserved exceptions. Harriman for pltf.; Hatch for defts.

The next case in order was No. 75, Andrew P. Wendell and Henry Wendell vs. John A. N. Chapman; action on an account current. The plaintiffs are hardware dealers in this city, and seek to recover from the deft. for a large bill of supplies furnished to the contractor who built the defendant's house in Greenland, the goods being furnished in 1876. The evidence of the plaintiffs shew that Rev. Mr. Chapman and his contractor, Leavitt, came to their store, and Chapman stated that Mr. Leavitt was to do the contemplated work for him, which would require hardware, and requested them to furnish it on Leavitt's order. Leavitt's deposition was read, confirming this view of the contract. The defendant contended that the only authority given was to furnish the butts, locks and window-trimmings; and that if articles beyond these were delivered, they were so delivered to Leavitt for other purposes than to be used in his (Chapman's) house. The case was argued by Hatch for the Wendells, and Frank for Mr. Chapman; case given to the jury, who were instructed to bring in a sealed verdict.

Mary E. Merrill vs. John W. Merrill, defendant called and defaulted.

The court at five o'clock P. M. adjourned to Tuesday at ten A. M.

The case State vs. Ingalls of Candia will be in order Tuesday forenoon.

Sarah G. Boody, wife of Daniel Boody of Barrington, has petitioned the court for leave to file a claim for damages against the town of Northwood to the amount of $5000, for injuries received by being thrown from a carriage in October, 1879, by reason of a defect in the highway.

NOT TO BE FOOLED WITH.

Among the spectators of the horse-race on Lafayette road, Thursday afternoon, was an old fellow who was seated in a fearful and wonderful pung, the like of which was never before seen on earth or in the waters under the earth, and to which was harnessed a horse whose appearance denoted a disposition quiet and easy-going to the last degree. When the throng of teams started city-ward the old fellow was pretty nearly at the head of the procession, and as his old horse went jogging along at the rate of thirty steps a minute, with the check-rein hanging in bights on each side of his neck, team after team driven by the young fellows went whirling by him, for which he did not seem to care a jot; but as each one passed him the gay drivers, with remarkable unanimity of purpose, scoffed and jeered at the old codger, tendering him much unsolicited advice as to the propriety of his getting out and pushing behind, standing the old horse up against the wall to let him have a rest, etc., and for this it seemed he *did* care, for he apparently got mad and decided to "clean out the lot." Suddenly he arose in the pung, and with a war-hoop which would have chilled the blood of a Modoc Indian, commenced laying on the lash; and then that old horse astonished the boys by showing them how he could go when once persuaded to start. No fancy trotting did he pretend to do, but on a good square run he swept down the road like a whirlwind, with his head and tail on an exact line with his backbone, rapidly overhauling team after team of those that had before gone by him. Nobody seemed desirous of getting in the old fellow's way, or racing with him, everybody turning out with cheerful alacrity to let him flash by, and the last seen of him he was again at the head of the procession and going at a rate which showed that he meant to keep there. Where he went to finally we do not know; but if he kept on at the same rate of speed he must have reached Bangor before the next morning.

YORK COUNTY ITEMS.

There are seven blacksmith shops in the town of Eliot, all in full operation.

Pine Hill Encampment of Odd Fellows was instituted at Kennebunk on the 14th inst.

A tent of the Knights of Maccabees has been instituted at Kittery point, under the title of "North Star tent."

Three hundred and seventy-six barrels of cider were made at the mill of Mr. D. H. Spinney at Eliot, the past season.

Mrs. Rachel Hammond of Eliot, a lady eighty-one years old, recently fell on the ice, receiving injuries from which she is not expected to recover.

An unoccupied house situated on the line between Eliot and York was burned on the night of the 19th inst. It belonged to the heirs of the Cooper estate.

The Laconia company at Biddeford will pay a dividend of $16 per share, Feb. 3d. The Pepperell manufacturing company will pay $30 per share on the same day.

East Eliot is to have a course of lectures, beginning next week. Among the speakers engaged are Rev. Messrs. Ladd of Portland, LeLacheur of Biddeford, Baldwin of Kittery, and DeNormandie of this city.

Dr. J. M. Willis, after receiving many pressing invitations, has decided to locate in Eliot. The doctor has one of the finest cabinets of ancient relics and rare pottery to be found in the State. His office is located at Mr. Horace Parker's.

—The woman who can sit still and smilingly entertain a male visitor, perceiving all the time that he has succeeded in wriggling all the pins out of her new tidy, and is at that precious moment calmly sitting on it, and will be probably for the next hour, is sure of a reward in the next world, if she does not receive it in this.

Something New.

As one of the most prominent young members of San Francisco was walking out of court the other day, just after having secured an acquittal regarding his latest job by a prompt and business-like "divvy" with the powers that be, at the usual rates, a well-to-do but anxious-looking stranger touched his arm and beckoned him into a door-way.

"You are 'Teddy the Ferret,' aren't you?" asked the gentleman, "the man who was tried to-day for safe-cracking?"

"Well, wot of it?" replied the house breaker.

"Way, just this—you'll excuse my speaking so low—but the fact is I've come all the way from San Joaquin to look up a party in your line of business."

"Have, eh?"

"Yes—I—well, I've a little proposition to make to you."

"Exactly," said the Ferret, calmly; "you're a bank cashier down in the foothills."

"How do you know that?" stammered the gentleman, much amazed.

"And your cash and accounts are to be gone over by the directors on the 1st, and as you can't realize on your stocks, you want me to gag you some time next week, shoot your hat full of holes and find the combination in your breast-pocket book, and go through the safe in the regular way?"

"Great heavens, man! how did you find all that out?"

"Why, I guessed it. It's the regular thing, you know. Got three orders to attend ahead of yours now. Lemme see. Can't do anything for you this week, but might give you Wednesday and Thursday of next week. How'll that do?"

The cashier said he thought he could make that do, and in less than five minutes they had struck a bargain and arranged the whole affair. Even New York isn't very much ahead of San Francisco in regard to modern conveniences.—*San Francisco paper.*

Father is Getting Well.

Pure Port Wine.

We take pleasure in directing the attention of the public to Speer's delicious Port Grape Wine, a pure and unadulterated article, upon which every one may most implicitly rely. This wine is made at Speer's Vineyards, Passaic, New Jersey. It has a rich flavor, mellow juiciness, and brilliant color; and is highly beneficial in all its properties for invalids, especially females and aged persons and consumptives.

For sale by W. R. Preston, D. Kimball, F. B. Coleman, druggists, and H. F. Gerrish, grocer.

Kidney Complaints

of all descriptions are relieved at once, and speedily cured by Kidney-Wort. It seems intended by nature for the cure of all diseases of the kidneys caused by weakness and debility. Its great tonic powers are especially directed to the removal of this class of diseases. Try it to-day.

Cuticura

From the Hon. WM. TAYLOR, State Senator of Massachusetts.

MESSRS. WEEKS & POTTER: *Gentlemen,*—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel it in every sense of the word. I have been a great sufferer with skin diseases for the last twelve (12) years. My head and face being covered with sores, I could not rest with the burning heat and itching of the parts affected, and was confined to my house for three weeks at a time. My disease has been called Eczema, of a more aggravated type, by many physicians, but I doubt if ever fully understood by any of them. It was more like a combination of several skin humors. I have spent much money seeking a cure, and in 1867 I went to Europe, and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr. ——, (whose reputation for the cure of those diseases was of the highest order) could cure me. I waited on the doctor; he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians, and among them Dr. ——, of East Boston, and Dr. ——, of city proper, but all to no purpose. They did me no good; their remedies were so ineffectual that at no time did I feel that a cure would result from them.

I have swallowed five hundred arsenic pills, 5.20 grain, and taken bottle after bottle of internal remedies, besides all the external applications I have used, but the effect was the same. I became satisfied that I could not be cured, but might be kept from getting worse.

Now, about three months ago, Mr. Meehan, a gentleman well known to his friends, called my attention to your CUTICURA, and promised wonderful results if I would only make a trial. He told me of his own experience with it, and so persuaded me that I went with him to a drug store and bought two large boxes of CUTICURA, and some CUTICURA SOAP, and commenced to use it according to the directions. There was so much better relief within the skin, that as soon as I commenced the use of CUTICURA it came to the surface and fed freed, and vast quantities had come out and greatly alleviated my sufferings for about two weeks. But I did not mind this, as I felt that I was going to get rid of the humor when I saw it coming to the surface in such large quantities. After the first two or three weeks' use of this remedy, I was greatly encouraged by a gradual lessening of the inflammation of a number of painful sores. I carefully, faithfully, and cheerfully followed the directions to the letter, feeling each week nearer a cure, until at present, after three months use of CUTICURA, and twelve years of as constant suffering as a man ever endured, I can say that I am cured, and pronounced my case the most remarkable on record. I have been so elated with my success that I have stopped men on the street who were afflicted, and told them to get the CUTICURA, and it would cure them. This is why I am so grate ul to you, for I feel we it to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I may add that I took no internal medicine but the CUTICURA RESOLVENT. WILLIAM TAYLOR.

BOSTON, Aug. 22, 1878.

To the Hon. Judge of Probate for the County of Rockingham, in the State of New Hampshire:

RESPECTFULLY shows GILBERT P. HOYT, of Newington, in the County of Rockingham aforesaid, that he is Guardian of Joseph W. Pickering and George H. Pickering, minor children of Joseph W. Pickering, by the appointment of the Judge of Probate for the County of Rockingham; that his said Wards are seized each of one-fifteenth part or share in a certain lot of land situate in Portsmouth in said County, bounded easterly by Madison street and land of A. P. Hodge, southerly by land of Alfred F. Howard and of Andrew Jackson, westerly by land of Amos T. Goodrich and of others, and northerly by State street and land of A. P. Hodge, as in the records of the same where sold; and that it will be conducive to the interests of said minors to have said premises and all their rights therein sold; wherefore he prays that he may be licensed and authorized to sell the same at public auction, according to the statut in such case made and provided. GILBERT P. HOYT, Guardian.

State of New Hampshire, Rockingham ss.

Probate Office at Exeter in said County, January 9th, A. D. 1880.

Upon the foregoing Petition, it is ordered that a hearing be had thereon at a Court of Probate to be holden at Exeter in said County, on the Wednesday next following the third Tuesday of February next; and that the Petitioner notify all persons concerned to appear at said Court, and show cause, if any they have, why the prayer of said petition should not be granted, by causing said petition and this order to be published three weeks successively in the Portsmouth Daily Chronicle, a newspaper printed at Portsmouth in said County, the last publication whereof to be at least one week prior to said Court.

By order of the Judge.

POROUS CAPCINE PLASTER

BENSONS CAPCINE

That the public may be protected against imitations and fraud we specially caution all purchasers of BENSON'S CAPCINE POROUS PLASTERS to see that the word CAPCINE on each plaster is spelled correctly. Do not allow some other plaster to be palmed off under similar sounding names, with the assurance that it is the same thing or as good. Benson's Capcine is the best, but they can buy imitations at half the price of the genuine, and they hope by this substitution to gain a small additional profit. All genuine have the signature of the firm on each plaster. SEABURY & JOHNSON, Pharmaceutical Chemists, New York.

Is a compound of the virtues of sarsaparilla, stillingia, mandrake, yellow dock, with the iodide of potash and iron, all powerful blood-making, blood-cleansing, and life-sustaining elements. It is the purest, safest, and in every way the most effectual alterative medicine known or available to the public. The sciences of medicine and chemistry have never produced so valuable a remedy, nor one so potent to cure all diseases resulting from impure blood. It cures **Scrofula, and all scrofulous diseases, Erysipelas, Rose, or St. Anthony's Fire, Pimples and Face-grubs, Pustules, Blotches, Boils, Tumors, Tetter, Humors, Salt Rheum, Scald-head, Ringworm, Ulcers, Sores, Rheumatism, Mercurial Disease, Neuralgia, Female Weaknesses and Irregularities, Jaundice, Affections of the Liver, Dyspepsia, Emaciation, and General Debility.**

By its searching and cleansing qualities it purges out the foul corruptions which contaminate the blood, and cause derangement and decay. It stimulates and enlivens the vital functions. It promotes energy and strength. It restores and preserves health. It infuses new life and vigor throughout the whole system. No sufferer from any disease which arises from impurity of the blood need despair, who will give AYER'S SARSAPARILLA a fair trial. Remember, the earlier the trial, the speedier the cure.

Its recipe has been furnished to physicians everywhere; and they, recognizing its superior qualities, administer it in their practice.

For nearly forty years AYER'S SARSAPARILLA has been widely used, and it now possesses the confidence of millions of people who have experienced benefits from its marvellous curative virtues.

MPORTANT LETTER

From a Distinguished Physician.

NO single disease has entailed more suffering or be the cause of the breaking up of more constitutions than the scourge of dyspepsia, with its attendant train. The sense of smell, of taste, of sight, of hearing, the human voice, the mind, one or more and sometimes all yield to its destructive influence. The poison distributes throughout the system attacks every vital tissue, and breaks up the most robust of constitutions. Proved because but little understood by most physicians, impotent against by quacks and charlatans, how suffering from it have little hope to be relieved. It lies side of the grave. It is time, then, that a popular treatment of the terrible disease by remedy within the reach of all passed to the hands at once competent and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation of his LIVER CURE has won my hearty approval. I believe it likely to succeed when all the usual remedies have failed, because it is the root of the disease, viz. *vitiated blood*, while it heals the ulcerated membrane by direct application to the nasal passages. Position is based on certain fixed rules, and, unless vital forces are too far exhausted, must, in the great majority of cases, effect a cure. GEO. BEARD, M. D.

NORCOTT BLOCK, 80, FRAMINGHAM, Oct. 1, 1878.

SANFORD'S RADICAL CURE

HAS safely claim to be one of the few popular remedies receiving the approval of medical gentlemen, but, in fact, is not only first recommended it but is in their families in preference to any of the preparations usually prescribed by physicians.

"You are aware," said a distinguished city physician that my obligations to the Mass. Medical Society, which that I cannot publicly recommend or prescribe that a fair trial, but since I received so much relief from the use of it myself, after a thorough trial of the usual remedies, I have privately advised its use, and present have sent to your store no less than one hundred, by patients for it."

UNIVERSAL SATISFACTION.

GENTLEMEN:—We have sold SANFORD'S RADICAL CURE for nearly one year, and can say candidly that we never sold a similar preparation that gave such universal satisfaction. We have to learn the first complaint.

We are not in the habit of recommending patent medicines, but feel so much better about the wants of our customers, and we think those afflicted should be cured of the great misery which this medicine has relieved. We have been in the drug business for the last twenty years, and sold everything it starts, but yours leads all the rest. If you see fit you can use this letter or any part of it that you wish. Very truly yours, F. B. BALDWIN & Co., Wholesale and Retail Dealers in Drugs, Books and Stationery, Washington, Ind., Feb. 22, 1876.

Each package contains Dr. Sanford's Improved Injector Tube, and full directions for use in all cases. Price $1.00. For sale by all respectable retail druggists and dealers throughout the United States and Canada. HEBER K. POTTER, General Agents and Wholesale Druggists, Boston, Mass.

AN OLD SAILOR'S YARN.

Swapping Ships in Mid Ocean.

Concluded from yesterday.

'Well, loose the foresail and reef it,' says the old man, 'and we'll set it and git her off afore it and run down to that chap and see who he is and what we can do for him.'

This was soon done, and we was soon p'inted for the stranger, divin' bows under in the old southeast sea. As we draw'd up to her we seen that she were a big ship with all three lower masts and her mizzentopmast standin'; the wreck of the fore and main topmasts was a hanging on the side, and the wreck of her jib-boom were a swingin' under her bow. She were deep in the water, but whether with water or cargo we couldn't tell. Not a soul were on board of her, and it were evident that she had been abandoned durin' the recent southeast gale.

We have to about a half a mile to windward of her, so as to preserve our position, and the old man and the mate talked the matter over. It were too rough for to attempt to board her just then, but they concluded that they would lie by her until the sea become more moderate and then board and examine into her position and see what could be done. Fact were, the old man had pretty nigh made up his mind to square away for the Western islands with the brig, deemin' it unsafe for to try to git her to the west'ward till she were have down and caulked, and if so be as this other craft could be got along, why it were a good scheme to swop ships.

By noon the sea had gone down measurably, and the wind had moderated very materially. We got the two topsails close-reefed, so as to have the brig under control, and at four bells in the afternoon watch run down to leeward of the wreck and hove to. We had a good boat of the whale-boat pattern, and we was successful in gittin' her overboard, and me and my chum, with two of the Marblehead chaps, went into her with the mate, gittin' up under the lee of the ship and into comparatively smooth water. We got along-side, and me, Johnny and the mate climbed on board. The first plut we made for were the well. Both pumps was rigged, but we draw'd one and sounded her. There was three feet into her, and this was satisfactory, cause we'd left high hand that into the brig, where we'd had both pumps agoin' all the time. In the cabin there were every sign of a hasty flittin'. The capn's chronometer were in its place, but had run down, showin' that it were more than forty-eight hours since it had been wound. All the officers' clothes was in their rooms, showin' that they had only jist took what they stood in. The log-book were written up to within three days, the last entry being 'Ends with gale from southeast and increasin' sea, labourin' heavily and makin' much water.' Her name were the Barcouta, of Thomaston, Me., bound from Havre to New York, the capn's name havin' been Johnson.

Arter makin' a hurried examination the mate wrote with a piece of chalk onto a skylight cover, cause there was too much wind and sea for our old man to git within hail, 'Valuable prize; three feet of water, and goin' to try if we can gain onto her.' I forgot for to mention that in the capn's room we found some first-rate brandy, and arter all of us had a nip we calls up one of the chaps what we'd left in the boat, and 'riggin' both pumps agin we jogged away at her for a whole half hour. Then we sounded agin and found only two feet ten inches. We'd gained on her two inches. Then we jumps into the boat and goes aboard and reports, and it were decided, all hands agreein', for to abandon our craft and go aboard of the ship, she bein' more safe and more valuable. We had an hour of daylight left, and the moon were at the full. With the sun, the wind went down and the sea moderated so that we could git out the other boat and work more expeditiously. We first transferred all our dunnage and then unbent both topsails and the foresail and got them aboard, they havin' been bought new in Naples. Then we took out of her all her cabin stores, though there were plenty aboard of the ship. However, we worked away till ten o'clock at night, the sea bein' smooth so as we could pass 'twixt the vessels easy. By that time she were pretty well despoiled of everything of any value, or that were likely to be of use to us, and at ten o'clock we got our boat hoisted up on the ship's davits, and turned to at the pumps, which we kep' agoin' without intermission until midnight. Then 'Old Uncle Jed,' as we called the old man, says, 'There, boys, I reckon that'll do for the first four miles, and now I considers we've done a hard day's work. We'll splice the main brace and then one half of us will turn in. The rest will jog away at the pumps by spells, as they feels able, and to-morrow we'll start in afresh.' In the mornin' we looked for our brig, but she weren't nowheres to be seen. She'd either drifted out of sight or had sunk, and as there was five feet of water into her when we left her we supposed she'd gone down.

I needn't say much more, sir. By noon of that day we had the pumps a-suckin', and giv' three cheers; then we turns to at the wreck for to clear it away and git sail onto her. The weather continued fine, and in a week from the time we first boarded her we had three topsails and courses, jib and spanker onto her. More than that we didn't try for, 'cause our jury spars and canvas runned out then. In forty days from the time we first boarded her we went by the Hook, ship and cargo worth $100,000. There was likely to be a long litigation afore our claims for sal-

wage could be settled, and Johnny Wasters and I took up with the old man's offer of $800 apiece for our claims. He bought out the Marblehead chaps cheaper, and him and the mate fit the thing out in the Admiralty courts, gittin' first full payment for their trip, and then fifty per cent. of the balance of the proceeds of the ship and cargo. The latter were French dry goods and wines, and were extremely valuable. What they got were a bottle to 'em in Marblehead, where they are livin' to this day in the laps of luxury. Me and Johnny busted our backs out in a month and had a dreadful good time, only at the end thereof Johnny had to go to the hospital for a week or two, havin' a little touch of the triangles, from drinkin' too much. I weren't very well myself, to tell the truth, but I got off to sea ag'in without breakin' down, and have always look back to that spree as the most pleasantest I ever had in my life."

The Next Governor.

Mr. Editor: Never was the old adage more faitafully illustrated, that "Distance lends enchantment to the view," than in the case of the candidate nominated for governor by the *News-Letter* of Exeter, and so enthusiastically endorsed by the *Keene Sentinel*. And is it in the fact that Rockingham has furnished eleven governors, while the large counties of Grafton, Cheshire, Sullivan, Strafford and Coos have been almost entirely overlooked, and little Belknap left out in the cold, there are higher and more serious considerations that should lead us to hesitate before committing the party to any particular candidate, more especially when the gentleman proposed has been so repeatedly discarded both in councillor and gubernatorial conventions, even when brought forward under the most favorable circumstances. The republican party cannot afford to pin its faith upon the dead issues of the past, neither can they expect to be successful with a candidate, who, though he can point with pride to the history of his ancestors, yet has neither held upon the popular will nor is identified with any progressive reform. The republican party of Rockingham believe with Beecher that unfortunately the aristocracy of to-day are much like potatoes,—the best part lie under ground; and so they will decide, as they have on every occasion when the issue came before them, that they are most disposed to honor one who by his own inherent vigor and noble aspirations has successfully encountered obstacles that would dispirit ordinary minds and who has baffled in an honorable career the adverse winds of unhopeful birth or fortune.

"There are many such men in New Hampshire, and governors have been so plenty in the lower part of the State it would be refreshing to hail *(Hale)* one from the upper district. Men of Cheshire, haven't you a *Solon* among you? Let Sullivan cry, "On, *Chester*, on!" While far up the valley of the Connecticut, if we are *Bent-on* success there is a *Ray* of light!

And yet if we are permitted the honor we propose to go to a *New Market*, where amid the hum of his own machinery we shall not fail to find the tall, imposing form of honest Amos Paul; his keen foresight, eminent executive ability and unsullied reputation would rally to our support the best men of all parties; his name, once before the convention, would receive a most enthusiastic reception from the staunch old county of Rockingham, and be a prestige of victory.

Then again there is in the city of Manchester a learned and practical man who combines possibly more qualities which go toward making success in life than any man who could be induced to accept the honors of the position, a wise councillor during the early part of the rebellion, affluent but not selfish, refined but not proud, self-reliant but not unmindful of his fellow-men—Hon. Moody Currier, who if nominated would wipe out every vestige of Frank Jones from the State canvass. CENTRE ROCKINGHAM.

The Fusionist Rebellion.

Friday and Saturday were lively days in the capital of Maine. The Auburn *Chronicle*, owned by a member of Garcelon's infamous council and edited by Blood, one of Victoria Woodhull's numerous ex-husbands, loudly demanded the State government of blood; and Pillsbury's paper, the *Maine Standard*, was as eager in advocating armed rebellion against the State authorities as Pillsbury was in inciting the anti-draft riots at Kingfield during the war.

At midnight on Friday two companies of militia were marched into the State house; and at five o'clock another company, from Auburn, and a Lewiston company, with a Gatling gun, arrived in Augusta and at once took up their quarters in the same building. All the other companies in the State were ordered to hold themselves in readiness for a moment's call; and the arsenal at Bangor, the keeper of which is a fusionist, was put under the guard of Lieut. Col. White, commanding the first regiment of militia.

The cause for all this warlike preparation was the alleged discovery by the State authorities of a fusion conspiracy to seize the the State hous; that large bodies of men had been secretly enrolled for the purpose, in Biddeford, Bangor, Lewiston and other places, and armed and drilled; and that intercepted despatches show that the assault on the State house was to have been made Saturday night.

The fusionist "legislature" on Saturday sent a series of questions to the supreme court, prefaced by a statement of "facts" concerning the count which it is not too much to say is a tissue of notorious falsehoods.

Blaine and Chamberlain.

Hon. James G. Blaine was entertained at dinner, Friday, at Young's hotel in Boston, by the Massachusetts club; speeches were made by Marshall P. Wilder, Harvey Jewell, "Petroleum V. Nasby," Chas. W. Slack, Stillman B. Allen and many others, congratulating the Maine statesman on the able manner in which he countered on the fusion conspirators.

Saturday, at the same place, the Middlesex club gave a dinner in honor of Gen. Joshua L. Chamberlain, at which many distinguished men were present and made speeches, among them being governors Natt Head of New Hampshire and Van Zandt of Rhode Island.

News and Notes.

"Farmer" Allen, of Wakefield, Mass., died Friday.

An engine on the New York elevated railroad fell to the street Saturday morning, owing to a misplaced switch; the engineer was killed.

Abbott, the alleged Groton murderer, was at work in Boston up to Thursday evening last, but escaped arrest. At his boarding house the police found the plunder stolen from his former boarding house in Cambridge.

Sixteen prisoners escaped from the jail at Greensburg, Ill., Friday morning.

A grand official reception was given at Havana in honor of Gen. Grant, at the palace, Friday, and a banquet Friday night.

The schooner Augusta H. Johnson arrived at Gloucester on Friday, from the banks. In addition to the loss of Patrick Harrington, previously reported, she lost Allen McGuinnis. They were in a dory attending trawls. It is supposed they were upset, and the strong tide carried the dory out of sight.

Within three or four days more than a dozen cases of diptheria have been developed in connection with the Maxfield street school in New Bedford, and three proved fatal. The board of health has ordered the school closed.

The family of Ira H. Palmer of Stonington, Conn., were chloroformed on the night of the 18th inst. by burglars who entered the house by turning the key with nippers, and got several hundred dollars' worth of property.

H. C. Allen of North Branford, Conn., has been arrested for fraudulent use of the mails in carrying on a "visiting-card business." He advertised to send sixty cards, no two alike, for ten cents, and is said to have put the remittances in his pocket without delivering the goods.

—The Philadelphia *Item* has a department for lovers, and says: "A lady thoroughly competent to decide love questions is in charge."

Important.

When you visit or leave New York city, save Baggage Expressage and Carriage Hire, and stop at *Grand Union Hotel*, nearly opposite Grand Central Depot. 350 elegant rooms reduced to $1 and upwards per day. European Plan. Elevator. Restaurant supplied with the best. Horse Cars, Stages and Elevated Railroad to all depots. Be careful and see that "Grand Union Hotel" is on the sign where you enter office in the centre of the block. 4dwtuw1y

Who Is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as a female Physician and nurse principally among children. She has specially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge, obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is recommended to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do rise up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use; and that millions yet unborn will share its benefits, and unite in calling her blessed. No mother has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—try it now.—*Ladies' Visitor*, New York City. Sold by all druggists. 25 cents a bottle. 2

See a Woman!

In another column, picking grapes for SPEER'S WINE. It is an admirable article, used in hospitals and by the first-class families in Paris, London and New York, in preference to Eastern or California Wines; excellent for La...ce as a favorite.

The Gloucester Fisheries.

Twenty-four fishing arrivals were reported at Gloucester for the week ending Jan. 22d, five from Grand bank, with 18,000 lbs. fresh halibut; thirteen from Georges bank, 390,000 lbs. codfish and 20,000 lbs. fresh halibut; and six from Grand Menan, with cargoes of frozen herring. Halibut sold on the 22d at eight and five cents per lb. for white and gray; codfish at 3 1-4 and two cents; and haddock at 1 1-2 cents. Frozen herring were held at eighty cents per hundred by count.

Naval Affairs.

Second Lieut. Woodhull S. Schenck, U. S. M. C., has been commissioned a first lieutenant from Sept. 2d, 1878. First Lieut. W. S. Schenck has been nominated as captain and assistant quartermaster in the marine corps from Jan. 4th, 1880.

AROUND HOME.

Ninety-five shares of Eastern railroad stock were sold in Boston on Saturday at $32 per share, 152 shares changed hands at from $31 to $31.75 per share.

J. V. Knights, son of the manager of the Portsmouth Shoe Co., had the ball of his left thumb nearly severed by the knife of a "shanker" on Saturday, in a shoe shop at Lynn.

The schooner A. J. Williams, of Durham, before reported ashore at Rocky point, Long Island, and likely to become a total wreck, was gotten off on the 21st inst., and towed into Mt. Sinai harbor.

"Rather cheeky," is what might be said of the able bodied carpenter of this town, who complained to the owner of a tenement, which he occupied rent free, that the roof leaked, and if it wasn't patched up he would vacate.—*Exeter News-Letter.*

On Thursday of last week a stranger hired a horse and sleigh of J. W. Ricker of Dover, to drive around the city for an hour, and as he had not been heard of up to Friday evening the owner of the team supposed it to have been stolen. The supposed thief is believed to be Thomas Wild of Biddeford, a barber.

The Middle street Baptist society will give a musical entertainment at Mechanics' hall this (Monday) evening, the exercises commencing promptly at 7:30 o'clock. The Middle street quartette, members of the society, and others, will assist. Tickets fifteen cents each, to be procured of J. M. Tebbetts and D. H. Montgomery.

Edwin A. Frazier, a baker of Dover, having repeatedly missed cake, crackers, etc., from his cart, which was usually left in his barn over night, set a man to watch for the thief, and on Thursday night last one George Brooks, alias Geo. Reed, who had before been detected in stealing, was caught by the watchman in the act of filling a valise with cakes from the cart. The watchman knocked the thief down with a club, and pounded him as much as he thought proper, after which he allowed him to go his home.

Greatly improved facilities in the way of additional piping, etc., have been placed in the Jones brewery, and the operations of brewing were in consequence suspended during the past week, while a large gang of workmen from Boston were engaged on the improvments. A new mash tub, of much larger dimensions than either of the three before in the brewery, has been set up. The establishment having been run extra hours during the previous week, Mr. Jones was enabled to fill all orders during the recess. Brewing will be resumed today.

The *Weekly*, referring to the fact that the democrats growl at the action of the Biddeford church which dismissed its pastor, Rev. H. A. Wales, for his course as a member of the fusion legislature, and also growl at the republican minister at York who preached against the great steal, says: "So also, at the Universalist church in this city, the very man who defended Rev. Moses Ballou most stoutly for preaching in favor of the Mexican war, was the first to noisily quit the house when Rev. A. J. Patterson preached and prayed for the support of the war for the Union."

The legislature of South Carolina by an almost unanimous vote has passed a bill incorporating the Columbia & Lexington water power company, with Mr. D. M. Thompson, son of Mr. Joseph H. Thompson of this city, as the first on the list of corporators. The object of the company is to utilize the water power afforded by the Congaree river at Columbia, by the construction of a canal two hundred feet wide, which will furnish 15,000 horse-power, of which the State is to have 1500. The capital stock of the company is put at $1,250,000, and it is proposed to put up a factory of 26,000 spindles, for making the coarser kinds of cotton cloth; all the land necessary has been secured, and the city of Columbia has entered into an agreement with Mr. Thompson guaranteeing him against any damages from right-of-way, backwater, flowage, etc.

The Dover *Democrat* says that at a meeting of the Eliot bridge company, held in Dover city hall last Thursday for the purpose of opening the proposals and awarding the contracts for the filling in and building of the proposed new bridge across the Salmon Falls river, David O. Cate and William T. Wentworth were awarded the contract for filling at both ends of the bridge, and John H. Leavitt was awarded the contract to erect the bridge. There were several bids, but those awarded were the lowest. Mr. Leavitt is the contractor who put in the foundations of Bracewell's block at Dover.

Thomas Morris, of Exeter, recently shot in Stratham a fox whose skin alone is said to have weighed eighteen pounds. It must have been a calf.

CAPT. HENRY LIBBY.

On Saturday forenoon a cable despatch was received in this city by Capt. John G. Moses from the American consul at Singapore, announcing the death of Capt. Henry Libby, master of the barque Furness Abbey, on the 22d inst., but giving no particulars. Capt. Moses cabled back directions to the consul to put a master on board to bring the barque home.

Capt. Libby was the second son of the late Deacon David Libby of this city. He early ran away from home and went to sea, and being found active, ambitious and capable, he rose rapidly in rank. He sailed in the Goodwin, Pontiac and other Portsmouth ships, and was not long in arriving at command. His last ship, previous to his taking charge of the Furness Abbey, was the Triumphant of Boston, in which he made some very successful voyages, on one of which he rescued the crew of a foundering British vessel, and for his courage, skill and humanity was presented with a binocular glass by the British government. Capt. Libby at one time gave up the sea to engage in glass manufacturing at New Bedford, Mass., but the venture was not so successful as was hoped for, and he finally resumed his former avocation. The Furness Abbey was built for him, and is now on her first voyage.

He was twice married. His first wife was a lady of Biddeford, Me.; his second wife is the oldest daughter of Mr. John N. Handy of this city, and with two children survives her husband.

PORTSMOUTH SHOE COMPANY.

A meeting of the stockholders in this company was held in the common council room on Saturday evening, nearly all the subscribers to stock being present. Wm. H. Rollins called the meeting to order; John H. Broughton was chosen chairman, and Wallace Hackett clerk. An agreement signed by all the stockholders was read, to the effect that this should be the first meeting of the company, and a vote was passed fixing the capital stock at $25,000. The following gentlemen were chosen directors:

Frank Jones, Chas. H. Mendum, Henry M. Clark, Ezra H. Winchester, F. E. Potter, Wm. Ward, Wm. H. Hackett, Jeremiah Sanborn and E. S. Fay.

The rough draft of by-laws was discussed at length, and considerably altered and amended.

The corporation then elected James F. Jenness clerk, and after further discussion adjourned to Wednesday evening at the same place.

JOSEPH PARRY.

Mr. Joseph Parry died very suddenly Saturday evening, shortly before eight o'clock, of heart disease. He was at the installation of the officers of De Witt Clinton Commandry of Knights Templar on the previous Monday evening, and was unusually lively on that occasion; and he was on the street on the day of his death.

Mr. Parry was about seventy-two years of age. In early life he worked with Rugg & Cleaves, in the soap chandlery business; and about April, 1842, he commenced operations as a baker with Mr. George W. Plumer, succeeding to the business of the late Thomas Clapham on Fleet street, where he remained until he retired from active life on a competence, several years ago. He was widely known as an honest and very industrious man, and himself drove a bread-cart until 1860.

He was one of the men in this city who voted for Andrew Jackson for president; subsequently he acted with the whigs, and later with the republicans; finally returned to the democratic party, with which he voted up to the end of this life.

Mr. Parry was twice married; the first time to Miss Sophia Clapham, about 1836, and the second time to Miss Annie Haines of Greenland, about fifteen years ago. His second wife, and one daughter, survive him.

He was prominent in several civic organizations. He joined the Odd Fellows on the 8th of July, 1844, and at the time of his death was a member of Piscataqua Lodge and Strawberry Bank Encampment. He was a charter member of St. Andrew's Lodge of Freemasons, and a member of De Witt Clinton Commandry, Knights Templar, of this city; also of the Ineffable Grand Lodge of Perfection, the New Hampshire Chapter of Rose Croix, and of Boston Consistory, 32d degree Ancient and Accepted Scottish Rite. He was always active, both as a Mason and Odd Fellow. He became a member of the Mechanics' Association in 1835, and was one of the trustees in 1850. He was long a member of the Middle street Baptist society, but we believe has not been connected with any religious organization for a number of years past.

Mr. Parry was a very pleasant man in social life, upright and honorable in business affairs, and in every respect a good citizen.

YORK COUNTY ITEMS.

Rev. A. E. Boynton has resigned the pastorate of the Free Baptist church at Kittery point.

The bricks for the additions to the shoe factory at South Berwick are to be obtained at Dover point.

The Kittery brass band had a fair in Trefethen's hall in that town for two evenings last week, and cleared about $100 by it.

Ferguson Haines, the city treasurer of Biddeford, on Friday forwarded $22,000, the city's proportion of the State tax, to the fusion State treasurer, White.

Messrs. Everts & Peck, publishers of the "Illustrated History of York County," announce that the book will be ready for delivery by the latter part of next month.

The dwelling house of Wm. H. Rhodes, of Sandy hill, Eliot, was totally destroyed by fire on the evening of the 23d inst.; the contents were partially saved. Insured.

A society for the prevention of cruelty to animals has been organized in Biddeford, with Thomas Haley as president, Mariana Gaines as secretary, and Otis T. Garey as treasurer.

The yearly supper given by the 1st Christian society of York came off at Glen Cottage, York beach, week before last, under the management of mine host Grant and wife, and was a complete success, the supper being excellent, and the subsequent exercises very interesting and pleasant. The party did not break up until a late hour.

At the annual meeting of the York county agricultural society, at Saco, on the 21st inst., the following officers were elected: President, John Hall of North Berwick; vice presidents, Luther S. Moore of Limerick, Simon M. Blake of Biddeford, Timothy Graney of Alfred; secretary and treasurer, Charles E. Sawyer of Saco; trustees, Thomas Goodall of Sanford, J. F. Brackett of Limington, Ivory Lord of Saco, Zopher R. Folsom of Biddeford, W. J. Copeland of Berwick; librarian, John Hanscom of Saco.

The Biddeford *Journal* insists that the fusion city government, marshal and police of Biddeford did attempt to gerrymander the arms of the local light infantry company on the night of the 16th inst., and makes out a strong case on circumstantial evidence. A correspondent of that paper also anxiously enquires if the three fusion policemen sent from Biddeford to Augusta by the mayor to act with the gang of roughs that Gardelon had assembled in the State house to overawe the citizens and keep out the legally-elected legislature, received day's pay from the city of Biddeford during their term of service at the capital, or were paid by the fusion conspirators.

NEW MINING COMPANY.

The Pine Tree Silver Mining Company was organized in Kittery on the 23d inst., by the choice of the following officers:

E. Austin Paige of Boston, Mass., president:

L. C. Johnston of Sullivan, Me., secretary;

Oliver H. Perry of Chelsea, Mass., treasurer.

The mine is located in the town of Sullivan, Me., but most of corporators of the company reside in Massachusetts, and went to the State of Maine to organize in compliance with the statute of that State.

—The editor of the Atchison *Champion* has a black eye. He explains it by saying, "A fellow came in and settled today."

Chronicle Correspondence.

WASHINGTON, D. C., Jan. 9th.

If Ben. Butler cannot have a seat in Congress himself, he purposes to have something to say about the seats of others. Doctor Geo. B. Loring, the eminent agricultural authority, was elected in Butler's old sixth district, and Butler will not forgive him for it. He is here trying to induce Congress to unseat him, and seat one Boynton, a greenbacker who ran against Mr. Loring. But I am told by a democratic member of the House that Boynton has no case, and Butler will add another to his many political disappointments lately.

I learn this morning that the Maine fusionists sent messages to prominent democrats and greenbackers here asking advice upon various points in their case. Upon one of these points they received a very decided answer from most of those whom they asked. They were advised not to bring their case to Congress, forth at is just what Mr. Blaine wants, in order to give him a chance to open up anew on them. I am told, however, by men who ought to know, that they will ask Congress to interfere.

The movement here in all of the democratic people of Ireland is a great success in a profit way. The aid meetings are large, and the subscriptions are liberal. But it is doubtful whether the bill of Mr. Ellis of Louisiana can be passed, appropriating half a million dollars to the same object. There is a popular, and just, prejudice against paying out of the treasury moneys for such purposes. And it is also pretty clearly against the constitution.

The agitation still continues in republican circles over the primary elections and the early conventions to be held in Pennsylvania and New York. A comparison of news yesterday showed that republicans generally thought Blaine would have a majority of the delegates from the former, and Grant a majority from the latter. The contest is pretty even.

The late foreign appointments of the administration have given universal satisfaction. The transfer of Mr. Lowell from Spain to Great Britain is especially pleasing. Mr. Lowell, from his literary renown and his general abilities, is an honor to any position.

I find an increasing desire and belief that Congress may get away very early. Many members set the final day as early as April 20th, while barely anybody now anticipates a session beyond the 10th of May. The appropriation bills are all in a forward state, and there is no reason why they should not all be reported within two or three weeks. Nothing can cause a long session but some unforeseen political discussion, which all seem disposed not to have. KNOX.

Kidney Complaints

of all descriptions are relieved at once, and speedily cured by Kidney-Wort. It seems intended by nature for the cure of all diseases of the kidneys caused by weakness and debility. Its great tonic powers are especially directed to the removal of this class of diseases. Try it to-day.

At Independence, Mo., George Tate and George Crisp attempted to force their way into a party at S. Hankenburg's house; the latter objected with a revolver, and killed one and mortally wounded the other of the assailants.

Guard Against Disease.

If you find yourself getting bilious, head heavy, mouth foul, eyes yellow, kidneys disordered, symptoms of piles tormenting you, take at once a few doses of Kidney-Wort. It is nature's great assistant. Use it as an advance guard—don't wait to get down sick.

Pure Port Wine.

We take pleasure in directing the attention of the public to Speer's celebrated Port Grape Wine, a pure and unadulterated article, upon which every one may most implicitly rely. This wine is made at Speer's Vineyards, Passaic, New Jersey. It has a rich flavor, mellow juiciness, and brilliant color; and is highly medical in all its properties for invalids, especially females and aged persons and consumptives.

A despatch from Aspinwall says the British Consul there states that English intervention in the war between Chili and Peru will begin in eight days. Nothing is known of such intervention at the State department in Washington, and the Chilian minister there totally discredits the story.

ONE peculiar characteristic of Fellows Compound Syrup of Hypophosphites is its power of discompassing the food in the stomach, rendering digestion and assimilation more perfect. This partly accounts for the rapidity with which patients take on flesh while using the article.

Cuticura

From the Hon. WM. TAYLOR, State Senator of Massachusetts.

MESSRS. WEEKS & POTTER: *Gentlemen*,—To say that I am grateful is only a poor expression of my feelings, but it is the best word I can use, for I feel it in every sense of the word. I have been a great sufferer with skin diseases for the last twelve (12) years. My head and face being covered with sores, I could not rest with the burning heat and itching of the parts affected, and was confined to my home for three weeks at a time. My disease has been called Eczema, of a most aggravated type, by many physicians, but I doubt if ever fully understood by any of them. It was more like a combination of several skin humors. I have spent much money seeking a cure, and in 1867 I went to Europe, and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr.—— (whose reputation for the cure of those diseases was of the highest order) could cure me. I waited on the doctor; he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians, and among them Dr.—— of East Boston, and Dr.——, of city proper, but all to no purpose. They did me no good; their remedies were so ineffectual that at no time did I feel that a cure would result from them.

I have expended five hundred dollars in vain, and some CUTICURA SOAP, and commenced to use it according to the directions. There was so much humor lodged within the skin, that as soon as I commenced the use of CUTICURA it came to the surface and for one month, I was disfigured, but I persevered on me that I went with him to a drug store and bought two large bottles of CUTICURA

13 PLEASANT ST. - - EXCHANGE BUILDINGS.

Is a compound of the virtues of sarsaparilla, stillingia, mandrake, yellow dock, with the iodide of potash and iron, all powerful blood-making, blood-cleansing, and life-sustaining elements. It is the purest, safest, and in every way the most effectual alterative medicine known or available to the public. The sciences of medicine and chemistry have never produced so valuable a remedy, nor one so potent to cure all diseases resulting from impure blood. It cures Scrofula, and all scrofulous diseases, Erysipelas, Rose, or St. Anthony's Fire, Pimples and Face-grubs, Pustules, Blotches, Boils, Tumors, Tetter, Humors, Salt Rheum, Scald-head, Ringworm, Ulcers, Sores, Rheumatism, Mercurial Disease, Neuralgia, Female Weaknesses and Irregularities, Jaundice, Affections of the Liver, Dyspepsia, Emaciation, and General Debility.

By its searching and cleansing qualities it purges out the foul corruptions which contaminate the blood, and cause derangement and decay. It stimulates and enlivens the vital functions. It promotes energy and strength. It restores and preserves health. It imparts new life and vigor throughout the whole system. No sufferer from any disease which arises from impurity of the blood need despair, who will give AYER'S SARSAPARILLA a fair trial. Remember, the earlier the trial, the speedier the cure.

Its recipe has been furnished to physicians everywhere; and they, recognizing its superior qualities, administer it in their practice.

For nearly forty years AYER'S SARSAPARILLA has been widely used, and it now possesses the confidence of millions of people who have experienced benefits from its marvellous curative virtues.

The Producer and Invigorator of Nerve and Muscle.

The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or enterrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name: no other preparation is a substitute for this under any circumstances.

MPORTANT LETTE

From a Distinguished Physician.

NO single disease has entailed more suffering or hastened the breaking up of the constitution than starch. The sense of smell, of taste, of sight, of hearing, the human voice, the mind, one or more and sometimes all yield to its destructive influence. The poison distributes throughout the system stacks of every nature, and breaks up the most robust of constitutions unless arrested. Nervous debility, dyspepsia, impotently assailed by quacks and charlatans, those suffering from it have little hope to be relieved if it this side of the grave. It is time, then, that the glorious treatment of this terrible disease by remedies within the reach of all passed i. to hands at once correct and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation of RADICAL CURE has won my hearty approval. I believe it likely to succeed when all the nasal remedies fail, because it strikes at the root of the disease, viz. the secretion, which, while it feeds the ulcerated membrane by direct application to the nasal passages. I think it based on certain fixed rules, and unless vital forces are too far exhausted, must, in the great majority of cases, effect a cure.

GEO. BEARD, M. D.

NORSCOTT BLOCK, So. FRAMINGHAM, Oct. 1, 1874.

SANFORD'S RADICAL CURE

MAY safely claim to be one of the few popular remedies receiving the approval of medical gentlemen, who, in private, not only freely recommend it but write for it when their patients call for the nasal injector usually prescribed by physicians.

"You are aware," said a distinguished city physician that my obligations to the Mass. Medical Society prevent my publicly recommending or prescribe ti medical cures; but since I received so much relief from it in one of its myself, after a thorough trial of the usual remedies, I have privately advised others, and gentlemen have sent to your store no less than one hundred. *y patients for it.*"

UNIVERSAL SATISFACTION.

GENTLEMEN:—We have sold SANFORD'S RADICAL CURE for nearly one year, and can say candidly that we never sold a similar preparation that gave such universal satisfaction. We have been in the first-class drug business for years.

We are not in the habit of recommending patent medicines, but your preparation meets the wants of thousands, and we think those afflicted should be informed of its great merits as the first remedy offered. We have been in the business enough for to test twelve years constantly, and sold everything of the kind that deserves all the rest. If you see proper, you can use this letter in any way you think best.

Very truly yours, S. D. BALDWIN & CO.

COLLINS' VOLTAIC PLASTER

A Electro-Galvanic Battery combined with a highly Medicated Strengthening Plaster, making the best Plaster for pains and aches in the World of Medicine.

ELECTRICITY

is a grand curative and restorative agent is admitted by any chemist or physician, and is fast displacing all other. Unless the vital spark has fled the body it is operative by means of our Galvanic Battery, which is recommended by all physicians and surgeons, and has received the highest medical praise. Combined with the curative, when no other human agency could have any effect. This is the leading curative element in the plaster.

BALSAM AND PINE.

The healing properties of our own fragrant balsam and pine and the gums of the East are to very well known to need any comment. Their grateful, healing, soothing and strengthening properties are known to millions. When combined in accordance with late and important discoveries in chemistry, their healing and strengthening properties are increased tenfold.

A remedy for Plaster is the best in use without the aid of electricity.

TWO IN ONE.

Thus combined we have two grand medical agents in one, each of which performs its function independent of the other, one being a liniment, lotion, and a plaster over before compounded in the history of medicine. Try one. PRICE, 25 CENTS.

Sold by all Wholesale and Retail Druggists throughout the United States and Canada, and by WEEKS & POTTER, Proprietors, Boston, Mass.

New Publications.

An almost unprecedented prosperity in the one year's career of *Andrews' American Queen* as a society journal induced its more frequent publication; in the first place from a monthly to a semi-monthly, and now from a semi-monthly to a weekly. By its thorough and comprehensive reports of the social news of the continent, it has established itself in a recognized and important place. In its weekly form a still larger degree of care will be shown in collecting important society facts, and the more frequent issue will give a freshness and gloss otherwise unattainable. The literary features of the weekly will be made the best attainable. All topics of current public interest aside from partisanship in religion and politics will be treated on the editorial page, and attention will be given to the most significant matters in art, literature, drama, music and education. Under the heads of "What the World is Doing" and "What the World is Saying" the more important features of the world's news and thoughts will be presented. The miscellany will consist of bright short articles, original, translated and selected; and all the conditions entering into a weekly aiming to be at once bright, amusing and instructive, carefully observed. A feature of the weekly *Queen* will be its publication of short novelettes by the best authors. The new weekly will be fresh and sparkling, the most attractive society journal published, and worthy of a hearty welcome and widespread patronage.

Why the Law is Uncertain.

Language is an imperfect instrument for the expression of ideas. Not a few of its forms are ambiguous—that is, they speak in two ways. Reader and hearers are left in cold issue's perplexity. The voice is that of Jacob, the hand is that of Esau.

Many of the terms of language are equivocal. They have two meanings, so that the reader is in doubt as to the mind or intention of the writer.

Those who draft statutes know how difficult it is to frame a law which shall be free from ambiguous expressions or equivocal terms. Judge Story once told a personal incident, which illustrates this difficulty.

He was employed by Congress to draft an act. So important was it that he spent six months in trying to perfect its phraseology. His purpose was to make the statute so clear that the most astute lawyer should not be able to cast the shadow of a doubt upon its meaning.

The draft, proving satisfactory to the lawyers in Congress, became a law. In less than a year, a suit, involving the interpretation of this very law, came before the court over which Judge Story presided. Having heard the arguments of the able attorneys, the judge confessed that he was unable to decide upon the meaning of a statute which he himself had framed.

He, of course, knew what he had meant to put into the law. But the criticisms of the two lawyers showed him that he had used such ambiguous expressions that it was doubtful if he had said what he meant to have said.

Father is Getting Well.

My daughters say, "how much better father is since he used Hop Bitters." He is getting well after his long suffering from a disease declared incurable, and we are so glad that he used your Bitters. —A lady of Rochester, N. Y.—*Utica Herald.*

Kidney Complaints

of all descriptions are relieved at once, and speedily cured by Kidney-Wort. It seems intended by nature for the cure of all diseases of the kidneys caused by weakness and debility. Its great tonic powers are especially directed to the removal of this class of diseases. Try it to-day.

Guard Against Disease.

If you find yourself getting bilious, head heavy, mouth foul, eyes yellow, kidneys disordered, symptoms of piles tormenting you, take at once a few doses of Kidney-Wort. It is nature's great assistant. Use it as an advance guard—don't wait to get down sick.

Pure Port Wine.

We take pleasure in directing the attention of the public to Speer's celebrated Port Grape Wine, a pure and unadulterated article, upon which every one may most implicitly rely. This wine is made at Speer's Vineyards, Passaic, New Jersey. It has a rich flavor, mellow juiciness, and brilliant color; and is highly medical in all its properties for invalids, especially females and aged persons and consumptives.

FROM Rev. Dr. Quimby.

AUGUSTA, ME., Jan. 5th, 1878.

"Adamson's botanic cough balsam has been used in our family for more than three years, and we can recommend it as a superior remedy for coughs and colds."

ONE peculiar characteristic of Fellows' Compound Syrup of Hypophosphites is its power of discomposing the food in the stomach, rendering digestion and assimilation more perfect. This partly accounts for the rapidity with which patients take on flesh while using the article.

News and Notes.

Jason P. Scribner, who murdered two of his children and attempted to murder the rest of the family with a spade, in 1878, was on Monday sentenced to State prison for life by the superior court of Maine, at Augusta.

A French lad named Daigle fell into the canal, and was swept under the ice and drowned, at Lewiston, Me., Saturday. The body has not been recovered.

The diphtheria has broken out in Orland, Me., and one whole family consisting of mother and six children are prostrate with it. It assumes an epidemic form, and is very dangerous.

Operations are being quite energetically pushed in the "Bonanza, Jr." silver mine in Corinna, Me. On the fourth day of December operations were commenced at the top of the ground under direction of the present superintendent, and since that time the shaft has been sunk about a foot per day on an average.

The town authorities of Montpelier, Vt., have decided to strictly enforce the Sunday law against saloons. Orders for that effect were issued Saturday night.

The post-office at Lee, Mass., was broken into Thursday night, and the safe blown open and robbed of its contents—about $300 in money, three watches, notes and valuable papers.

The Boston police have traced Abbott, the supposed murderer of Mrs. Crue at Groton, to the schooner Emma Crosby, on which vessel they are confident that he shipped on Friday last, for a trip to St. John, N. B.; the vessel named sailed from Boston on Friday afternoon, and the St. John authorities have been notified to look out for Abbott on her arrival. Evidence against Abbott is rapidly accumulating in and around Groton and Ayer, repeated identifications of his photograph having occurred. Friends of the victim say that by Mrs. Crue's own statements she was at one time engaged to be married to Abbott, who jilted her for another girl. It is said that Abbott's name is John Kendall instead of Stearns Kendall as has been reported.

Benjamin Archibald, forty-five years old, an engineer of the steamer Iowa, of the Warren line, fell overboard in Boston on Sunday morning, and was drowned. While the harbor police were grappling for Mr. Archibald's body, they found the body of a sailor named Lloyd, of the steamer Victoria, also of the Warren line. Both men left families in Liverpool. An inquest will be held over the body of Lloyd, as it is not known whether death was the result of accident or foul play.

A party of boys—number not given—broke through the ice on a pond in Providence, R. I., Monday, and were all drowned. Two bodies were recovered.

The house of a shoemaker named Charles Brown, in Windsor, Conn., was burned early Saturday morning, and Mr. Brown, seventy-five years old, was burned to death. It is supposed he set fire to his house while intoxicated.

Rev. Mr. Hayden, recently tried in Connecticut for the murder of Mary Stannard, was released on bail, Monday.

Those people in Hancock county, Illinois, who are opposed to negro immigration, have threatened those employing negroes that their property will be burned. One or two fires have already occurred.

Danforth's Bank, at Danforth, Ill., was robbed by four masked burglars, Wednesday evening of last week. They gagged and bound a Mr. Webber, who was at work in an adjoining room as a cabinet worker, blew open the safe, stole $4,300, and escaped.

Joseph Pressemood and a man named Iseley, while drunk, quarrelled about a girl at Sweetwater, Monroe county, Tenn., and Pressemood, becoming enraged, drew his revolver and shot Iseley through the heart, killing him instantly. The murderer left town and has not since been seen.

The consolidation of the Union Pacific, Kansas Pacific and Denver Pacific railroads was accomplished Saturday, and the consolidated company will be known as the Union Pacific railway company.

Miss Gemima Williams shot her cousin, F. Williams, dead at Cave Spring, Mo., because he pulled a chair from under her.

The body of Mrs. Latimer was found on the beach near Milwaukee on Friday. It is believed she was murdered. She had been missing for a month, and belonged in Hannibal, N. Y.

A man named Vandyke has begun suit against Steinway & Sons in New York for $4,000 alleged to be due him for services during the centennial exhibition, in procuring them prizes for pianos, and in procuring a man named Hale to manufacture pianos for Steinway and put the names of Chickering and of Weber upon them.

Horace Means, a young lawyer of Windham, Iowa, was engaged to be married to a young lady of that town. Extensive preparations were made, the guests assembled, the minister was in waiting, and the bride on the floor, when a messenger listened in and whispered in her ear. She turned pale and was led from the room. It afterward transpired that the expectant bridegroom was a forger, and had just been detected. He was not arrested, but immediately hired a horse, drove off, and has not since been heard from.

Joseph T. Crowell, a former president of the New York State senate and speaker of the assembly, and for many years city treasurer of Rahway, N. J., has been indicted for embezzling over $48,000 of the city's money.

A new magazine, entitled *Canadian Emancipation*, published at Montreal, says: "In unfolding the flag of Canadian emancipation and commercial union with the United States, we answer an earnest call of patriots, citizens and business men all over the land."

The board of trade at London, England, has awarded a piece of plate to the captain of the American schooner Fred A. Carle, for saving a shipwrecked crew.

In the South American war Chili is so far master of the situation both by sea and land. Her soldiers have fought superior forces and come out victorious. The Chilian navy is now occupied in blockading the whole Peruvian coast. The outrages committed by the Peruvians and Bolivians have so exasperated the Chilian officers and men that it is feared they will retaliate, and should a march on Lima terminate successfully to the Chilian arms, the city would probably be doomed to sack and ruin.

On Thursday night, at Los Vegas, New Mexico, James West, William Randall and other roughs rode into town to kill Marshal Carson. They found him at a saloon and fired at him, hitting him five times. He emptied his revolver at them, firing until he died, killing both West and Randall. Several persons were wounded by stray shots, some of whom will probably die. The rest of the gang fled.

—That was a triumphal appeal of the lover of antiquity, who, in arguing the superiority of old architecture over the new, said, "Where will you find any modern building that has lasted so long as the ancient?"

—The senior Greek professor in his lecture the other day, speaking of the marriage of Venus and Vulcan, remarked "that the handsomest women generally marry the homeliest men," adding grimly, "there's encouragement for a good many of you."—*Amherst Student.*

Brown's Household Panacea

Is the most effective Pain Destroyer in the world. With most surely quicken the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic or acute, than any other pain alleviator, and it is warranted double the strength of any similar preparation.

It cures pain in the side, back or bowels, sore throat, rheumatism, toothache and all aches.

The great reliever of pain, "Brown's Household Panacea," should be in every family. A teaspoonful of the Panacea in a tumbler of hot water (sweetened, if preferred), taken at bedtime, will break up a cold. 25 cents a bottle.

Much Sickness,

Undoubtedly with children attributed to other causes, is occasioned by worms. Brown's Vermifuge Comfits, or Worm Lozenges, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely sure in eradicating worms, so hurtful to children. Twenty five cents a box. 1,(h&f

The wife of Rev. William H. Learell of Manchester is a daughter of Chief Justice George, who has just been elected United States senator from Mississippi to succeed Senator Bruce.

A young French Canadian of Manchester, named Albert St. Pete, was arrested, Saturday night, for stealing from a number of local merchants a quantity of ready-made clothing, with which he paid his board and other bills. About $100 worth of overcoats and pantaloons were recovered, which St. Pete acknowledged to have stolen.

Mrs. M. M. Greene of Amherst, Mass., has forwarded to Dartmouth college a fine portrait of her grandfather, Rev. Laban Ainsworth, who graduated from the college in 1778. His class was the eighth from the founding of the institution.

AROUND HOME.

Rev. W. A. McGinley will give the third lecture in the lyceum course at Newcastle this (Tuesday) evening; subject, "Moral culture."

There will be from three to four hundred thousand feet of lumber used in making the improvements and additions to the Wentworth house at Newcastle.

C. L. Brown and others are loading the schooner Margie, at Lyman's wharf, with nineteen hundred barrels of apples for the Baltimore market. C. Sullivan & Co. will also send by same vessel about thirty barrels of mackerel.

Mr. Samuel Dixon, of Eliot, is loading the schooner Loella, Capt. Amee, at Sise's wharf, with five hundred and fifty barrels of apples for Boston, to be reshipped from there to Liverpool. This is the second lot sent by Mr. Dixon to England this winter.

The following-named fishing schooners arrived on Monday: Una, with 8000 pounds of fish; Venus, 8000 lbs.; Comet, 8000 lbs.; Anna H. Mason, 5000 lbs.; Iris, 4000 lbs.; Mary S. Hontvet, 17,000 lbs.; Christie Campbell, 17,000 lbs.; Rover's Bride, 18,000 lbs.

On Saturday evening a meeting was held of gentlemen interested in the formation in this city of a tent of the Knights of the Maccabees, and preliminary steps for the procuring of a charter were taken. The object of the order is to furnish a life insurance of $1000 to each member at the lowest possible rate.

The carpenters at work on the restaurant at the Eastern depot occupy a house on wheels, used solely by themselves. It is called the construction department car, and contains a kitchen, with dining room and berths for sleeping. It is placed on a side track, and makes a comfortable and convenient home for the workmen.

While the steamer James Sampson was proceeding from this city to Kittery, Monday, a pin in the rudder gave away and rendered the boat unmanageable until lines were attached to the eye-bolts of the rudder, which was quickly accomplished, when she effected a good landing, steering by the lines. Nobody hurt, nobody scared; no danger, and next to no damage.

The Eastern railroad "boom" continued on Monday. The first transaction at the brokers' board was the transfer of five shares at $34 per share; then 100 shares changed hands at $35, 100 at $35.87 1-2, 100 at $36.50, and 159 at $37 per share. At the first call in the afternoon 392 shares went at $37, five shares at $37.50, twenty-five at $36.75, and 175 at $36.-50, per share.

It has been suggested by those interested that the public schools in this city be furnished with libraries. The Woodbury school, at Gravelly ridge, has taken the initiative, and on Thursday evening, the 29th inst., will give an entertainment at the schoolhouse to raise a fund for this object. The programme will consist of readings by Miss Laura E. Giddings, and vocal and instrumental music by home talent. Price of admission, twenty-five cents.

On the fourteenth of December, 1847, a dispensation establishing St. Andrew's Lodge, No. 56, A. F. & A. M., was granted to the following Master Masons, who had been members of St. John's Lodge in this city: Thomas L. Pickering, John Locke, Benjamin Weeks, John S. Locke, George W. Towle, Aaron L. Rand, Hanson M. Hart, Ebenezer Runnels, John E. H. Barnes, Joseph M. Edmonds and Joseph Parry. The new lodge was consecrated June 24th, 1848, and George W. Towle was the first master. Mr. Parry was a member of the lodge up to the time of his death, and always evinced a deep regard for its welfare.

On Thursday evening next the "Pat Rooney Combination" will give an entertainment at Music hall. Most of the performers in this company will make their first appearance here; but two of them, Jeppe and Fanny Delano, have performed on Music hall stage, and are undoubtedly at the head of the list in their line as "society-flirtation and musical-sketch artists." A Pittsburg, Pa., paper says "the Rooney combination is one of the best shows of the vaudeville class that has ever visited this city. Rooney himself is immense, and his appearance is always a signal for applause. The specialty artists are all good, and have apparently been selected with great care."

Daniel C. Wiggin has leased the well known Dover Point house of its proprietor, Park Spinney of Boston.

Mumps is the prevailing complaint among the school children in this city at the present time, and measles among those at Newcastle.

There was fine skating on the rink and the south pond, Saturday night, and large parties enjoyed the exhilarating and graceful sport at both places.

Mr. Henry H. Ham, Jr., had his iceboat on the north millpond, Saturday, and the brisk breeze made her skim along over the ice at a tremendous rate of speed.

Rev. Hilary Bygrave has accepted the call to become the pastor of the Unitarian society in Dover, and will enter upon his duties April 1st. Mr. Bygrave will supply the desk until that time.

E. J. Stackpole, who shot H. F. Snow at Dover on the 16th inst., has been discharged by the police court, the evidence showing that Stackpole was half scared to death at the time of the shooting.

A twenty-seven hours foot-race, under the management of Charles A. Harriman, will take place in Dover city hall on the 6th and 7th of February, with the following prizes: $110 to the 1st man, $60 to 2d, $35 to 3d, and $20 to 4th.

National block is receiving new ornamentations daily. On Saturday a handsome bronze and gold lattice was put on the building, at the front. The dentils and other ornamental work over the main entrance have received a heavy coating of gold leaf, giving the Congress street front a rich and elegant appearance.

The Newmarket Guards will give an entertainment and ball on Friday evening, Feb. 20th. This organization has for a number of years had an annual reception and ball on Washington's birthday, or as near it as is convenient, all of which have been well conducted and successful; and a number of military men from different parts of the State are expected to attend this one. Chandler's band, of Portland, will furnish music.

The Dover *Democrat* of the 24th inst. says: "It is wonderful how money at interest will accumulate. We have a case to-day that demonstrates it perfectly. In the year 1838 a lady, who now resides in Portsmouth, deposited the sum of $160 in the Strafford savings' bank in this city. She never called for her deposit, or any interest upon it, until to-day. She had never made any calculation as to how much was her due on that deposit, but she wanted a little money to use, and so called this morning with her bank book to make a draft on the bank. She never was so surprised in her life as when the treasurer told her that the total amount her due was $1,818, a clear profit of $1,658. She took about $1,000 of it, and left the balance to draw interest and accumulate forty years longer, when, perhaps, she will turn up again, or if not, her heirs or assigns may do so, and find a bigger dividend still."

THE LITTLE DUKE.

To-morrow evening, at Music hall, Alice Oates' English Comic Opera Company will present "The Little Duke," for the first time in this city. The opera, as a musical production, and the company, are highly spoken of; one paper says: "Musically the Little Duke is certainly one of M. Lecocq's best efforts. Bright and sparkling, it cannot fail to attract the most critical ear. Mrs. Oates in the title role was her own graceful, sparkling, charming self, which is the highest modicum of praise we can offer. There are some really charming concerted numbers in the opera." Another says: "The opera teems with fun and frolic, the tableaux at the close of the first and second acts are superb, in each act there is a complete change of costumes by the entire company, and taken altogether the piece is one of the best of the kind we have ever seen on the stage. The music is sparkling and delicious, the dialogue amusing, and there is considerable scope for excellent acting." The Baltimore *Gazette* thus alludes to it: "The music is in Lecocq's best vein—light and melodious, but with a strain of sentiment throughout, which heightens the effect of the more comic passages. Some of the concerted pieces are highly effective. The plot, though slight, affords abundant opportunity for drollery of the most irresistible kind, and in the hands of Mrs. Oates and her talented company the Little Duke becomes one of the most amusing of the operas in their repertoire."

BOW MISSION SERVICES.

A very large audience attended the bethel service at Bow mission hall, Sunday afternoon; many had to go away, being unable to gain admittance. Mrs. Samuel Hooper, president of the Woman's Temperance League, and several other ladies, occupied seats on the platform, and the entire service was conducted by them, with the exception of a few words from Rev. C. B. Pitblado. The several pieces rendered by the New Hampshire Lodge quartette were received with pleasure by the audience, especially the piece entitled "The golden to-morrow."

The reform club held a meeting at the Mission hall Sunday evening. Mr. Clark, from Kittery, who was expected to speak, was not present, the announcement given to that effect being premature. The time was occupied by the members present in talking about the past history of the club, and the cause of the apparent coldness on the part of temperance people generally. One brother thought the cause was to be found in the fact that "the club had neglected the work of persuading the brothers to sign the pledge and stand together, but instead had troubled themselves with questions of law, "thus causing dissension. Various opinions were given by the different speakers as to what is meant by a "temperance snag," one thought it was the grand jury; another, money; others, public sentiment, the lawyers, the rumsellers, etc. The meeting was highly enjoyed by the large audience. Announcement was made of the holding of a county convention at Newmarket on Thursday, Jan. 29th, in the interests of temperance in this county.

COUNTY TEMPERANCE CONVENTION.

A committee of the Washington total abstinence society of this city, appointed to call a county temperance convention, have issued the following:

Friends of temperance in Rockingham county, of all creeds and professions—*all* who honestly believe intemperance to be an evil, and the dram-shop a source of poverty, wretchedness and crime—are invited to meet at the town hall, Newmarket, Thursday, Jan. 29th, at 10:30 o'clock A. M., to take into consideration such measures as may be deemed efficient to eradicate these great evils from our midst; and also to form a county temperance association. All gentlemen and ladies interested are invited to attend; all newspapers friendly to the cause, to give this notice gratuitous insertion; and all clergymen interested, to give notices of the meeting.

The call is signed by F. W. Miller, A. F. Craig, B. F. Thorndike, Rev. E. M. Grant and Rev. John A. Goss.

RYE LETTER.

RYE, Jan. 26th.

The Congregational society of Rye, Rev. Willis A. Hadley, pastor, has paid its organ debt of $200.—*States and Union, 23d inst.*

Correct—except that Rev. Josiah W. Kingsbury is pastor of that society, and the organ debt was $250.

The late Mr. Ira Rand was a thrifty farmer, highly esteemed by his fellow townsmen, who deeply regret his demise; a quiet, unassuming man, he was one who minded his own business, never seeking notoriety but responding cheerfully and promptly to all duties that he as a citizen and a valued member of the Congregational society was called upon to assume.

Mr. Samuel Rand, who died in North Hampton on the 24th inst., was a native of Rye, and a cousin of the late Ira Rand. He removed to North Hampton some twelve or fourteen years ago.

On Friday evening, 23d inst., the parishioners of Rev. J. W. Kingsbury, the Congregational minister, to the number of one hundred and upward, made a call upon him and his family at the parsonage, and left behind them when they retired, as a token of their good will and their appreciation of his efforts as a pastor, various articles to the value of nearly one hundred dollars, among which were a roll of greenbacks and a barrel of flour. The occasion was one of mutual enjoyment and fraternal feeling between Mr. Kingsbury, his family, and the members of his society present, and will tend in a great measure to strengthen and increase the prosperity of the church and society, which at the present is out of debt and whose future looks bright and encouraging.

Boys and a bob-sled, on Meeting-house hill, came near causing a serious accident one evening last week, but fortunately a broken shaft, a frightened horse, and two ladies rather unceremoniously spilled out of a sleigh without being seriously injured, was all the damage done. But the boys ought to be on the lookout for teams, when coasting, and govern themselves accordingly, if they wish to avoid accidents.

Forty-seven sail, probably fishermen, were counted on Sunday from Foss' beach; they were between the Shoals and Cape Ann, or thereabouts.

There's lots of sea weed piled up above high water mark, at Foss' beach.

Joseph W. Berry, 2d, is building himself a commodious barn and work shop. Wm. J. Walker is also preparing to put up a barn.

The first bride of the year in this town appeared out at church on the 25th inst. Of course everybody saw her with both eyes. NEU.

Cuticura

From the Hon. WM. TAYLOR, State Senator of Massachusetts.

MESSRS. WEEKS & POTTER: *Gentlemen,*—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel in every sense of the word. I have been a great sufferer with skin diseases for the last twelve (12) years. My head and face being covered with sores, I could not rest with the burning heat and itching of the parts affected, and was confined to my house for three weeks at a time. My disease has been called Eczema, of a most aggravated type, by many physicians, but I doubt if ever fully understood by any of them. It was more like a combination of several skin humors. I have spent much money seeking a cure, and in 1867 I went to Europe, and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr.——, (whose reputation for the cure of those diseases was of the highest order) could cure me. I walked on the doctor; he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians, and among them Dr.——, of East Boston, and Dr.——, of city proper, but all to no purpose. They did me no good; their remedies were so ineffectual that at no time did I feel that a cure would result from them.

I have swallowed five hundred arsenic pills, 5.20 grain, and taken bottle after bottle of internal remedies, besides all the external applications I have used but the effect was the same. I became satisfied that I could not be cured, but might be kept from getting worse.

Now, about three months ago, Mr. Meehan, a gentleman well known to Boston people, called my attention to your CUTICURA, and promised wonderful results if I would only make a trial. He told me of his own experience with it, and so persuaded me that I went with him to a drug store and bought two large boxes of CUTICURA, and some CUTICURA SOAP, and commenced to use it according to the directions. There was so much humor lodged within the skin, that as soon as I commenced the use of CUTICURA it came to the surface and festered, until vast quantities had come out and greatly intensified my sufferings for about two weeks. But I did not mind this, as I felt that I was going to get rid of the humor when I saw it coming to the surface in such large quantities. After the first two or three weeks' use of this remedy, I was greatly encouraged by a gradual lessening of the inflammation of a number of painful sores. I carefully, faithfully, and cheerfully followed the directions to the letter, feeling each week nearer a cure, until at present, after three months use of CUTICURA, and twelve years of as constant suffering as was ever endured, I can say that I am cured, and proclaim my case the most remarkable on record. I have been so elated with my success that I have stopped on the cars to the drivers who were afflicted, and told them to get the CUTICURA, and it would cure them. This is why I am so grateful to you, for I tell you it is to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I may add that I took no internal medicine but the CUTICURA RESOLVENT. WILLIAM TAYLOR,

Boston, Aug. 22, 1878.

THE CUTICURA REMEDIES

CUTICURA RESOLVENT is the most powerful Blood Purifier and Liver Stimulant ever compounded.

CUTICURA is the great external remedy for all Humors of the Scalp and Skin, Ulcers, and Old Sores.

CUTICURA SOAP is an elegant toilet and medicinal assistant to CUTICURA for all external affections.

Prepared by Weeks & Potter, Chemists and Druggists, 360 Washington Street, Boston, Mass., and for sale by all druggists and dealers. Price of CUTICURA, small boxes, 50 cents; large boxes, containing two and one half times the quantity of small, $1. Resolvent, $1 per bottle. CUTICURA SOAP, 25 cents per cake; by mail, 30 cents; three cakes, 75 cents.

From the Oporto Grape, raised by Mr. Speer at his vineyards, is a rich, heavy-bodied Port, prescribed by Physicians in place of California and imported Port; used by families for weddings, and as an evening wine; and by ladies and weakly persons for strengthening; also the principal wine for communion purposes. $1.00 PER BOTTLE.

Speer's P. J. Sherry

Is a Wine of Superior Character, and partakes of the golden qualities of the grape from which it is made. For purity, Richness, Flavor and Medicinal Properties, it will be found unexcelled. $1.00 PER BOTTLE.

☞ None genuine unless the signature of ALFRED SPEER, Passaic, N. J., is over the cork of each bottle.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; or SELF-PRESERVATION.

Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, rather one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to JOS. S. FISHER, president; W. H. F. INGRAHAM, vice-president; W. FAINE, M. D.; C. S. GAUNTT, M. D.; H. J. DOUCET, M. D.; E. H. KLINE, M. D.; J. R. HOGEMB, M. D.; N. R. LYNCH, M. D., and M. R. O'CONNELL, M. D., faculty of the Philadelphia University of Medicine and Surgery; also the faculty of the American University of Philadelphia; also Hon. P. A. ISSELL, M.D., president of the National Medical Association.

Address Dr. W. H. PARKER, No. 4 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience. dm&th&tuow80

POROUS PLASTER CAPCINE PLASTER BENSONS CAPCINE

That the public may be protected against imitations and fraud we specially caution all purchasers of BENSON'S CAPCINE POROUS PLASTERS to see that the word CAPCINE on each plaster is spelled correctly. Do not allow some other plaster to be palmed off under similar sounding names, with the assurance that it is the same thing or as good.

Bear in mind that the only object such vendors can have is the fact that they can buy imitations at half the price of genuine, and make additional profit. tif

New York Weekly Herald.

ONE DOLLAR A YEAR.

The circulation of this popular newspaper has more than trebled during the past year. It contains all the leading news contained in the Daily Herald, and is arranged in handy departments. The

Foreign News

embraces special dispatches from all quarters of the globe. Under the head of

American News

are given the Telegraphic Despatches of the week from all parts of the Union. This feature alone makes

The Weekly Herald

the most valuable chronicle in the world, as it is the cheapest. Every week is given a faithful report of

Political News

embracing complete and comprehensive despatches from Washington, including full reports of the speeches of eminent politicians on the questions of the hour.

The Farm Department

of the Weekly Herald gives the latest as well as the most practical suggestions and discoveries relating to the duties of the farmer, hints for raising Cattle, Poultry, Grains, Trees, Vegetables, &c., &c., with suggestions for keeping buildings and forming utensils in repair. This is supplemented by a well-edited department, wisely conducted, under the head of

The Home,

giving recipes for practical dishes, hints for making clothing and for keeping up with the latest fashions at the lowest price. Every item of cooking or economy suggested in this department is practically tested by experts before publication. Letters from our Paris and London correspondents on the very latest fashions. The Home Department of the Weekly Herald will save the housewife more than one hundred times the price of the paper. The interests of

Skilled Labor

are looked after, and everything relating to mechanics and labor-saving is carefully recorded. There is a page devoted to all the latest phases of the business markets, Crops, Merchandise, &c., &c. A valuable feature is found in the specially-reported prices and conditions of

The Produce Market.

Sporting News at home and abroad, together with a Story every week, a Sermon by some eminent divine, Literary, Musical, Dramatic, Personal and Sea News. There is no paper in the world which contains so much news matter every week as the Weekly Herald, which is cent, postage free, for One Dollar. You can subscribe at any time.

THE GREATEST LIVING AUTHORS, such as Prof. Max Müller, Rt. Hon. W. E. Gladstone, Jas. A. Froude, Prof. Huxley, R. A. Proctor, Edw. A. Freeman, Prof. Tyndall, Dr. W. B. Carpenter, Frances Power Cobbe, The Duke of Argyll, Wm. Black, Miss Thackeray, Mrs. Mulock-Craik, Geo. MacDonald, Mrs. Hiphan, Jean Ingelow, Mrs. Alexander, Thos. Hardy, Matthew Arnold, Hugh Kingsley, W. W. Story, Turgenieff, Carlyle, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh* year, admittedly unrivalled and continuously successful. During the year it will for ish to its readers the productions of the most eminent authors, *above sixty in all and many others;* embracing the best writers, *Foreign Scientific, Critics, Discoverers* and *Editors,* representing every department of Knowledge and Science.

THE LIVING AGE is a *weekly magazine,* giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents in an inexpensive form, considering its great amount of matter, with treatment, owing to its systematic, and withal unsectarian character, completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches, and Miscellany of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE compilation of the most valuable current literature, *indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"It is decidedly the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"Not only fully supplies the wants of the reading public that through its pages alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Episcopalian, Philadelphia.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"IT IS INDISPENSABLE TO EVERY ONE who desires a through compendium of all that is admirable and note worthy in the literary world."—*Boston Post.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Christian Union.*

"The best literature of the day."—*New York Times.*

Published WEEKLY at $8.00 a year, *free of postage.*

EXTRA OFFER FOR 1880.

To all new subscribers for 1880 will be sent gratis those numbers of 1879 which contain, besides other interesting matter, the first chapters of a story WHO WILL NOT WHEN HE MAY," a new story by MRS. OLIPHANT, now appearing in THE LIVING AGE from advance sheets.

Club Prices for the best Home and Foreign Literature.

"Possessed of the LIVING AGE and one or other of our vivacious American contemporaries, a subscriber will find himself *in command of the whole situation.*"—*Phila. Keyny Bulletin.*

For $10.50 THE LIVING AGE and *either* one of the American $4 monthlies (or *Harper's Weekly* or *Bazar*) will be sent for a year, *both post-paid;* or, for $9.50 THE LIVING AGE and the *St. Nicholas, or Appleton's Journal.* Address,

The Promoter and Perfector of Assimilation.

The Reformer and Vitalizer of the Blood

The Producer and Invigorator of Nerve and Muscle.

The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or enterrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

MPORTANT LETTE

From a Distinguished Physician.

NO single disease has entailed more suffering or ha ruined the breaking up of the constitution the starch. The sense of smell, of taste, of sight, of hearing, the human voice, the mind, one or more and sometimes all yield to its destructive influence. The poison distributes throughout the system stacks every vital force, and breaks up the most robust constitution ever moored because, but little understood by most physicians, improperly assisted by quacks and charlatans, those suffering from it have little hope to be relieved if it is side of the grave. It is true, then, that a regular treatment of this terrible disease by remedies within the reach of all passed into hands at once consistent and trustworthy. The new and hitherto unrivalled method adopted by Dr. Sanford in the preparation of his RADICAL CURE has won my hearty approval. I believe it likely to succeed when all the usual remedies, when because it strikes at the root of the disease, viz. *in acidified blood,* which is beneath the ulcerated membrane by direct application to the nasal passages. Medicines is based on certain fixed rules, and unless these rules are too far exhausted, must, in the great majority of cases, effect a cure.

GEO. BEARD, M. D.

NORSCOTT BLOCK, SO. FRAMINGHAM, Oct. 1, 1874.

SANFORD'S RADICAL CURE

MAY safely claim to be one of the few popular remedies receiving the approval of medical gentlemen, who, in preference to any French preparation, put it in their families in preference to any of the proprietary medicines usually prescribed by physicians.

"You are aware," said a distinguished city physician, that my obligations to the Mass. Medical Society and the medical profession prohibit my prescribing any proprietary medicines; but since I received so much relief from the use of it myself, after a thorough trial of the best remedies, I have privately advised its use, and presume have sent to your store no less than one hundred patients for it."

UNIVERSAL SATISFACTION.

GENTLEMEN:—We have sold SANFORD'S RADICAL CURE for nearly one year, and can say candidly that we have received a similar encouragement of universal satisfaction. We have to learn the first complaint yet.

We are not in the habit of recommending patent medicines, but your preparation meets the wants of thousands, and we think those afflicted should be informed of its great merit so that the suffering will be relieved. We have been in the business of selling for the twelve years continually, and sold everything in our line, but none have met with the success. If you see proper, you can use this letter or any part of it that you will—Very truly yours, BOSTON DRUG CO., Wholesale and Retail Dealers in Drugs, Books and Stationery, Washington, Ind., Feb. 22, 1876.

Each package contains Dr. Sanford's Improved Injecting Tube, and full directions for use in all cases. Price $1 for sale by all wholesale and retail druggists and dealers throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

The Electro-Galvanic Battery combined with Slightly Medicated Strengthening Plaster, forming the best Plaster for pains and aches in the World of Medicine.

ELECTRICITY

is a grand curative and restorative agent is fully equaled by any element or medicine in the history of medical medication. Prominent among the medical profession by means of electricity is possible to be effected by physicians and surgeons, and has relieved thousands, apparently in the last extremity, when no other human agency could have relieved. This is the leading curative element in this plaster.

BALSAM AND PINE.

The healing properties of our own fragrant balsam of pine and the gums of the East are too well known to require description. Their combination, soothing and strengthening properties are known to thousands. When combined in accordance with late important discoveries in pharmacy, their healing and restorative properties are increased tenfold. As a respect our Plaster is the best in use without a rival of electricity.

TWO IN ONE.

Thus combined we have two grand medical agents in one, each of which performs its function and united combine more powerful and beneficial effects. Plaster ever before compounded in the history of medicine. Try one. PRICE, 25 CENTS.

Chicago and Northwestern Railroad.

There is possibly no link in the great railway chain, stretching across the American continent, from the Atlantic coast to the Pacific slope, that forms so material a part of that great continental railroad and is of such importance as the Chicago & Northwestern railroad, running from the metropolis to the Missouri river at Omaha. In its construction from Chicago westward it was the first to connect with the Union Pacific, virtually making that road practicable, and well deserves the title it won of the "Old Pioneer." It had hard work as it forced its way over the then unsettled but fertile prairies of the States of Illinois and Iowa, but being the shorter or inside route and actually having less gradients or curvatures than its rivals to Council Bluffs, its records show achievements in speed, safety, regularity and reliability unsurpassed, if equalled, by any competing line.

Its improvements in the last two or three years have been simply remarkable, and the changes the most wonderful ever wrought in the east or west, in its roadway, rails and general equipment. It is now strictly first class, the model railroad, gravel ballasted, with steel rails, stone culverts, iron bridges, white oak ties, superior engines, airy and elegant coaches, supplied with the Miller couplings and Westinghouse steam brakes and attachments, in the shape of what have been called "marvels of splendor," the Pullman palace hotel cars, in which the traveller eats and sleeps in the most luxurious apartments with all the comforts and conveniences of a well stocked home. The matchless tracks and scientific outfit of this road are triumphs of art in railway construction. But in addition to its excellency of construction, it enjoys the signal advantages of natural location and a management that, from the highest official to the most subordinate employee, most sedulously cares for the convenience and satisfaction of patrons. During the past year it was without a terminal detention, and such is the increase of its freight and travel that a double track is necessitated. The development of the road is marvelous—iron rails in 1865, and steel rails in 1867, and steel rails and a double track in 1879.

The Chicago & Northwestern railroad operates nearly 2,200 miles of road (the exact figures being 2,159) and reaches nearly every important point in northern Illinois, in Wisconsin, northern Michigan, Iowa, Minnesota, running many miles into Dakota—it transports millions of passengers annually, and its freight carriage is simply enormous. From Chicago, Westward, you can trace its California line, until you touch the Missouri river at Council Bluffs, opposite Omaha, a single run of nearly 500 miles. Northwestward, through Madison, the capital of Wisconsin, 400 miles more. Again, looking from Chicago, you can trace a line through Sparta, Wisconsin, La Crosse in the same State, Winona, Owatonna and New Ulm, in Minnesota, and northwestward for into Dakota, 625 miles more of road. Again, coming to Chicago, we see two lines running northwardly—one along the lake shore to Milwaukee and thence to Fond du Lac, and the other running more inland through Janesville, Watertown, etc., also to Fond du Lac, thence north through Oshkosh, De Pere, Green Bay and Escanaba to Negaunee, Ishpeming and Marquette—another 440 miles of road. Then we have a line from Chicago to Elgin, Rockford and Freeport, another from Clinton, Ia., to Anamosa, in the same State; another from Kenosha, on lake Michigan, to Rockford, in Northern Illinois.

Passengers to or from California, Colorado, Utah, Nebraska, the Black Hills, Minnesota, Manitoba, the east, west, north or south, should see that they are furnished tickets by this great line. No other road has Pullman or any other form of hotel car.

Considering the vast area of territory tracked by this road, the number of trains daily running, the freight and passenger business it transacts, its main lines and ramifications, its equipment, its celebrated hotel cars, and in short, the character of its entire outfit, the Chicago & Northwestern railroad eminently deserves the title of one of our grandest trunk lines.—*Daily Graphic, New York, May 21st, 1879.*

WEDNESDAY, JANUARY 28, 1880.

Notice to Mariners.

A fog-trumpet, giving blasts of eight seconds' duration, with intervals of thirty-five seconds, has been put in operation at the north point of Head harbor, Campobello, N. B.

A lighthouse has been erected on Gulf cliff, at the southwest end of Grand Menan island, N. B., and will show a light on and after Feb. 1st. The light is a revolving red and white, with intervals of twenty seconds between the flashes; the lantern is two hundred feet above sea level, and the light should be seen twenty-five miles. The building is a square wooden tower forty-three feet high, painted white, and with keepers' dwelling attached.

News and Notes.

Morris Wyzanski, a young Hebrew clerk, aged twenty-two years, suicided by shooting in a bath tub at the American house, Boston, Tuesday forenoon.

It now appears that Rev. Mr. Paige of Glastonbury, Conn., who has been convicted of immoral practices, and Miss Gates, his associate, were infatuated with free love doctrines taught them by a woman who had sat at the feet of Noyes, the founder of the Oneida Community, until they had come to regard free loveas of divine inspiration.

Mrs. Rice Lawler of Middletown, Conn., a drinking woman, while recently using kerosene as a fire kindler, was burned to death.

A three-year-old daughter of Harvey Hadlock of Hawley, Mass., was burned to death on Saturday, having been left alone for a few minutes.

The boot and shoe shipments from Brockton, Mass., last week, were 5,291 cases. For the corresponding week last year, they were 2,856 cases.

Benjamin G. Peabodie, for many years a prominent citizen and business man, fell down stairs at Providence, R. I., Sunday, and broke his neck. He was eighty-one years old.

John J. Curley, one of a band of burglars, was arrested at Pawtucket, R. I., Monday evening, after a desperate resistance. He five times discharged a revolver at short range, at the officers pursuing, firing once after they had reached him, wounding his own hand. He was finally captured and locked up.

Amelia Grumall, the young girl who had her scalp torn off by her hair catching in the machinery while she was at work in a mill in Connecticut on the 6th of September, 1873, died in a hospital at Oshkosh, Wis., on the 12th inst. Her scalp had never entirely healed, but her general health has been good, and for the past four years she has been able to do light house work. About new year's day she took a severe cold, and was attacked with inflammation of the brain, of which she died.

The shoe shop at the penitentiary in Brooklyn, N. Y., took fire Monday morning. It caused great excitement among the prisoners as well as the keepers, but no lives were lost and no prisoners escaped. The loss was about $200,000. About two hundred females were employed from outside in the shop, and are thrown out of employment.

The steamboat Charmer, with 2100 bales of cotton, was burned on the Red river, La., Monday, and two women and six man lost their lives. The boat and cargo were valued at $130,000.

Dr. L. G. Read has fled from Bradford, Pa., to escape arrest for causing the death of Mrs. Cora B. Myers, aged fifteen years, by criminal malpractice.

A suit to recover $10,000 damages has been brought against the Maine general hospital corporation by a gentleman from Fort Fairfield for alleged malpractice in the amputation of a leg, which he claims was unskillfully performed.

Saturday evening Michael Cunningham of Portland, Me., fell down the stairs and striking on his head fractured his skull. He died Sunday morning.

Christopher C. Tracy, who was in jail at St. Albans, Vt., charged with larceny, escaped Monday by throwing pepper in the jailor's eyes. Fifty dollars reward is offered for his re-capture.

The police made a heavy seizure of liquors at Springfield, Mass. Monday, from the saloon of John Madden, whose license was revoked for selling on Sunday, but who, it is said, has continued in the business.

The ship Mysore had her mainroyal-mast carried away by one of the cables of the Brooklyn bridge while she was being towed under it on Saturday.

A sailor has arrived at Martinique who reports himself as the only survivor of the crew of the American schooner Simla, wrecked on Diamond rock. Casks, timbers and other wreck stuff have been seen near where he says the disaster occurred.

Numerous heavy falls of snow have taken place from the cliff under the citadel of Quebec, and several houses and persons have been injured by the avalanches.

New Publications.

Brentano's Monthly for January has for a frontispiece a representation of the billiard table on which the billiard tournament games were played in Tammany hall, last November, with likenesses of the players, Garnier, Heiser, Rudolph, Sexton, Maurice Daley, Carter, Schaefer and Slosson. The body of the work contains a full-page portrait of Capt. A. H. Bogardus, champion wing-shot of the world, and a smaller portrait of his son, Eugene Bogardus. The number contains articles of special interest to billiardists, marksmen and pedestrians, and the special devotees of each of the sports named, with interesting articles on yachting, bicycling and all other matters which come within the province of a first-class sporting magazine. Brentano's Literary Emporium, No. 39 Union square, New York; $3 per year; single number twenty-five cents.

Don't trifle with the Teeth.

If our teeth were renewed as are our nails, they might not need constant care. But teeth don't repeat themselves after childhood. The proper thing to do is to use SOZODONT, which preserves their health and beauty. It never fails.

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as a female Physician and nurse, principally among children. She has specially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge, obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is moreover sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do rise up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No mother has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—try it now.—*Ladies' Visitor*, New York City. Sold by all druggists. 25 cents a bottle. 2

Where Contentment is Impossible.

Contentment produces, in some measure, all those effects which the alchemist usually ascribes to what he calls the philosopher's stone, and if it does not bring riches it does the same thing by banishing the desire for them. But the inducements for a fortune at the cost of only two dollars is sufficient to cause any one to read carefully the announcement made by the Louisiana State Lottery Company of the next monthly drawing, (the 117th) at New Orleans, February 10th. AROUND HOME.

Sheriff Kent on Tuesday arrested Cora Bailey at Haverhill for alleged larceny, and brought her to this city.

We are indebted to Senator Rollins for a copy of the very interesting report of the United States fisheries commission.

Over one thousand quintals of cured fish have been shipped from this city to Boston by railroad, within the last week.

The ladies of the Pearl street church are to hold a festival in their vestry this evening, for the benefit of the Sabbath school.

William E. Moore of Manchester, grand chancellor of the Knights of Pythias of New Hampshire, paid an official visit to Damon Lodge of this city, Tuesday evening.

One thousand and seventy-six shares of Eatsern railroad stock changed hands at the brokers' board in Boston, Tuesday, at from $36 to $37 per share, the average price being $36.50.

George Brown and Charles Smith were before the police court on Tuesday, for drunkenness, and were assessed $9.90 each, fine and costs. Not happening to have the needed funds on hand just then, up they went.

Among the arrivals of fishing vessels on Tuesday were the Mary E. Smith with 20,000 lbs., the Josie Johnson with 20,000 lbs., and the Gertie Freeman with 10,000 lbs. All three of these lares were bought by Randall & Caswell.

The fair under the auspices of Unique Lodge, Independent Order of Substantials, of Newcastle, annouced to be given in that town on the 28th and 29th insts., has been postponed to Wednesday and Thursday, Feb. 4th and 5th.

Lawrence Barrett is to appear at Music hall some time in March, in "Yorick's Love," the fine play by Mr. William D. Howe which Mr. Barrett's company has been playing to large audiences at the Park theatre in Boston during the past week.

Howe Call, Esq., of this city, will shortly start on a stumping tour through New Hampshire, in the interests of the greenback party. As there is no election pending in the immediate future it may be considered that he is starting out rather early; but we are informed that he intends to stump the whole State thoroughly, and we guess he will not have any too much time in which to effect its conversion to fiatism.

"Deacon" Cyrus E. Foster, an eccentric colored man, well known in Boston through his annual "receptions," which were always attended by throngs of people of all classes and were productive of unlimited fun, died in Boston on Sunday last, at the age of eighty-eight years. Fifty or sixty years ago he was a stylish coachman, serving in several of the "first families" of the place, and for more than thirty years he assisted at the organ of St. Paul's church. He was the only brother of the late Martha Washington of this city, who was in some things quite as eccentric as the deacon himself.

OPERA TO-NIGHT.

To-night, at Music hall, Lecocq's comic opera "The Little Duke" will be presented, with the popular actress and singer, Alice Oates, in the title role. All accounts agree that the music of the opera is bright and pleasing, and the libretto full of fun. Mrs. Oates is probably the best opera bouffe performer in the country, and is well supported by soloists and a large and efficient chorus. Reserved seats at Preston's.

FALSE ALARMS.

The false alarm of fire, Tuesday forenoon, was caused by sounding the call for fire quarters on the navy yard. The alarm was but partially given in this city, but the fire department got out the machines.

Shortly after six o'clock in the evening another alarm was given, and men and machines went racing up Market street in a heavy rain. Then they raced back to the engine houses again, without having squirted out any fire, or even found one. This second alarm, like the first one, came across the river, being occasioned by the ringing of a bell at Kittery foreside. The cause of its ringing was a fire on the premises of Mr. John Dean at the foreside, but how much damage was done we do not at the present time know.

SUPREME COURT.

TUESDAY, Jan. 27th; *Clark, J.*

Case State vs. Ingalls, town treasurer of Candia, for embezzlement, was put on trial; George Sanborn of East Kingston, foreman of jury; Attorney General Tappan and County Solicitor Harriman for State; Marston and Patten for defence. Three witnesses for the State were examined. The court room was crowded, all the front seats being filled with ladies. The trial is expected to last three days.

A NEW ENTERPRISE.

There is no doubt as to the fact that Portsmouth is as well situated for shipping grain as any port on the Atlantic coast. It is nearer tide-water for all the freight coming to the seaboard via Concord, and the harbor is accessible at all seasons, with sufficient water at all times of tide; while the rails could be laid to employ wharves otherwise unoccupied. For several years before his death, the late Joshua Brooks saw the importance of establishing an elevator in Portsmouth. He endeavored to have one built on Pray's wharf, and later Mr. Henry A. Yeaton sought to accomplish the same end, but the railway company didn't deem it practicable to curve their iron sufficiently to turn from the crossing at Noble's island bridge to enable cars to pass to Pray's wharf.

Mr. Brooks, six or eight years since, having a large grain trade, and seeing an opportunity to increase the wholesale grain and flour business here, made an effort to build an elevator on the line of the Eastern railroad near Green street, but failed to secure a strip of land necessary for the purpose, then owned by the Portland, Saco & Portsmouth company, and adjoining their tracks. But the project, though postponed, has not been entirely lost sight of. Portsmouth was regarded by Messrs. Joshua Brooks & Co. as a good distributing point for grain now coming wholly by rail. Recently Mr. Henry A. Yeaton of this firm, becoming connected with the house of George H. Doane & Co. of Detroit, extensive commission merchants, and forwarders of grain in Detroit, Chicago and other markets of the west, and having become familiar with the methods of conducting this business at the west, did not forget that Portsmouth was a good distributing point for places twenty miles west on the Eastern railroad, and as far east as Saco and Biddeford on the P. S. & P. R. R., with the whole line of the Portsmouth, Great Falls & Conway railroad, the city of Dover, and towns between Raymond and Portsmouth on the Concord & Portsmouth railroad; and he set about building an elevator. For this purpose he leased for a term of years a part of the land of the Concord & Portsmouth railroad just south of the company's engine house on Bridge street, once the site of the tannery of the late David Libbey, and having had plans prepared by the Chase Elevator company of Chicago, began the erection on this spot of the elevator, now nearly completed.

In the construction of these buildings great regard must be had for strength, as the enormous quantity of grain contained therein makes a heavy weight for any structure to support. In the building of the elevator there were used fifty thousand feet of timber for the frame work, and a like amount was required for boarding, flooring, etc.; the roof is slated; and the work was done throughout by Moses Yeaton, Esq., in the most substantial manner. The engine used is a four-horse-power Baxter portable engine, built at Patterson, New Jersey. A car of grain can be loaded or discharged in half an hour, making a great saving in time to the railroad company in car use. To reach the elevator a new track has been laid by the Concord railroad, requiring a small strip of land owned by the Kearsarge mills, which corporation allows the use of a corner of their lot where the track crosses their premises. The building will be in charge of Mr. James H. Thompson.

The process of discharging and disposing of the grain is, to have the car containing it stand on the south side of the elevator; from this car the grain descends into a sink or receptacle below the surface of the ground, whence it is carried by circular pockets in a belt to the top of the tower, fifty-five feet in height, where it is deposited in a scale weighing a full carload at one time, (the capacity of the weigh-hopper is thirty thousand pounds of grain,) thus testing the weight. From the weigh-hopper it is by means of shutes and conveyors drawn into bins, all by steam power, no manual labor being required in handling. By means of the upper conveyer, the grain is first deposited in sacks or bins, whence it may be delivered as required. If it is to be stored for any considerable time it is taken to lateral receptacles, whence it afterwards is drawn by a lateral conveyer, and again sent to the tower, whence it is returned to the sacking bins. Thus by means of fixed machinery the grains are promptly sent to any part of the building desired, or taken therefrom.

In the grain trade, large dealers have found by experience that they cannot depend with any degree of certainty upon the regular receipts of their consignments. A lot bought later then a former lot, may reach its destination long before the first purchase arrives. Indeed, it is a difficult thing to sell by the car-load to arrive, when one depends for the delivery of his sales upon the uncertain receipts of grain coming two thousand miles. By means of the elevator, large expense in handling and teaming is saved, a prevention of waste is made, and much time economized; as also, heating is prevented by the means of moving the grain at all times. With the grain in store, at the elevator, large orders can be filled at once, instead of the dealers having to await the arrival of cars from the west, and being involved in the delays and disappointment of blocks *en route*, and consequent inconveniences. Mr. Yeaton, whose residence is at his principal place of business, in Detroit, has devoted two months' time to the developement of this enterprise, and on Tuesday left for Detroit.

This new feature adds to the importance of our facilities, and will increase the business of the railroads centering here, and will doubtless afford dealers in the towns within a circuit of thirty miles an opportunity to purchase grain cheaper in Portsmouth than elsewhere, with an assurance of immediate delivery. The elevator was built to conform to the angle of the street, and though beauty in design was not studied as was strength and convenience, it will nevertheless be regarded as one of the additions to our city of which we may be justly proud. To Mr. Yeaton, whose business sagacity has led him to make this investment in his native city, we are under obligation; and our hope is that he may return to his birth-place with such a handsome competence as a man of his energy, integrity and mercantile reputation should deservedly acquire.

PAT ROONEY.

Pat Rooney's Combination will give an entertainment at Music hall to-morrow evening. The company is new to this city, but seems to be well known and popular elsewhere. A Columbus, Ohio, paper says "The entire programme is one that will excite the risibles of the most fastidious, and the audience was kept in a state of healthful laughter all the evening. Rooney was encored time and again and is a whole combination of versatile talent within himself. His representation of the characteristics and peculiarities of the sons of Erin are simply inimitable." A paper at Wheeling, Va., says "The show deserves all the reputation it has and is first-class throughout; not a poor stick anywhere; each specialty performer is an artist in his or her line. Rooney received a perfect ovation, and was recalled again and again." Two members of the company, Jeppe and Fanny Delano, "society-flirtation and musical-sketch artists," appeared here some time ago, and those who saw them then will want to see them once more. See advertisement.

YORK COUNTY ITEMS.

Mrs. Isaac Prescott of Buxton slipped on the steps of her house recently, and received internal injuries from which she died. Her age was twenty-eight years.

The building erected by Mr. Howard Staples of Eliot on the site of one burned some months ago, is to be used as a tin shop, and not for a blacksmith shop as before stated.

Mr. George A. Hammond, of Eliot, recently purchased a thirty-acre wood-lot near Shorey's brook in that town, and is now stripping it. There is some timber on the lot, but most of the trees are chopped into firewood.

Plans for a pier to be built off the beach in front of the Sea-shore house have been sent to Old Orchard, and preliminary surveys are to be made at once. The projectors of the scheme hope to have the pier finished before the next beach season opens.

Political.

The Portland *Press* of Tuesday contained a full expose of the formation of circles of the "Brick Pomeroy League" in Maine, with a State circle devoted to communistic doctrines, and now employed in endeavors to seize the State government by force. There are five circles known in Cumberland and some in York, Knox and other counties.

It is stated that the returns for Goldsborough, Maine, the originals of which have come to light in Augusta, indicate that Governor Garcelon and his council carried their manipulations so far as to actually alter the returns. The letter "P," the middle initial of the republican candidate, has been changed to "R," the ink showing a different color, and in partially erasing it a hole was made through the paper. The initial was called an "R," and the republican member-elect was counted out accordingly.

The republicans of Maine are entitled to the thanks of the entire Union for the courage with which they have acted in this emergency. It is not impossible that had their adversaries been more bellicose they would have maintained a more peaceful tone; but the fact remains that they have from the first maintained the front of men determined not to submit to fraud. The Maine republicans have set all other majorities the needed example of dealing with usurpers as householders deal with burglars. It is useless to talk peace when all the conditions upon which peace is worth having are being violated. There will be no attempt in any State to count out the majority if the knaves understand that the count is to be followed by a shooting contest.—*Brooklyn Eagle (Dem.)*

New Hampshire Items.

A Peterboro church member, seventy years of age, has been arrested for bigamy.

A disease is raging among the hogs in Alstead, killing large numbers. One farmer has lost thirty.

The late J. S. Bowers of Acworth bequeathed $500 to the Congregational church of that place, of which he was a member.

John W. Barney, M. D., of Concord, assistant physician at the State prison, and a prominent citizen, was stricken with paralysis Monday morning.

The Sugar River paper mill company at Claremont have just made an addition to their mill, and have now building for them another machine costing $9000. This and other improvements will cost $25,000, and make it the best paper mill in the State.

The Claremont manufacturing company's paper mill, the main building of which was burned last week, will be rebuilt. The loss figures up to about $30,000, with an insurance of $9,500. They also sustained a loss by fire last year of about $10,000. Just at this time the loss to their business is heavy, as they were before unable to manufacture paper enough to fill orders. One order for 100 tons was received the day before the fire.

Senator Rollins has introduced in Congress a bill for the relief of David Wingate of Rochester, now ninety years of age, who was impressed when young and made to serve on a British man-of-war. When hostilities with Great Britain commenced he refused to do duty, and was sent to Dartmoor prison, where he was kept until after the declaration of peace. Old and poor, he now asks for a pension.

—A mule, unlike a gun, often refuses to go off when he is loaded.

—An amusing story comes from one of the western counties of North Carolina about an old man named Samuel Lusk, who, during the war, was a great lover of the Union, although surrounded by rebel neighbors. When Mr. Lincoln issued his first call for troops he thought he might safely give voice to his sentiments. Riding along the road one day, he met Squire Horton, a neighbor and a secessionist, and the old man broke out: "Squire Horton, as how I am glad the time has come when a man can express his sentiments. As how, hurrah for Abraham Lincoln!" Squire Horton replied, "If I thought as much of Abe Lincoln as you pretend to do, I would go to him at once." To which the old man replied, "Squire Horton, as how he is a comin' to me."

NEW IDEA.—A tenant had been importuned so frequently for his rent that in a climax of exasperation the other day he turned on the landlord with the cogent and conclusive retort, "Now you needn't put on so many airs, old man. Why, I owe enough in this town to buy up all your old houses!" How much people owe to Sanford's Jamaica Ginger for relief from difficulties worse than back rent.

Cuticura

From the Hon. WM. TAYLOR, State Senator of Massachusetts.

Messrs. WEEKS & POTTER: *Gentlemen,*—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel it in every sense of the word. I have been a great sufferer with skin diseases for the last twelve (12) years. My head and face being covered with sores, I could not rest with the burning heat and itching of the parts affected, and was confined to my house for three weeks at a time. My disease has been called Eczema, of a most aggravated type, by many physicians, but I doubt if ever fully understood by any of them. It was more like a combination of several skin humors. I have spared no pains or money in a cure, and in 1867 I went to Europe, and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr. ——, (whose reputation for the cure of those diseases was of the highest order) could cure me. I waited on the doctor; he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians, and among them Dr. ——, of East Boston, and Dr. ——, of city proper, but all to no purpose. They did me no good; their remedies were so ineffectual that at no time did I feel that a cure would result from them.

I have swallowed five hundred arsenic pills, 5.20 grain, and taken bottle after bottle of internal remedies, besides all the external applications I have used but the effect was the same. I became satisfied that I could not be cured, but might be kept from getting worse.

Now, about three months ago, Mr. Meehan, a gentleman well known to Boston people, called my attention to your CUTICURA, and promised wonderful results if I would only make a trial. He told me of his own experience with it, and so persuaded me that, I went with him to a drug store and bought two large boxes of CUTICURA, and some CUTICURA SOAP, and commenced to use it according to the directions. There was so much humor lodged within the skin, that as soon as I commenced the use of CUTICURA it came to the surface and festered, until vast quantities had to come out and greatly intensified my sufferings for about two weeks. But I did not mind this, as I felt that I was going to get rid of the humor when I saw it coming to the surface in such large quantities. After the first two or three weeks' use of this remedy, I was greatly encouraged by the gradual lessening of the inflammation of a number of painful sores. I carefully, faithfully, and cheerfully followed the directions to the letter, feeling each week nearer a cure, until at present, after three months use of CUTICURA, and twelve years of as constant suffering as was ever endured, I can say that I am cured, and pronounced my case the most remarkable on record. I have been so elated with my success that I have stopped men on the street who were afflicted, and told them to get the CUTICURA, and it would cure them. This is why I am so grateful to you, for I tell you it to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I may add that I took no internal medicine but the CUTICURA RESOLVENT. WILLIAM TAYLOR.

Boston, Aug. 22, 1878.

KIDNEY-WORT

PERMANENTLY CURES
KIDNEY DISEASES,
LIVER COMPLAINTS,
Constipation and Piles.

DR. R. H. CLARK, South Hero, Vt., says, "In cases of KIDNEY-WORT the last worst effect like a charm. It rescued many very bad cases of PILES, and has never failed to act efficiently."

NELSON FAIRCHILD, of St. Albans, Vt., says, "It is of peculiar value. After sixteen years of great suffering from Piles and Costiveness I completely cured me."

C. S. HOOLSTON, of Tarkio, Mo., says, "one package has done wonders for me in completely curing a severe Liver and Kidney Complaint."

IT HAS WONDERFUL POWER. WHY?

BECAUSE IT ACTS ON THE LIVER, THE BOWELS AND KIDNEYS AT THE SAME TIME.

Because it cleanses the system of the poisonous humors that develope Kidney and Urinary diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia and Female disorders.

KIDNEY-WORT is a dry vegetable compound and can be sent by mail prepaid.

One package will make six quts of medicine.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION. It contains 125 pages, 125 prescriptions, and 25 engravings. Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

POROUS PLASTER
BENSONS CAPCINE PLASTER

A Word to those who use Porous Plasters. It is a universally acknowledged fact that BENSONS CAPCINE POROUS PLASTERS ARE SUPERIOR TO ALL OTHERS! The great demand for them has caused a number of unscrupulous parties to make and sell worthless imitations under similar sounding names. As the market is flooded with inferior plasters selling at 25 cents, it is important for the consumer to know which is the genuine article. Benson's Capcine Porous Plasters are the only plasters that have proved themselves worth the money paid for them, and make them dangerous to use, causing paralysis and other diseases. CAUTION—See that the word CAPCINE is on each plaster. Price 25 cents. CAUTION—See that the above trade mark is on the wrapper. Sold by all Druggists. Hardy, Matthew Arnold, Henry Kingsley, W. W. Story, Turgenieff, Carlyle, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh* year, admittedly unrivalled and continuously successful. During the year it will for ish to its readers the productions of the most eminent authors, *abroad and among others*; embracing the Choicest Literary and Scientific Matter, in Prose, by the *Leading Foreign Novelists*, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and scientific matter, selected from the mass of the *foremost Essayists, Scientists, Critics, Discoverers and Editors*, representing every department of Knowledge and Progress.

THE LIVING AGE is a *weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents in an inexpensive form, covering its great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Biographies, Scientific Biographies, Historical and Political Information, from the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE compilation of an indispensable current literature, *indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"It offers the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Spectator, Charleston, Illinois.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that though its pages alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Inl'delphia Inquirer.*

"To read it weekly is a liberal education."—*Zion's Herald & Pacific Christian Advocate, New York.*

"With it alone a reader may fairly keep up with all that is important in literature, politics and science to the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a thorough compendium of all that is admirable and note worthy in the literary world."—*Spirit of Times, Chicago.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Gazette, Charlottesville, Va.*

"The best literature of the day."—*New York Times.*

MPORTANT LETTE

From a Distinguished Physician.

NO single disease has entailed more suffering or ba tened the breaking up of the constitution than starrh. The sense of smell, of taste, of sight, of hea ing, the human voice, the mind, one or more and som times all yield to its destructive influence. The poison distributes throughout the system attacks every vit nerve, and leaves on the mind a blight of confusion and decay beneath but little understood by most phys cians, impotently assailed by quacks and charlatans. Those suffering from it have little hope to be relieve if it lies side of the grave. It is true, then, that th popular treatment of this terrible disease is remedi within the reach of all passed into hands at once co ordinate and trustworthy. The new and hitherto unt method adopted by Dr. Sanford in the preparation of HAMPHAL CURE has won my hearty approval. It ever it likely to succeed when all the usual remedi all, because it strikes at the root of the disease, vi *in acidified blood*, while it heals the ulcerated mem rane by direct application to the nasal passages. T action is based on certain fixed rules, and unless th first forces are too far exhausted, must, in the great majority of cases, effect a cure.

The Coming Canvass.

In a few months we shall be plunged once more in the excitement of a Presidential canvass, and this time the excitement promises to be unusually great, owing to the prevailing belief that the contest will be very close, and that neither candidate will be willing to acknowledge his defeat.

* * * * * * *

The circumstances under which the coming Presidential election is to take place are not ordinary any more than those under which the last took place. The seriousness of the blow given to the federal machinery of government by the southern rebellion was not made manifest until the election of 1876, and that blow struck it in its weakest point,—the one election, in which the whole Union participates, and the choice of the one officer who represents the whole Union.

* * * * * * *

The election brought forcibly to mind —more forcibly even than the secession of the south—the truth of the old saying, that the greatest danger to the government lay in the manner of choosing its chief officer. We say the election of 1876 brought this to mind more forcibly than the secession of 1861, because it is much easier to deal with a movement for setting up a rival republic than with a dispute about offices. In the one case, the malcontents openly and avowedly commit treason, and expose themselves thereby to its pains and penalties. In the other, each side maintains that it is itself the government, and the minds of the best men may be confused as to "which is king, which pretender."

* * * * * * *

Civil war was avoided by a device which, though it put an end to strife, did not satisfy the defeated party, therefore did not establish a useful precedent. The worst of it was that it left both sides in what may be called a revolutionary state of mind.

By this revolutionary state of mind, we mean a state of mind in which the voters or party managers are so eager to get possession of power that they do not care what their opponents think of the means which they employ for that purpose, as distinguished from the constitutional state of mind, which prevents a party from taking power by any process which its opponents do not consider fair play. This revolutionary state, which has undoubtedly shown itself in both parties since 1876, is something which no thinking man can contemplate without uneasiness, or can fail to see the necessity of extirpating, at almost any cost. As long as it lasts, free government is in constant danger.

* * * * * * *

The democrats seek the Presidency with the eagerness of men who seek a revolution, and the republicans resist it in the spirit of men who dread a revolution. The democrats seek the enjoyments of an amount of patronage, and the handling of an amount of money (the expenditure of $400,000,000 per annum, and the distribution of nearly 80,000 offices), which in other constitutional countries nothing but a revolution could give, and the republicans hold on to an amount of patronage, and the handling of an amount of money, which in other constitutional countries nothing but a revolution could take away. No State in our time, with the population and the vast revenue of the United States, would dare to throw all the administrative offices of the government into the arena to be struggled for at every election, for no political machinery as yet invented, besides our own, is considered able to bear such a strain.—From "THE POLITAL OUTLOOK," in *Scribner's for February.*

Father is Getting Well.

My daughters say, "how much better father is since he used Hop Bitters." He is getting well after his long suffering from a disease declared incurable, and we are so glad that he used your Bitters. —A lady of Rochester, N. Y.—*Utica Herald.*

[Entered at the Post-Office at Portsmouth, N. H., as second-class matter.]

THURSDAY, JANUARY 29, 1880.

The Fusionists Sat Upon.

The supreme court of Maine on the 27th inst. unanimously decided not to consider the questions submitted by the fusionist "legislature," for the reason that that body is illegal and not a legislature at all, and merely a body of citizens, having no right whatever as a legislature to demand the opinion of the court. This decision is regarded as a death blow to the fusionist pretensions, and is expected to at once end the farce.

The fusion legislature met at four o'clock P. M., Jan. 28th, and adjourned to next August. It is expected that the fusionists legally elected will take their seats in the legal legislature. The troops were dismissed from the State house on the 28th.

The St. Kitts Disaster.

The deluge at St. Kitts, one of the small islands of the West Indian group, on the 12th of January, caused an appalling disaster. Over thirty-six inches of water fell in six hours. The reservoir at the back of the town burst, and added to the torrents rushing through the streets. Whole streets of houses were washed away, and families disappeared. It is estimated that 200 lives were lost, and forty-five bodies were recovered in a short time after the flood was over.

Naval Affairs.

The Wachusett, Commander Wilson, at Rio Janeiro Dec. 12th from Boston, reports to the secretary of the navy that soundings were taken exactly on the reported locations of Antoinette rock, Texiros shoal and Pryces shoal, the least depth of water obtained being over 2000 fathoms. The ship sailed directly over the reported dangers several times, with extra lookouts on duty, but could find nothing. Soundings could not be taken on the reported Adelaide shoal, on account of the weather, but the ship sailed over and about its reported locality without seeing any sign of it.

The House naval committee has agreed to report favorably upon the bill of Representative Harris of Massachusetts providing for a reorganization of the navy.

New Hampshire Items.

At an early hour on the morning of Jan. 26th a small house in Rollinsford, owned by Mrs. Edward Fitzgibbon, was burned, with its contents. Loss $300; no insurance.

D. W. Buckminster, register of probate for Cheshire county, died suddenly of paralysis of the heart, Jan. 27th.

The Dover *Democrat* of Jan. 27th says: "The Rollinsford farmers are supplying the household of Queen Victoria of England with beef. Wm. Rollins sold four monster fat oxen last week that are going direct to Windsor Castle, by steamer Iowa, which takes out 1000 head to tickle the palate of Johnny Bull. The fact is we, that is our producing people, are bound to feed the world unless we make hyenas and tigers of ourselves and go to feeding on one another."

At Manchester, Jan. 27th, was tried the case of G. M. D. Barnes, a travelling Bible agent, vs. Campbell & Hanscom, late proprietors of the Manchester *Union*, for damages on account of an alleged libel in which Barnes was heralded as a thief, published Dec. 27th, 1877. Damages were laid at $5000. The case was given to the jury on the evening of the 27th inst., and a verdict of $800 was returned for the plaintiff.

News and Notes.

In the case of Mrs. Cora B. Myers, the young woman who died in Bradford, Pa., Jan. 24th, from the effects of an illegal operation, the coroner's jury returned a verdict implicating her husband, Charles J. Myers, her mother, Mrs. C. S. Heath, her sister, Ella Heath, and Dr. L. G. Read, who has fled. The others have been arrested.

Two silly fools, viz., the editors of the *Democrat* and the *States*, of New Orleans, fought a duel Jan. 27th, with pistols, at ten paces. Unfortunately neither was killed.

It is reported that Stearns Kendall Abbott, accused of the murder of Maria L. Cruz of Groton, Mass., has been seen in Montreal. It is certain that he did not sail from Boston in the schooner Emma Crosby, as at one time stated.

The church trial of Francis E. Hayden of Fitchburg, Mass., for unbecoming conduct, has resulted in his expulsion.

Walter Gilbert, ticket clerk in the union depot at Worcester, Mass., was taken sick Jan. 26th, with small-pox.

The steamship Acapulco, Capt. Shackford, will sail from New York Feb. 10th for Aspinwall with an immense cargo of valuable goods, largely from New England. The Pacific Mail line has been taking no freight since last December, the great gale of the latter part of that month having damaged the Panama railroad to such an extent as to render the transit of goods impracticable, and the Acapulco is the first of their vessels to take out a cargo since that time.

Edward Timer has been arrested for the murder of Annie Downey, found dead in a house of ill repute in New York some days ago; he acknowledges that he was in the girl's company on the night of the murder.

George Teise fatally shot a Brooklyn rough named Terry Mack on the evening of Jan. 26th, while defending himself from Mack's attack in a saloon.

James Williams of New York, a laborer, while drunk murdered his wife, Jan. 27th.

Pierce McHenry has been arrested for the murder of his wife, in Brooklyn.

Advices from St. John, N. B., say that forty-two laborers and sailors were drowned in February last year, while endeavoring to save the ship Adriatic. The relatives of the deceased laborers have now brought suit against the salvage company and sub-contractor, who had engaged to lighten the vessel. The damage claims amount to £50,000.

—An English coachman was asked to tie up a dog, and he resigned on the ground that it was the butler's duty. The butler declined and resigned, and after six servants had left, the earl tied up the dog himself.

Don't trifle with the Teeth.

If our teeth were renewed as are our nails, they might not need constant care. But teeth don't repeat themselves after childhood. The proper thing to do is to use SOZODONT, which preserves their health and beauty. It never fails.

Brown's Household Panacea

Is the most effective Pain Destroyer in the world. Will most surely quicken the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic or acute, than any other pain alleviator, and it is warranted double the strength of any similar preparation.

It cures pain in the side, back or bowels, sore throat, rheumatism, toothache and all aches.

The great reliever of pain "Brown's Household Panacea," should be in every family. A teaspoonful of the Panacea in a tumbler of hot water (sweetened, if preferred), taken at bedtime, will break up a cold. 25 cents a bottle.

Much Sickness,

Undoubtedly with children attributed to other causes, is occasioned by worms. Brown's Vermifuge Comfits, or Worm Lozenges, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely sure in eradicating worms, so hurtful to children. Twenty five cents a box. 4thS&F

See a Woman!

In another column, picking grapes for SPEER'S WINE. It is an admirable article, used in hospitals and by the first-class families in Paris, London and New York, in preference to Madeira, Sherry or California Wines; excellent for Invalids.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, New York City.* D&W1yJan31

AROUND HOME.

Epping has a dancing school, a competent instructor from this city having been engaged.

Prof. Brown will remain in the city but a day or two longer, to fit defective eyes with proper glasses.

Cyrus L. Brown will commence to-day to load the schooner Jesse Williamson, Jr., with five hundred tons of ice for Appledore and Star islands.

The wire-rope splice invented by Capt. Wm. R Healey has been extensively tested by the engineers of the Brooklyn bridge, with satisfactory results.

Mr. Ober, lately station agent of the Eastern railroad in Seabrook, is supplying the pulpit of the Baptist church in that town to general acceptance.

Joseph Emerson, the man who recently left his home in Epping so mysteriously, late one night, has been heard from, and is now quietly visiting his sister in Lawrence, Mass.

Schooner Margie sailed on Wednesday of this week for Baltimore, with a cargo of apples and mackerel. There are now about twelve hundred barrels of apples awaiting for shipment.

A coal pocket of about 4000 tons capacity is to be built immediately on the Concord railroad wharf. The contractors are Messrs. Ross & Lord, who are well-known as builders of bridges, coal pockets, etc.

Tuesday, Jan. 27th, was the thirteenth anniversary of the settlement of Rev. William A. Rand over the Congregational church at South Seabrook, and appropriate commemorative services will be held next Sunday. The church has eighteen members.

The funeral of the late Joseph Parry took place on Wednesday afternoon of this week, the Freemasons, Odd Fellows and Associated Mechanics being represented by delegations. The burial service of the Knights Templar was performed, and the body placed in the tomb of the Union cemetery.

Portsmouth, Great Falls & Conway railroad sold at auction in Boston on the 28th inst. at $24.50 and $25.50 per share; Concord railroad, $83; Newmarket Manufacturing Co., $525; Cocheco Manu. Co., $752.50; New Hampshire 6s, 1896, $115.-25. At the brokers' board, 403 shares in the Eastern railroad brought $37 per share.

The Jarvis hosiery factory at the Creek was on Tuesday of this week leased to Mr. H. W. Butler of East Rochester, who will immediately convert the same into a shoe factory. Mr. Butler will give work to about sixty hands, and will as far as practicable employ resident shoemakers. He is to take up his abode in this city. Success to him and his enterprise.

Mr. Samuel T. Jack, manager of the Alice Oates comic opera company, which played "The little Duke" at Music hall on Wednesday evening of this week, was married to Miss Alice Townsend, a member of the company, in the parlors of the Tremont house, Boston, on Sunday evening, Jan. 25th. All the members of the company were present at the ceremony, and were profuse in their congratulations.

PAT PONEY.

The Pat Rooney Combination will give an entertainment at Music hall this evening, and if one may judge from the complimentary notices they have received in other places, the show will be a good one. A paper published at Wheeling, W. Va., says it is the best variety troupe that ever visited that city, and that there is nothing offensive or vulgar in the entire performance.

POLICE COURT.

WEDNESDAY, Jan. 28; *Batchelder, J.*

Frank Clough and Hattie Clough were before the court in the forenoon, charged with keeping a disorderly house—a notorious place on Water street known as the "Cottage by the sea." At noon the cases were continued to three o'clock P. M., at which latter time the defendants made themselves conspicuously absent. They are no loss. One of the female inmates of the den was brought in on a charge of stealing a dress from another inmate; and the latter was complained of by the alleged thief for fornication with a married man of this city, who was also complained of for adultery. All three were ordered to give bonds for their appearance to answer at the April term of the supreme court.

TIMBER-PRESERVING WORKS.

The creosoting works now in course of erection by the Eastern railroad company near their wharf on Noble's island, the construction of which has been somewhat delayed owing to the rush of miscellaneous repairing caused by the running of extra freight trains, etc., will be shortly completed. A frame building one hundred feet long and thirty-three feet wide holds all the apparatus required for doing the work. In this building are two huge iron cylinders, one of them being eighty-one feet and five inches long, and the other sixty-four feet and four inches in length, and each six feet in diameter. A locomotive engine on which a shaft is placed is connected with two small engines used for pumping. The timber or sleepers (hemlock) are first put into the cylinders; then a vacuum is created by pumping out the air, after which the creosote is pumped into the cylinders from an iron tank placed under them, and holding twenty-four thousand and nine gallons of creosote or carbolic acid. A pressure of two hundred and forty pounds to a square inch is then made, and after the wood remains under this pressure twenty-four hours it is fully impregnated with the liquid and ready for use. The advantage which is claimed to be gained by putting wood through this process is that it will last a number of years longer, as hemlock sleepers, which have to be removed every two years when used without preparation, by creosoting them are made to last seven years; and timbers used in the building of bridges, especially where they are driven into the ground, will last still longer. The Boston & Albany railroad has similar works, and they have proved a success, as no doubt will those now being put up by the Eastern road.

THE FISH BUSINESS.

The Queen of the Sea, a fishing schooner belonging to Rockport, set her trawls on Sunday afternoon, Jan. 25th, under-ran them and returned to this port. On Monday morning she started out to haul her trawls, when it was found that the crew of some other vessel had saved them the trouble. Two vessels were seen in the vicinity of the fishing ground, but left soon enough to escape recognition. The trawls were new, having been set for the first time.

Randall & Caswell's wharf presented a busy scene on Wednesday, the 28th inst. The docks around it were filled with vessels, and the fish-house was solid with fine specimens of cod and haddock. The following were the arrivals of vessels on that day, with their fares: Mary E. Caswell, 18,000 lbs.; Lizzie Adams, 6000 lbs.; Anna H. Mason, 8000 lbs.; Village Belle, 3000 lbs.; Nettie Adams, 6000 lbs.; Edward P. Morse, 7000 lbs.; Julia A., 5000 lbs.; Venus, 3500 lbs.; Iris, 1250 lbs.; small boats, 4500 lbs. These fares, with the arrivals on Tuesday night (fares landed on Wednesday,—some fifty thousand pounds,) make a total of about 112,500 lbs. One cod brought in by the Josie Johnson weighed 110 lbs., and a liver taken from a twenty-five pounds cod weighed eight pounds.

The schooner Helen F. Tredick brought in on Wednesday 15,000 pounds of fish, and the Water Lily about 10,000 lbs.

Schooner Mary S. Hontvet started on her first trip to Georges for this season, on Wednesday afternoon.

The annual meeting of the Portsmouth Odd Fellows' Mutual Relief Association was held at Odd Fellows hall on the evening of Jan. 27th. The reports of the secretary and treasurer shew the association to be in a flourishing condition. The following officers were elected for the ensuing year:

President, William W. Cotton;
Vice president, William Livingstone;
Secretary, R. G. Archibald;
Treasurer, Isaac Dow;
Directors, Benj. W. Curtis, James F. Hartshorn, Isaac Dow, Joan H. Rose, Wm. Livingstone, Oliver Goldsmith, Charles W. Gardner, Wm. S. Hazel, Charles N. Merrill.

WILLIAM H. BREWSTER.

William Henry Brewster, of Newburyport, a native of this city and brother of the late Charles W. Brewster, Esq., died at his home in Newburyport on Tuesday night, Jan. 27th, at the age of about sixty-eight years. Mr. Brewster learned the printer's trade in the Portsmouth *Journal* office, but when about twenty years old went to Boston, worked as a journeyman printer for two years, and then, associating himself with Joseph B. Morss under the firm name of Morss & Brewster, bought the Newburyport *Herald*, and published that paper until 1854, when Mr. Huse, the present senior proprietor of the *Herald*, became a member of the firm. In 1856 Messrs. Morss & Brewster sold their interest in the *Herald*, and shortly became interested in the Boston *Traveller*, in the business department of which paper Mr. Brewster filled an important position until compelled by ill health to retire, several months ago. He leaves a widow, the only daughter of the late E. W. Allen, and two sons and three daughters, all married.

SUPREME COURT.

In the case of Andrew P. Wendell and Henry Wendell vs. John A. M. Chapman, which was given to the jury on Saturday, the 24th inst., a sealed verdict was brought in which was opened on Tuesday, and found to be in favor of the piffs. in the amount of $384.60.

State vs. Edmund R. Ingalls. The deft. was indicted at the April term, 1879, for embezzlement. He was in March of that year the treasurer of the town of Candia, and claims to have been robbed of the sum of $3700, of money belonging to the town. It is true that he was found bound and gagged in his barn, and upon investigating his accounts he was found to be short of that amount; but the affair looked rather suspicious, and the town appointed a committee to investigate it, and they were not satisfied with Mr. Ingalls' story; and being convinced that he had appropriated the money to his own use and invented the story to clear himself, they procured his indictment. Ingalls' account of the affair, as he gave it to the investigating committee of the town and as given in evidence by the prosecution, is as follows:

On the night of March 4th, 1879, he was engaged in writing until about one o'clock, when he retired and slept about three hours, at the end of which time he was aroused by a noise in the barn, which is attached to the house by a shed. He got up and went out, did not find anything wrong, and came back and went to bed again, and dozed for about twenty minutes, when he heard another noise in the barn, whereupon he got up, dressed himself and took a kerosene lamp and went into the kitchen, thence into the passage-way leading to the barn. When he had passed about half-way through this passage he was seized by a man and the lamp knocked out of his hand. At this time a dark lantern flashed in his face, and he discovered three men, one of whom was larger than the other two. This was the only glimpse he had of the men, as the dark lantern was immediately turned off. They seized him, and having gagged him with a scarf, they secured him to a ladder by means of handcuffs. He was confined in this manner for about forty-five minutes, when his wife having missed him, came out from the house and released him. He claims to have had $3700, money belonging to the town of Candia, in a drawer in a secretary. On making an examination he found that the money had all been taken. The money was in two $500 bills and eleven $100 bills, and the rest was in packages of $100. Ingalls further told one of the State's witnesses that he had made out his report as town treasurer and left it in the sitting-room on a table on the night of the alleged robbery, and that the report was stolen; also his gold watch, which was in the pocket of his vest.

NAVY YARD ITEMS.

The cutting of ice from the pond on Seavey's island, for use on the navy yard, was commenced on Tuesday of this week.

On the 28th inst., John Stringer and William Stringer, workmen on the navy yard, during the hour given for dinner went over to Kittery. John Stringer paid a bill at one of the stores, and supposed he returned his pocket-book, containing about fifteen dollars, into his trousers pocket, but instead put it between his overalls and trousers, whence it fell through to the floor. William Stringer, seeing the wallet, gave it a kick, when another workman on the yard picked it up, claiming it as his. John Stringer, as soon as he found out his loss, went to the party who was supposed to have the pocket-book, but he denied all knowledge of the circumstance. The matter was brought before Constructor Wilson, who suggested that the men should settle the dispute among themselves. The pocket-book, with its contents intact, was afterward picked up in Kittery and returned to the owner.

YORK COUNTY ITEMS.

Mr. M. M. Duke's bakery at Old Orchard was burned, with all its contents, at one o'clock on Tuesday morning of this week, by an incendiary fire; loss about $800.

George H. Fogg, of the firm of McQuesten & Fogg, lumber dealers and saw-mill men at East Boston, was instantly killed, Jan. 27th, by having his head crushed by the canting of a new boiler he was assisting to set in the mill. He was a native of South Berwick, thirty-eight years old, and leaves a widow and one child.

The fire at Kittery on the evening of Jan 27th, which occasioned an alarm and turning out of the fire department in this city, was in the double-tenement house of Mr. John Dean, back of Armory hall. One of the tenements is occupied by Mr. Dean, and a tenant had that afternoon moved out of the other, the fire occurring in the latter. Mr. Dean smelled smoke, burst in the door, found the place on fire and gave the alarm, which was responded to by the navy yard fire department; the steamer Cataract took up a position on the Kittery end of the navy yard bridge, ran a line of hose up government street and down Armory lane, and back of Armory hall through a hold to the house, a distance of probably two thousand feet. The fire was soon put out, the damage amounting to about $500, principally from water.

Some young ladies of Biddeford on Monday evening of this week procured teams, skirmished around and picked up their young men, drove to Kennebunkport and ordered supper for the party, helped the young men out and into the vehicles and carefully guarded them from cold and annoyance, paid all the bills, and finally deposited the young fellows safely at their own doors before their ma's had become uneasy about them. A leap-year ball was given by the young ladies of Biddeford on Tuesday evening.

A hotel now in process of erection at Biddeford Pool for a Mr. Stackweather is to be one of the largest houses in Maine, having a front of 195 feet, and two wings each 165 feet long and thirty-four feet wide; it will be fifty-two feet from the foundation to the roof, above which will be a tower twenty feet high. A tank at the top of the house, holding 600 hogshead, will be filled with water pumped from a pond about an eighth of a mile distant, and water will be led to every room. Gasoline will be used instead of kerosene. The building is to be four stories high, with a mansard roof.

New Publications.

Andrews' Bazar for February appears in a new dress and is a brilliant number. Its pages are full of good things as an egg is of meat. Every topic is treated with wise discrimination, and all subjects relating to dress are given extended and practical notice. The literary features of the February number are particularly good. The little folks will be enchanted with "The Rose's Tea Party" and its charming illustrations. *Andrews' Bazar* has something for everybody; for mothers of moderate means, for housekeepers, for merchants and for leaders of fashion. We cannot forbear especial mention of its children's department, which is conducted with rare skill and rivals in attraction the children's magazines of the day. In short, from the first page to the last, it presents a superb appearance and fully justifies all that has been claimed for it. Single copies ten cents. For sale by newsdealers everywhere. Subscription price, $1.00 per annum. W. R. Andrews, publisher, Tribune Building, New York.

Messrs. Marden & Rowell, the two New Hampshire boys who run the Lowell daily *Courier* and weekly *Journal*, and the clerk's desk of the Massachusetts House of Representatives, have issued an almanac for 1880, which is one of the handsomest of the many that have come to us this year. It abounds in beautiful cuts, is neatly printed, contains a large amount of statistical information, and is in every way a credit to the enterprising publishers.

From the Hon. WM. TAYLOR, State Senator of Massachusetts.

MESSRS. WEEKS & POTTER: *Gentlemen,*—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel it in every sense of the word. I have been a great sufferer with skin diseases for the last twelve (12) years. My head and face being covered with sores, I could not rest with the burning heat and itching of the parts affected, and was confined to my house for three weeks at a time. My disease has been called Eczema, of a most aggravated type, by many physicians, but I doubt if it is fully understood by any of them. It was more like a combination of several skin humors. I have spent much money seeking a cure, and in 1877 I went to Europe, and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr. —— (whose reputation for the cure of those diseases was of the highest order) could cure me. I waited on the doctor; he prescribed for me, I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians, and among them Dr. —— of East Boston, and Dr. ——, of city proper, but all to no purpose. They did me no good; their remedies were so ineffectual that at no time did I feel that a cure would result from them.

I have swallowed five hundred arsenic pills, 5.20 grains, and taken bottle after bottle of internal remedies, besides all the external applications I have used but the effect was the same. I became satisfied that I could not be cured, but might be kept from getting worse.

Now, about three months ago, Mr. Meehan, a gentleman well known to Boston people, called my attention to your CUTICURA, and promised wonderful results if I would only make a trial. He told me of his own experience with it, and so persuaded me that I went with him to a drug store and bought two large boxes of CUTICURA, and a cake of CUTICURA SOAP, and commenced to use it according to the directions. The first was so much humor lodged within the skin, that as soon as I commenced the use of CUTICURA it came to the surface and festered, until vast quantities had come out and greatly intensified my sufferings for about one week. But I did not mind this, as I felt that I was going to get rid of the humor which I saw is coming to the surface in such large quantities. After the first two or three weeks' use of this remedy, I was greatly encouraged by a noticeable lessening of the inflammation of a number of painful sores. I carefully, faithfully, and cheerfully followed the directions to the letter, seeing each week nearer a cure, until at present, after three months use of CUTICURA, and twelve years of as constant suffering as was ever endured, I can say that I am cured, and pronounced my case the most remarkable on record. I have been so elated with my success that I have stopped one or two persons who were afflicted, and told them to get the CUTICURA, and it would cure them. This is why I am so grateful to you, for I feel, yet to be the best and most efficacious cure of the age, and that it will cure all who are suffering with these diseases. I may add that I took no internal medicine but the CUTICURA RESOLVENT. WILLIAM TAYLOR.

BOSTON, Aug. 22, 1878.

THE CUTICURA REMEDIES

CUTICURA RESOLVENT is the most powerful Blood Purifier and Liver Stimulant ever compounded.

CUTICURA is the great external remedy for all Humors of the Scalp and Skin, Ulcers, and Old Sores.

CUTICURA SOAP is an elegant toilet and medicinal assistant to CUTICURA for all external affections.

Prepared by WEEKS & POTTER, Chemists and Druggists, 360 Washington Street, Boston, Mass., and for sale by all druggists and dealers. Price of CUTICURA, small boxes, 50 cents; large boxes, containing two and one half times the quantity of small, $1. Resolvent, $1 per bottle. CUTICURA SOAP, 25 cents per cake; by mail, 30 cents; three cakes, 75 cents.

COLLINS' VOLTAIC ELECTRIC PLASTERS

Hundreds of little nerves and muscle-centres in the Electrical Action of these wonderful Plasters, the moment they are applied. They instantly Annihilate Pain, Strengthen Weak and Painful Parts, Draw Poisons from the Blood, Prevent Fever and Ague, Liver and Kidney Complaints.

KIDNEY-WORT

PERMANENTLY CURES KIDNEY DISEASES, LIVER COMPLAINTS, Constipation and Piles.

DR. R. H. CLARK, South Hero, Vt., says, "In cases of KIDNEY TROUBLES it has acted like a charm. It has cured many worst bad cases of PILES, and has never failed to act efficiently."

NELSON FAIRCHILD, of St. Albans, Vt., says, "It is of priceless value. After sixteen years of great suffering from Piles and Costiveness it completely cured me."

C. S. HOGADON, of Berkshire, says, "one package has done wonders for me in completely curing a severe Liver and Kidney Complaint."

IT HAS WONDERFUL POWER. WHY?

BECAUSE IT ACTS ON THE LIVER, THE BOWELS AND KIDNEYS AT THE SAME TIME.

Because it cleanses the system of the poisonous humors that develope in Kidney and Urinary diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia and Female disorders.

KIDNEY-WORT is a dry vegetable compound and can be sent by mail prepaid.

One package will make six qts of medicine.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION, Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains 30 artistical and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

THE

New Hampshire Gazette

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

—THE—

NEW HAMPSHIRE GAZETTE

Contains more original matter

CAPCINE
BENSONS CAPCINE

A Word to those who use Porous Plasters. It is a universally acknowledged fact that BENSON'S CAPCINE POROUS PLASTERS ARE SUPERIOR TO ALL OTHERS! The great demand for them has caused a number of unscrupulous parties to make and sell worthless imitations under similar sounding names. ONE DOLLAR A YEAR.

The circulation of this popular newspaper has more than trebled during the past year. It contains all the leading news contained in the Daily Herald, and is arranged in handy departments. The

Foreign News

embraces special dispatches from all quarters of the globe. Under the head of

American News

are given the Telegraphic Dispatches of the week from all parts of the Union. This feature alone makes

The Weekly Herald

the most valuable chronicle in the world, as it is the cheapest. Every week is given a faithful report of

Political News

embracing complete and comprehensive despatches from Washington, including full reports of the speeches of eminent politicians on the questions of the hour.

The Farm Department

of the Weekly Herald gives the latest as well as the most practical suggestion and discoveries relating to the duties of the farmer, hints for raising Cattle, Poultry, Grains, Trees, Vegetable, &c., &c., with suggestions for keeping buildings and farming utensils in repair. This is supplemented by a well-edited department, widely copied, under the head of

The Home,

giving recipes for practical dishes, hints for making clothing and for keeping up with the latest fashions at the lowest price. Every item of cooking or economy suggested in this department is practically tested by experts before publication. Letters from our Paris and London correspondents on the very latest fashions. The Home Department of the Weekly Herald will save the housewife more than one hundred times the price of the paper. The interests of

Skilled Labor

are looked after, and everything relating to mechanics and labor-saving is carefully recorded. There is a page devoted to all the latest phases of the business markets, Crops, Manufactures, &c., &c. A valuable feature is found in the specially-reported prices and conditions of

The Produce Market.

Sporting News at home and abroad, together with a Story every week, a Sermon by some eminent divine, Literary, Musical, Dramatic, Personal and Sea Notes. THE GREATEST LIVING AUTHORS, such as Prof. Max Muller, Rt. Hon. W. E. Gladstone, Jas. A. Froude, Prof. Huxley, R. A. Proctor, Edw. A. Freeman, Prof. Tyndall, Dr. W. B. Carpenter, Frances Power Cobbe, The Duke of Argyll, Wm. Black, Miss Thackeray, Mrs. Mulock-Craik, Geo. MacDonald, Mrs. Oliphant, Jean Ingelow, Mrs. Alexander, Thos. Hardy, Matthew Arnold, Henry Kingsley, W. W. Story, Turguenief, Carlyle, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh year*, admittedly unrivalled and continuously successful. During the year it will furnish to its readers the productions of the most eminent authors, *above-name d and others*, with a fulness of the Choicest Serial and short stories by the *Leading Foreign Novelists*, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the *foremost Essayists, Scientists, Critics, Discoverers* and *Editors*, representing every department of Knowledge and Progress.

THE LIVING AGE is a *weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents it in an inexpensive form, giving the greatest amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication. It embraces Essays, Reviews, CRITICISMS, Tales, Sketches of Travel and Discovery, Poetry, Scientific Biographical, Historical and Political Information—in fact the entire body of Foreign Periodical Literature.

THE IMPORTANCE OF THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE compilation of an indispensable current literature, *indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"It affords the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

The Promoter and Perfector of Assimilation.

The Reformer and Vitalizer of the Blood

The Producer and Invigorator of Nerve and Muscle.

The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or enterrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name: no other preparation is a substitute for this under any circumstances.

MPORTANT LETTE

From a Distinguished Physician.

NO single disease has entailed more suffering or has tened the breaking up of the constitution the starve. The sense of smell, of taste, of sight, of hea ing, the human voice, the mind, one or more and some shes all yield to its destructive influence. The poison ventilates throughout the system attacks every vi rgan, and breaks up the most robust of constitution shored because, but little understood by most physi ans, impotently assailed by quacks and charlatan. ose suffering from it have little hope to be relieve f it the side of the grave. It is time, then, that t popular treatment of this terrible disease by remedi within the reach of all passed into hands at once co ctent and trustworthy. The new and hitherto unt ethod adopted by Dr. Sanford in the prepa tion is RADICAL CURE has won my hearty approval. I b ere it likely to succeed when all the usual remedi ll, because it strikes at the root of the disease, vi e deteriorated blood, while it heals the ulcerated me rane by direct application to the nasal passages. ction is based on certain fixed rules, and unless th ital forces are too far exhausted, must, in the gre ajority of cases, effect a cure.

Ex-Gov. Cheney and wife gave a brilliant reception at their residence on Lowell street, Manchester, on Thursday evening, in honor of Col. Thos. L. Livermore, the new resident manager of the Amoskeag Co. at Manchester. There were present, besides large numbers of Manchester people, many guests from Portsmouth, Dover, Concord, Nashua and other places in the State.

John W. Butler of Woodsville was run over and fatally injured Jan. 27th, while shifting cars. His foot caught between the rails, one car passing over his left leg, crushing it from foot to knee. The doctors amputated the limb. He lived but a short time after the operation.

It is reported that the late Andrew Moody of Hanover has left a contingent interest of considerable amount to Dummer academy. An only child, a daughter, survives him. In case of her death without issue the property will pass to the trustees of the academy.

of all descriptions are relieved at once, and speedily cured by Kidney-Wort. It seems intended by nature for the cure of all diseases of the kidneys caused by weakness and debility. Its great tonic powers are especially directed to the removal of this class of diseases. Try it to-day.

The governor of Virginia has ordered a company of militia to report to the sheriff of Shenandoah county, where fears of a race conflict are entertained, consequent on the substitution of colored men for whites in several large iron furnaces.

Guard Against Disease.

If you find yourself getting bilious, head aches, mouth foul, eyes yellow, kidneys disordered, symptoms of piles tormenting you, take at once a few doses of Kidney-Wort. It is nature's great assistant. Use it as an advance guard—don't wait to get down sick.

Portsmouth Chronicle

[Entered at the Post-Office at Portsmouth, N.H., as second-class matter.]

FRIDAY, JANUARY 30, 1880.

The Farce Ended.

On the 29th Messrs. Strickland of Aroostook, Barker, Rogers, Patten and Atwell of Penobscot, Rankins of Oxford and Linn of Somerset, members of the late lamented fusion "Senate," took their places in the legal legislature of the State of Maine.

In the legal House, forty-two of the members of the late rump concern took their seats, among them being Messrs. Haskell of Turner, Wilson of Orono, Leslie of Hartford, Record of N. Gloucester, Hills of Union, Hastings of Sidney, Bridgeham of No. 14 plantation, McLaughlin of Carmel, Knowle of Bradford, Whipple of Bingham, Long of Fort Fairfield, Ingall of Wiscasset, Washburn of Greene, Farrell of Van Buren, Dickey of Fort Kent, Gushee of Appleton, Smith of Buxton.

The Garcelon Infamy.

The following passage from the answer of the Maine supreme court to the questions propounded by the fusion "legislature" of that State, must have made Garcelon and his precious gang of councillors feel good:

We cannot shut our eyes to the fact that the governor and council then in office disregarded the opinion of the court given in answer to the governor's questions, omitted to revoke the summons illegally issued to men who did not appear to be elected, or to issue summonses to men who did appear to be elected. We know that the officers who presided in the convention of members-elect of the Senate and House on the first Wednesday in January recognized as members of both those bodies men unlawfully introduced into them by the unconstitutional and illegal methods pursued by the governor and council, and refused to recognize men who appeared to be legally elected, and refused to permit any appeal from the illegal decisions to the bodies over which they were temporarily presiding. The report of the committee of the council, and the action of the governor and council thereon, of which we must take judicial notice, show that men were thus admitted and excluded, upon grounds which this court declared, in their answer to Gov. Garcelon's questions, to be untenable and illegal. * *. We cannot recognize a House of Representatives, to make a quorum in which the presence of these men was necessary, as a lawfully constituted body or capable of performing any functions of a House of Representatives, when due protest was made in behalf of those who were in fact elected by the people. In like manner the presence in the Senate of men claiming seats to the exclusion of those whom a canvass legally conducted would show to be elected, and being recognized as members of the convention by the temporary presiding officer, who, though the protest against his illegal action was made on the spot, refused to permit an appeal from his decision to the convention of senators-elect, vitiated the organization of that body.

The closing portion of the judges' answer, confirming the legality of the so-called republican legislature, is as follows:

A legally organized legislature being now in existence and exercising its constitutional functions, if follows that no convention of members-elect of either house can exist which can be treated as a nucleus for another organization. Two governments are claiming to be in existence as valid and entitled to the obedience of the people. Both cannot rightfully exist at the same time; but one government can be recognized and obeyed. The responsibility and solemn duty are imposed upon us to determine which is entitled to judicial recognition. We therefore, after due deliberation and consideration of all matters involved, affirm and declare our judgment to be that the Senate whose presiding officer is Hon. Joseph A. Locke, and the House of Representatives whose presiding officer is Hon. George E. Weeks, constitute the legal and constitutional legislature of the State.

News and Notes.

A man named Haggerty was beheaded on the Providence & Worcester railroad on the night of Jan. 27th, probably by a freight train. He had been in the Woonsocket police station for drunkenness, but was discharged when thought to be sober enough to get home. He reached Blackstone, and probably got intoxicated again.

Frank Cole, aged ten years, Daniel Boyle, aged thirteen, and Louis Meyer, aged twelve years, were arrested by the police of New York on the morning of Jan. 28th. They were tramping along with three large bundles, and looked as if they were equipped for a long voyage. They stated that they had come from Boston and were going west. When searched at the station house their pockets were found to be crammed with "boys' literature," while they each carried two loaded revolvers. Cole was an errand boy in Tenny's drug store in Worcester, Mass., and tapped his employer's till to furnish the money for the expedition. The police sent the little sapheads home.

John Anderson, in Wethersfield, Conn., prison for murdering Horatio G. Hall at Wallingford, in 1874, has become so insane that he has been chained to the prison wall to prevent him from murdering others. A long, sharp knife was recently found concealed in his bed, and on removing him from his cell he fought the officers desperately. The officials have to give him the same attention as would be given a child. No one is allowed to see or talk with him. Kate Cobb has grown handsome and fleshy, and says that she never felt so well in her life. She is perfectly contented at the prison, works hard, gives no trouble, and is well liked by the officers. Mrs. Cobb is a fine ironer, and does up all the shirts and fine ironing there is to be done in the prison. Welsey W. Bishop, Mrs. Cobb's partner in crime, is a scrawny, ignorant-looking fellow. He works in Clark & Holbrook's shoe shop, and is one of the best of the inmates of the prison.

Capt. Clark H. Wells has been nominated to be a captain in the navy.

The bill appropriating the sum of $75,000 for the purchase of a site for a new naval observatory has passed Congress.

A Perfect Steel Shaft.

The Nashua *Telegraph* says:

The Nashua Iron & Steel company, Mr. John D. Swain superintendent, has shipped to Gray's Iron Line, Pittsburg, Penn., for its line of Ohio river steamers, the largest steel shaft ever forged in this or any other country. It is twenty-eight feet six inches in length, thirteen inches in diameter, weighs 10,990 pounds, is handsomely lathe-turned, and those who are competent judges of such metal pronounce it the finest piece of steel—there being no imperfect places in it, and the color being brilliant—that has ever been seen in a large quantity in Nashua. One of the largest and strongest of the Pennsylvania railroad's cars was necessarily obtained for its shipment. The management of the works of the company are evidently in good hands, and, unless all signs fail, such advantage will be taken of the improved condition of the market to which it caters, as to encourage its stockholders and make it once more one of the establishmets that are the pride and prosperity of the people.

We are glad to note the revival of business among our manufacturers, and congratulate the Nashua Iron and Steel Co. upon securing a competent, experienced and able man for their superintendent in Mr. Swain, although we are sorry to have him leave our city. But what is Portsmouth's loss is Nashua's gain.

—An agent representing the New England heirs of the Hyde estate in England has sailed for Europe to look into the case, in order to establish the claims of his clients. The amount in issue is represented at $360,000,000.

—The celebrated Lassing was forgetful, and having missed money at different times without being able to discover who took it, determined to put the honesty of his servant to a trial, and left a handful of gold on the table. "Of course, you counted it?" said one of his friends. "Counted it?" said Lessing, rather embarrassed. "No: I forgot that."

Brown's Household Panacea

Is the most effective Pain Destroyer in the world. Will most surely quicken the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic or acute, than any other pain alleviator, and it is warranted double the strength of any similar preparation.

It cures pain in the side, back or bowels, sore throat, rheumatism, toothache and all aches.

The great reliever of pain, "Brown's Household Panacea," should be in every family. A teaspoonful of the Panacea in a tumbler of hot water (sweetened, if preferred), taken at bedtime, will break up a cold. 25 cents a bottle.

Much Sickness,

Undoubtedly with children attributed to other causes, is occasioned by worms. Brown's Vermifuge Comfits, or Worm Lozenges, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely sure in eradicating worms, so hurtful to children. Twenty-five cents a box. t,th&f

AROUND HOME.

Rev. C. B. Pitblado will lecture in the Methodist church, Sunday evening: subject, "Resurrection."

The funeral of the late William H. Brewster will take place from his residence, No. 8 Summer street, Newburyport, this morning at half past ten o'clock.

One John King was arrested in Gloucester, Mass., Jan. 28th, on a charge of bigamy, having, as alleged, a wife in Beverly, Mass., and one in this city. He was taken to Beverly for examination.

Schooner Metacom, of 11.31 tons register, formerly owned in Kittery but lately hailing from Newburyport, has been sold by J. G. Stevens of the latter place to parties in this city, and will pass to her new owners on March 1st.

It is reported that the Eastern railroad is to have immediately constructed three hundred new freight cars, and ten new passenger cars. The Portland company has a contract for the construction of two hundred and fifty freight cars from different roads.

The Portsmouth Shoe Co. have secured the brick building on the corner of State and Church streets, formerly known as the Nowell shoe factory and recently occupied by J. K. Nute, in the same business. The new company take possession Feb. 1st.

Mr. Cole's chorus class, with singers generally interested, will rehearse choruses from the "Creation," with orchestra, at the Middle street Baptist vestry on Monday evening, Feb. 2d, at half past seven o'clock. All interested are invited. Convention Feb. 9th to 13th. See advertisement.

We are requested to call the attention of the reader to an advertisement in another column of a lecture by Mr. J. Frank Baxter in Mechanics' hall this (Friday) evening, upon the subject of the "Possibilities of Spirit Communion." Mr. Baxter was formerly a successful and respected teacher in the public schools of Massachusetts. Go and hear him. An admission fee of five cents will be charged to defray hall expenses.

On the afternoon of Jan. 28th a cask of crockery was sent to Faith Home by Mr. Lemuel E. Caswell of Boston, a native of this city, and of the firm of Abram French & Co., importers; this is the second gift of crockery from Mr. Caswell within two years. A surprise party was given on the evening of the same day by members of the Congregationalist church and other friends, at Faith Home, where a generous supply of food, both cooked and uncooked, was left by the visitors. The Lord bless them for their kind remembrance. L.

The festival on Wednesday evening, Jan. 28th, in the vestry of the Pearl street church, in aid of the Sabbath school, was a success financially and socially. Supper was served for the Sabbath school children at six o'clock. The "old folks" gathered later, and refreshments were for sale all the evening. A short entertainment was given, consisting of dialogues and recitations, including a reading by Miss Fannie Deverson, which was much enjoyed. Mr. John Johnston, as auctioneer, at half-past nine o'clock disposed of the articles then unsold, at good prices.

POLICE COURT.

THURSDAY, Jan. 29; *Batchelder, J.*

Josiah Randall, for an assault on Lemuel B. Caswell, was fined $5, costs $6.90.

DROWNED.

Michael Hurley, of No. 10 Penhallow street, while engaged in cutting ice on the pond back of the Eldredge Brewing Co.'s buildings, on Thursday afternoon last, was with another man thrown into the water by the slipping of a cake of ice; the other man was rescued, but Mr. Hurley was drowned. He was about sixty years of age, a very quiet and inoffensive man, and leaves a wife and several children.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, regular meeting, Thursday evening:

Chief engineer's annual report was accepted and ordered to be printed. Certain recommendations contained in the report were referred to the committee on fire department.

A vote was passed requesting the chief engineer to issue an order that the fire alarm of this city be not sounded for a fire at the navy yard or Kittery, unless the proper signal for assistance be given.

Committee on city lands and buildings asked further time to report in relation to the request of Wilbur I. Trafton, and on the subject of placing a fire engine in the store now occupied by Mercer Goodrich.

Committee on police reported the city marshal's report correct, and it was ordered printed.

Asst. Marshal Gray made a request that he be reimbursed the expense incurred by him in defending himself in the suit brought against him by Patrick Keefe. Referred to committee on police, to report.

SUPREME COURT.

THURSDAY, Jan. 29th; *Clark, J.*

State vs. Ingalls was on trial; third day. The prosecution having rested, at the opening of the court Capt. Patten of Manchester, counsel for the accused, made the opening plea for the defence; and then Ingalls took the witness stand, and occupied nearly all the rest of the day. His testimony was given with great detail, and as Capt. Patten had foreshadowed, his defence is the robbery of himself by unknown men on the night of March 4th, 1879, of the funds of the town. He was remarkaby cool and collected, and bore the test well. The cross-examination by Attorney General Tappan was brief, only touching the point of how much Ingalls was worth at the time of the alleged robbery.

John E. Mead of Northwood, a well-known citizen and merchant of that town, was the next witness, and was followed by Benjamin S. Kelley of the same town; both testified to seeing suspicious appearing parties pass their places on the morning after the alleged robbery of Ingalls. At Kelley's place they enquired for one Witham, a notorious character of the town.

Mr. Alonzo Griffin and wife, of Candia, closed the testimony for the day.

The jurors not engaged on the Ingalls case were excused from further attendance.

The following is a list of the jurors for the next two weeks:

James Moses, Henry D. Ridge, Thomas F. Stackpole, Daniel S. Brough-ton, Portsmouth; Ivan T. Purinton, Henry E. Reed, Exeter; Caleb F. Edgerly, Eben K. Jenness, Epping; John F. Lyford, Bainbridge V. B. Lyford, Fremont; Sewell T. Johnson, Nathan Johnson, Hampstead; Simeon Shaw, Abbott L. Joslyn, Hampton; Charles A. Nason, James D. Janvrin, Hampton Falls; Thomas J. Kimball, David Brown, Kensington; George W. Boyce, Thomas M. Holmes, Londonderry; Chas. W. White, Gilbert M. Trussell, Newcastle; Charles W. Nutter, Robert H. Pickering, Newington; John S. Brown, A. Judson Sawyer, Newton: John W. F. Hobbs, Ira J. Taylor, North Hampton; Dudley C. Littlefield, George E. Brackett, Greenland.

The next case to be tried is that of Daniel Challis and Joseph C. Challis of Amesbury, Mass., vs. Samuel P. Carter and George Carter of Newton; action of trespass, to recover for cutting of cedar posts on land owned by plaintiffs.

COUNTY TEMPERANCE CONVENTION.

The Rockingham County Temperance Convention convened at Newmarket, Jan. 29th, at 10:30 o'clock A. M., in the Methodist vestry. Not a very large number of persons were in attendance, but those present were very much in earnest, and the meeting was extremely interesting. The officers of the permanent organization were:

President, Frank W. Miller, of Portsmouth;

Vice Presidents, Rev. I. C. White of Newmarket, Joseph Pettigrew of Portsmouth, Rev. J. H. Stearns of Epping, Eben Joy of Newmarket, Mrs. Samuel Hooper of Portsmouth, Mrs. McIntire of Exeter, Mrs. Harvey of Newmarket;

Secretary, Charles T. Wiggin of Portsmouth.

A committee was appointed to draft a constitution for a Rockingham County Temperance Association; this committee reported a constitution, which was adopted, after which the convention elected officers for the ensuing year as follows:

President, Frank W. Miller;

Vice Presidents, Rev. Isaac C. White, Newmarket; Hon. J. W. Lyman, Exeter; Rev. A. C. Carter, Hampton; Rev. J. H. Stearns, Epping; Charles E. Campbell, Newcastle;

Secretary, Charles T. Wiggin;

Treasurer, Samuel A. Haley, Newmarket.

The next meeting will be held at Epping, on the first Tuesday in March next.

CONCERT AT EPPING.

A concert was given in aid of the Congregational society in Epping on Wednesday evening, Jan. 28th. Miss Mabel Hooke, of Haverhill, performed upon the violin, as also did Mr. Maurice Moore of that city. Miss Emma E. Pike of Epping gave two piano solos, and Mr. Wm. F. Parker sang two selections; but the star of the evening was Miss Edith Wendell of this city, who sang "Robert! toi que J' aime," from the opera of Robert le Diable, with fine effect, eliciting liberal applause. Miss Wendell also sang "One morning oh! so early," and other selections. The attendance was large, and the efforts of the artists seemed to be highly appreciated by all present.

NAVY YARD ITEMS.

The ice cut on the Seavey's Island pond for use on the navy yard is only about six inches thick, and not very solid at that; but the navy yard people are afraid to put off harvesting the ice any longer, lest there should not be any thickness at all to it.

It is reported that the pay of the foremen on the navy yard, recently reduced, has been put back to the old rates. The pay of the mechanics and laborers was reduced before that of the foremen, and the men put on half-time, or even less; and if any restoration of pay was to be made, we should think the laborers and mechanics entitled to the first consideration. But we hope the report that the foremen's pay has been restored is true, for all that.

CIRCUIT COURT OF THE UNITED STATES.

DIST. OF NEW HAMPSHIRE—LOWELL, J.

Hyren Henry vs. the Francestown Soapstone Company. This is a bill in equity for infringement of a patent (No. 22,787) to Porter Dodge, granted February 1, 1859, for an improved air-tight stove, made of a double course of slabs or panels of soapstone, held together by an iron frame. The application was prepared and signed December 26, 1856; a model was filed on the next day; the application was filed February 14, 1857. In 1877, Judge Shepley entered a decree for the complainant: (see, Henry vs. Francestown Soapstone Co., 9 Off. Gaz. 408.) In February, 1879, Judge Clark granted a rehearing of the cause upon affidavits tending to prove that Dodge had sold one of his stoves to Harvey Huntoon, and another to John H. Patch, more than two years before his application. Evidence was taken, and the rehearing was had before Judge Lowell; Causten Brown and Jabez S. Holmes, for the defendants; Thomas L. Livermore, for the complainant. The following is the opinion of the court:

"The evidence in the original case tended to show that Dodge made a few stoves, embodying his invention, in the autumn of 1854; that he was not fully satisfied with the iron part of the work, and caused it to be cast more carefully; and that he did not sell his stoves generally and extensively in the market until within two years before February 14, 1857, when his application was filed, but that he did sell the stoves which he then had, or some of them, in December, 1854, or January 1855. Judge Shepley said (9 Off. Gaz. 409:) 'There is but one sale clearly proved before February 14, 1855, and no evidence tending to show more than two or three sales before that time, and all of them accompanied with a notice of intention to apply for a patent, and all of these during the time he was experimenting upon, and before he had perfected his invention and attained sufficient perfection in the castings to satisfy himself that his invention was practically successful. As in most, if not all, of these instances, the stoves were delivered on trial, to be returned if the invention did not work satisfactorily, they are to be regarded rather in the light of such practical tests as the law permits an inventor to make, than as such public sales as would tend to show abandonment, or mislead the public into a belief that the inventor had made a dedication to the public.' Upon the rehearing two more sales of stoves, one to Huntoon, and one to Patch, are proved to have been made by Dodge more than two years before February 14, 1857; but in that sold to Huntoon the inner panels of soapstone appear to have been made of the full length of the frame, while the patent describes them as being cut shorter to allow for expansion upward. The defendants have introduced evidence that there is no need of shortening the inner lining, because soapstone does not expand upward; and the plaintiff has evidence that it does or may expand in that direction. However this fact may be, this stove appears to have been made in what Dodge thought an imperfect form, and, therefore, may be held not a sale of the invention: (Draper vs. Wattles, 16 Off. Gaz. 629.) The inventor is dead, and the terms and particulars of the sale of the Patch stove are not proved; and I think it possible that, if the new evidence had been before Judge Shepley, it would not have changed his opinion. He found one sale, and evidence which inclined him to think that there might have been two or three more, and yet sustained the patent. I find myself differing from my eminent predecessor upon the effect of the evidence, and have had great doubts as to my duty. I have determined that, as new evidence has been produced which I must act upon, my action must be in accordance with my own views of its effect. I cannot understand the new evidence without opening the whole record, and I must act upon what I find in the old and new evidence together. In my opinion the evidence tends to show a sale of the invention. True, some of the sales were conditional; that is to say, the stoves were to be returned if they were not satisfactory to the buyers; but this does not, without further explanation, prove that they were experimental. It may show that the purchaser had doubts about the article, but does not prove any on the part of the seller. Sales in the usual course of business, whether absolute or conditional, if they are sales of the patented thing, work a forfeiture. A single sale has this effect, as well as a hundred sales. It is very unlikely that a buyer would take what he understood to be an experimental thing; but if he did, the evidence should be unequivocal that a test of the invention was one of the purposes of the seller. This article could be tested by the inventor as well in his own house as in any other place; and when he sold it, in its completed form, though with warranty or on condition, he sold it. Upon the facts, the stove appears to have contained the invention within the doctrine of Am. Hide &c. Co. vs. Am. Tool Co., 1 Holmes, 508, 513, in which Judge Shepley charged that the thing sold need not be perfect in the mechanical sense, but only in that it embodied the completed invention in a form which would be operative.' Indeed, this stove appears to have been perfect in both senses, for it has been in successful use for about twenty-four years. Judge Shepley found that the sales in evidence before him were made while the inventor was still conducting experiments of his own. Granting, then, that the sales themselves were not experiments, and that at least two of the stoves contained the completed invention, does it save the forfeiture that the inventor himself was still trying his invention? I think not. The courts very properly limit the meaning of 'public use' to a use in the ordinary way, and they may so limit the word 'sale,' if they can ever be persuaded of the fact; but whether use or sale, that particular transaction must be experimental, or it is within the forfeiture of the statute. But further, I do not find the fact to be that the inventor was still experimenting. As I read the evidence, all that Dodge was then trying to do, was, to bring his stoves into the highest state of mechanical perfection. The precise day of the Patch sale is not proved; but it was in December, 1854, and the stove had upon it the words 'registered for patent, 1854,' which confirms the conclusion that it was after the invention was complete. Neither filing the model, nor writing the paper commonly called an application, gives the date of the application from which the two years is to be reckoned. 'Application,' in this connection, includes the paper, or some written paper, and its presentation to the commissioner. One who desires a patent for his invention may apply in writing to the commissioner. There is no evidence that any writing accompanied the model, and none that any application was made until February 14, 1857. It would be most dangerous to hold that an application signed and kept in the inventor's pocket would answer the demand of the statute. In Birdsall vs. McDonald, 6 Off. Gaz. 682, cited for the plaintiff, the solicitor neglected to file the application, and the court held that this neglect was not evidence of the inventor's abandonment of his invention. On the point of sale, Mr. Justice Swayne says: 'He sold no machine prior to two years before the filing of his application.' As to filing the model, see Draper vs. Watties, 16 Off. Gaz. 629. The time allowed for the use and sale of the invention is liberal, though arbitrary. It is a pity that a valuable invention should be lost by an inadvertance, but the policy of the law is well founded, and it must be carried out. I find that this invention was 'on sale' more than two years before the application, and therefore the patent was void. The patent having been sustained at the first hearing, the complainant should have his costs to the time when the rehearing was ordered. Of the rehearing itself, I give no costs to either party."

Decree accordingly.

A Medicinal Wine for Kidney Complaint.

In this age of "extended liquors," it is pleasant to know that there is one article of pure wine in the market for medicinal use. We have references to Speer's Sambuci Wine, which was on exhibition at the Fair, and a glass was given to each visitor who claimed it. A glass was proffered to me, and I touched it to my lips somewhat unwillingly, but was agreeably disappointed in finding it one of the most delicious Wines I had ever tasted. I doubt whether there is a vineyard in the Old or New World that can yield a Wine at all comparable to this in richness and delicacy of flavor. Mr. Speer prepares it by a new process peculiar to himself, without the addition of spirits, and each bottle he sells is guaranteed to be four years old. It is largely used in the New York and European hospitals for Dropsy, Gout and all kidney complaints. It has found its way it would seem, to London and Paris Hospitals, as the best Wine to strengthen and build up a consumptive or debilitated system.—*Boston Evening Transcript.*

Senator Zach. Chandler.

In the United States senate, Jan. 27th, eulogies upon the late Senator Chandler were pronounced by Senators Blair, Ferry, Anthony, Bayard and Morrill. Mr. Bayard in the course of his remarks said:

But there were traits and qualities in Mr. Chandler that all men may dwell upon with admiration and respect, and which I have now a melancholy satisfaction in attesting. He was impulsive, outspoken, sincere and generous,—as open foe and a steady and courageous friend. His hand was open, for he was "a cheerful giver." He possessed a mind of superior force and sagacity, and his faculties for the administration of affairs were eminently practical and effective.

In one important respect he supplied an example valuable in any government and especially in one so popular in its form and nature as our own. I refer to the fact on no occasion was Mr. Chandler known to use his official position for his own pecuniary gain, directly or indirectly. His death has ended a long career of public service in executive and legislative capacities, and throughout, his hands were ever clean of unjust or illegitimate gain,—for did his bitterest political foe (and no man evoked stronger personal criticism) ever charge or even suspect him with making personal profit out of his political station and opportunities.

He was a man of vigorous, frank nature, and his virtues and his faults were the natural outgrowth. Free-handed and open-hearted, he kept his word, despised a coward and loathed a hypocrite.

Standing now, as it were, above his newly made grave, I bear willing testimony to these personal virtues, and can recall many instances of his accommodating kindness and personal courtesy, which rendered the transaction of business with him so easy and agreeable.

Who is it?

A native of New Hampshire it is said has promised to give fifty thousand dollars to Dartmouth college, provided two persons named have charge of the fund. The donation will be appreciated by the college. The name of the "princely donor" was to have been promulgated in Boston on the 28th inst., but we have not yet seen it publicly announced.

—A Hansom cab, of the regular London pattern, has made its appearance in Boston.

KIDNEY-WORT

PERMANENTLY CURES

KIDNEY DISEASES, LIVER COMPLAINTS, Constipation and Piles.

DR. R. H. CLARK, South Hero, Vt., says, "I have used KIDNEY-WORT in my practice and selected like a charm. It has cured many very bad cases of PILES, and has never failed to act efficiently."

NELSON FAIRCHILD, of St. Albans, Vt., says, "It is of priceless value. After sixteen years of great suffering from Piles and Costiveness it completely cured me."

C. G. HOGARDUS, of Cohoes, says, "one package has done wonders for me in completely curing a severe Liver and Kidney Complaint."

IT HAS WONDERFUL POWER. WHY? Because

BECAUSE IT ACTS ON THE LIVER, THE BOWELS AND KIDNEYS AT THE SAME TIME.

Because it cleanses the system of the poisonous humors that develope in Kidney and Urinary diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia and Female disorders.

KIDNEY-WORT is a dry vegetable compound and can be sent by mail prepaid.

One package will make six qts of medicine.

Cuticura

From the Hon. WM. TAYLOR, State Senator of Massachusetts.

MESSRS. WEEKS & POTTER: *Gentlemen,*—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel it in every sense of the word. I have been a great sufferer with skin disease for the last twelve (12) years. My head and face being covered with sores, I could not rest with the burning heat and itching of the parts affected, and was confined to my house for three weeks at a time. My disease had been called Eczema, of a most aggravated type, by many physicians, but I doubt if ever fully understood by any of them it was more like a combination of several skin humors. I have spent much money seeking a cure, and in 1867 I went to Europe, and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr.——(whose reputation for the cure of these diseases was of the highest order) could cure me. I waited on the doctor; he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians, and among them Dr.——, of East Boston, and Dr.——, of city proper, but all to no purpose. They did me as good; their remedies were so ineffectual that at no time did I feel that a cure would result from them.

I have swollen and broken out in great blotches, 5.50 grain, and taken bottle after bottle of internal remedies, besides all the external applications I have used but the effect was the same. I became satisfied that I could not be cured, but might be kept from getting worse.

Now, about three months ago, Mr. Meehan, a gentleman well known to Boston people, called my attention to your CUTICURA, and promised wonderful results if I would only make a trial. He told me of his own experience with it, and so persuaded me that I went with him to a drug store and bought two large boxes of CUTICURA, and some CUTICURA SOAP, and commenced to use it according to the direction. There was so much humor lodged within the skin, that as soon as I commenced the use of CUTICURA it came to the surface and festered, until such quantities had come out and greatly intensified my sufferings for about two weeks. But I did not mind this, as I felt that it was going to get out of the humor when I saw it coming to the surface in such large quantities. After the first two or three weeks' use of this remedy, I was greatly encouraged by a gradual lessening of the inflammation of a number of painful sores. I carefully, faithfully, and cheerfully followed the directions to the letter, feeling each week nearer a cure, until at present, after three months use of CUTICURA, and twelve years of as constant suffering as was ever endured, I can say that I am cured, and pronounced my case the most remarkable on record. I have been so elated with my success that I have stopped men on the street who were afflicted, and told them to get the CUTICURA, and it would cure them. This is why I am so grateful to you, for I believe it to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I may add that I took no internal medicine but the CUTICURA RESOLVENT. WILLIAM TAYLOR.

Boston, Aug. 22, 1878.

THE CUTICURA REMEDIES

CUTICURA RESOLVENT is the most powerful Blood Purifier and Liver Stimulant ever compounded.

CUTICURA is the great external remedy for all Humors of the scalp and Skin, Ulcers, and Old Sores.

CUTICURA SOAP is an elegant toilet and medicinal assistant to CUTICURA for all external affections.

Prepared by Weeks & Potter, Chemists and Druggists, 360 Washington Street, Boston, Mass., and for sale by all druggists and dealers. Price of CUTICURA, small boxes, 50 cents; large boxes, containing two and one half times the quantity of small, $1. Resolvent, $1 per bottle. CUTICURA SOAP, 25 cents per cake; by mail, 30 cents; three cakes, 75 cents.

POROUS PLASTER

BENSONS CAPCINE PLASTER

A Word to those who use Porous Plasters. It is a universally acknowledged fact that BENSON'S CAPCINE POROUS PLASTERS ARE SUPERIOR TO ALL OTHERS! Worthless imitations under similar sounding names. As the market is flooded with Imitation Plasters selling at any price it is important for the consumer to know which is the best. It is well known that Benson's Capcine Porous Plasters are the only Plasters that have stood the test of time, many imitations having been put on the market only to make them dangerous to use, causing paralysis and other diseases. CAUTION—See that the word CAPCINE on each plaster is correctly spelled. PRICE 25 CTS. SEABURY & JOHNSON, Pharmaceutical Chemists, New York. tfe20

New York Weekly Herald.

ONE DOLLAR A YEAR.

The circulation of this popular newspaper has more than trebled during the past year. It contains all the leading news contained in the Daily Herald, and is arranged in handy departments. The

Foreign News

embraces special dispatches from all quarters of the globe. Under the head of

American News

are given the Telegraphic Despatches of the week from all parts of the Union. This feature alone makes

The Weekly Herald

the most valuable chronicle in the world, as it is the cheapest. Every week is given a faithful report of

Political News

embracing complete and comprehensive despatches from Washington, including full reports of the speeches of eminent politicians on the questions of the hour.

The Farm Department

of the Weekly Herald gives the latest as well as the most practical suggestion and discoveries relating to the duties of the farmer, hints for raising Cattle, Poultry, Grains, Trees, Vegetables, &c., &c., with suggestions for keeping buildings and farming utensils in good order. This is supplemented by a well-edited department, widely copied, under the head of

The Home,

giving recipes for practical dishes, hints for making clothing and for keeping up with the latest fashions at the lowest price. Every item of cooking or economy suggested in this department is practically tested by experts before publication. Letters from our Paris and London correspondents on the very latest fashions. The Home Department of the Weekly Herald will save the housewife more than one hundred times the price of the paper. The interests of

Skilled Labor

are looked after, and everything relating to mechanics and labor-saving is carefully recorded. There is a page devoted to all the latest phases of the business markets, Crops, Merchandise, &c., &c. A valuable feature is found in the specially-reported price and conditions of

The Produce Market.

Sporting News at home and abroad, together with a Story every week, a Sermon by some eminent divine, Literary, Musical, Dramatic, Personal and Sea Notes. There is no paper in the world which contains so much news matter every week as the Weekly Herald, which is sent, postage free, for One Dollar. You can subscribe at any time.

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh* year, admittedly unrivalled and continuously successful. During the year it will furnish to its readers the productions of the most eminent authors, *above name d and many others;* embracing the Choicest Serial and Short Stories by the *Leading Foreign Novelists*, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the *Ablest Essayists, Scientists, Critics, Discoverers* and *Editors*, representing every department of Knowledge and Progress.

THE LIVING AGE *is a weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It combines in an unexampled variety and abundance its great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness unattained by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE compilation of an indispensable current literature,—*indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"It affords the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that through its pages alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Philadelphia Inquirer.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a through comprehension of all that is admirable and note worthy in the literary world."—*Boston Post.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Boston Advertiser.*

"The best literature of the day."—*New York Times.*

The Producer and Invigorator of Nerve and Muscle.

The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or enterrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name: no other preparation is a substitute for this under any circumstances.

MPORTANT LETTE

From a Distinguished Physician.

NO single disease has entailed more suffering or hastened the breaking up of the constitution than catarrh. The sense of smell, of taste, of sight, of hearing, the human voice, the mind, one or more and sometimes all yield to its destructive influence. The poison distributes throughout the system attacks every vital area, and kindles the dormant germs of constitutional disease but little understood by most physicians, impotently assisted by quacks and charlatans. Those suffering from it have little hope to be relieved from this side of the grave. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into hands at once competent and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation of his RADICAL CURE has won my hearty approval. I believe it likely to succeed when all the usual remedies fail, because it strikes at the root of the disease, viz. *the vitiated blood*, while it heals the ulcerated membrane by direct application to the nasal passages. I recommend it to those on certain fixed rules, and unless all fixed forces are too far exhausted, must, in the great majority of cases, effect a cure.

GEO. BEARD, M. D.

NORCOTT BLOCK, SO. FRAMINGHAM, Oct. 1, 1878.

SANFORD'S RADICAL CURE

MAY safely claim to be one of the few popular remedies receiving the approval of medical gentlemen, who, in preference to any other, recommend it to their families in preference to any of the preparations usually prescribed by physicians.

"You are aware," said a distinguished city physician, that my obligations to the Mass. Medical Society, which this Institution publicly recommend or prescribe Radical Cure; but since I received so much relief from use of Sanford's, after a thorough trial of the usual remedies, I have privately advised its use, and presume I have sent to your store no less than one hundred patients for it."

UNIVERSAL SATISFACTION.

GENTLEMEN,—We have sold SANFORD'S RADICAL CURE for nearly one year, and can say candidly that we never sold a similar preparation that gave such universal satisfaction. We have to learn the first complaint.

We are not in the habit of recommending patent medicines, but your preparation meets the wants of thousands, and we think those afflicted should be informed of its great merit so that their suffering will be relieved. We have been in the drug business for the last twelve years constantly, and sold everything that is started, but never sold anything that gave such satisfaction, nor can use this letter or any part of it that you wish. Very truly yours, A. D. BALDWIN & CO., Wholesale and Retail Dealers in Drugs, Books and Stationery, Washington, Ind., Feb. 23, 1876.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for use in all cases. Price $1.00. For sale by all wholesale and retail druggists in Eastern States throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

Electro-Galvanic Battery combined with Highly Medicated Porous Plaster, thus uniting the best Plaster for pains and aches with the World of Medicine.

ELECTRICITY

is a grand curative and restorative agent in all physical or any ailment or medicine in the history of the world, and in no other form can such a restoration by means of electricity is possible. It is the servant of all physicians and surgeons, and has received thousands of testimonials, which come from all parts, which no other human agency could have secured. This is the leading curative element in this plaster.

BALSAM AND PINE.

The healing properties of our own fragrant balsam pine and the gums of the East are too well known to require description. The stimulating, soothing, and strengthening properties are known to thousands. When combined in accordance with modern important discoveries in pharmacy, their healing or curative properties are increased tenfold. In respect our Plaster is the best in use without the aid of electricity.

TWO IN ONE.

This combined we have two grand medical agents in one, each of which performs its function and united achieves more than any other plaster, bottle, or salve. Try one. PRICE, 25 CENTS.

Sold by all Wholesale and Retail Druggists throughout the United States and Canada, and by WEEKS & POTTER, Proprietors, Boston, Mass.

The Abbott-Downing carriage company, of Concord, shipped from that place to Kansas City, Jan. 28th, eight of their famous coaches. These are to be used on the National Despatch line, running out of Kansas City.

The suit of the town of Dorchester against George C. Lovejoy and others was on trial at Plymouth last Thursday, before Ex-Judge William S. Ladd, referee. It is a case to recover $200 said to have been illegally paid as bounties by the selectmen in 1873 to parties not entitled thereto. A bitter contest is expected.

It is believed that Stearns K. Abbott, the fugitive murderer of Mrs. Crue, was in New Boston Jan. 26th and 27th, and went to work for Benjamin Richards. Abbott's photograph has been recognized by the people at Richards' house as that of the man who worked there.

New Publications.

The *Granite Monthly* for January contains a fine picture of Hon. Daniel Barnard, with a biographical sketch; "Amoskeag," by Rev. Dr. C. W. Wallace; "Seth Warren," by Gen. Walter Harriman; "The revival of taste in household art," "National banks," a history of the town of Franklin, "Concord as it was," by Col. Wm. Kent, an article devoted to the Shakers, poems entitled "Squam lake" and "Without and within," and literary and editorial notes. J. N. McClintock, Concord, publisher; $1.50 per year; single number fifteen cents.

The *Missionary Herald*, the able and vigorous organ of the American Board of Foreign Missions, enters this year upon its seventy-sixth volume, in a new dress, with a greatly improved appearance. The February number, aside from other matter, has extended notices of the success attending missionary labors in central Turkey and China, and is moreover illustrated with beautiful engravings of scenes in foreign lands. The magazine is one that must be attractive both to old and young. Published by the A. B. C. F. M., Charles Hutchins, 1 Somerset street, Boston.

Arctic Exploration.

Captain Howgate, whose expedition under Captain Tyson had to return from the arctic regions a year or more ago, because congress failed to give it financial backing, has finally succeeded in getting the house naval committee to report favorably on his scheme. The plan is to detail fifty persons from the government service, who are to be carried as far north as possible and left there for three years, with a ship to carry them supplies annually. Part of the projected expedition is to consist of scientists, who are to remain at the camp recording polar phenomena, while the rest, aided by Esquimaux and their sledges, shall try to reach the pole. The steamer Gulnare is offered for government's fitting out, and it is proposed that the station be established on the shores of Lady Franklin bay.

Answer This.

Did you ever know any person to be ill, without inaction of the stomach, liver or kidneys, or did you ever know one well when either was obstructed or inactive; and did you ever know or hear of any case of the kind that Hop Bitters would not cure. Ask your neighbor the same question.—*Times.*

Portsmouth Chronicle

[Entered at the Post-Office at Portsmouth, N. H., as second-class matter.]

SATURDAY, JANUARY 31, 1880.

S. K. Abbott Arrested.

Stearns K. Abbott, the suspected murderer, was arrested Thursday night at the house of Mr. J. J. Cilley in Weare, N. H. Mr. Cilley knew Abbott, and caused the police to be notified. The prisoner was taken to Ayer, Mass., on Friday.

Post-Office Supervision.

The post-office department is looking sharp after the deputy postmasters, and here and there a bad deficit is discovered. Recently in Providence, R. I., the post-master was thought to be too officious in political affairs; a friend of one of the senators, he attempted to control matters in Rhode Island, as to appointments, etc. Attention was called to the fact, and bad disclosures as to his character and accounts followed. It is the intention of the department to hold post-masters to a more strict account; while the committee of the House, says a despatch, will recommend a reduction of salaries where the offices are mere sinecures, and where the salaries are so large that the incumbents are able to spend time in political labors rather than in the discharge of their official duties.

Fusionist Testimony.

All through the closing days of the fusionist rebellion in Maine, the democratic and greenback papers sneered at the preparations made by Gov. Davis to preserve the peace, and talked about "the republican scare" in a tone to lead one to believe that the fusionists did not meditate violence. But on the evening that the answer of the supreme court to the fusionist questions was received, the fusion "governor" made the following statement:

All through this struggle I have had to withstand the effort of the more violent men in our party to provoke a contest at arms. Some day the secret history of this thing will come out, and it will be seen that I have acted as a conservative man. Only to-day I was visited by a delegation from a neighboring county, and asked to authorize the bringing of a thousand armed men to this city of Augusta for the purpose of capturing the State house; and this very night I was labored with by a certain man to consent to a plan which could hardly have failed to put us in the State house before Thursday night. I refused to entertain the plan. Had the court recognized our government as the legal one, I should have taken the necessary steps to enforce its authority.

News and Notes.

Charles F. Freeman, the Pocasset murderer, was brought into court on Thursday last at Barnstable, Mass. Evidence was introduced to show that he was not competent to plead, and the court remanded him. He will be put into an insane asylum without further trial.

Dr. R. Dana Hayes, State assayer of Massachusetts, disappeared Jan. 20th. Before going away he paid all his debts, gave his wife power of attorney over his business, and left a letter saying he should never return. His business was in a very prosperous condition, and it is said domestic trouble was the cause of his action.

Hon. Richard Frothingham died in Charlestown, Mass., Jan. 29th, of pneumonia, at the age of sixty-eight years.

Wm. B. Riddle of Norwich, Conn., charged with the murder of his wife by poison, has been discharged, the grand jury failing to find a true bill.

Indian Commissioner Hayt was removed from office by Secretary Schurz, Jan. 29th. Hayt is charged with corrupt practices while in office.

Benjamin Simpson of Bangor, Maine, eighteen years of age, committed suicide on the afternoon of January 28th by hanging himself to a beam in a barn. Poor health is supposed to have been the cause for the rash act.

Andrew Lang, for liquor selling, received in the supreme court at Portland, Jan. 29th, on several indictments, the discouraging sentence of eighteen months' imprisonment and $500 fine.

Asa Dyer of Little Chebeague Island, Me., recently, while out in a boat, captured and killed a fourteen foot shark with a boathook.

At North Attleboro', Mass., as Mrs. Ray, daughter of Hon. S. S. Ginnodo, was passing near the depot, she was accosted by a well-dressed lady who was coming from the depot, and asked if she would hold her baby for a few moments, while she went back to get a pencil she had left. Mrs. Ray accepted the charge and waited patiently for the mother to return. But the waiting was in vain, and Mrs. Ray carried the child to her father's residence, and the little one, proving to be a girl about a year old, was heartily welcomed. Mr. Ginnodo and family are delighted with their unexpected gift.

Madison, Conn., the town where Mary Stannard met her death, is again agog over the mysterious death and disappearance of Sylvanus Shelley in that town. He went into the woods to cut basket splinters, and, not returning, search was made for him, but without effect. The next morning between one hundred and two hundred men started out, and after a long search found him lying dead in mud and water, into which he had fallen.

The well-known church-debt raiser, Mr. Edward Kimball, labored in Saccarappa, Me., at the Congregationalist church, Sunday afternoon and evening, Jan. 25th. The evening session was prolonged until midnight. The amount subscribed was about $5,000.

In the superior court at Portland, Me., Jan. 28th, a large number of prisoners were sentenced. Four tramps, for rioting on a Maine Central train and assaulting the conductor, were sent to jail for twenty-two months. Royal St. Clair, a patent-right vender, who obtained the signature of Charles T. Bunker in blank, telling Bunker he merely wanted his address, and afterward made a promissory note for $250 above it, was sent to State prison for three years.

Jerry Foley, after serving three years' enlistment in the Ninth Maine infantry during the rebellion, re-enlisted, was shot through both feet at the battle of Deep Bottom, was taken to Richmond as a prisoner, and after being exchanged was furloughed. He was then placed in the hospital at Bangor, his wounds rendering him unfit for service, but he left without leave and remained at his home in Portland until his regiment was mustered out. He was consequently held as a deserter, and he has not been able to draw his pay, bounty or pension. The national House of Representatives has removed the charge of desertion, and the Senate will doubtless concur.

A New Hampton, Iowa, despatch says the boy believed to have been murdered by his father, Elder Buck, the Adventist, is alive in an adjoining county.

A negro girl living near Albany, Ga., who had her limbs crushed in a railroad accident, has recovered $25,000 damages from the Georgia Central railroad.

The national House of Representatives has passed a bill making every public highway a post-road, by a vote of 137 yeas to ninety-seven nays.

—Raising a window is a put up job.

—Little horse shoes are linked together to make new bracelets.

—Mr. J. C. Flood has just bestowed a pleasant little amount of pin money upon his daughter, Miss Jennie Flood; he has registered $2,500,000 in United States bonds in her name. This gift provides for her an income of $100,000 a year.

Mr. J. L. Huntress, proprietor of the Senter house at Centre Harbor, is spending a few days in this city, visiting his friends.

While chopping in the woods at Newmarket junction, last Thursday, Mr. John Leavitt cut off a portion of his left foot with his axe.

A business meeting of the Portsmouth reform club will be held at Bow mission hall this (Saturday) evening at 7:30 o'clock. A full attendance is requested.

The Portsmouth CHRONICLE thinks the record of deaths in this town for 1879 a good one, but we find the death rate of Portsmouth (about fourteen to 1000) is the lowest of any city in the country; so the "city by the sea" bears off the palm in this important respect.—*Exeter News-Letter.*

Odd Fellows Mutual Relief, Rockingham County, N. H. The adjourned meeting to hear report of committee on revision of by-laws, will be held at committee rooms, Odd Fellows' hall, Tuesday evening, Feb. 3d, at 7:30 o'clock.

E. M. BROWN, President.

"Musicus," of the Exeter *News-Letter*, and "Harry," of the *Times*, Washington correspondents of those papers, are one and the same person, and the same letter has to do for both papers. "All about the 'Hen Convention'" appeared simultaneously in both journals this week.

Gen. Thom, having made a survey of Exeter river, reports that for $35,000 the channel can be cleaned out and widened so as to have a "good towing channel twelve feet in depth at mean high water up by South Newmarket to the Oxbow," and ten feet up to the wharves of Exeter.

A perplexing task which has baffled many skillful chemists for years has at last been solved by a Portsmouth man, who has achieved the difficult task of rendering cod-liver oil palatable to the most fastidious persons, by the discovery of a method of putting it up in the form of sugar-coated pills.

It is now said that Michael Hurley, who was reported drowned in the Eldredge Brewing Co.'s ice pond on the afternoon of Jan. 29th, was chilled to death rather than drowned, as the water where the men fell in was only about four feet deep. The other man who fell in was chilled almost to helplessness before he was extricated; and a man who went from the shore to help Hurley was gotten out with difficulty.

The funeral of William H. Brewster was attended at Newburyport on Friday by many of the residents of that city, and by several of his relatives and friends from Portsmouth. The former pastor of the deceased, assisted by Rev. S. J. Spalding, D. D., conducted the services. One of the attendants at the funeral was Mr. Cushing of Ipswich, who for twenty-five years had been in the habit of riding to and from Boston on the Eastern railroad cars with the deceased. Mr. Brewster's life was one of constant toil and close application to business. In his home, he enjoyed the comforts of life to the full extent. He laid the foundation of his fortune by his industrious habits and his life of self denial, and he shew in his results how one can succeed in life if he only possesses the proper talents, and with correct habits puts them to the best uses.

The old paintings which have been gathering the dust and cobwebs of years have been brushed up, and once more they grace the walls of the Athenæum reading room. One of them in life-size represents Admiral Peter Warren, two others are portraits of Admiral Spry and Sir Charles Knowles; all of whom participated in the fight and capture of Louisburg. These are supposed to have been painted one hundred and thirty years ago. One over the door leading to the library is one of Nath'l Adams, Esq., who owned the site where the Kearsarge mill now stands. On the right is a painting of a sewing girl said to have been painted on a panel of a house in Newington two hundred years ago. A life-size painting of Sir William Pepperell, the hero of Louisburg, which once belonged to the collection, was given to a relative of his, Hampden Cutts, Esq.

CIRCUIT COURT OF THE UNITED STATES.

DIST. OF NEW HAMPSHIRE—LOWELL, J.

George B. Sias vs. Roger Williams Insurance Co.

By the policy in which Abraham Cole was insured $1500 on his two story frame dwelling house, ell and barn connected, occupied in the summer season for a summer boarding house and in the winter by the assured as a dwelling house, situated Gorham, New Hampshire, $500 on household furniture in the house and ell, payable in case of loss to George B. Sias, "as his interest may appear." The policy "of the assured shall have or shall hereafter make any other insurance upon the property insured or any part thereof, without the consent of the company in writing."

There was evidence that Sias, the plaintiff, held a mortgage on the house; that he had procured the insurance through a sub-agent of the company and paid the premium. The principal agent, who issued the policy at the request of the sub-agent, did not know who procured the policy, or who paid the premium. Cole testified that he procured the insurance on his interest as mortgager after the date of the policy. The learned judge ruled, for the purposes of the trial, that the insurance was on the interest of the plaintiff as mortgagee; and would now be affected by the insurance afterward made by Cole; a verdict was taken for the plaintiff, subject to the opinion of the court upon this question.

The defendants moved for a new trial before Judge Lowell. S. C. Eastman for defendant. W. J. Copeland for the plaintiff. The following is Judge Lowell's opinion:

This case has been thoroughly argued, and all the authorities which I shall refer to have been cited by counsel.

The first point taken by the plaintiff is that the construction of the policy is to be governed by the laws of New Hampshire, which is true in a certain sense, and it may be that the statutes of New Hampshire will give some assistance to the plff. in case of a new trial. But the decisions of the courts of New Hampshire, excepting upon points arising under a statute, are not binding authorities in the courts of the United States in ascertaining the meaning and effect of a contract of insurance.

Carpenter vs. Providence Ins. Co., 16 Pet. I do not understand that this point is of any special importance in this case.

In so far as the right to maintain action at common law is concerned the law of New Hampshire will govern, and that law, as I understand it, permits an action by the mortgagee when he has paid the premium. Chamberlain vs. N. H. Ins. Co., 55 N. H., 249. The law of this country has been settled, with little or no difference of opinion, so far as I know, that when the interest of an owner of an equity of redemption is insured, and the loss is made payable to the mortgagee, by the terms of the policy or by an assignment of the policy, an equitable right is maintained, which is subject to be defeated by his acts in contravention of its conditions. It is enough to cite decisions which must control my own. Bates vs Equitable Ins. Co., 3 Clifford, 215; 10 Mess., 33; Johnson vs. Northern British Co., 1 Holmes, 111, 110, per Shepley.

The phrase "as his interest may appear" does not affect this question. It means that the company will pay the mortgagee to the extent of his lien or charge upon the premises. Franklin Sav. Inst. vs. Cent. Mut. Co., 119 Mass., 240; Foote vs. Hartford Fire Ins. Co., ib. 259.

The fact that the mortgagee procured the policy and paid the premium, without consulting the mortgagor, appears upon Judge Shepley's minutes. Whether the mortgage gave authority for such action or whether there was a subsequent ratification of the mortgagor, does not appear, and may be of importance hereafter, in ascertaining the validity of the policy. But the construction of the contract clearly is that the mortgagor is the assured. Thus it is said that the house is occupied by the assured, meaning the mortgagor. This being so, a court cannot hold that the effect or construction of the policy is varied by the extrinsic circumstance that it was procured by the mortgagee. Not only is it inadmissible to change the contract by fraud, but there is no reason to suppose that the parties intended to make any other contract than that which they entered into or that the company must have agreed to assure the mortgagee. Graves vs. Boston Ins. Co., 2 Cranch, 419; Woodbury Savings Bank vs. Charter Oak Ins. Co., 29 Conn., 374; Livingstone vs. Western Ins. Co., 16 Grant, Ch. 9.

The only cases cited which assist in the least degree the plff.'s contention in this respect are: Chamberlain vs. N. H. Ins. Co., 55 N. H., 249; and Foster vs. Equitable Mutual Ins. Co., 2 Gray, 216.

In the former of these cases the court, expressing a somewhat strong dissent from a class of decisions concerning mutual companies in which it had been held that an action could not be maintained in the name of the mortgagee unless he had given a new note, decided that as against a stock company such an action might be maintained when the mortgagee had paid the premium. The decision upon the merits holds the mortgagee bound by the acts of the mortgagor, though relievable to some extent by statute.

In the second case the action was by a mortgagee against a mutual insurance company who had assented to an assignment of a policy as security to a mortgagee, and had taken from him a written agreement to pay all assessments which might be made upon the policy. The court held that a new contract had, in effect, been made with the mortgagee, and that he would no longer be bound by the acts of the mortgagor done without his knowledge and consent. This decision reached a very just result, by reasoning which is not fully developed; but probably something in the nature of an estoppel was thought to have arisen. That case has been often cited in Massachusetts, but has as often been held not to govern a case like the present; for instance, where the mortgagee who had originally been insured, agreed to a change of the policy into the form now in question, upon the verbal assurance of the agent of the company that it would be equally safe in all respects, the general rule was followed. Fitchburg Savings Bank vs. Amazon Ins. Co., 125 Mass., 431.

The general rule is fully established, and governs courts of equity unless there has been fraud or mistake in framing the contract. It is often harsh in its operation, and is now modified by many of the best companies. In the absence of any such modification in this policy, I must hold, as I am sure Judge Shepley would have held, that there must be a new trial.

YORK COUNTY ITEMS.

D. F. Littlefield of Saco on Jan. 28th started two car-loads of apples to Boston, where they will be put on board a steamer for Liverpool.

We fear there is a sinner concealed somewhere in the ranks of the republicans of York county, or they would not be subjected to such trials. First the senators and representatives elected by them were counted out by Garcelon and his scoundrelly council, and now it is darkly hinted that the chairman of that council's committee on elections may possibly return to the republican party. The republicans of York county had better appoint a day of fasting and prayer for the averting of the threatened disaster.

We learn from a gentleman who was at Augusta nearly all the time from the moment the fusionist plan to steal the State of Maine from the voters was developed up to the date of the conspiracy's overthrow, that all through the contest between the people's representatives and the usurpers one of the most active, energetic and determined opponents of the conspirators was Gen. M. F. Wentworth of Kittery, the staunch republican representative of that town. Our informant says that General Wentworth played a leading part in the movement of the legal legislature on the State house on the evening of its organization, and that it was in no small degree owing to his bold counsel and prompt action that the successful movement was made when it was. Those who know the Kittery representative will have no difficulty in believing these statements. Dr. Wentworth is evidently a much better physician for the body politic than Dr. Garcelon.

REV. L. H. WITHAM.

Rev. L. H. Witham was buried from the Free Baptist church in Biddeford on Thursday last. Mr. Witham was born in Milton, N. H., in 1817, and commenced preaching when about twenty years old. During his long ministry he labored at different times in this city, Contoocookville, N. H., and in Acton, Shapleigh, Hollis, Saco, north Kennebunk, Lebanon, Biddeford, Lyman, Ross' corner, south Buxton and Kennebunk village in Maine. He organized the first Free Baptist church in Saco, and remained with them till they built their first house of worship. He also was instrumental in building up the first Free Baptist church in Biddeford, preaching in a hall until the church had become strong enough to prepare for establishing their church building on Jefferson street, from which he was buried. He raised up and organized the church at South Berwick, and the church at Kennebunk village, the last field of his labor and of which he was a member. Soon after the late civil war broke out he felt it his duty to give his services to his country, and enlisted as a private, but was soon appointed ward master of the hospital, and a short time before the close of the war was transferred to his regiment as acting chaplain. It was while in the army he contracted a chronic disease which terminated his useful life. Mr. Witham was a successful pastor, organizer and disciplinarian; never vacillating, always courteous, a good expounder of the gospel; and he practiced what he preached. He was highly esteemed by his contemporaries in the ministry, and served as clerk of the Maine Western Yearly Meeting for several years, till disabled by his last sickness; some five years ago he was elected a delegate to the General Conference. He leaves a widow, one son and one daughter.

RELIGIOUS TOLERANCE.

Rev. J. N. Williams, general missionary of the Baptist Home Mission society among the French people in New England, and Rev. E. Liger, French missionary at Waterville, Me., having been invited to hold a few meetings in Biddeford, where there are a few French Protestants and a large population speaking the French language, commenced the series on the evening of Jan. 27th, about thirty persons being present. The next evening a large crowd attended, largely composed of French Canadians, who were there evidently for the purpose of breaking up the meeting; and as soon as the exercises commenced these fellows set up such a hideous uproar of unearthly sounds that it was impossible for the speakers to proceed. This outrageous conduct would have been wholly indefensible even had the meeting been what is sometimes called an anti-Catholic one—for the Protestants have the same right to denounce Catholicism that the Catholics have to denounce Protestantism; but in fact not a harsh word nor one offensive to Catholics had been spoken, the services consisting simply of scripture readings, singing of Moody and Sankey hmyns translated into French, and brief addresses in which Romanism was not attacked. The meeting was broken up simply because it was a Protestant meeting; and if the city authorities of Biddeford do their duty—which they probably will not dare do, being democrats—they will take such action as will teach the ruffians that Roman Catholics, at least in New England, must grant to Protestants the same religious freedom which they demand for themselves.

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as a female Physician and nurse, principally among children. She has specially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge, obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is moreover sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do rise up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No mother has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—try it now.—*Ladies' Visitor*, New York City. Sold by all druggists. 25 cents a bottle. 2

Political Notes.

The Manchester *Mirror* is shockingly irreverent in speaking of great men. It says: "Pillsbury, the chief plotter in Maine, and Fogg, the foul-mouthed brawler, are both natives of New Hampshire, but we hope the good people down east won't lay it up against our State that it allowed such a pair to escape. About the time they went away the State-prison was very full, and we had no reform school."

A canvass of the Iowa house of representatives shows that sixty-seven are in favor of Blaine, twelve are for Grant, two for Sherman, and sixteen scattering.

James O. Vandevoort, the late democratic superintendent of the poor in Ulster county, New York, is a defaulter to the amount of $10,000, and it is feared that more steelings will be uncovered. The democratic ring that for many years ruled that county has been utterly broken up, mainly through the excellent work of the Kingston *Freeman*, edited by Charles Marsellus, formerly of the Exeter *News-Letter*.

The northern democracy can scarcely "point with pride" to the past. In five years they have lost a half dozen States, and have won the reputation which Grover has given them in Oregon, Garcelon in Maine, and Tilden in New York.

What has troubled the democrats about the decisions of the Maine supreme court has been their "bitter partisanship." Some of them have wept in a public and profuse manner over this "lowering" of the bench. It will be a great shock to them, therefore, to learn that the more partisan decision of the two, was written by the democratic member of the court, Judge Libbey. He is a "Blaine hiss-Hog," of course, but he is an unexpectedly unanimous one.—*Tribune.*

Cuticura

From the Hon. WM. TAYLOR, State Senator of Massachusetts.

Messrs. WEEKS & POTTER: *Gentlemen,*—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel it in every sense of the word. I have been a great sufferer with skin diseases for the last twelve (12) years. My head and face being covered with sores, I could not rest with the burning heat and itching of the parts affected, and was confined to my house for three weeks at a time. My disease has been called Eczema, of a most aggravated type, by many physicians, but I doubt if ever fully understood by any 50 them. It was more like a combination of several skin tempers. I have spent much time and money seeking a cure, and in 1867 I went to Europe, and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr. ——— (whose reputation for the cure of those diseases was of the highest order) could cure me. I waited on the doctor; he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians, and among them Dr. ——— of East Boston, and Dr. ———, of city proper, but all to no purpose. They did me no good; their remedies were so ineffectual that at no time did I feel that a cure would result from them.

I have swallowed five hundred arsenic pills, 5.20 grain, and taken bottle after bottle of internal remedies, besides all the external applications I have used, but the effect was the same. I became satisfied that I could not be cured, but might be kept from getting worse.

Now, about three months ago, Mr. Meehan, a gentleman well known to Boston people, called my attention to your CUTICURA, and promised wonderful results if I would only make a trial. He told me of his own experience with it, and so persevered on me that I went with him to a drug store and bought two large boxes of CUTICURA, and some CUTICURA SOAP, and commenced to use it according to the directions. There was so much humor lodged within the skin, that as soon as I commenced the use of CUTICURA it came to the surface and festered, until vast quantities had come out, and greatly increased my sufferings for about two weeks. But I did not mind this, as I felt that I was going to get rid of the humor, which I saw it coming to the surface in such large quantities. After the festiwe or three weeks' use of this remedy, I was greatly encouraged by a gradual lessening of the inflammation of a number of painful sores. I carefully, faithfully, and cheerfully followed the directions to the letter, feeling each week nearer a cure, until at present, after three months use of CUTICURA, and twelve years of as constant suffering as was ever endured, I can say that I am cured, and pronounced my case the most remarkable on record. I have been so elated with my success that I have stopped men on the street who were afflicted, and told them to get the CUTICURA, and it would cure them. This is why I am so grateful to you for I believe it to be the best and greatest discovery of the age, and that it will cure all who are suffering in these diseases. I may add that I took no internal medicine but the CUTICURA RESOLVENT. WILLIAM TAYLOR.

Boston, Aug. 22, 1878.

THE CUTICURA REMEDIES

CUTICURA RESOLVENT is the most powerful Blood Purifier and Liver Stimulant ever compounded.

CUTICURA is the great external remedy for all Humors of the Scalp and Skin, Ulcers, and Old Sores.

CUTICURA SOAP is an elegant toilet and medicinal assistant to CUTICURA for all external affections.

Prepared by Weeks & Potter, Chemists and Druggists, 170 Washington Street, Boston, Mass., and sold by all druggists and dealers. Price of CUTICURA, small boxes, 50 cents; large boxes, containing more and one half times the quantity of small, $1. Resolvent, $1 per bottle. CUTICURA SOAP, 35 cents per cake; by mail, 30 cents; three cakes, 75 cents.

COLLINS VOLTAIC ELECTRIC PLASTERS

Hundreds of little nerves and muscles respond to the Electrical Action of these wonderful Plasters, the moment they are applied. They instantly Annihilate Pain, Strengthen Weak and Painful Parts, Draw Poisons from the Blood, Prevent Fever and Ague, Liver and Kidney Complaints.

KIDNEY-WORT

PERMANENTLY CURES KIDNEY DISEASES, LIVER COMPLAINTS, Constipation and Piles.

DR. R. H. CLARK, South Hero, Vt., says, "In cases of KIDNEY TROUBLES it has acted like a charm. It has cured many very bad cases of PILES, and has never failed to act efficiently."

NELSON FAIRCHILD, of St. Albans, Vt., says, "Hundreds of my friends have taken your KIDNEY-WORT, and it has given them great relief. Many have been cured. I know it cured me."

C. S. HOGADON, of Berkshire, says, "one package has done wonders for me in completely curing a severe Liver and Kidney Complaint."

IT HAS WONDERFUL POWER. WHY? BECAUSE IT ACTS ON THE LIVER, THE BOWELS AND KIDNEYS AT THE SAME TIME.

Because it cleanses the system of the poisonous humors that develope in Kidney and Urinary diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia and Female disorders.

KIDNEY-WORT is a dry vegetable compound and can be sent by mail prepaid.

One package will make six qts of medicine.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated, if not cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION; it shows how lost vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains 300 useful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

An illustrated sample sent to all on receipt of 6 cents for postage.

POROUS PLASTER

CAPCINE

BENSONS CAPCINE POROUS PLASTERS ARE SUPERIOR TO ALL OTHERS!

A Word to those who use Porous Plasters. It is a universally acknowledged fact that the great demand for them has caused a number of unscrupulous parties to make and sell worthless imitations under similar sounding names. As the market is now flooded with imitation plasters, we would caution the public against purchasing any article called by any of the above names, unless the genuine BENSON'S CAPCINE POROUS PLASTER is on the face of the plaster. Beware of all other plasters have been examined and found to contain poisonous ingredients which make them dangerous to use, causing paralysis and other diseases. I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration of their Patents. Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1876.

R. H. EDDY, Esq.—*Dear Sir:* You proceeded for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New-York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE ERASTUS PARK.

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that through its pages alone it is possible to be decently informed in current literature as by the perusal of a long list of months."—*Philadelphia Inquirer.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a thorough compendium of all that is admirable and note worthy in the literary world."—*Boston Post.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Boston Advertiser.*

"The best literature of the day."—*New York Times.*

The Promoter and Perfector of Assimilation.

The Reformer and Vitalizer of the Blood

The Producer and Invigorator of Nerve and Muscle.

The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or enterrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name: no other preparation is a substitute for this under any circumstances.

CATARRH

NEVER-FAILING RELIEF

AFFORDED BY

SANFORD'S RADICAL CURE.

"It is a fact that can be substantiated by the most respectable testimonials ever offered in favor of any proprietary medicine, that the RADICAL CURE FOR CATARRH does in every case afford instant and permanent relief. No matter of how long standing, or how severe the disease, the first dose gives such evidence of a value in the treatment of Catarrhal affections that confidence is at once felt in its ability to do all that is claimed for it. The testimony of physicians, druggists and patients is unanimous in this respect, and the stimulating evidence is in point of respectability superior to any ever before obtained in favor of a popular remedy. The proprietors, therefore, may justly feel proud of the position the RADICAL CURE has attained and believe it worthy of its reputation.

10 YEARS A SUFFERER.

From Hon. Theo. P. Bogert, Bristol, R.

BRISTOL, R.I., July 24, 1877.

Messrs. WEEKS & POTTER: *Gentlemen,*—Feeling thoroughly convinced of the efficacy of SANFORD'S RADICAL CURE FOR CATARRH, I am induced to drop you line to say that although I have tried several of the so-called nostrums advertised as "radical cures," I has never found anything that promises such relief as ultimate cure as that of SANFORD'S.

I have been afflicted with this dreadful disease for more than ten years, and not until recently could I be induced to persevere with any until I read the letter of Mr. HENRY WEEKS, and can truthfully say that after using five or six bottles I am thoroughly convinced of its curative properties. Hoping that others similarly afflicted like myself will be induced to make the trial, I am, gentlemen, very truly, etc., THEO. P. BOGERT.

WASHINGTON, D. C., Jan. 28th.

The excitement over the political contest going on in Pennsylvania still continues, and Senator Cameron is in hourly conference with republicans from his State who are trying to fix things to the satisfaction] of different factions. The Cameronites are severely disappointed at the outlook, and are greatly chagrined at Senator Blaine, because his popularity seems to be marching away with control over the caucus. Senator Blaine has arrived here, and is congratulated by large numbers of his party on his success in Maine as well as in Pennsylvania.

A good deal of surprise is expressed by many that the committee on territories of the House has voted down the bill to open the Indian territory to settlement and establish a territorial form of government in it, after dividing the lands in severalty among the Indians. There has been much talk about a big lobby here in the interest of the bill, and about its probable passage without opposition. The friends of the measure console themselves with the remark that this is but a temporary check. They say they expect that another bill, substantially effecting the same result, will be passed at this session.

The democrats here seem to be taking a queer course to promote their success in the next campaign. No sooner is a presidential candidate mentioned on their side than some of them jump upon him, and cut and hack him all to pieces. Thus Tilden, Bayard, Randall, Seymour, Thurman, Hancock and others have been more roughly handed by their own party friends than by their opponents, and if this keeps on the democrats will furnish a bad record for any of their candidates to go before the country on, unless they take up a new one at the eleventh hour.

It is a matter for congratulation that between the President, General Walker, and Congress, we are likely to have a very efficient body of census supervisors in the different States. A revision of the original lists is now being made, and the poorer appointees weeded out. While the President favors his party wherever it is possible, it is the general opinion that he will not appoint dishonest or incompetent men of any party, if he knows of it.

The republicans have taken up the war against commissioners Hayt, of Indian affairs, and Bentley, of pensions, in lively style, and Schurz will have to get rid of them, or have no friends left in either party. It seems fair to conclude that they are incapable of filing their offices satisfactorily. But as Schurz has little hope of remaining with either party after this term, he will consult only his own prejudices, probably. KNOX.

Kidney Complaints

of all descriptions are relieved at once, and speedily cured by Kidney-Wort. It seems intended by nature for the cure of all diseases of the kidneys caused by weakness and debility. Its great tonic powers are especially directed to the removal of this class of diseases. Try it to-day.

—It escapes notice, so familiar has the fact become—that America receives and disposes, in four good years, of an invading army of immigrants as large as that which overran Greece under the Xerxes, and twice as great as those which went roving over Europe under Alaric and Attila.

Guard Against Disease.

If you find yourself getting bilious, head heavy, mouth foul, eyes yellow, kidneys disordered, symtoms of piles tormenting you, take at once a few doses of Kidney-Wort. It is nature's great assistant. Use it as an advance guard—don't wait to get down sick.

—Sportsmen never object to banging hare.

A Medicinal Wine for Kidney Complaint.

In this age of "extended liquors," it is pleasant to know that there is one article of pure wine in the market for medicinal use. We have references to Speer's Sambuci Wine, which was on exhibition at the Fair, and a glass was given to each visitor who claimed it. A glass was proffered to me, and I touched it to my lips somewhat unwillingly, but was agreeably disappointed in finding it one of the most delicious Wines I had ever tasted. I doubt whether there is a vineyard in the Old or New World that can yield a Wine at all comparable to this in richness and delicacy of flavor. Mr. Speer prepares it by a new process peculiar to himself, without the addition of spirits, and each bottle he sells is guaranteed to be four years old. It is largely used in the New York and European hospitals for Dropsy, Gout and all kidney complaints. It has found its way it would seem, to London and Paris Hospitals, as the best Wine to strengthen and build up a consumptive or debilitated system.—*Boston Evening Transcript.*

MONDAY, FEB RY 2, 1880.

The "Reformer" Making Restitution.

For years a suit has been dragging along in the United States courts, brought by the St. Louis, Alton & Terre Haute railroad against Samuel Jones Tilden and others, to compel the repayment of a large sum of money alleged to have been wrongfully and illegally taken from the railroad by the defendants. On Friday last Judge Blatchford signed the papers which finally remove the case from the courts, Tilden et als. having confessed judgment and paid over several hundred thousand dollars. The great "reformer's" tax bill is not yet settled.

Incendiarism at Nashua.

An incendiary fire was started in the depot of the Worcester & Nashua railroad at Nashua on Friday night last, but was extinguished. Soon after, about midnight, fires were discovered in the lumber yards of Cross & Tolle and Cook & Shedd, and in the ell of a house occupied by Mrs. Harwood, a clairvoyant physician. The lumber yard fires were quickly extinguished, but the house was badly damaged, and as the wind was blowing heavily there was for a time great danger of a sweeping conflagration. Total loss, on the two lumber yards and the house, about $4000. All the fires were undoubtedly incendiary.

New Hampshire Items.

The Franklin national bank of Franklin Falls has received its bills from the currency bureau, and went into full operation on Friday.

A large meeting in aid of the suffering people of Ireland was held in Manchester on Friday evening. Gov. Head presided, and Rev. Henry Powers, pastor of the Unitarian church of Manchester, made the first address. Ex-Gov. Cheney headed the subscription list with $100, and the total amount raised was nearly $1000. The two Catholic churches of Manchester raised about $800 on Sunday, Jan. 25th.

News and Notes.

In the supreme court at Portland, Me., Friday, James Lowe, formerly night inspector, recovered a verdict of $3,500 against the Grand Trunk railway for injuries received in falling down a slip in the wharf, breaking his thigh.

Three sons of W. H. Ford of Calais, Me., a boy named Barber, and a boy named Blyther, received severe injuries, Friday, by a double-runner sled plunging into the railing of a bridge. Blyther's right leg was amputated, and he will probably die.

Wm. Adams, of Medway, Mass., who had long been attempting suicide by starvation, accomplished his object on Thursday last. He lived thirty-eight days on no other nourishment than a little cold tea.

The Chicopee manufacturing company of Chicopee Falls, Mass., have decided to run one mill of 325 looms night and day for one year, beginning Monday, which will require an additional force of two hundred hands.

The famous suits at law known as the Pennsylvania pier cases have been settled. These suits arose from the criminal negligence of the Boston & Lowell railroad company at Pennsylvania pier, Salem, Mass., about a year and a half ago, by which negligence four persons—Mr. J. W. Swasey and wife, their son, and Lydia Ann Gifford—were killed outright or died soon after. One trial of these cases resulted in a disagreement of the jury. A settlement has now been effected in all cases for the sum of $15,000.

War is declared between the Pacific Mail Steamship company and the Union Pacific railroad, and the former has reduced passenger rates to $70 for cabin passage from New York to San Francisco, and $40 for steerage. Freight rates have also been reduced one-third to one-half. The former fare for first-class cabin passengers was $130.

During the outward passage of the steamship Saratoga, now in New York from Havana, Charles B. Yerly, one of the cabin passengers, committed suicide by jumping overboard. It appears that he fell into the mouth of an enormous shark and was devoured. Nothing of his body could be found, and only some blood appeared upon the water.

John H. Soper, a prosperous farmer of Frederick, Md., on Wednesday evening of last week threw himself before a Baltimore & Ohio freight train and was instantly killed.

By a fire-damp explosion in the colliery at Meissen, Saxony, Thursday, ten miners were killed, nine injured, and nine persons in the pit at the time of the explosion are still unaccounted for.

In a contest in Philadelphia last week, over the will of Robert Wanseker, a Philadelphia millionaire, who was killed in August, 1878, by a railroad accident, Henry Horace Gubiawse, manager of W. Reid Gould's New York stationery establishment, testified that from certain peculiarities in the ruling of the paper on which the alleged will was written he was enabled to swear that the paper was ruled at his establishment in August, 1878, three years after the will purports to have been drawn.

Mrs. Erastus Smith, wife of a wealthy liquor merchant at Hyde Park, Pa., shot herself through the heart last Thursday evening, after baring her breast to make sure of her aim. No cause assigned.

At Allentown, Pa., Friday, a little girl named Schaeffer, aged six years, while crossing the Lehigh Valley railroad on her way to school, caught her foot between the track and planks. All efforts to extricate her failed, and she was run over and killed by a passing train.

Mrs. Baldwin of Cincinnati, wife of Harry Baldwin, who was mysteriously murdered some time ago, died Friday from grief.

Rev. J. M. Tower committed suicide at Faribault, Minn., Friday, by shooting. He leaves a wife and six children in Winnebago, Ill.

The sanitary committee of the Kentucky legislature have made a report concerning the condition of affairs at the State penitentiary, which shows that institution to be a veritable black hole of Calcutta. Among the convicts there are eight who cannot live longer than thirty or sixty days, fifty more who cannot possibly live through the coming spring, and two hundred others who are in an unhealthy condition. The causes of this are said to be imperfect drainage, miserable ventilation, over-crowded cells, badly constructed buildings and uncleanliness generally. Remedial steps will be taken immediately.

A rich land owner near Barcelona, Spain, with his wife, three daughters, a son and two women servants have been found murdered in their beds. The deed was done with a hatchet, and the house was ransacked. A swineherd and his two sons have been arrested as the murderers.

—It is stated as a fact that a New England Baptist in preaching a few weeks ago from the text "In those days came John the Baptist preaching in the wilderness of Judea," used the following words: "Oh! how I like to read these words in the blessed Bible. You don't read anywhere in it about John the Methodist, nor about John the Presbyterian, nor about John the Episcopalian, nor about John the Congregationalist. But it is John the Baptist! Oh, how I like to read that!"

Not the least important feature in Fellows' Compound Syrup of Hypophosphites, is the comfort, buoyancy and vigor which are inspired by its use, and which are developed as the patient recovers from sickness.

"Stubbs, did you ever see a phonograph?" "Yes; and it was saying, Take Adamson's Botanic Balsam for Coughs, Colds, and Asthma."

AROUND HOME.

Among the grain receipts last week were fifteen hundred bushels of malt for the Eldredge Brewing Co.

Mr. William G. Kidder, teacher of the Peabody school, on State street, on Saturday resigned that position to go into business in another city. The board of instruction temporarily filled the vacancy by the transfer of Miss Mary F. Garrett from the school at the Plains.

The wreck of schooner A. J. Williams, of Durham, which went on the rocks in a snow storm some weeks ago while on the passage from Danvers to New York, and was subsequently gotten off and towed into Mt. Sinai harbor, Long island, was sold as she lay on the beach, Thursday last, to Huntington parties, for $550.

The barometer in this city fell an inch and eleven-hundredths between noon and ten o'clock P. M., Friday. There was a stiff breeze Friday night, but not just what the barometer-watchers looked for; on top of Mount Washington they had a breeze moving at the rate of one hundred and thirty-two miles an hour, at the same time.

We are informed that the Amoskeag manufacturing company, of Manchester, which allowed this city $400 for the old steam fire engine Dearborn in trade for a new steamer furnished the city, has recently sold the old engine to New York for $3300 or $3500, after expending $1200 on her in repairs and alterations. As her whole cost to the Amoskeag Co. was $1600, she was sold at a very fair profit.

The team stolen from John W. Ricker of Dover week before last was recovered in Hollis, York county, Me., last week, being found in possession of Thomas Wilds, the young fellow who hired the team for an hour's ride around Dover, and Willie Goldthwaite. The parties were taken to Dover, where Wilds was put under $500 bonds to answer before the supreme court, the other fellow being discharged. The team was valued at $300.

We are indebted to Senator Rollins for the eleventh annual "List of merchant vessels of the United States," with the official numbers and signal letters awarded them by the chief of the bureau of statistics; also lists and distinguishing letters of vessels of the United States navy, revenue marine, light-house board, and coast survey; and an explanation of the international code of signals, accompanied by colored representations of the flags and pennants used in signalling by this code.

Col. Wm. H. Hackett of this city lectured in Farmington one evening last week, on scenes and incidents of foreign travel, and the Farmington *News* says: "It was evident that Mr. Hackett has his own ideas in regard to many of the famous places in the old world, regardless of guide books, and that he is not wholly in favor with very many of their stereotyped expressions and traditionary lore, but believes that one should go abroad and see the sights for himself, as guide books can be read at home."

The thirty-seventh annual statement of the Mutual Life Insurance Co. of New York appears in our columns to-day. The statements of this company of its transactions for a year are of interest to the statistician, the political economist, and the student of social science. The accumulation of more than eighty-eight millions of assets, and the distribution in a single year of more than seven millions of dollars upon its policies, are facts which are full of meaning, and produce practical results. No man can measure how many homes have been brightened, griefs assuaged, and hearts revived by the beneficent operations of such a company as this. Yet it has all been done quietly, without ostentation, and in the course of regular business, based upon reliable data, and a long experience. The business of the year has been in all respects satisfactory.

SUPREME COURT.

SATURDAY, Jan. 31st; *Clark, J.*

Case State vs. Ingalls was given to the jury late Friday evening. Saturday morning at nine o'clock they came into court, reported a disagreement with no hope of an agreement being reached, and were discharged. Ingalls, being unable to procure bail in the sum of $8000, was remanded to jail. Court adjourned to Monday forenoon.

POLICE COURT.

SATURDAY, JAN. 31st; *Batchelder, J.*

John Lynch, charged with an aggravated assault on John Lynch, Jr., was held in $100 for further examination on Wednesday, the 4th inst.

OLD-TIME "TRAWLING."

In the old town records of Portsmouth, under date of March 25th, 1768, is the following record of a bit of business done at a town meeting:

Voted, That the Selectmen be desired to apply to the general Court, for an act to prevent Persons Catching Fish by Set Lines at the mouth of the Harbour.

The plan of catching fish by setting trawls, so-called, is generally supposed to be of comparatively recent origin, and so far as the sea fisheries are concerned, probably is so; but the record above quoted shows that more than a century ago some of the Piscataqua fishermen took fish by set-lines, and that those who did not use such implements were strongly opposed to their use by others. But the set-lines of 1768 were probably rude affairs, and of small extent, compared with the outfit of a trawl fisherman in 1880.

FIRE-ALARM ORDER.

Chief Engineer Marston has issued orders to the fire department, providing for the sounding of fire alarms in such a manner as to indicate in what quarter of the city the fires may be. The substance of the orders is as follows:

"The city is divided into six fire districts. The alarms consist of sounding the bells of the North church, South ward-room, Cabot street school-house, Christian shore school-house and the Eastern railroad depot, also the whistles at the several breweries, and the Eastern and Concord railroad engines. In case of fire the North church bell will give a general alarm of seven strokes and repeat, after which it will give the district alarm until the fire department is fully notified. Each of the other bells is to be struck and each whistle blown seven times in succession, and after a pause of five seconds, repeated, after which the district number shall be given three times at intervals of five seconds. The police will also conform to the above regulations in regard to the use of their whistles, and will be particular to see that the right locality is announced. If assistance is required from the navy yard, the notification shall be from the brewery on Bow street, to consist of the general alarm as above.

District No. 1 contains that part of the city north of a line extending from the river at the foot of Daniel street, through Daniel, Congress and Islington streets to Bridge street, and east of a line through Bridge street, thence across the tracks of the Concord and Eastern railroads to Elm street, and continuing to the Newington line.

District No. 2 contains that part of the city west of a line beginning at Bridge street and continuing to the Newington line, and north of a line beginning at Bridge street, through Islington street to the Greenland line.

District No. 3 contains that part of the city between the southerly line of District No. 2 to Summer street, thence through Summer to Middle street and Lafayette road to the Rye line.

District No. 4 contains that part of the city between southerly line of District No. 1, through Summer to Middle street, and through Middle and Court streets to the river.

District No. 5 contains that part of the city south of District No. 4, and east of a line through Richards avenue, South road, and Sagamore road to Little Harbor.

District No. 6 contains that part of the city west of a line from Richards avenue to Little Harbor, and south of a line from head of Richards avenue, through Middle street and Lafayette road to the Rye line.

If the district cannot be ascertained *at once*, the general alarm will be continued until the fact is ascertained."

TRAINED ANIMALS.

An item published in this paper a short time ago under the above heading, relative to the successful teaching of various tricks to a horse and a calf by Mr. Amos Prescott of Greenland, leads a friend to furnish us the following concerning a learned cat, and a well-disciplined hen and rooster:

Mrs. Augustus W. Brooks, of East Eliot, Me., has (or did have, about a year ago) a cat thirteen years old, which she brought from Boston and for which she has been vainly offered $50. This learned pussy will stand up at the word of command, bow slowly or quickly as directed, walk around the room on her hind legs only, dance, turn somersaults, go through the motions of holding a jews-harp to her mouth with one paw and playing on it with the other, mew when ordered to speak, kiss her paw to visitors, hold a saucer of milk on her fore legs and lap the milk, and stand on her hind feet and with her fore paws catch bits of bread or meat thrown to her, like a base-ball player. Her kitten, a year old, will turn somersaults.

The same lady has a hen which always wipes her feet on the mat on entering the house, and if asked "How do you get your living, biddy?" will scratch on the floor, look to see if she has scratched out anything, and then look at the questioner to see if the answer is correct; this hen despises the wooden, chalk and porcelain cheats which some people palm off on hens for nest-eggs, and will not "lay to" one of them, tumbling them out of her nest as often as they are put in. A rooster also will scratch the floor when asked how he gets his living, but cannot be made to wipe his feet.

YORK COUNTY ITEMS.

A store in Saco was burglarized on Thursday night of last week, and chewing-gum and walnuts to the value of seventeen cents stolen. New York professionals are not suspected in this case.

M. M. Duke, whose bakery at Old Orchard was burned on Monday morning of last week by an incendiary fire, has a habit of getting frequently burned out; last year his establishment at Old Orchard was destroyed by fire, and not long before that his bakery on High street, Great Falls, was burned.

Odd Fellows Mutual Relief, Rockingham County, N. H. The adjourned meeting to hear report of committee on revision of by-laws, will be held at committee rooms, Odd Fellows' hall, Tuesday evening, Feb. 3d, at 7:30 o'clock.

E. M. BROWN, President.

South Carolina of To-day.

"South Carolina of To-day," by Edward Hogan, which opens the February number of the *International Review*, presents a sombre picture of the present social and political condition of the Palmetto State. In 1876 the State bore a close resemblance to a military camp. The young men of to-day, in fact, are far better educated as cavalry officers than as business men. They are more at home in shaving potatoes and in snuffing candles at ten paces than in the common rules of arithmetic. The military establishment is still available, and the old spirit of the rifle-clubs lives with it. If the negro in the future votes the democratic ticket, he will be safe enough, and will meet with no more molestation than he does now from drunken groups of young men in the country. But if he votes the republican ticket, and still persists in calling himself a citizen, no amount of peaceful professions will save him from being pushed aside by men who are indignant at his assertion of political equality. His rights will never be recognized by the majority in this generation.

The bulldozers of the democratic party are, in the first place, the poor whites who rival the negro in ignorance, but surpass him in cunning. They hate the negro bitterly, and their hatred is fully returned. Next to them is a class produced by the war. When the war broke out the education of the southern young men came to an end. Those abroad were called home, those in the State colleges left them. Every able-bodied boy and man over fifteen years of age went into the army. The schools were all closed. At the end of the war, there was universal ruin. He who had been richest was now the poorest. The large class of lads cut off from an education by the war returned to homes of poverty and desolation. Four years of army life did not tend to inspire them with content. They have thus spent the last twelve years in some menial employment or course of vice, and nursing their reverses and the ruin of their families. Most of them, at present, are low down in the scale of social life. They refuse to recognize the negro as their peer, and deny his citizenship with a rifle shot. The negro must emigrate to maintain his political rights or to enter upon the path of enlightenment and progress.

There is no decided prospect of any advance in the business interests of South Carolina. The State appears to be still mourning for the lost cause. There is a pervading air of age about the towns, and decay seems to float in the atmosphere. The city of Charleston is a market of considerable importance for such staples as cotton, naval stores, lumber, and rice. But the business spirit is at a standstill. The torpid methods of southern merchants give the city an air of industrial stagnation, in sharp contrast with the brisk business of Savannah. The depreciation of property in Charleston since the commencement of the war is something wonderful. The Charleston hotel, for instance, which cost more than $250,000, has been recently sold for $50,000. The Academy of Music, which was built for $200,000 before the war, brought only $40,000 at a recent sale. A piece of property for which $25,000 had been refused before the war was lately purchased by a negro for $1200, after several attempts to dispose of it at sheriff's sale.

The society of South Carolina exhibits a peculiar aspect. Not a trace remains of the ancient traditions and customs. The old families are scattered throughout the country, or live in a sort of feudal retirement in the State. Young scions of the great families which have furnished six or seven governors for South Carolina in fifty years, and who might have followed in the royal line, are now working in very humble positions in New York houses. The feeling entertained by southern women against northern people, and especially against avowed republicans, is one of intense bitterness. Southern families visit each other, and northern people are occasionally invited, but not so freely as to disguise the expression of dislike. Southern society is closed against republican office-holders and politicians, and the South Carolinian who has become a republican receives less consideration than a dog from the families of democrats. Republican physicians get no practice except among the negroes. Republican lawyers make the same complaint, and assert that a man will retain democratic counsel, though against his inclination, in order not to prejudice his case in a democratic court.

A Saw Guard.

An ingenious arrangement to prevent accidents with circular saws, which require incessant watchfulness on the part of the operatives, has been invented. The guard consists of three pieces, viz., the mortise-plate, secured by three bolts to the fence; a radial arm, which is secured and adjusted vertically into the mortise-plate by means of nut and collar; and the covering-plate, which is secured and adjusted laterally in the radial arm, in conformity with the adjustment of the saw-fence by means of the thumb-screw. Where several saws of various diameters are used in the same bench, it is advisable to have two or perhaps three covering-plates, graduated to size to cover the whole series of saws. The apparatus, as described, is in its mode of fixing exceedingly simple. It is to be recommended on account of its simplicity, its cheapness, its immovability when fixed, and for its perfect freedom from being obstructive to the sawyer.

Cuticura

From the Hon. WM. TAYLOR, State Senator of Massachusetts.

BOSTON, WEEKS & POTTER: *Gentlemen,*—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel it in every sense of the word. I have been a great sufferer with skin diseases for the last twelve (12) years. My head and face being covered with a scaly crust not red with the burning heat and itching of the parts affected, and was confined to my house for three weeks at a time. My disease has been called Eczema, of a most aggravated type, by many physicians, but I doubt if ever fully understood by any of them. It was more like a combination of several skin humors. I have spent much money seeking a cure, and in 1877 I went to Europe, and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr. —— (whose reputation for the cure of those diseases was of the highest order) could cure me. I waited on the doctor; he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians, and among them Dr. —— of East Boston, and Dr. ——, of city proper, but all to no purpose. They did me no good; their remedies were so ineffectual that at no time did I feel that a cure would result from them.

I have swallowed five hundred arsenic pills, 250 grain, and taken bottle after bottle of internal remedies, besides all the external applications I have used but the effect was the same. I became satisfied that I could not be cured, but might be kept from getting worse.

Now, about three months ago, Mr. Meehan, a gentleman well known to Boston people, called my attention to your CUTICURA, and promised wonderful results. If I would only make a trial. He told me of his own experience with it, and so persevered in me that I went with him to a drug store and bought two large boxes of CUTICURA, and some CUTICURA SOAP, and commenced to use it according to the directions. There was so much humor lodged within the skin, that as soon as I commenced the use of CUTICURA it came to the surface and festered, until was painfully had, come out and greatly alleviated my sufferings for about two weeks. But I did not mind this, as I felt that I was going to get rid of the humor when I saw it coming to the surface in such large quantities. After the first two or three weeks' use of this remedy, I was encouraged by a gradual lessening of the inflammation of a number of painful sores. I carefully, faithfully, and cheerfully followed the directions to the letter, feeling each week bearer a cure, until at present, after three months use of CUTICURA, and twelve years of as constant suffering as was ever endured, I can say that I am cured, and pronounced my case the most remarkable on record. I have been so elated with my success that I have stopped men on the street who were afflicted, and told them to get the CUTICURA, and it would cure them. This is why I am so grateful to you, for I feel we to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I may add that I took no internal medicine but the CUTICURA RESOLVENT. WILLIAM TAYLOR.

Boston, Aug. 22, 1878.

THE CUTICURA REMEDIES

CUTICURA RESOLVENT is the most powerful Blood Purifier and Liver Stimulant ever compounded.

CUTICURA is the great external remedy for all Humors of the Scalp and Skin, Ulcers, and Old Sores.

CUTICURA SOAP is an elegant toilet and medicinal assistant to CUTICURA for all external affections.

Prepared by Weeks & Potter, Chemists and Druggists, 360 Washington Street, Boston, Mass., and for sale by all druggists and dealers. Price of CUTICURA, small boxes, 50 cents; large boxes, containing two and one half times the quantity of small, $1. Resolvent, $1 per bottle. CUTICURA SOAP, 25 cents per cake; by mail, 30 cents; three cakes, 75 cents.

POROUS PLASTER

CAPCINE

BENSONS CAPCINE

A Word to those who use Porous Plasters. It is a universally acknowledged fact that BENSON'S CAPCINE POROUS PLASTERS ARE SUPERIOR TO ALL OTHERS! The great demand for them has caused a number of unscrupulous parties to make and sell worthless imitations, which are put up so closely like our genuine article, that they are easily mistaken for the genuine. Benson's Capcine Porous Plasters are the only perfect porous plaster, and we make them so because we use the best ingredients which we can procure, regardless of cost. Ask for BENSON'S CAPCINE—see that the word CAPCINE on each plaster is correctly spelled. PRICE 25 CENTS. feb20

New York Weekly Herald.

ONE DOLLAR A YEAR.

The circulation of this popular newspaper has more than redoubled during the past year. It contains all the leading news contained in the Daily Herald, and is arranged in handy departments. The

Foreign News

embraces special dispatches from all quarters of the globe. Under the head of

American News

are given the Telegraphic Dispatches of the week from all parts of the Union. This feature alone makes

The Weekly Herald

the most valuable chronicle in the world, as it is the cheapest. Every week is given a faithful report of

Political News

embracing complete and comprehensive designs as from Washington, including full reports of the speeches of eminent politicians on the questions of the hour.

The Farm Department

of the Weekly Herald gives the latest as well as the most practical suggestions and discoveries relating to the duties of the farmer, hints for raising Cattle, Poultry, Grains, Trees, Vegetables, &c., &c., with suggestions for keeping buildings and farming utensils in repair. This is supplemented by a variety of miscellaneous, widely collected, under the head of

The Home,

giving recipes for practical dishes, hints for making clothing and for keeping in with the latest fashions at the lowest expense, every item of cooking or economy suggested is of a character that is practically tested by experts before publication. Let a home circle of five hundred correspondents on the very latest fashions. The Home Department of the Weekly Herald will save the housewife more than one hundred times the price of the paper. The interests of

Skilled Labor

are looked after and everything relating to mechanics and labor-saving is carefully recorded. There is a page devoted to all the latest phases of the business market, crops, Merchandise, &c., &c., a valuable feature found in no specialty-reported prices and conditions of

The Produce Market.

Sporting News at home and abroad, together with a correspondence every morning by some eminent divine, Literary, Musical, Dramatic, Personal and Sex notes. There is no paper in the world which contains so much as a matter every week as the Weekly Herald, which is sent postage free, for One Dollar. You can subscribe at any time.

Hardy, Matthew Arnold, Henry Kingsley, W. W. Story, Turgenieff, Carlyle, Rossiglo, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh year*, fully and yet unfailingly maintaining its career of unexampled success. During the year it will furnish to its readers the productions of the most eminent authors, *of no name of less currency*, embracing the Choicest Foreign Short Stories by the *Leading Foreign Novelists*, and an amount

Unsurpassed by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the *foremost Essayists, Scientist, Critics, Discoverers, and Editors*, in every department of Knowledge and Progress.

THE LIVING AGE is a *weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents in an inexpensive form, consisting in great amount of matter, with fresh ness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best, the most satisfactorily presented, Tales, Sketches of Travel and Discovery, Poetry, Scientific Biographies, Historical and Political Information, and the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every intelligent reader, in the only satisfactorily FRESH and COMPLETE compilation of an indispensable current literature,—*indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"Gives the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Sun, Baltimore.*

"Gives the cream of all the periodicals."—*Times, Philadelphia.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"THE LIVING AGE WILL TO EVERY ONE SEEKING THROUGH COMPENDIUM OF ALL THAT IS ADMIRABLE AND NOTE WORTHY IN THE LITERARY WORLD."—*Post, Philadelphia.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Congregationalist, Boston.*

"The best literature of the day"—*New York Times.*

Published WEEKLY at $8.00 a year, *free of postage.*

EXTRA OFFER FOR 1880.

To all new subscribers for $8.00 will be sent gratuitously the numbers of the current year containing the interesting matter, the Serial Story of "THE WIDOW NOT WHO HE MAY," a new story by Miss MULOCK, now appearing in THE LIVING AGE from advance sheets.

Club-Prices for the best Home and Foreign Literature.

"Possessed of the LIVING AGE and one or other of our vivacious American monthlies, a subscriber will find himself *in command of the whole situation*."—*Boston Journal.*

For $10.50 THE LIVING AGE and *either one* of the American $4 monthlies (*or Harper's Weekly, Bazar*) will be sent for a year, or for $9.50 THE LIVING AGE and the *St. Nicholas, or App ton's Journal.* Address,

The Reformer and Vitalizer of the Blood

The Producer and Invigorator of Nerve and Muscle.

The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or enterrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name: no other preparation is a substitute for this under any circumstances.

CATARRH

NEVER-FAILING RELIEF

AFFORDED BY

SANFORD'S RADICAL CURE.

"It is a fact that can be substantiated by the most respectable testimonials ever offered in favor of any proprietary medicine, that the RADICAL CURE FOR CATARRH does in every case afford instant and permanent relief. No matter of how long standing, or how severe the disease, the first dose gives such evidence of relief in the consciousness of Catarrhal affection the confidence is at once felt in its ability to do all that is claimed for it. The testimony of physicians, druggists and patients is unanimous in this respect, and the astonishing evidence is in point of respectability superior to any proof ever before obtained in favor of a proprietary medicine. The proprietors, therefore, may justly be proud of the success the RADICAL CURE has attained and believe it worthy of its reputation."

10 YEARS A SUFFERER.

From Hon. Theo. P. Bogert, Bristol, R.

Messrs. WEEKS & POTTER: *Gentlemen*.—Feeling through the influence of the efficacy of SANFORD RADICAL CURE FOR CATARRH, I am induced to drop you line to inform you that although I have tried all the so-called "radical cures" that have been advertised as a "radical cure," I have never found anything that promised such relief as Sanford's Radical Cure, as that of SANFORD'S.

I have been afflicted with this dreadful disease for more than ten years, and not until recently could I succeed in procuring relief. Now, I can cheerfully and gratefully say that after using two bottles I am thoroughly convinced of a curative properties. Hoping that others similarly afflicted may be induced to make the trial, I remain, respectfully, etc., etc.

New Publications.

The *American Almanac* for 1880, published by the American News Co., of New York, is what it claims to be, a "treasury of facts, statistical, financial, and political." The work is edited by Ainsworth R. Spofford, librarian of Congress, a sufficient guarantee of its accuracy. Notwithstanding the immense amount of valuable information contained in the work, the price is only twenty-five cents.

The current number of the *British Quarterly Review* is received, from the Leonard Scott Pub. Co., No. 41 Barclay street, New York. The leading article in this number, "The Lords of Ardres," is from the pen of Edward A. Freeman, the historian, and will be very interesting to every student of mediæval history. "Glimpses of new gold and silver mines" gives a brief sketch of the various processes adopted in mining, with some account of the present and probable future production of these metals. "Modern Greece," a paper by Dr. Sandwith, comments on the history of Greece since the battle of Navarino, and especially condemns the policy of England with respect to the Greek cause. "Practical Æsthetics" urges the establishment of art galleries and museums, and the decoration of public parks and other places of holiday resort, as a means of creating in the popular mind a feeling of artistic beauty. Other articles are "The Christian Idea of God," which deals especially with the doctrine of incarnation; "Early nonconformist psalmody," an amusing account of the troubles attending the introduction of singing in public worship; "Why is Scotland radical?" "Mr. Gladstone and the nation;" and "Contemporary literature." Four dollars a year; postage paid.

To Fry Fish.

To fry fresh fish, so as not to absorb the fat, or destroy the delicate flavor of the fish, is quite a desideratum. A lady who has attended Miss Corson's practical cooking lectures, contributes the following to the *American Agriculturist*—derived partly from Miss Corson's advice, and partly from her own experience: "Small fish are to be fried whole; large fish have the fleshy portions cut off with a very sharp knife, and divided into strips (fillets) of a convenient size for serving. When cleaned and ready for cooking, wipe dry, and roll them in powdered wafers or cracker crumbs. Cracker, ready pulverized, is now sold at most grocery stores, under the name of "cracker dust." Dip the fish, or pieces, in well beaten egg, and again roll them into the cracker dust or crumbs, removing any lumps so as to leave the surface smooth. Have the fat hot, drop in the pieces, watching them carefully until they cook to a golden brown; then lift from the fat and lay upon thick paper to absorb the fat. Fillets or fish with the pieces in, may be treated in the same way. By this method the fish are well flavored, and much more digestible for weak stomachs. Fish are nourishing, and not only supply good food for the muscles, but also furnish good brain materials."

Two Organs.

Regulate first the stomach, second the liver, especially the first, so as to perform their functions perfectly and you will prevent at least, nineteen twentieths of all the ills that mankind is heir to, in this or any other climate. Hop Bitters is the only thing that will give perfectly healthy, natural action to those organs.—*Maine Farmer.*

"The best cough medicine in the world." The Old Vegetable Pulmonary Balsam, Cutler Bros. & Co., Boston. Small reduced to 35c; large, $1. 6wd&wtuw

Not the least important feature in Fellows' Compound Syrup of Hypophosphites, is the comfort, buoyancy and vigor which are imparted by its use, and which are developed as the patient recovers from sickness.

"Stubbs, did you ever see a phonograph?" "Yes; and it was saving. Take Adamson's Botanic Balsam for Coughs, Colds, and Asthma."

A Medicinal Wine for Kidney Complaint.

In this age of "extended liquors," it is pleasant to know that there is one article of pure wine in the market for medicinal use. We have references to Speer's Sambuci Wine, which was on exhibition at the Fair, and a glass was given to each visitor who claimed it. A glass was prefered to me, and I touched it to my lips somewhat unwillingly, but was agreeably disappointed in finding it one of the most delicious Wines I had ever tasted. I doubt whether there is a vineyard in the Old or New World that can yield a Wine at all comparable to this in richness and delicacy of flavor. Mr. Speer prepares it by a new process peculiar to himself, without the addition of spirits, and each bottle he sells is guaranteed to be four years old. It is largely used in the New York and European hospitals for Dropsy, Gout and all kidney complaints. It has found its way it would seem, to London and Paris Hospitals, as the best Wine to strengthen and build up a consumptive or debilitated system.—*Boston Evening Transcript.*

Portsmouth Chronicle

[Entered at the Post-Office at Portsmouth, N.H., as second-class matter.]

TUESDAY, FEBRUARY 3, 1880.

Speculation

is rife in some parts of the country. Large sums of money are daily sent to New York brokers, to be expended, not for safe and reliable investments, but in the purchase of the many mining and fancy stocks, of which never before were so many waiting the funds of the credulous countryman. Sound dividend paying stocks in banks, factories and well managed corporations are purchased, but not as freely as are those upon which the purchaser reckons a rise will follow his investment, and he will make money by selling at a handsome advance. People don't buy bonds of a reliable interest paying character, but something having a market, not a tangible value, and it would seem the poorer the security the better the price speculating buyers are ready to pay for it.

This is an unhealthy state of affairs, and shows that the lessons of the last panic are beginning to be lost sight of. People wish to get rich, not by slow accretions, but by rapid transit to affluence through some exceptionable means, and the end will be one of disaster and distress. In all speculations where one party gains another loses, and the attempt at achieving a result desired by so many, must in nearly every instance prove a failure. The furor of speculation seizes upon many who are secret in the operation. Husbands speculate without knowledge of their wives. Women try their luck in mining and other gambling stocks without counselling with their husbands. Officers of moneyed institutions and other corporations essay their luck without discovery until disaster reaches them. In short, the mania for gambling is far more general than is supposed, and it would seem that nothing but the bitter experience of beholding the elephant will convince some persons of the folly and utter futility of the practice in which so many are to-day indiscreetly indulging.

Found His Senses.

F. A. Sawyer, the secretary of State elected by the late lamented fusion "legislature" of Maine, and who all last week maintained that he was legally the secretary and should insist on exercising the duties of the office, at five o'clock Saturday afternoon gave up the contest, and turned over to the legally-elected secretary all the property in his possession, consisting of the State seal; returns of votes for governor, county officers, senators and representatives; council records; and all reports of the executive council for 1879, relating to election returns. The key to the safe Mr. Sawyer could not find. He says he took legal advice on Saturday, and was advised to hold out; but he was satisfied that Sheriff Libby had in his pocket a warrant for his (Sawyer's) arrest, and he did not care to be made a martyr of. He therefore gave up, under protest, his claims to the office, and will not attempt to exercise its functions further.

News and Notes.

Charles F. Freeman, the fanatic who murdered his his little daughter at Pocasset, Mass., on the 1st of May last, was on Monday committed to the insane asylum at Danvers.

Schooner Frank Walter, which struck a rock and was run ashore at Cuttyhunk last week, was pumped out and towed to New Bedford on Sunday by the revenue cutter Dexter.

Covert D. Bennett and Jennie R. Smith were acquitted in Jersey City, Saturday, on a charge of murdering the woman's husband. A previous trial resulted in a verdict of guilty, and the judge's charge at the late trial was strongly against the accused, so the acquittal was rather a surprise.

Six thousand dollars in coupon bonds has arrived at the Boston *Herald* office from the Hop Bitters company; this amount is to be rowed for at "the world's regatta" under the management of the Eastern rowing association of Boston, some time during the coming summer.

The house of Nicholas Halberg, of Cambridge, Mass., was broken into by four men, early Saturday morning. The thieves were discovered by Mr. Halberg and his wife, and a fight ensued in which the thieves were driven off, one of them being so badly wounded that he was soon afterward captured.

The was a $30,000 fire in a lumber yard at the south end of Boston, Sunday night.

Rev. Edward Cowley, of the "Shepherd's Fold," New York, is in the Tombs under twenty-five indictments for starving and otherwise abusing the children enticed into his fold. Bail in $500 is required on each indictment.

N. S. Beebe, formerly proprietor of the Amherst house, at Amherst, Mass., was fined $400 and costs, Saturday, for selling liquor without a license, and for selling to a minor. He appealed.

At a wedding in Ludlow, Vt., a few days ago, a slight ripple was created by the father of the bride, who put in a demurrer on account of a dislike for his prospective son-in-law. The clergyman paid no attention to him, and the marriage ceremony was completed.

One evening last week two young girls were seized in the streets in New York by four ruffians; one of the girls escaped, but the other, Alice Ward, aged eighteen years, was dragged to a vacant lot and criminally assaulted by all the men, and is expected to die. Patrick Dugan, one of the assaulting party, is under arrest, and the others are known.

The wife of Frank Sharpe, an employe of the Florence sewing machine company, has received official notice from Ireland that, by an accident to her brother whereby he lost his life, she has become heir to property worth $10,000; thirteen others in the family receive a like amount.

A negro named Wallace, who escaped on Tuesday of last week from the Leesburg, Va., jail, where he was awaiting trial for an outrage on a colored woman, committed a similar act Wednesday evening on a young white lady, Mrs. Mary Marmon, living in Virginia, twenty-one miles from Frederick, Md. He escaped into Maryland, and was there lynched.

At Ottawa, Ont., on the afternoon of the 29th ult., a man had a narrow escape from being buried alive. He was a small pox patient in one of the hospitals, and had apparently died of the disease. To all appearances the man was dead, and he was duly placed in a coffin and taken to the cemetery, where a grave had been opened to receive the remains. The sexton and others, who were conducting the burial, were startled at hearing a groan emanating from the coffin. On the lid being raised it was found the man had revived, apparently coming back to life. He was taken back to the hospital, and next day was much improved and in a fair way of recovery.

Naval Affairs.

The U. S. S. Quinnebaug arrived at Leghorn on the 15th ult., from Villefranche.

Acting-Sailmaker M. W. Watson is ordered to the Vandalia.

The Tallapoosa was placed in the dry dock at Norfolk, Va., last week, to have her copper patched and her deck caulked.

New Hampshire Items.

Mr. David Gregg, proprietor of Gregg's sash and blind manufacturing business in Nashua, and a resident of Wilton, fell upon a flight of stairs in his son's house at Nashua, Saturday morning, and received injuries that will doubtless prove fatal.

There is considerable excitement in Tilton over the alleged loss by the town collector, Albert Elliott, of $1400, on Saturday afternoon. He says he had the money in a pocket-book, and while crossing a foot-bridge near the mills stumbled and fell, the pocket-book falling into the river. The pocket-book was afterward found, empty. Only two of Elliott's reputed bondsmen ever signed his papers. The people of the town demand a rigid examination into the whole matter.

Cultivating Fish.

Although not willing to accept the statements made by some enthusiasts to the effect that the waters of our State can be made to produce a greater return in money than the land within its limits, we do believe that a proper attention to the cultivation of fish by stocking the waters with those breeds best calculated to thrive therein will prove a good investment of time and money, and any one contemplating the planting of those kinds of fish not now commonly found in our waters can obtain desirable information relating thereto, and many kinds of fish for stocking streams, ponds and lakes, by addressing the fish commissioners of the State.

Chicago's Name.

At the recent annual meeting of the Chicago academy of sciences, Professor Babcock, commenting upon a recent communication to the Chicago *Tribune* in regard to the origin of the city's name, remarked that it was the best showing yet made for the "garlic derivation" of the word "Chicago," though he was still disposed to question the derivation. An examination of the flora about Chicago showed three species of garlic. They were not found along the banks of the river, however, but over the prairies, and two of the three species out near Grand Crossing. Hence, in his opinion, the name "Garlic river" could not have been applied by the Indians to what was now known as the Chicago river. But along in June and July a plant with large green leaves, resembling a cabbage, and very odorous, was found growing along the banks of the north branch. The Indians called it Skokee, and the English of it was "Skunk's cabbage." Skokee, by an easy transition, had probably passed into Chicogee, and Chicogee into Chicago. In his opinion, the present name of the river had not been received by calling it "Garlic creek," but Skokee, or "The skunk's cabbage leaf."

A "Baby Tree."

No curosity exhibited in this city for years has attracted such general attention as that wonderful plant at Shannehan's art gallery. Fully 3,000 people have visited the place to look at the botanical wonder. It is said to be indigenous to Japan. Its technical term has not been ascertained, but it is known, and appropriately so, as the "Baby Plant." It is of the genius lily, sometimes attaining a height of four feet, and blossoming semi-annually. The one of which we write is, however, not more than twelve inches in height, with leaves about six inches long and two inches wide. The flower is star shaped, having five petals of a handsome brown and yellow color. The calyx encircles and protects a tiny little figure that bears an exact resemblance to a nude baby; its little arms and legs are out-stretched, and the eyes distinctly marked. Hovering over this diminutive form is a small canopy, angel shaped, having extended arms and wings, and peering closely into the face of the infant. The family of plants of which the "baby" is a member, produce not only the specimen which is now on exhibition but also give perfect imitations, if such they can be designated, of different animals, birds, and birds. Mrs. Mark Hopkins, of San Francisco, has one of the latter varieties, for which $300 was paid. The plant grows to be about three feet in height when fully matured, and when in full bloom the one now in this city will look like a shipwrecked foundling hospital.—*Portland (Oregon) Standard.*

—Angelina—"Edwin, my love, look at this most interesting creature, the autoeater." Edwin—"Ant-eater, my love, it would be more interesting to me if it was a mother-in-law eater." The bump on Edwin's head is getting slowly better, but Angelina's parasol is hopelessly deranged.

—An interprising soap-maker daubed the rocks all the way up the Hudson with the appeal, "Use Smith's soap." Whereupon his rival, the still more enterprising Jones, after much cogitation, started his whitewasher up the river append to each each of Mr. Smith's appeals, "If you can't get Jones'."

Don't trifle with the Teeth.

If our teeth were renewed as are our nails, they might not need constant care. But teeth don't repeat themselves after childhood. The proper thing to do is to use SOZODONT, which preserves their health and beauty. It never fails.

Brown's Household Panacea

Is the most effective Pain Destroyer in the world. Will most surely quicken the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic or acute, than any other pain alleviator, and it is warranted double the strength of any similar preparation.

It cures pain in the side, back or bowels, sore throat, rheumatism, toothache and all aches.

The great reliever of pain, "Brown's Household Panacea," should be in every family. A teaspoonful of the Panacea in a tumbler of hot water (sweetened, if preferred), taken at bedtime, will break up a cold. 25 cents a bottle.

Much Sickness,

Undoubtedly with children attributed to other causes, is occasioned by worms. Brown's Vermifuge Comfits, or Worm Lozenges, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely sure in eradicating worms, so hurtful to children. Twenty-five cents a box. t,th&f

AROUND HOME.

Good skating on the south pond.

February came in like a lion, and a very uproarious and objectionable lion at that.

George Smith, a druggist of Dover, blew off the top of one of the fingers of his left hand last Friday, while cleaning a revolver.

The Plains school has closed for a week, for want of a suitable teacher, the late teacher, Miss Garrett, having been transferred to the Peabody school.

A go-as-you-please race from Dover to this city and return, between two heavy weights of Dover, for $20 a side, is being arranged for April first. Good day for it.

The thermometer indicated ten degrees below zero at a point on Middle street, Monday morning; eight degrees below at Christian Shore; and on the navy yard, zero.

The fishermen had a rough time of it Sunday—at least those of them did who were caught out in the icy gale. The Una took the blow ten miles outside of the Shoals, but managed to work in.

As the query has arisen whether or not the season tickets to the Musical Convention entitled the holders to reserved seats, attention is called to the advertisement in our columns, where it is distinctly stated that they do.

The Congress street sidewalk in front of the Franklin buildings, which has been obstructed since work was commenced on the building of the block, has been cleared away so as to allow of the passing of pedestrians.

The fair of the Independent Order of Substantials, in Newcastle, which was to have been held on the 4th and 5th of this month, has been postponed to the 11th and 12th insts. on account of the sudden death of Mr. Wm. W. Martin, a prominent citizen of the town.

There are numerous signatures to a petition being circulated in Newmarket and vicinity, addressed to the county commissioners of Rockingham county, praying for a new highway from Newmarket to South Newmarket via "the bayside," which will require an estimated outlay of about $1000.

Steamer James Sampson had a new rudder hung, and her wheel-rods shifted from outside the bulwarks to inside, on Monday. The little steamer steered very well before, but now she will go where she ought to whether the helmsman looks after her or not.

A milk producers' convention was held at Newmarket on Saturday, and was largely attended, delegates being present from all the adjoining towns. Several addresses were made, the drift of the discussion being confined to the power of monopolies, and the present low rates received for milk by the producers.

A correspondent of the Dover *Democrat*, writing from Washington, says: "It is possible, and perhaps I may say probable, that the Wentworth house at Newcastle will be the favorite resort of a large number of democratic and republican senators and representatives during the months of July and August, preparatory to their entering upon the presidential campaign.

The schooner Jesse Williamson, Jr., of this port, one hundred and fifty-seven tons register, built at Milford, Del., in 1852, has been sold to Andrew P. Craig of Boston. In consequence of this transfer the schooner Union Flag has been substituted for the Jesse Williamson, Jr., to take five hundred tons of ice to the Shoals for the hotels there. The ice is cut at Milton, and brought to this city by rail.

Notwithstanding the extremely cold and blustering weather Sunday afternoon, the bethel services at Bow mission hall were well attended, the hall being well filled. The exercises were conducted by Mr. Daniel L. Randall; the 34th psalm was read as the basis of remarks, which were made on the character of David, several friends taking part in the services. Next Sabbath afternoon a lady will take charge of the exercises.

AID FOR THE STARVING.

Mayor Sise is in receipt of a communication asking from our citizens subscriptions for the relief of Ireland's famine-stricken sufferers. We are requested to say that those desiring to contribute to this charitable object will find a paper at the city rooms. "He gives twice who gives quickly."

POLICE COURT.

MONDAY, Feb. 2d; *Batchelder, J.*

There was quite a boom in police court business, Monday. George W. T. Brown, colored, for drunkenness was sent to Brentwood for sixty days, and ordered to pay $6.90 costs. Olive Austin, for the same offence, received the same sentence.

Annie Randall, charged with being a vagrant, was ordered to Brentwood for sixty days, the costs in her case being taxed at $7.67.

A young man who was arrested on Sunday for being drunk, woke up Monday morning sober and penitent, and was let off on condition of disclosing where he got the liquor. On his evidence Annie Sweeney was convicted of keeping her shebeen open on Sunday, for which she was assessed $13.04, fine and costs, which she paid.

SUPREME COURT.

MONDAY, Feb. 2d.; *Clark, J.*

The court was occupied Monday forenoon in calling the new docket, and other similar business. Eighty new actions have been added at this term.

In the afternoon case Challis et al. vs. Curtis et al., an action of trespass, was commenced. The suit is brought to try the title as to a piece of land in Newton, near Kingston. John W.F. Hobbs, Esq., of North Hampton, was appointed foreman of the jury. The land of the plffs. adjoins that of the defendants; the plffs. claim to have inherited the land from their ancestors, and have no title deeds defining the bounds; and they rely upon ancient landmarks, and the occupation and exercising all rights of ownership of the claimed premises, for a long period of years, to show their title. The plffs. are nearly eighty years of age, and reside in Amesbury. Hatch for plffs.; Marston for deft's.

Gilbert M. Trussell of Newcastle, and John S. Brown of Newton, jurors, were excused.

THE ROCKINGHAM COURSE.

The fifth and last entertainment in the Rockingham Course will not be given until April 9th, for reasons which the following letter fully explains:

BOSTON, Jan. 28th, 1880.

FRANK W. HILTON, Esq.,

My Dear Sir: I regret exceedingly my inability to have arranged for the appearance of the Boston Museum company at Portsmouth upon the date first designated, and will now, with your permission, name Friday, April 9th, for the appearance of our dramatic organization in your city. I am very sorry to have disappointed you, and trust you will lose nothing by a postponement for which you were in no wise responsible. Yours very truly,

R. M. FIELD.

On the date mentioned the full Museum company will appear, in "Silver spoons" and "A fool and his money."

TEMPERANCE IN THE HOME.

At the business meeting of the reform club, Saturday evening, the club through Mr. Janvrin received an invitation to be present at the Unitarian church Sunday evening, as the pastor was purposing to deliver a discourse on "Temperance in the home." The invitation was accepted; several of the officers and members of the club attended the service, and were ushered to the best seats in the church by Mayor Sise. We were sorry to see so few present of the acknowledged friends of temperance.

Mr. DeNormandie's discourse was based on the 35th chapter of Jeremiah, 14th verse: "The words of Jonadab the son of Rechab." In the remarks were many beautiful ideas, among which were the following: "Home is the divinely appointed place for the development of the christian virtues;" "Many a man would gladly give his influence on the side of temperance, were it not for the fashionable customs of society;" "Moderate usually ends in intemperance;" "The church, until of late years, has afforded but few inducements to the young equal to their needs." The discourse was listened to with much interest by all present, and will long be remembered, especially by the members of the reform club. We should like to see the lecture printed for circulation in every home in our city.

STEAMER MOSES H. GOODRICH.

The steam fire engine Moses H. Goodrich, No. 4, has recently undergone extensive repairs and alterations, and has been so improved in appearance that she will hardly be recognized as the engine of three months ago. A new dasher and a new driver's seat, both of iron, replace the old ones of wood; the lanterns which used to hang below the seat, now hang on the sides. The old car-springs have been changed for the elliptic pattern; this is a great advantage over the former arrangement, as the engine will not only ride much easier, but there is a saving in the general wear and tear, and it prevents any disarrangement of the machinery by sudden jolting. The pulling gear has been greatly improved, and a tool box, has been put up in front of the air chamber. The safety valve has been placed on the dome, and where it formerly was, now stands a miniature statue of a fireman. Six inches has been added to the vacuum chamber, and the delivery valve enlarged, which will lessen the tension on the works while throwing a larger body of water. The frame around the boiler has been extended three feet; this obviates any abruptness in the motion and prevents the coals from sifting out when going through the streets, or when the engine is in operation. A new stay bolt has been put into the boiler, and adds greatly as a strengthening power. Two new lanterns have been added, and are hung on the back of the boiler. The doors of the boiler have been new rivetted, which stops all leakage. There were formerly two pumps for filling the boiler; one of these has been removed to make room for a patent inspirator, which feeds the boiler without the use of steam or pump. New brakes, said to be an improvement on the Manchester patent by increasing the lever power, are connected by rods to the dasher, thus giving the driver complete control over them. The centre outlet has been provided with a valve or gate; without this the men were obliged in case of the bursting of the hose connected with this outlet, to stop the engine in order to fix it; they now can close the valve, and work without any interruption. The forward axle-tree has been enlarged and strengthened; and the front works of the engine, which rest on it and were formerly secured by iron straps, are now held by a transom bolt, which is considered to be more secure. It takes about eighty pounds of steam to work the engine. At a trial of her one day last week it is said that she worked admirably, and threw three streams as nicely as could be sent from any engine.

The work has been done by Messrs. Critchley & Whalley, and the manner in which they have performed it must be gratifying to those members of the city government who insisted that the work should be done here, if it could be done as well and as cheaply as elsewhere; and it proves that the mechanics of Portsmouth are up to the general requirements of machine work.

The engine, which is now in the relief (or Sagamore) house on Hanover street, will be taken to the building on Court street.

She has received a new coat of paint, the body red with tracings and designs of gilt, blue, etc. The front of the dasher is decorated with the motto "Be just, and fear not," in the centre of which is the likeness of the Hon. Ex-Mayor Moses H. Goodrich. On the back of the seat is painted: "Painted January, 1880, by W. J. Sampson & Co." The ornamentation is in good taste, and equals any work done by this firm.

The following are the present members of the company:

Foreman, John S. Banks;
1st. Asst., Edward Watkins;
2nd. Asst., Andrew J. Langdon;
Clerk, Edwin M. Shannon;
Pipeman, John H. Webber;
Steward, Augustus Ham;
Asst. Pipeman, Herbert A. Marden;
1st Hoseman, Charles H. Foote;
2nd Hoseman, James McCarty;
Line of hose, George F. Pinder, George W. Foote, Andrew Frisbee, Charles A. Smart, James Cate, Albert Goldthwait, George H. Smart;
Suction hose, Frank P. Webber, James Shea, Charles H. Shannon, Winfield Lord, Thomas D. Wardwell.

The hall or reception room of the company has been fitted up at some expense, and with good taste. The walls are painted a straw tint, bordered with heavy gilt mouldings, and other decorations. A Brussels carpet covers the floor; the windows have a heavy cornice of black walnut, to which are attached deep valances of maroon colored rep, and drapery curtains of lace. The furniture comprises sofas and chairs of black walnut, upholstered with black hair cloth, marble top tables, and a handsome standing easy chair and mirror. On the walls are several lithographs and pictures, and the general effect is homelike and cheerful. The little rivalry which exists between the several engine companies is a matter of pride and an incentive to do their best. The motto "be just and fear not" is one which all can follow with a sure result of good.

YORK COUNTY ITEMS.

The Union Bluff post-office at York was discontinued last week.

Parties in Boston and Biddeford are considering a project to put up a telephone wire to connect the pool with Biddeford proper.

The Old Orchard & Goose Fair railroad is now an assured fact. The land is being bonded, and the projectors think a narrow gauge road will be in running order by June next, in ample time to accommodate the beach travel.

Odd Fellows Mutual Relief, Rockingham County, N. H. The adjourned meeting to hear report of committee on revision of by-laws, will be held at committee rooms, Odd Fellows' hall, Tuesday evening, Feb. 3d, at 7:30 o'clock.

E. M. BROWN, President.

—An Augusta milliner is reported failed. With all the "fuss and feathers" in that city the past few weeks milliinery stock ought to be cheap enough to prevent failure.

—Miss Rogers, a cousin of Richard Cobden, is the prodigy in the last examinations at Oxford university, England. She outstripped all the other students in Greek and Latin. Her knowledge in other branches is quite as wonderful. After passing her examinations she was at once appointed lecturer in Somerville Hall, one of the Oxford buildings for women students.

—An Englishman arrived in this country a few weeks ago, and as he stepped on the pier at New York, a cable dispatch was placed in his hand calling him home. Two hours later he sailed for London. It is now said that he intends to write a book descriptive of America and the Americans. Heretofore Englishmen have been in this country at least two days before they have undertaken such a work.

—A singular accident occurred on a Missouri, Iowa & Nebraska freight train recently, one of the cars composing it coming into Promise City, Ia., with one pair of trucks completely gone, leaving that end of the car suspended by the coupling. The accident was not discovered till the train stopped at the station, but the trucks were afterward found broken up and scattered along each side of the track.

—Australia is greatly exercised respecting a woman who has for many years passed herself off as a man, and who has married several wives. In 1857 a girl bearing the name of Ellen Tremayne came to Melbourne in the ship Ocean Monarch. On her arrival she married a fellow-passenger of the name of Mary Delahunty, and assumed herself the name of Edward De Lacy Evans. Mary died, "she" married Sarah Moore, and on the death of Sarah "she" married Julia Maypard. Julia is still alive, but Miss Edward De Lacy Evans, having gone mad, has been confined in the Kew lunatic asylum, where his or her sex was discovered owing to each inmate being forced to take a bath. The curious circumstance connected with this case is that not one of the wives revealed the imposition that had been practiced upon her; nor did the miners with whom Miss Edward worked for above twenty years ever suspect that she was a woman.—*London Truth.*

Platinotypes.

The latest improvement in photography has resulted in the production of pictures called "platinotypes," the process of making which is thus described: In the first place a negative is made as for a photograph, and sensitized paper is exposed under a negative as in silver printing. Next the print is passed through a bath of heated platinum, which develops the platinotype instantly; it is then subjected to a bath of citric acid for a few minutes, which cleans the print of all unemployed platinum, leaving the finished print a pure metallic platinum that is absolutely permanent, and cannot be faded by light, or destroyed by any chemicals except *aqua regia*. The print can be made on paper, linen, or any white cloth, and its permanency consists in its being printed *in*, and not on, the paper. The particles of platinum forming the image are so imbedded in the fibres of the paper, or other material, that the image cannot be rubbed off by any amount of friction which does not tear the fabric. The prints are brilliant and the details perfect, the whites, especially, being very pure. No fixing agent is used, and there is nothing to destroy delicate shades. The printing occupies only about one-third the time of silver printing.

Mrs. Partington says

Don't take any of the quack nostrums, as they are regimental to the human cistern; but put your trust in Hop Bitters, which will cure general dilapidation, costive habits and all comic diseases. They saved Isaac from a severe extract of tripod fever. They are the *ne plus unum* of medicines.—*Boston Globe.*

STOMACH BITTERS

Do you feel that any one of your organs—your stomach, liver, bowels, or nervous system, falters in its work? If so, repair the damage with the most powerful, yet harmless, of invigorants. Remember that debility is the "Beginning of the End"—that the climax of all weakness is a universal paralysis of the system, and that such paralysis is the immediate precursor of Death.

THE *Admiration* OF THE *WORLD.*

A NOTABLE EVENT!

Mrs. S. A. Allen's WORLD'S *Hair Restorer* IS PERFECTION.

A Noble Record: near Half a Century. Established 1832. Improved 1869.

The nature of the great improvement is in its wonderful life-properties to faded or fading hair, and MORE QUICKLY CHANGING GRAY OR WHITE HAIR to its natural youthful COLOR and BEAUTY.

IT IS NOT A DYE.

It requires only a few applications to restore gray hair to its youthful color and lustrous beauty, and flagging hair to growth, and its vexatious falling to shedding, and its scurfiness and baldness to a healthy growth, and its restoration to the hair of those in advanced age, the highest perfection in preparations. It is quickly and permanently restorative.

Sold by all Druggists, $1.25 Per Bottle.

KIDNEY WORT

PERMANENTLY CURES KIDNEY DISEASES, LIVER COMPLAINTS, Constipation and Piles.

DR. R. H. CLARK, South Hero, Vt., says, "In cases of KIDNEY WORT PILES it has acted like a charm. It has cured many very bad cases of PILES, and has never failed to act efficiently."

SELECTMAN ELIJA ALLEN, Vt., says, "It is self-recommending. After sixteen years of great suffering from Piles and Constipation it completely cured me."

CAPT. JOHN LYON, of Newcastle, says, "Kidney-Wort has done wonders for me. It completely cured a severe Liver and Kidney Complaint."

IT HAS WONDERFUL POWER. WHY? BECAUSE IT ACTS ON THE LIVER, THE BOWELS AND KIDNEYS AT THE SAME TIME.

Because it cleanses the system of the poisonous humors that dominate in Kidney and Urinary diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia and Nervous Disorders.

KIDNEY-WORT is a dry vegetable compound and can be sent by mail prepaid.

One package will make six qts of medicine.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION; Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youthful or other indiscretions, or by excessive indulgence or disease, may be completely restored and manhood regained.

Two hundredth edition, revised and enlarged, is a standard medical work, and the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains a multitude of valuable engravings. Three thousand pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail postpaid.

POROUS PLASTER

BENSON'S CAPCINE PLASTER

A Word to those who use Porous Plasters. It is a universally acknowledged fact that BENSON'S CAPCINE POROUS PLASTERS ARE SUPERIOR TO ALL OTHERS! The great demand for them has induced a number of unscrupulous parties to make and sell worthless imitations, which are put up so closely like the genuine article that the unsuspecting purchaser is deceived, and the cheap article is here sold for the genuine article. The genuine BENSON'S CAPCINE POROUS PLASTER is covered with a red cloth, and has the name of the article, BENSON'S CAPCINE, on each plaster in covered English. THERE IS NO OTHER. ONE DOLLAR A YEAR.

The circulation of this popular newspaper has more than trebled during the past year. It contains all the leading news contained in the Daily Herald, and is arranged in handy departments. The

Foreign News

embraces special dispatches from all quarters of the globe. Under the head of

American News

are given the Telegraphic Despatches of the week from all parts of the Union. This feature alone makes

The Weekly Herald

the most valuable chronicle in the world, as it is the cheapest. Every week is given a faithful report of

Political News

embracing complete and comprehensive despatches from Washington, including full reports of the speeches of eminent politicians on the questions of the hour.

The Farm Department

of the Weekly Herald gives the latest as well as the most practical suggestions and discoveries relating to the duties of the farmer, hints for raising Cattle, Poultry, Grains, Trees, Vegetables, &c., &c., with suggestions for keeping buildings and farming utensils in repair. This is supplemented by a well-edited department, widely copied, under the head of

The Home,

giving recipes for practical dishes, hints for making clothing and for keeping up with the latest fashions as the seasons pass. Every item of cooking or economy suggested in this department is practically tested by experts before publication. Letters from our Paris and London correspondents on the very latest fashions. The Home Department of the Weekly Herald will save the household more than one hundred times the price of the paper. The interests of

Skilled Labor

are looked after, and everything relating to mechanics and industrial enterprise carefully recorded. There is a page devoted to all the latest phases of the business markets, Trade, Merchandise, &c., &c. A valuable feature is found in the specially reported prices and conditions of

The Produce Market.

Sporting News at home and abroad, together with a story every week, a Sermon by some eminent divine, Literary, Musical, Dramatic, Personal and Sea Notes. There is no paper in the world which contains so much use to smaller every week as the Weekly Herald, which is sent, postage free, for One Dollar. You can subscribe at any time.

In 1880, THE LIVING AGE enters upon its *thirty-seventh* year, admittedly unrivalled and continuously successful. During the year it will furnish to its readers the productions of the most eminent authors, *absorbing and many others;* embracing the choicest serial and short stories by the *Leading Foreign Novelists*, and an amount of

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the *first critical Essayists, Scientists, Critics, Discoverers* and *Editors*, representing every department of Knowledge and Progress.

THE LIVING AGE *is a weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents in as inexpensive form, consistently with its amount of matter, and freshness, owing to its weekly issue, and with a satisfactory completeness attempted by fortnightlies, the choicest Results of Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific Biographies, Historical and Political Information, from the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE compilation of an indispensable current literature, *indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"It affords the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"With, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that through its pages alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Philadelphia Inquirer.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Cincinnati.*

"It is INDISPENSABLE TO EVERY ONE who desires a thorough compendium of all that is valuable and note worthy in the literary world."—*Post, Boston.*

"There is no other way of procuring the same amount or the excellence of literature for anything like the same price."—*Boston Advertiser.*

"The best literature of the day."—*New York Times.*

CATARRH

NEVER-FAILING RELIEF

AFFORDED BY

SANFORD'S RADICAL CURE.

It is a fact that can be substantiated by the most favorable testimonials ever offered in favor of a proprietary medicine, that the RADICAL CURE for Catarrh does in every case afford instant and permanent relief. No matter of how long standing, or how severe the disease, the RADICAL CURE has given such evidence of value in the treatment of Catarrhal affections in the influenza as to place beyond question its ability to do all that is claimed for it. The testimony of physicians, druggists and patients is unanimous in this respect, and the accumulating evidence is a point of respectability superior to any ever before obtained in favor of a popular remedy. The proprietors, therefore, may safely rest upon the position the RADICAL CURE has attained as deserving it worthy of its reputation.

10 YEARS A SUFFERER.

From Hon. Theo. P. Bogert, Bristol, R.

MESSRS. WEEKS & POTTER: *Gentlemen,*—I feel thoroughly convinced of the efficacy of SANFORD'S RADICAL CURE FOR CATARRH. I am induced to drop you a line to say that although I have been a sceptical of a cure, I have tried it, and have found it a perfect relief. I have found anything that promises such relief and immediate cure as that of SANFORD'S.

I have been afflicted with this dreadful disease for more than ten years, and grew until recently, quite deafened by it. I commenced with any until I read the letter of Hon. HENRY WILSON, and can truthfully say that after using the first bottle I am thoroughly convinced of its curative properties. Hoping that others similarly afflicted like myself will be induced to make the trial, I remain, gentlemen, very truly, etc.

Important Decision of the U. S. Supreme Court.

The United States supreme court on Monday decided the case of Neal Dow, plaintiff in error, vs. Bradish Johnson, from the circuit court of the United States for the district of Maine. The case was appealed from a judgment awarding defendant in error $2,659.67, in satisfaction of a judgment obtained against Gen. Dow in the sixth district court of New Orleans, April 6th, 1868, for twenty-five hogsheads of sugar and some table silver taken from his plantation for use by the United States army. The supreme court holds that an officer or soldier of the army of the United States, whilst in service during the late war in the country which acknowledged the authority of the so-called confederate government,—that is, the enemy's country,—was not liable to a civil action in the courts of that country for injuries resulting from acts of war ordered by him in his military character, nor can he be called upon to justify or explain his military conduct in a civil tribunal upon any allegation of the injured party that the acts complained of were not justified by the necessities of war. A federal officer, in the enemy's country, is amenable only to his own government or to its laws administered by authority. The Louisiana State court had no jurisdiction over Gen. Dow, and the present suit cannot be maintained. Judgment reversed with costs. Justice Field delivered the opinion, Justices Clifford and Miller dissenting.

—A new walking-boot for ladies has made its appearance, which laces over the instep like a gentleman's shoe, instead of buttoning at the side. It has a broad sole and low heel.

—The Philadelphia *Times* wickedly says: "When Commissioner Le Duc has so utilized the soil and climate of this country as to enable him to raise the kind of cold tea that is sold in the Capital restaurant, he can get as big an appropriation from Congress for the purchase of an experimental tea farm as he may ask for."

—In a Norwich school, according to the *Bulletin*, the teacher wrote the word "sport" upon the blackboard and called for its definition, and there proved to be one juvenile mind that could separate the word from the idea of fun or playfulness. That one, a little girl of less than seven summers, astonished the teacher by saying: "Sport—a man what wears his hat on one side."

—The newest French fashion for weddings is to turn a room of the house into an oratory, and have the ceremony performed at midnight. The civil marriage takes place in the morning, and the dinner is a banquet, at which the bride appears wearing a pink or blue gown, and, in virtue of her newly acquired title of "Madame," diamonds. In the evening there is a ball, and at twelve o'clock the wedding is followed by a supper.

News and Notes.

While Theodore Saunders, a well known citizen of Waterford, Me., was unloading logs on Saturday, a large log rolled upon him, killing him instantly.

The summer residence of W. D. Pickman in Beverly cove, Mass., was burned Tuesday morning, with its contents. By the fall of a chimney Frank Fielder, fifteen years old, was killed, John Fielder's leg was broken, James Fielder was probably fatally injured, George Cleaves had a leg broken, and Levi Goodhue had his head badly hurt. The fire is supposed to have been caused by thieves, who first plundered the dwelling and then set it on fire. No person was living in the house, but it was filled with elegant furniture and works of art.

Advices from St. Louis say the tide of negro emigration from the south has set in again. About a hundred arrived there on the steamer Scudder, and left for Kansas; no many more came by the steamer John B. Maude. All have some money, and are chiefly from East Baton Rouge, La., Washington county and Grenada, Miss. They say there are hordes to come. Numbers are waiting on the banks of the river for transportation, as thick as nice birds. A colored man, acting as agent, has sent to the relief committee a list of 900 families who, he says, wish to come north.

John D. Gardner and wife, aged about thirty years, were burned to death at Easton, Mass., Sunday morning. They had been drinking with some visitors, Saturday night, and are supposed to have set their house on fire while drunk.

Gen. Beauregard is in Washington defending the Louisiana lotteries, on the bill proposed by Postmaster-General Key to keep lottery circulars out of the mails. This is one of those discriminating measures which seeks to deprive the lottery men of the use of the public mails, and permit their use by stock gamblers and others who are sure to fleece those who remit money to them, while in the lottery game there is a chance now and then of a prize coming to a man, if he will discount the interest.

The excitements of a skating rink and a gift book sale are too much at one time for Springfield, Mass. The *Republican* cites the case of a mother who has become so fascinated with skating that she is found at the rink morning, noon and night, having put off all home cares. It is claimed that she remarked the other day, "I know it is killing me, but I can't give it up!" There are other stories concerning a mother, who, although unable to read, invested her only dollar the other day at the gift book store, hoping to draw a valuable prize, and was then obliged, after drawing some trifling present, to beg a loaf of bread for her children's food.

A poor woman of Skowhegan, Me., who is in poor health, has just received a back pension amounting to over $1,000.

Alice Barker, six years old, attempted to kindle a fire with kerosene oil, at Fall River, Mass., Monday. The flames communicated to her clothing, and she was so badly burned that she cannot possibly survive her injuries.

The Colossal Bronze Statue of Victory which stands in the Park, at Lowell, before the tomb of the first soldiers that fell in the revolution, is a lasting and beautiful tribute of art. It is one of the first objects sought by strangers visiting our sister city, which indeed many visit purposely to see this elegant object of high art. It was obtained from the King of Bavaria by Dr. J. C. Ayer, to whom His Majesty was especially gracious in acknowledgment of what his remedies are reputed to have done for the suffering sick. It was donated by the Doctor to the city of Lowell as a permanent and speaking emblem of the victories both of science and arms.—*Bayerstown (Md.) Press.*

Daniel W. Mullen, a watchman at the Nashua Lock Works, is under arrest, suspected of setting the recent fires in Nashua.

The operatives of the Great Falls cotton mills are working two hours overtime each day, such is the demand for the cloth manufactured there.

The temperature was fourteen degrees below zero at Concord on Monday.

The Concord capitalists will take $250,000 worth of stock in the proposed new mills at Garvin's Falls, the Amoskeag Co. of Manchester, who own the land, will build a mill similar to the new one now building at Manchester. The local water power is about 10,000,000 gallons. The Fish commissioners have stocked over 100 ponds with black bass, pickerel, shiners, with land-locked salmon, and expect to stock twenty more with the latter before the coming season. The commissioners are now to stock the ponds, and must obtain the people of the State to aid them in protecting the young fish. On Sunday night three masked men entered the house of the Whitefield railroad station, and after having tied the agent, gagged and bound the assistant ticket agent, W. C. McCausland, robbed him of about $135 belonging to the Boston, Concord & Montreal railroad company. When found McCausland was nearly dead. On recovering consciousness he gave a description of the robbers, who it seems are Frenchmen, and detectives are on the track of the suspected parties.

Naval Affairs.

Congressman Harris thinks that we have not much of a navy. One way to build up a navy would be for Congress to enact that when sums are appropriated to be expended toward rendering the navy efficient, and by implication are legally required to be used to this end, the secretary of the navy should be obliged to expend the same or else give a satisfactory reason why he returns the sum or any portions of it, unexpended for the purposes indicated.

Lieut. Comdr. Thomas M. Gardner relieved Lieut. Comdr. Barclay in command of the Onward at Callao, Peru, on the 17th of December.

The Powhatan left New York on Saturday for Norfolk.

The Trenton, Adm. Howell's flagship, has sailed from Port Mahon on a cruise.

New Publications.

Glints From Over the Water, by P. B. Coggswell; Concord; published by the author; pp. 413.

The series of letters now given in book form were written from different localities in Europe, for the Concord *Statesman*, while the author was abroad in 1878 and 1879, and were intended only for newspaper publication. They appear substantially as at first printed, and evidently have not been subjected to that careful elimination which is requisite to make letters written *en route*, read acceptably when put in book form. The newspaper man who journeys in Europe and writes upon the wing his hasty glints, which he intends only for readers for the time being, is at times betrayed into the use of expressions which did he expect to appear within the covers of a book, he would carefully avoid. This, of course, depends upon the habit of the writer and his custom as to the use of pure English. Take the reminiscences of European travel published twelve years ago by Dr. A. P. Peabody; they were transcribed from letters written to the author's own family, without the remotest reference to publication either by lecture or book, and yet the purity of style and correctness of expression is almost equal to the standard of the personal character of the former editor of the *North American Review*. In the book before us, where Mr. Coggswell, speaking of Tourjee's party, says, "We saw one of the itineraries being rushed through the Hotel des Invalides, the next day, by their cicerone," he evidently intends to refer not to the Tourjee itinerary or programme, but the itinerants under the auspices of the professor of music and travel. Mr. Coggswell should have carefully read over his letters, which "without attempt at fine writing, had given so general satisfaction," before placing them between the covers. There are many things newspaper readers may need to be informed concerning, but which for readers of books, are surplusage. Still, the writer does not like to part with any considerable portion of his efforts. The letters are readable, and especially instructive and interesting to those unfamiliar with books of this kind. The binder would have given a more appropriately shaped book had he trimmed the pages to a smaller size, but this and the kind of paper used are of course matters of taste. Mr. Coggswell's letters gained for him quite a reputation, for the manner in which he afforded the readers of the *Statesman* accounts of the beaten paths over which he passed. As author of a book, he enters a field previously occupied by some of the most interesting writers in the country, with whose volumes the *Glints* will be compared not as originally produced, but by the standard of authorship upon a well occupied ground.

—A long single curl is again added to the most dressy coiffures.

—An unlucky person replied, on being asked what he cleared by a certain speculation, "Nothing but my pockets."

—*Bals Blancs* is the enticing name given to certain entertainments at which all the ladies wear white and are young and unmarried. It is said by envious matrons that the men who are invited to attend these balls come home talking about cold veal, and sago, and other tasteless viands, and are sometimes heard to wish that they could adjourn from the dancing room to a particularly wicked supper.

Two Organs.

Regulate first the stomach, second the liver; especially the first, so as to perform their functions perfectly and you will remove at least nineteen twentieths of all the ills that mankind is heir to, in this or any other climate. Hop Bitters is the only thing that will give perfectly healthy, natural action to those organs.—*Maine Farmer.*

Mrs. Partington says

Don't take any of the quack nostrums, as they are regimental to the human cistern; but put your trust in Hop Bitters, which will cure a general disgustation, costive habits and all comic diseases. They saved Isaac from a service extract of tripod fever. They are the *no plus ultra* of medicines.—*Boston Globe.*

Political.

All but four of the fusion senators have taken their seats in the legal legislature in Maine, and most of the members of the bogus House have also surrendered by going over to the one recognized by the court.

Dr. Lapham of the *Maine Farmer* will give the history of the counting-out conspiracy in that State in book form. It will, as a record of crime, be next to the "Pirate's Own Book."

—The Spanish bride's are the fashionable style of hair-dressing. The front hair is braided at the sides in four-strand plait, after the fashion of twenty years ago, and passes below the ear, the ends being caught with the back hair, which is worn in a small knot or looped in two wide braids.

AROUND HOME.

Light fares of fish were brought in on Tuesday; the entire catch would not exceed 20,000 lbs.

The board of directors of the Portsmouth Shoe Company has chosen F. E. Potter president, and Charles H. Mendum treasurer.

Hon. E. H. Rollins has introduced a bill in the United States Senate, appropriating $35,000 for the improvement of the channel of the Swamscot river.

One hundred and eleven shares in the Eastern railroad were sold at the brokers' board in Boston on Tuesday at $39 per share, and fifteen shares at $39.25 per share.

The handsomest marten-house we ever saw ornaments the window of the store recently occupied by J. Dwight Rundlett as a drug store; it was made by Daniel J. Spinney.

The hotel at Dover point is to be enlarged, the proprietor, Park Spinney, Esq., having contracted for the erection of an addition of forty rooms. The present structure is also to be overhauled and renovated.

Cocheco Manufacturing Co. shares sold at $752.50 in Boston last week; Eastern railroad in New Hampshire, $79.50; Portland, Saco & Portsmouth railroad, $104.-75; Portsmouth, Great Falls & Conway railroad, $88.

Lent begins on the 11th inst., and the fishermen will not disfigure their countenances but hope for prosperous business. There is only one trouble feared—that the fish may observe Lent by being absent from the grounds when sought for.

A young woman named Snow, an operative in a Dover shoe shop, was so overcome with the cold while going to work Monday morning that she had to be taken home in a hack. The thermometer stood at twelve degrees below zero early in the morning, and was at four below at eleven o'clock in the forenoon.

The schooner George D. Mills, Tillotson master, bound from New York for this port, put into Gloucester, Mass., on Monday, having had three jibs split and her rigging damaged on Sunday in a squall, when off Thatcher's island. Previous to the squall a three-masted schooner was in sight, but she was not seen afterward.

St. Valentine's day is not far off, as we are reminded by the great display of the annual missives in the window of Lane's bookstore in Exeter. The student at Phillips, as he emerges from the campus, walks down to Water street these days big with the question he is endeavoring to solve—whether he will purchase a sentimental or comic valentine for 1880.

Speaking of the objection of some fishermen to published reports being made of their catches, on the ground that it brings a large fleet into the bay, the Newburyport *Herald* says: "They should know, however, that the supply is comparatively exhaustless, and that the more bait scattered the greater the inducements for the fish to visit these waters. Even now the entire fleet is unable to supply the market, at prices nearly twice as high as those of last winter."

Harry Osgood, a little five-year old son of Charles N. Osgood, while crossing the south mill pond on Sunday, returning home from church, was thrown flat on the ice by the heavy gale and rapidly swept down the glaring field of ice towards the open channel near the bridge, the little fellow terribly lacerating his hands in his attempt to hold to the icy hummocks as he passed them. His agonizing cries for help brought to his rescue two young gentlemen, Vaughan and Braxton, who, crawling on their hands and knees, were able to save the child within a few feet of the channel.

THE STORM.

The hardest storm of the season, so far, commenced in this city early on Tuesday morning, blowing a heavy gale. A light fall of snow began about half-past six o'clock, and soon increased with the wind. About twenty fishing vessels arrived early in the forenoon, reporting one of the severest gales for years. The snow was so dense and blinding that several vessels lost their reckoning; the first landmark seen by most of them was Col. Eastman's cottage on Odiorne's point, which proves an excellent guide for the fishermen in case of thick weather. The severity of the gale was bitter, tested by a walk along the river side. On the east side of Market street, through Bow and Water streets, were blockades of snow, some of the drifts being six feet high. It is said that there were over a hundred vessels in Ipswich bay when the storm commenced, and some anxiety was felt regarding their safety, as the wind was more violent west of Newburyport than here.

Only one wreck among the fishing fleet was reported up to Tuesday evening. The schooner Winifred J. King, in the shore fishery, went ashore on the back side of Eastern point, Cape Ann, at four o'clock in the morning; crew saved. She will probably go to pieces. She was insured in the Gloucester Mutual Fishing insurance company to the amount of $3870, with $600 on outfit.

THE CANADIAN "OLD PROB."

Prof. Henry G. Vennor, of the geological survey of Canada, a week or more ago gave to the press the following predictions as to the weather likely to prevail in the eastern and northern portion of the United States and the British provinces, during February and March:

One of the heaviest snow falls of the winter is likely to come upon us on the 2d or 3d of February, and occasion deep drifts and railroad blockades. Following this immediately, a cold snap will set in, of considerable severity, lasting some four or more days. Next will come a period of mildness, even warmth, with rain and slush, up to about the 15th or 16th. The 16th will give us the second heavy snowfall of the month, with drifts again, and another railroad blockade. Between the 20th and 25th the second cold term will probably set in, and this bids fair to be very severe, and occasion some very low thermometer readings. Thus, with the exception of one considerable thaw in this month, February will be an exceedingly wintry month.

The 13th and 21st of March will again give heavy snowfalls, and it is probable in this month we will have more snow than at any time previous during the winter.

Prof. Vennor hit it about right regarding the drifting snowstorm of "the 2d or 3d of February," and the rest of his prophecy will be regarded with considerable interest.

BRILLIANT WEDDING.

A brilliant wedding occured at Exeter on Tuesday. The happy parties were Mr. George L. Ilsley and Miss Ella M. Merrill, daughter of Benj. L. Merrill, Esq., president of the National Granite State bank. The ceremony was performed by Rev. B. F. McDaniels of the Unitarian church, at the elegant mansion of the bride's father on Front street. The presents were numerous and beautiful. Among them were a fine oil painting from the bridegroom, elegant French clocks, several elaborate articles in silver, bronzes, statuettes, rare engravings and other articles, useful and ornamental, from relatives and friends in Exeter and elsewhere. Portraits of the grandfather (the late Abner Merrill) and grandmother of the bride, by a Boston artist, formed one appropriate gift from the parents of the bride.

YORK COUNTY ITEMS.

Mr. Edward Barrell of York is to put up a fine new house on his place at the foot of Beech ridge.

Among the bills introduced in the Maine legislature this week were one to incorporate the Orchard Beach Wharf & Steamboat Co., and one granting a charter for a railroad from Kennebunk village to Kennebunkport village.

Considerable trouble is reported in some of the schools at York. In one case a young teacher is said to have rapped a pupil about as old as himself over the head with a club; and another teacher gave up his school a few days before the close of the term, because the big girls made fun of him.

There was quite an excitement in the brick schoolhouse at Kittery foreside, about two o'clock Monday afternoon. Some bits of paper, swept into a register, caused a great smoke, but no harm was done beyond occasioning the dismissal of the school. An alarm of fire was given, but the services of a fire department were not required.

The Mousam Manufacturing Co., of Kennebunk, have bought from the Lord property in Kennebunkport the long wharf, the spar yard and the ship-yard, including the office and other buildings, in all a water front of 400 feet. It will probably be improved in connection with their leather-board mill and shoe-factory in Kennebunk village.

Rev. Oliver Butler and wife, of Biddeford, completed fifty years of married life last Saturday. Their only children are Hon. John E. Butler of Chelsea, Mass., formerly editor of the Biddeford *Journal*, and Miss M. J. Butler of Boston, who visited their parents on Saturday, and presented them with two elegantly bound volumes consisting of over sixty autograph letters from relatives, friends and former parishioners, scattered far and wide, containing congratulations and reminiscences, among the letters being one from the groomsman and bridesmaid who "stood up" at their marriage half a century ago.

Two men in Kennebunkport got drunk last Thursday evening, and then started for their homes. One reached his own doorstep and laid down for a rest, but was found by his folks and helped into the house; the other went to sleep in the road, and had one arm so badly frozen that it is feared amputation will be necessary. He would probably have frozen to death if he had not been discovered by a man who was passing that way about three o'clock Friday morning.

L. S. Hill of Saco has been held in $500 to appear to answer charges of crookedness in business transactions. It is alleged that he bought cattle of various persons on credit, telling the parties that he owned unencumbered property in Saco worth $2600, whereas the property at the time was mortgaged for $1600; and that he sold some of the cattle before reaching home, for less than he paid—or promised to pay—for them. Then about the time the notes given for the cattle became due, Hill sold his property to his father-in-law by deed of warranty.

Suit has been brought against Carlos Heard, Joel L. Roberts and J. Q. Dennett, three of the aldermen of Biddeford, by Horace L. Piper of that city, a clerk in one of the departments at Washington, to recover $2000 for the wrongful exclusion of Piper's name from the voting list just previous to the September election. Mr. Piper at that time appeared before the board of aldermen and shew them the law governing the case, but he is a republican, so his name was stricken from the list by a party vote of the board. The trial of the case, by agreement of all parties, has been assigned for the first day of the May term of the supreme court at Alfred.

The Angora Goat in America—A Distinguished Arrival.

It is thirty years since the Sultan of Turkey, as an act of gratitude to an American citizen, the late Dr. Davis of South Carolina, sent to the United States half a dozen fine specimens of the Angora goat. There have been since that time a dozen importations of a few animals each. These with their progeny, are scattered over all sections of the country in and south of the Territories and California, but in no case in herds of over a few hundred,—the object in the minds of all the owners seeming to be the raising of animals for breeding and not in flocks for fleece. There have been one or two exceptions; notably that of Hon. Richard Peters, who on his fine stock ranche among the foot hills of the Blue Ridge, at Calhoun in northwestern Georgia, has from the original stock, maintained a flock of greater or less numbers in their original purity.

With all the interest that has been manifested in these animals, the practical, profitable results from the Angora goat husbandry have been but meagre and unsatisfactory. With the experience of flock masters in Australia and South Africa as examples,—which has been of the most satisfactory and profitable character,—it is certain the goats, with proper treatment, will thrive and be profitable outside of their native habitat in Asia Minor. Fifteen years ago the mohair clip of the Cape of Good Hope had a value of $1650. This year its value is $650,000. Sir Samuel Wilson of Melbourne, Australia, one of the very first of English colonial breeders, says: "The Angora industry is full of promise for this section," and has published the very best practical treatise on the subject. Mr. J. B. Evans of Scottsenburg, St. Elizabeth, South Africa, who has a ranche of 180,000 acres, says: "The Angora goats are among the best members of my flocks and herds, which among other species, has a flock of 300 ostriches."

It is not impossible that a fibre which for fifteen years has sold at double the price of best combing wool, should have great value, and remove all the attention of the capitalist and farmer to its merits and possibilities for the future here, where the variety of climate, soil and vegetation is so great. All who are interested in any attempts to develop the resources of the country must welcome the efforts now newly being put forth to provide a native growth of mohair for the growing manufactures of the country made from that material. The best judges of the case say the want of success in this country is based on two causes of wrong location of flocks and a lack of careful breeding. Careful attention to these has given success elsewhere, that should, with our unlimited resources, have been readily gained here. All the Appalachian range from Virginia south is held by these parties to possess the needed qualities for success in this industry, and we are glad to be able to state the attempt is to be made with better prospects than heretofore.

There are now in this city some fine specimens of a herd of Angoras never have in one case exported from Turkey; a pair of these went last year to see Mr. Evans' place in South Africa, of which we have spoken. These animals arrived here a day or two since in the steamer Dorian, from Constantinople, were imported by Colonel C. W. Jenks, and are to form a part of the famous flock of Mr. Peters in Georgia. They were brought some hundreds of miles on mule-back to the coast,—from the province of Greedeh in the interior of Asia Minor. The Angoras heretofore received in this country have been from provinces near the coast, and are smaller, with fleeces of four, five and six pounds. This Geredeh breed is larger, with fleeces eight, ten, twelve and in some cases fifteen pounds weight of mohair, very fine and silky, a lock of which lies before us, with photographs of animals of this breed. Mr. Jenks informs us he has traversed hundreds of miles in the Blue Ridge mountains of North Carolina and Georgia, the altitude, climate and vegetation of which are a transcript of those of the goat districts of Asia Minor. Thus Mr. Peters and his associates, with this new and most valuable addition to their facilities, propose the recommencement of an enterprise that has in it not only the growth of a fibre for goods known as mohair, but the product of a staple that, like the sample before us, will displace raw silk for one-third of its consumption, and grown at one-quarter the price paid for the product of the silk worm, and, for the uses referred to, in strength, fineness, lustre or other needful characteristics, not inferior in any sense. We wish the industry and its promoters great success.—*Boston Advertiser.*

—The pay of the Czar is $17.40 a minute. It seems good pay when one does not remember that his principal occupation is that of being shot at by some of his beloved subjects.

—Some people have queer ideas of what constitutes holiday recreation. A Harvard student from Yucatan went to spend his vacation in his native latitudes, and passed the entire time in fighting in one of the periodical revolutions indulged in by his countrymen. Refreshed and invigorated by this delightful sport, he returned in due course to pursue his peaceful studies at Cambridge.—*Bost.*

A TRAVELLING COMPANION.—One of the most essential articles in a traveller's outfit is a bottle of SANFORD'S JAMAICA GINGER, "the delicious." It instantly relieves every form of bowel complaints, breaks up a fresh cold in one night, stimulates digestion, prevents malarial fevers, and renders a change of food, water, and climate safe and agreeable. No other remedy is at once so pure, so palatable, and so safe for general use. It is necessary to call for SANFORD'S to avoid imposition.

Better than Foreign Port.

Speer's Port Grape Wine is better than imported Port, and, since the the adulteration of the latter, it must take its place. It is pure; and really excellent and heartgiving.—*Troy Times.*

Members of the Board of Health of New York, and other prominent physicians, use this wine for their patients and in their own families.

Cuticura

BLOOD AND SKIN HUMORS

The scourge of mankind.—Old methods of treatment and remedies a failure.

CUTICURA RESOLVENT, the Great Blood Purifier and Liver Stimulant, is the most searching, cleansing, and purifying agent of this century. It may be detected in the saliva, sweat, milk, blood, and urine in forty minutes after taking the first dose, showing that it has entered the circulation and been carried to every part of the system. It forever eradicates the virus of Syphilis, Scrofula, Cancer, and Cankerous, Mercurial and Poisonous Diseases out the machinery of life, filling the body with foul corruptions. Taken in a fully in conjunction with the external application of CUTICURA, the Great Skin Cure, it speedily cures Scrofulous Ulcers and Old Sores, Salt Rheum, Psoriasis, Tetter, Ringworm, Scald Head, Dandruff, and all Itching and Scaly Diseases of the Skin and Scalp.

ECZEMA ON THE SCALP,

Breast and Limbs Cured.

MESSRS. WEEKS & POTTER *Gentlemen*,—I cannot refrain from adding my debt of gratitude to you for having placed within my reach the wonderful CUTICURA REMEDIES, which have rendered unnecessary my all further experiment of physicians, and in a remarkably short space of time have cleansed my of a loathsome disease. I dispensed with all physicians two years ago, believing they did me no good. The CUTICURA has done, and this unsatisfactory expense— was it it were necessary and I had the courage any longer to follow their advice—saved brought the long-looked-for cure and happiness.

I have been afflicted with Eczema or Salt Rheum on my scalp, breast, and limbs for five years, during which time I have been under the treatment of physicians, or at mineral springs, or taking some kind of medicine. I have been treated by Drs. —— of ——, Dr. —— of ——, and visited sulphur springs and took a numbers of patent medicines, all without the point at approach to a cure.

April 14, 1. I began the use of CUTICURA, which was immediately successful in its work, entirely curing me. I have not had a clean scalp for 15 years until the use of the CUTICURA entirely healed it and left it clean and healthy. The other parts of my body were affected in a more aggravated form, but are now completely healed. I believe myself completely cured. I shall continue the CUTICURA RESOLVENT as directed, for its wonderful action on the stomach and bowels and its influence on the blood. It will afford me pleasure, as I have done in many cases, to urge the afflicted to use these wonderful remedies.

Yours, etc., STEPHEN CROWELL.

NEW BEDFORD, Sept. 30, 18 8.

A RUNNING SORE

Cured in One Week.

MESSRS. WEEKS & POTTER,—Some three or four weeks ago I ordered a box of CUTICURA for a bad case of Salt Rheum. The lady of one of my wifes hands was a running sore. In one week from the day it arrived her hand was well and has remained so up to to-day. E. P. DAGGETT.

MILFORD, ME., June 10, 187—.

NOTE.—Reader, don't you think these cures remarkable?

CUTICURA SOAP,

Medicinal and Toilet.

Is prepared from CUTICURA in a modified form, and is positively indispensable in treatment of Skin and Scalp Diseases. We recommend it for the preservation of the skins of infants, for gentlemen who shave and are troubled with tender faces, for those who desire a clear and wholesome skin and Scalp, and for all purposes of the toilet, bath and nursery. Its delightful and refreshing fragrance equals or surpasses the finest Parisian Soaps.

New York Weekly Herald.

ONE DOLLAR A YEAR.

The circulation of this popular newspaper has more than trebled during the past year. It contains all the leading news contained in the Daily Herald, and is arranged in handy departments. The

Foreign News

embraces special dispatches from all quarters of the globe. Under the head of

American News

are given the Telegraphic Despatches of the week from all parts of the Union. This feature alone makes

The Weekly Herald

the most valuable chronicle in the world, as it is the cheapest. Every week is given a faithful report of

Political News

embracing complete and comprehensive despatches from Washington, including full reports of the speeches of eminent politicians on the questions of the hour.

The Farm Department

of the Weekly Herald give the latest as well as the most practical suggestions and discoveries relating to the duties of the farmer, hints for raising Cattle, Poultry, Grains, Trees, Vegetables, &c., &c., with suggestions for keeping buildings and farming utensils in repair. This is supplemented by a well-edited department, widely copied, under the head of

The Home,

giving recipes for practical dishes, hints for making clothing and for keeping up with the latest fashions at the lowest price. Every item of cooking or economy suggested in this department is practically tested by experts before publication. Letters from our Paris and London correspondents on the very latest fashions. The Home Department of the Weekly Herald will save the housewife more than one hundred times the price of the paper. The interests of

Skilled Labor

are looked after, and everything relating to mechanics and labor-saving is carefully recorded. There is a page devoted to all the latest phases of the business markets, Crops, Merchandise, &c., &c. A valuable feature is found in the specially-reported prices and conditions of

The Produce Market.

Sporting News at home and abroad, together with a Story every week, a Sermon by some eminent divine, Literary, Musical, Dramatic, Personal and Sea Notes. There is no paper in the world which contains so much new matter every week as the Weekly Herald, which is sent, postage free, for One Dollar. You can subscribe at any time.

Story, Turgenieff, Carlyle, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1880 THE LIVING AGE enters upon its *thirty-seventh* year, admittedly unrivalled and continually successful. During the year it will further add to its readers the productions of the most eminent authors, *above-named and many others*; embracing the Choicest Serial and short stories by the *Leading Foreign Novelists*, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter, that is to be, from the pens of the *foremost Essayists, Scientists, Critics, Discoverers and Editors*, representing every department of Knowledge and Progress.

THE LIVING AGE is a *weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents in an inexpensive form, consistent with its great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Adventure, Poetry, Scientific Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE compilation of an indispensable current literature,—*indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"It affords the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic publication."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that, before its pages, one may be prepared to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Boston Traveller.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a through compendium of all that is admirable and note worthy in the literary world."—*Bost n Post.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Lutheran, Phila.*

"The best literature of the day."—*New York Times.*

CATARRH

NEVER-FAILING RELIEF

AFFORDED BY

SANFORD'S RADICAL CURE.

It is a fact that can be substantiated by the most respectable testimonials ever offered in favor of any proprietary medicine, that the RADICAL CURE FOR CATARRH does in every case, almost instant and permanent relief. No matter of how long standing, or how severe the disease, the first dose gives such evidence of relief as to inspire the sufferer with confidence in its ultimate cure. Catarrhal affections require a thorough and long continued course of treatment, and the proprietors of the RADICAL CURE have aimed for its. The testimony of physicians, druggists and patients is unanimous in this respect, and the accumulating evidence is to point of respectability supplied to any ever before obtained in favor of a popular remedy. The proprietors, therefore, may justly feel proud of the position the RADICAL CURE has attained and believe it worthy of its reputation.

Old Reginald and the Common Man.

Reginald was a pleasant old gentleman, with a fine sense of humor. He had considerable property, and lived on Wimbledon common.

He had one beautiful daughter—but that is not to the point.

One afternoon, as old Reginald was reading books in his drawing-room, it was announced to him that a common man desired to speak with him.

He gave orders that the common man should be admitted. And admitted the common man was.

He was a very common man, indeed, a tall, shambling, ill-looking fellow, with an irresolute manner and shrinking eye. He was dressed as costermongers are when following their calling.

"What is your pleasure, good sir?" said old Reginald.

"Beg pardon, guv'nur," said the common man; "I hope you won't be hard on me."

"Not at all," replied old Reginald.

"I'm—I'm a burglar," said the common man.

"Indeed!" said Reginald. "Take a chair."

"Thank you, kindly, guv'nor," said he, "but I'd rather stand."

And he did stand.

So far there is nothing very incredible in my story, but it gets more remarkable as it goes on.

"How do you like your profession?" said old Reginald.

"Well, guv'nor," said the common man, "I don't like it noways, and that's it."

"That's what?"

"That's why I'm here. I belong to a gang of twelve wot's working these parts just now. We cracks cribs by turns. It's—it's my turn to-night."

And the burglar wept like a child.

"This, I presume, is remorse," said old Reginald.

"No, guv'nor, it ain't remorse," said the burglar; "it's funk."

"The same thing," said Reginald.

"It ain't being a burglar that I object to. It's the having to commit burglaries. I like the credit of it, sir; it's the danger I object to."

"I see."

"Now, by the laws of our gang, we're bound to crack cribs in turn. That is to say, one of us cracks the cribs while the other eleven stops outside and gives the office."

"I thought burglars worked in twos and threes?" said old Reginald.

"P'raps I ought to know best?" suggested the burglar.

"Perhaps you are right. Indeed, I am sure you are right. What crib do you propose to crack to-night?"

"This here one."

"Mine?"

"Yours."

"Oh!"

And old Reginald prepared to ring the bell.

"Please don't do that, guv'nor. You ain't never agoin' to give me into custody?"

"I think I had better."

"No, no, guv'nor, don't do thats. Listen to me first. I ain't agoin to hurt you. It's my turn to crack your crib to-night. Now, will you help me?"

"I hardly see my way," said old Reginald, thoughtfully. "Still, if I can be of any use—"

"Look here, guv'nor; each member of our gang is bound to get fifty pounds worth of swag from each crib he cracks. If he don't he's shot. Now I see a handsome silver salver and coffee-pot and cream jug as I come in here. Wot might be the value of that handsome silver salver and coffee-pot?"

"The cream jug is electro. The coffee-pot, with sugar basin and salver, may be worth five and forty pounds."

"That's near enough. I'll take 'em. Here is a flimsey for fifty quid."

And he handed old Reginald a bank note for the amount.

"Stop, I don't quite understand—"

"I want you, guv'nor, to be so good as to leave your bed-room window open to-night, and place that salver and them silver traps where I can get 'em. I shall have cracked my crib, bagged my swag, and made myself safe until my turn comes round again."

"Certainly," said old Reginald, holding up the note to the light. "But let me ask, how you can afford to pay so handsome for your depredation?"

"There is a dozen cons, sir. Each on us cracks a crib once in four months, and each swags at least that. After each plant the profits are divided. Last quarter the twelve cribs cracked brought us in eleven hundred pounds—that's ninety odd pounds apiece. When my turn comes I pay a fair price for the fifty pounds worth I swag (for I have been honorably brought up), and I gets forty pounds to the good. And forty pounds a quarter is a hundred and sixty pounds a year. And I lives on it. Sometimes it's more—now and then it's less, but whatever it is I lives on it."

And the honest fellow took a receipt for the note and departed.

Old Reginald was as good as his word. He left his bed-room window wide open and he placed his salver where the honest burglar was as good as his word, and at two o'clock in the morning he came around and found it.

So far all was simple and straightforward enough. But now comes the curious and incredible part of my story.

The fifty-pound note was part of the proceeds of a previous burglary. The number of the note was known and it was traced to old Reginald, who had to account for its being in his possession.

Now the twelve burglars had in the meantime been arrested by the police (this is also incredible), and were condemned to penal servitude for life.

So old Reginald had no hesitation in stating the facts as I have stated them.

No one believed him, as no one will me.

So he appealed to the honest burglar to corroborate his story.

But the burglar, having discovered that the whole thing, coffee pot, salver and all, was the communist electro, was so shocked at old Reginald's dishonesty that not only did he decline to corroborate his story, but actually, and I think very properly, identified him as an accomplice.

And old Reginald was also sentenced to penal servitude, and he and the honest burglar worked for many years together on same works, and had many opportunities of talking the matter over from its moral, social and political point of view. —*English paper.*

The Big Storm.

During the storm of the 3d inst. the brig Castalia, from Galveston for New York with 1658 bales of cotton, went ashore six miles north of Long Branch, N. J.; captain and crew, ten men, and a lady passenger, were landed by the crew of life-saving station No. 3, with the breeches buoy. Schooner B. C. Babcock, from Virginia for New York with pine wood, went ashore two miles south of the Castalia, at about the same time; the schooner's company, consisting of the captain, his wife and two children, and four seamen, were rescued by the crew of station No. 4, with the breeches buoy. The schooner Lightboat went ashore at Long Branch, after riding at her anchors in a heavy surf for more than an hour; her crew of five men were landed by the breeches buoy, worked by the crew of station No. 5. Great damage was done to cottages and hotels at Long Branch, roofs being blown off, piazzas scattered about and outhouses torn in pieces.

Three-masted schooner Mary J. Chastner, loaded with cotton, was driven on the beach at Marshfield, Mass., opposite Abington village. She will probably be saved.

Schooner Carl D. Lothrop, from New York for Boston with coal, made a harbor in Herring cove, but was driven on shore when the wind came off northwest. She is full of water, has lost her rudder and is otherwise badly injured.

At Lewes, Del., a dismasted brig drifted on the bar, and was found abandoned and full of water. All hands supposed lost. Name unknown. Cargo, Mediterranean produce.

Schooner Stephen Harding went ashore at Sandy Hook; crew of six men saved by men from station No. 2, with the breeches buoy.

An unknown vessel was seen to go down two miles off Pleasant point, near South Amboy, N. J.; two dead bodies were washed on the beach. The luckless vessel is believed to have been the D. Ellis.

Schooner Wm. Wilson, with a cargo of railroad ties, went on Brandywine shoals.

The Italian brig Augustina, Capt. Andez, went ashore at Atlantiville, N. J. The crew were saved with great difficulty by the men from station No. 4. The captain of the brig, when he found that his vessel must become a total wreck, shot himself dead.

At Wilmington, N. C., the schooner J. F. Randolph went on the rocks, and became a total loss. The British barque Resolute was driven close to the bar, and held on for some time with all her anchors down and the sea breaking over her fore and aft; a revenue cutter went to her assistance.

Schooners Anson Stimson and Mabel Rose took refuge in Vineyard Haven, but were driven ashore on the morning of the 4th, and the Mabel Rose filled. The other vessel was reported as leaking badly.

Schooner Abby Gale went ashore near Greenport, L. I.; schooner B. F. Lowell, coal laden, and brig Quongo, from Demarara with molasses, were wrecked near Lewes, Del.; schooner Volante, from New Bedford for New York, went ashore at Gardiner's bay, L. I.; schooner Abby Barsley, from Kennebec river for Philadelphia, went on the rocks at Bay View, Mass., and filled; schooner George Taolabe, with a cargo of pine wood, became a total loss ten miles south of Squam; and many minor disasters are reported.

Suicide of a Bank Cashier.

Israel T. Boothby, cashier of the First national bank of Augusta, Me., committed suicide on the morning of the 3d inst. He first attached window weights to his feet, and then got into a cistern in the basement of the bank building; but the water not being deep enough to drown him, coming only up to his shoulders, he shot himself through the base of the brain with a pistol, and probably died instantly. He was about fifty years old, and leaves a widow and two sons. He was widely known, having been state paymaster of Maine during the war, disbursing the large sums paid by the state as bounties to volunteers. He continued in the state treasury office until 1867, when he resigned to accept the position which he held at the time of his death. It is not believed that there is anything wrong in his accounts, the cause of his suicide being assigned to social irregularities.

News and Notes.

James Anderson, a tramp, was arrested at Portland, Me., on the 3d inst., for a brutal assault upon Mrs. Etta Herrick of Falmouth on the previous Sunday night, while her husband was away and she in the house with five children, defenceless. Anderson says he was one of the fusion "police" employed by Garcelon to keep the legally-elected legislature of Maine out of the state house.

Charles Decker, a hardware merchant of Newark, N. J., committed suicide on the 3d inst. by blowing his head off with a cannon constructed from a large hollow piece of iron, which he filled with powder and slugs, placed under his chin, and fired off with a match.

Parties in Hartford have become owners of a new "multiplex" system of telegraph, invented by a Frenchman, which it is claimed, as far outstrips the "quadruplex" system as the latter does ordinary methods. It has been on private trial in Hartford, and William H. Vanderbilt and Jay Gould were recently there making an investigation into its merits.

Edward Young of Georgia, Vt., was found dead Tuesday night, the 3d inst., about ten miles southeast of St. Albans, and three miles from the lake. He was out fishing on the ice Sunday, and being overtaken by the severe gale and storm of that date, perished from exposure before he could reach home. He was a married man.

Gustav Kindt, a Belgian, and one of the most notorious and successful burglars in the country, started from St. Albans, Vt., on the 3d inst., in charge of a detective, to go to Sing Sing, N. Y., to serve out an unexpired term of imprisonment. At the depot in Troy, N. Y., Kindt endeavored to escape, and knocked the officer down; the latter shot Kindt twice, in the face and behind the ear, mortally wounding him.

The late captain and carpenter of the barque Brother's Pride, of St. John, N. B., are under arrest on a charge of scuttling the vessel, which was abandoned in a sinking condition off Florida, in May of last year. There was an insurance of $80,000 on the vessel and cargo.

The Chilian forces have secured another victory in South America, having recently occupied Ilo and Moquegua.

New Hampshire Items.

Hon. Charles H. Bell of Exeter has commenced work upon his biographical history of the bench and bar of New Hampshire. The work will embrace notices of more than 1200 persons.

It is said a Lebanon citizen made $1500 by the rise of wheat in Chicago, and unloaded just in season. He sold the day the quotations were at the highest.

The descendants of Nathaniel Ham of Rollinsford, to the number of seventeen, comprising children, grandchildren and great-grandchildren, assembled on the 26th ult. at his home to celebrate his ninetieth birthday anniversary. He has resided on his present farm seventy-five years.

The ice on Mascoma lake is from fifteen to eighteen inches thick, and it is estimated that there are 4,000,000 tons on the lake that could be spared for places where the crop is short.

Nelson Gile, Jr., of Lebanon, caught an owl in his shed the other day that weighed four pounds, and measured four feet across. The owl had killed two of his turkeys and one belonging to a neighbor.

Chronicle Correspondence.

WASHINGTON, D. C., Feb. 2d.

The political pot is boiling very vigorously just now. Several weeks ago it was thought that the presidential canvass would be postponed until later than usual. But Mr. Cameron ordered the Pennsylvania convention to meet early, in order to help along his favorite boom. It waked up the opposition of the republican leaders, and lately the controversy has been most animated. In fact it has become acrimonious since it has been developed that Cameron is determined to have his way in Pennsylvania, whether the majority of his party like it or not. He went home on Saturday, and announced as he went that the state convention must declare for Grant. He is greatly wrought up because wherever county conventions have been called in Pennsylvania, Senator Blaine seems to have been the favorite with the majority. The impression in the public mind here is, that he thinks the voters in his state have no rights contrary to his interests, and therefore he is going to manipulate the convention to his own fancy. There is consequently great interest felt in the controversy there, especially as a large number of his constituents declare themselves independent of him.

Mr. Sherman appears to be boldly pushing his presidential interests in a manner not altogether pleasant to contemplate in a man who is aspiring to so high a position. He is provoking criticism in his own party equal to that against Cameron. It is asserted that he has sent several special agents who are in the pay of the government, through the state of North Carolina to get delegates appointed to Chicago pledged to vote for him. The four delegates at large have been appointed by the state committee; three of them, who are members of that committee, of course are for Sherman. One is collector at the port of Wilmington, and one has recently, it is said, received a treasury appointment. Of the committee who made selection of delegates, one is chief clerk of the loan division of the treasury, one collector of customs, and one collector of internal revenue. It may be asked what has become of civil service rules? Is the president entirely ignorant of the means employed by the secretary of the treasury to force his nomination upon his party? If not, his attention should be called to it at once. The secretary has been raised to a high position already, too high by far if he can see in it nothing but a stepping-stone to a higher place. He has no right to employ men in the pay of the government to canvass for him.

The dismissal of Commissioner Hart does not end the troubles in the interior department. It is thought that several others connected with the Indian bureau may be involved in the irregularities which killed Hayt. Secretary Schurz is now urged to look sharply to the commissioner of pensions, and it is believed that he will have to go soon. KNOX.

Brown's Household Panacea

Is the most effective Pain Destroyer in the world. Will most surely quicken the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic or acute, than any other pain alleviator, and it is warranted doubly the strength of any similar preparation.

It cures pain in the side, back or bowels, sore throat, rheumatism, toothache and all aches.

The great reliever of pain, "Brown's Household Panacea," should be in every family. A teaspoonful of the Panacea in a tumbler of hot water (sweetened, if preferred), taken at bedtime, will break up a cold. 25 cents a bottle.

Much Sickness,

Undoubtedly with children attributed to other causes, is occasioned by worms. Brown's Vermifuge Comfits, or Worm Lozenges, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely sure in eradicating worms, so hurtful to children. Twenty five cents a box. Sold by druggists generally.

The Mardi Gras Doings at New Orleans.

The celebrated carnival festivities this year have an unusual interest to the public generally owing to the fact that the great procession of maskers and mummers takes place on Tuesday, February 10th, which is the same day the 117 h Grand Monthly Drawing of the Louisiana State Lottery Company occurs, when $50,000 will be given away to some one (it may be you) for $2. AROUND HOME.

Rev. Mr. Pitblado is lecturing this week in towns in eastern Maine.

Work has been commenced at filling in on the New Hampshire end of the proposed Eliot and Dover bridge, a large force of men being employed.

The big tank of Major Urch's aquarium was torn from its moorings by the gale of the 3d inst., and shipwrecked. The tank was recovered, but is badly damaged.

The roof of the Eastern railroad roundhouse took fire from a spark on the afternoon of the 3d inst., during the gale, and was considerably damaged; no general alarm was given, the employes of the road extinguishing the flames.

The new telegraph line whose wires are approaching our city, is to have offices for general business in the Eastern railway stations in Portsmouth and Dover, which will be of great convenience to the business public of both cities.

At the Boston stock exchange, on the afternoon of the 4th inst., nineteen shares of Eastern railroad stock went at $43 each, sixty-two shares at $44, and 225 shares at $44.50; a prominent Boston broker prophesies that this stock will be at $75 within thirty days, and says that the rise is partially predicated on the immense increase in receipts of the road.

Monday, Feb. 2d, was Candlemas day, and if there is any virtue in the following old sayings, we may as well prepare for cold weather for the balance of the winter: "If Candlemas day be clear and bright, winter will have another flight; but if Candlemas day be cloudy and rain, winter has gone not to come again." "As far as the sun shines in so far will the snow blow in."

Mr. Timothy Hall died in Dorchester, Mass., Feb. 3d, at the age of eighty-three years. Many years ago he was in business in this city with his brother, under the firm of J. H. & T. Hall; later he was in partnership with Mr Charles E. Laighton, and carried on a wholesale grocery business in Merchants' row, Market street, as Hall & Laighton; subsequently to this he kept a grocery store in his own name for a while, and then removed to Boston, where he for some time kept a boarding house.

The storm of the 3d inst. raised the heaviest sea at Whalesback which the present keepers of the light house have experienced. The ponderous iron band (about an inch thick and five or six inches wide) around the pier on which the old tower stands, was washed from its place and slammed about as though it were only a wooden barrel-hoop; and one end of the bridge by which access to the fog-horn tower is gained, was displaced. The blasts of the fog-horn were unceremoniously cut short several times by the seas, which pitched into the bell of the trumpet in sufficient quantities to "stops its wind" entirely.

The schooner Christie Campbell left this port on Thursday, the 29th ult., and as is the custom with most of the fishing vessels this winter, took bait enough for a week's trip. By this means they can set their trawls, under-run, bait up, set and under-run again, once or twice a day. The Campbell had quite a lot of fish in her hold when the gale of Tuesday, the 3d inst., came upon her. She immediately laid off shore, and then made a run to the Shoals, where she arrived at about ten o'clock Tuesday forenoon and came to an anchor under the lee of Appledore island. At twelve o'clock Tuesday night the crew set sail for the fishing grounds, hauled their trawls, and arrived here at half-past four o'clock Wednesday afternoon with 30,000 lbs. of fish. They report seeing a vessel ashore on Duck island, which looked like a brig with her masts partly dismantled, but they could not determine definitely on account of the thick weather.

THE STORM SIGNALS.

There has been considerable growling among seafaring men concerning the display of the cautionary weather-signals at this and some other stations, they asserting that repeatedly the signals have not been hoisted until after a storm had commenced, while at other times the signals have been flying during fine weather, and when no storm prevailed either immediately before or after the signals were shown.

In the latter cases, it may be said that there was good ground for the display of the signals, which simply say "Take care—there is *probably* going to be a storm in this region," and it is certain that in one instance, which was particularly grumbled about, a furious storm was raging not fifty miles at sea, at the very time the cautionary signals were flying at this station, with fair weather.

The other complaint, that the signals are not set in season to be of any advantage, seems to be not unjust, for quite a number of times this season no signal has been made until after most of the fishing vessels had been driven in from sea, by which time their crews knew all they wished to know about the storm. The signal for the heavy gale of the 3d inst. was not set until nearly eleven o'clock in the forenoon, the storm having raged for hours previously; in Boston the signal was up at two o'clock A. M., and had Portsmouth been in that district the signal would have gone up here at the same time, but the signal-man here gets his orders from Portland instead of Boston, and they did not arrive until hours after the storm did. There have been many similar instances, in which the signals have been made in Boston and Newburyport hours before they were displayed here, though the storm hit all the places named at about the same time. It would seem that the mere transfer of this station from the Portland to the Boston district would add something, at least, to the value of the signal service as a warning to mariners. As it is now, they say that about all the service amounts to is to make them shy of venturing out during fair weather, and that they have to find out about storms for themselves, on the old-fashioned plan.

BOARD OF INSTRUCTION

Regular monthly meeting, Wednesday evening, Feb. 4th; present Mayor Sise, Mrs. Wilson, Messrs. Locke, Sherburne, Gardner, Goodrich, May, Vaughan, Knight, Hoyt and Newton.

Several bills were ordered paid.

Committee of district two reported resignation of Mr. Kidder, and substitution of Miss Garrett.

Subject of compelling the attendance at school of children habitually absent, was referred to committee on truancy.

Annual reports of the several grade committees, and reports of masters, were read and accepted.

Committee of district two were authorized to employ a substitute at the Plains school, at a salary of $35 per month.

THE DUMB FOG-HORN.

Several vessels that ran into this port during the gale and snowstorm early in the forenoon of the 3d inst., reported the fog-horn at Whalesback not sounding, though the need of it was very great. The reason the horn was dumb was that the gear had got out of order in a manner such as never had occurred before, so the keepers did not not know where the trouble was, and consequently could not at once remedy it. The fire was started at about five o'clock, and when the weather shut in so thick as to call for the blasts, about six o'clock, the engine was started; ordinarily the air-pressure used is seven pounds, but the pressure was raised to ten pounds and the blast-valve was opened twice or three times by the automatic gear, yet no sound was given out. The light-keepers at once hastened to examine every part of the trumpet which had ever become disarranged before, taking out the reed, etc., but could find nothing wrong; neither could they get any air though the trumpet, until about nine o'clock, when having heated two tea-kettles of water to the boiling point and turned it down the trumpet, they managed to get a blast, the first rush of air throwing out a shower of ice from the bell of the horn. The trouble was due to the heavy sea having thrown water into the horn, where it froze after running down to the smaller part, choking it up beyond the power of the compressed air to clear away. Mr. Leander White, the chief keeper, is known as an intelligent, trustworthy man and an efficient light-keeper; and being fully alive to the importance of having the horn going during such a storm as was then prevailing, there can be no doubt that he was almost as anxious to give a blast as the storm-driven fishermen were to hear it.

POLICE COURT.

WEDNESDAY, Feb. 4; *Batchelder, J.*

John Lynch was brought before the court on a continued case, for aggravated assault on his son, John Lynch, Jr. He was bound over in $100 to appear at the April term of the supreme court. Mr. Lynch's acts and statements in the court show that his mind is in so disordered a condition as to render his restraint but a matter of proper precaution, and he will probably be committed to the insane asylum immediately.

The crew of a schooner lying at the foot of State street were roused just before midnight on the 4th inst. by the outcry of a man on the wharf, and going on deck found a man named Rand overboard and clinging to their vessel. Taking him on board they found him badly hurt, and the police were notified and took him to the station, where it was found that he had a black eye, a split in one side of his jaw, and an ugly cut on the back of his head. The man in his company was arrested by Asst. Marshal Cole, on suspicion of foul play.

Railroad Suit Referred.

In the action Charles B. Ballard against the Connecticut & Passumpsic railroad and others, pending in the circuit court of the United States for the district of New Hampshire, a stipulation has been filed referring the action to William M. Parker of Winchester, Mass., formerly superintendent of the Boston & Lowell railroad.

Naval Affairs.

Senator Bayard made a very interesting appeal in the senate, on the 3d inst., in favor of the completion of our uncompleted ironclads. He said he had been much impressed last summer by his observations of the strength and power of the English war ships, any one of which could enter our harbors and devastate our cities in spite of anything that we could do. He submitted that this state of things should last no longer. These remarks were prompted by a memorial of the Harlin & Hollingsworth company that an appropriation be made to finish the Amphitrite.

The U. S. S. Powhatan arrived at Fortress Monroe on the 2d inst., from New York.

The U. S. S. Lackawanna arrived at San Francisco on the 2d inst., from Samoa, after an absence of fifteen months from San Francisco.

Passed Asst. Surgeon John W. Ross has been advanced eight numbers on the navy list, for extraordinary heroism.

Boatswain Alexander McCone is ordered to the New London naval station, and Gunner George L. Albro to the Pensacola navy yard.

Another "Lightning-Saw" Victim.

Mr. Sprague Keene, one of the well-to-do farmers of Harrison, Me., has fallen a victim to the lightning-saw swindle. It is the same old story. The sharpers wished to have him as an agent to deliver saws, which they were to sell in that vicinity. He consented to do so, and a cunningly worded contract was signed by him. On Saturday, the 31st ult., a note for $180 was presented to him for payment by a person who claimed that he had bought it. There seemed to be no way to escape its payment, and the matter was finally settled by Mr. Keene paying $110. The interest on $110 would have sufficed to pay the annual subscriptions to three or four papers, any one of which would have saved Mr. Keene from being swindled by warning him of the tricks of the lightning-saw fellows and similar gangs of thieves.

Horrible Atrocities.

At Lucan, Ontario, at about midnight on the 4d inst., a body of men, blackened and masked, entered the dwelling of a notorious family named Donnelly, and murdered the inmates, the father, mother, one son, and a girl, a niece. A small boy, named Connor, took refuge under a bed and escaped unhurt. The murderers then set fire to the house, which, together with the bodies, was totally consumed. Another son, residing about three miles from the homestead, was called to his door about the same hour and shot. He also is dead. The township is wild with excitement.

A New Method in Medicine.

By this new method every sick person can get a package of the dry vegetable compound, Kidney-Wort, and prepare for themselves six quarts of medicine. It is a specific cure for kidney diseases, liver complaint, constipation and piles, and a grand tonic for the females.

James Calvin and Charles Anderson, two of the four thieves who robbed the post-office at Lee, Mass., Jan. 23d, were arrested in Springfield on the 2d inst.; a young woman, wife of Calvin, was also arrested. Some of the stolen property was recovered.

They Work Together.

When your system gets out of tune and you feel completely played out, it is pretty certain that you need a medicine to act on both the kidneys and liver, for these important organs work together in freeing the system of its waste, and keeping up the tone. Then take Kidney-Wort, for this is just what it does, for it is both diuretic and cathartic.

Gen. Conseno has proclaimed himself president of Bolivia, turning out the president elected by the people some time ago. Some of those South American fellows are not a whit better than Garcelon of Maine.

KIDNEY-WORT

PERMANENTLY CURES KIDNEY DISEASES, LIVER COMPLAINTS, Constipation and Piles.

DR. E. H. CLARK, South Hero, Vt., says, "In cases of KIDNEY TROUBLES it has called like a charm. It has cured many very bad cases of PILES, and has never failed to act efficiently."

NELSON FAIRCHILD, of St. Albans, Vt., says, "It is of priceless value. After sixteen years of great suffering from Piles and Costiveness it completely cured me."

C. S. HOGADON, of Berkshire, says, "one package has done wonders for me in completely curing a severe Liver and Kidney Complaint."

IT HAS WONDERFUL POWER. WHY?

BECAUSE IT ACTS ON THE LIVER, THE BOWELS AND KIDNEYS AT THE SAME TIME.

Because it cleanses the system of the poisonous humors that develope in Kidney and Urinary diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia and Female disorders.

KIDNEY-WORT is a dry vegetable compound and can be sent by mail prepaid.

Cuticura

BLOOD AND SKIN HUMORS

The scourge of mankind.—Old methods of treatment and remedies a failure.

CUTICURA RESOLVENT, the Great Blood Purifier and Liver Stimulant, is the most searching, cleansing, and purifying agent of this century. It may be detected in the saliva, sweat, milk, blood, and urine in forty minutes after taking the first dose, showing that it has entered the circulation and been carried to every part of the system. It forever eradicates the virus of Syphilis, Scrofula, Cancer, and Canker, those terrible blood poisons that rot out the machinery of life, filling the body with foul corruptions. Taken internally in conjunction with the external application of CUTICURA, the Great Skin Cure, it speedily cures Scrofulous Ulcers and Old Sores, Salt Rheum, Psoriasis, Tetter, Ringworm, Scald Head, Dandruff, and all Itching and Scaly Diseases of the Skin and Scalp.

ECZEMA ON THE SCALP, Breast and Limbs Cured.

MESSRS. WEEKS & POTTER, *Gentlemen*,—I cannot refrain from adding my debt of gratitude to you for having placed within my reach the wonderful CUTICURA REMEDIES, which have rendered unnecessary all further experiment of physicians, and in a remarkably short space of time have rid me of a loathsome disease. I dispensed with all physicians two years ago, believing they did me no good. The CUTICURA has stopped this unsatisfactory expense—even if it were necessary and the cost of the cure is cheap any longer to follow their advice—and brought the long-looked-for cure and happiness.

I have been afflicted with Eczema or Salt Rheum on my scalp, breast, and limbs for five years, during which time I have been under the treatment of physicians, or at mineral springs, or taking some kind of medicine. I have been treated by Drs. ——of ——, Dr. ——of ——, and visited sulphur springs and taken numbers of patent medicines, all without the faintest approach to a cure.

April 1 last, I began the use of CUTICURA, which was immediately successful in my case, entirely curing me. I have not had a clean scalp for 15 years until the use of the CUTICURA, entirely healed it and left it clean and healthy. The other parts of my body were affected in a more aggravated form, but are now completely healed. I believe myself comp etely cured. I shall continue the CUTICURA RESOLVENT as directed, for its wonderful action on the stomach and bowels and cooling influence on the blood. It will afford me pleasure, and I have done it in many cases, to urge the afflicted to use these wonderful remedies.

Yours, etc., STEPHEN CROWELL.

New Bedford, Sept. 20, 1876.

A RUNNING SORE Cured in One Week.

MESSRS. WEEKS & POTTER,—Some three or four weeks ago I ordered a box of CUTICURA for a bad case of Salt Rheum. The back of one of my wife's hands was a running sore. In one week from the day it arrived her hand was well and has remained so up to to-day. E. P. DOGGETT.

MILFORD, MS., June 10, 1876.

NOTE.—Reader, don't you think these cures remarkable?

CUTICURA SOAP, Medicinal and Toilet.

Is prepared from CUTICURA in a modified form, and is positively indispensable in the treatment of Skin and Scalp Diseases. We recommend it for the preservation of the skin of infants, for gentlemen who shave and are troubled with tender faces, for those who desire a clear and wholesome skin and scalp, and for all purposes of the toilet, bath and nursery. Its delightful and refreshing fragrance equals or surpasses the finest Parisian Soaps.

Prepared by Weeks & Potter, Chemists and Druggists, 360 Washington Street, Boston, Mass., and for sale by all druggists and dealers. Price of CUTICURA, small boxes, 50 cents; large boxes, containing two and one half times the quantity of small, $1. Resolvent, $1 per bottle. CUTICURA SOAP, 25 cents per cake; by mail, 30 cents; three cakes, 75 cents.

COLLINS' VOLTAIC ELECTRIC PLASTERS

Pain and Weakness can not exist where they are applied. They vitalize, strengthen and support Weak and Painful Parts, cure Chronic Ailments and Diseases of the Liver and Kidneys; absorb Poisons from the blood, and thus prevent Fever and Ague, Malarial and Contagious Diseases; stimulate the Stomach and Digestive Organs when placed over the pit of the stomach, and prevent Dyspepsia, Bilious Colic, Cramps and Pains.

American and Foreign PATENTS.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and even cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; or SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, for which he was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

THE

New Hampshire Gazette

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire News; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

BENSONS CAPCINE POROUS PLASTER

POROUS CAPCINE PLASTER

A Word to those who use Porous Plasters. It is a universally acknowledged fact that BENSON'S CAPCINE POROUS PLASTERS ARE SUPERIOR TO ALL OTHERS! The great demand for them has caused a number of unscrupulous parties to make and sell two cheap imitations, which are worse than worthless. Benson's Capcine Porous Plaster is the only one having at any price! It is important for the consumer to know which is the best. It is well known that none of the cheap plasters have been examined and found to contain the same ingredients which are in Benson's Capcine Porous Plaster, which is a fact of great importance. CAUTION—See that the word CAPCINE on each plaster is correctly spelled. PRICE 25 CENTS. SEABURY & JOHNSON, Pharmaceutical Chemists, New York.

ONE DOLLAR A YEAR.

The circulation of this popular newspaper has more than trebled during the past year. It contains all the leading news contained in the Daily Herald, and is arranged in handy departments. The

Foreign News

embraces special dispatches from all quarters of the globe. Under the head of

American News

are given the Telegraphic Despatches of the week from all parts of the Union. This feature alone makes

The Weekly Herald

the most valuable chronicle in the world, as it is the cheapest. Every week is given a faithful report of

Political News

embracing complete and comprehensive despatches from Washington, including full reports of the speeches of eminent politicians on the questions of the hour.

The Farm Department

of the Weekly Herald gives the latest as well as the most practical suggestion and discoveries relating to the duties of the farmer, hints for raising Cattle, Poultry, Grains, Trees, Vegetables, &c., &c., with suggestions for keeping buildings and farming utensils in repair. This is supplemented by a well-edited department, widely copied, under the head of

The Home.

giving recipes for practical dishes, hints for making clothing and keeping the family well with the latest fashions at the lowest price. Every item of cooking or economy suggested in this department is practically tested by experts before publication. Letters from our Paris and London correspondents on the very latest fashions. The Home Department of the Weekly Herald will save the housewife more than one hundred times the price of the paper. The interests of

Skilled Labor

are looked after, and everything relating to mechanics and labor-saving is carefully recorded. There is a page devoted to all the latest phases of the business markets, Crops, Merchandise, &c., &c. A valuable feature is found in the specially-reported prices and conditions of

The Produce Market.

Sporting News at home and abroad, together with a Story every week, a Sermon by some eminent divine, Literary, Musical, Dramatic, Personal and Sea notes. THE GREATEST LIVING AUTHORS, such as Prof. Max Muller, Rt Hon. W. E. Gladstone, Dr. A. Brotuis, Prof. Huxley, R. A. Proctor, Edw. A. Freeman, Prof. Tyndall, Dr. W. B. Carpenter, Frances Power Cobbe, The Duke of Argyll, Wm. Black, Miss Thackeray, Mrs. Muloch-Craik, Geo. MacDonald, Mrs. Ophan, Jean Ingelow, Mrs. Alexander, Thos. Hardy, Matthew Arnold, Henry Kingsley, W. W. Story, Turgenieff, Dean Stanley, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh year*, admittedly unrivalled and continuously successful. During the year it will for judge to its readers the productions of the most eminent authors, *above-named and many others*; embracing the Choicest Serial and Short Stories by the *Leading Foreign Novelists*, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the *foremost Living Scholars, Critics, Discoverers and Editors*, representing every department of Knowledge and Progress.

THE LIVING AGE is a *weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents in an inexpensive form, and at a cost rating its great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific Biological, Historical and Political Information, from the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE combination of an indispensable current literature, *indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it comprehensively, thoroughly and impartially."—*Times, Cincinnati.*

"It affords the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

CATARRH

NEVER-FAILING RELIEF

AFFORDED BY

SANFORD'S RADICAL CURE.

"It is a fact that can be substantiated by the most respectable testimonials ever offered in favor of any proprietary medicine, that the RADICAL CURE FOR CATARRH does in every case afford instant and permanent relief. No matter of how long standing, or how severe the disease, the first dose gives such evidence of relief in the treatment of Catarrhal affections the confidence is at once felt in its ability to do all that is claimed for it. The testimony of physicians, druggists and patients is unanimous in this respect, and the accumulating evidence is in point of respectability superior to any ever before obtained in favor of a popular remedy. The proprietors, therefore, may justly be proud of the reputation the RADICAL CURE has attained, and believe it worthy of its reputation.

10 YEARS A SUFFERER.

From Hon. Theo. P. Bogert, Bristol, R.

BRISTOL, R. I., Messrs. WEEKS & POTTER: *Gentlemen.*—I feel thoroughly convinced of the efficacy of SANFORD'S RADICAL CURE FOR CATARRH, and feel inclined to drop my pen to say that although I have been sceptical of all the nostrum advertisements, yet your "Radical Cure" I last year found anything that promises such relief as Ultimate cure as that of CATARRH.

I have been afflicted with this dreadful disease for more than ten years, and not until recently could I indorse no preparation with such a good conscience. Mr. HENRY WEEKS, and can truthfully say that after using five bottles I am thoroughly convinced of its curative properties. Hoping that others similarly afflicted like myself will be induced to make the trial, I remain, very truly, etc. THEO. P. BOGERT.

Laws of New Hampshire.

The following changes in the laws regulating the perform nce of their duties by city, town, and school-district officers, are published for the information of all concerned. The changes were made at the June session of the legislature, 1879, and the references are to the pamphlet laws of that session.

Billiard-tables and bowling-alleys may be licensed for six months from the first day of May.—Chap. 25.

City marshals, selectmen and police officers of towns shall cause parties exposing diseased animals to be prosecuted. —Chap. 30.

Any person has the right to work out at least one-fourth of his highway tax in labor of animals.—Chap. 38.

Tax-payers, in making their inventories for taxation, are required to include their real estate; but they are not required to appraise their own property.—Chap. 46.

Church property exceeding ten thousand dollars in value, is taxable.—Chap. 50.

One-fifth of the literary fund of each town may be expended in repairing and purchasing reference books and school apparatus.—Chap. 53.

Selectmen are required to insert in their warrants for the biennial meeting in November, 1880, an article to take the sense of the voters on the question of cumulative voting in corporations.—Chap. 54.

One of the two days on which the supervisors of check-lists are required to be in session for the correction of check-lists, must be the day preceding the day of election.—Chap. 57, Sect. 4.

The certificate of election of representatives must hereafter be made in duplicate, one copy to be given to the representative-elect, and the other to be sent to the secretary of state within twenty days after the day of election.—Chap. 57, Sect. 5.

The check-lists must be used hereafter at all elections of moderator and supervisors, at annual and biennial elections.—Chap. 57, Sect. 7.

The invoice-books for listing property for taxation by selectmen and assessors, are to be furnished by the secretary of state.—Chap. 57, Sect. 9.

Sections 7, 8, 9 and 10, Chapter 56 of the General Laws, are repealed.—Chap. 57, Sect. 10.

A fee for a clerk at the sale of non-resident lands for taxes will not be allowed hereafter.—Chap. 57, Sect. 11.

Notice in newspapers of sale of real estate for resident taxes is not required.—Chap. 57 Sect. 12.

The secretary of state is required to furnish blanks for returns of town inventories by selectmen, annually.—Chap. 57, Sect. 15.

The oath that a copy of the warrant for school meeting has been posted, may be administered by the clerk of the district. —Chap. 57, Sect. 18.

A three months' residence in the district, is a requisite qualification to vote in school meeting.—Chap. 57, Sect. 18.

Women are eligible to all school-district offices.—Chap. 57, Sect. 19.

Where a town has but one school-district, and that embracing the whole town, the district meetings may be held, and the warrants therefor posted, in the same places as and for town meetings—Chap. 57, Sect. 37.

The moderator and selectmen are required to cause all ballots cast for other than town officers, to be securely placed in envelopes, marked, and delivered to the town clerk before the adjournment of the meeting at which they are cast. The town clerk is required to keep them sixty days, and send them to the secretary of state, if requested to do so within that time by a person voted for at that election.—Chap. 57, Secs. 39 and 40.

A willful violation of either of the two proceeding sections, subjects to a penalty of five hundred dollars.—Chap. 57, Sect. 41.

When a teacher is the sole member of the superintending school committee of a town, he must obtain a certificate of the committee of an adjoining town.—Chap. 27, Sect. 42.

"The best cough medicine in the world." The Old Vegetable Pulmonary Balsam. Cutler Bros. & Co., Boston. Small reduced to 35c; large, $1. eod&wtmny

Better than Foreign Port.

Speer's Port Grape Wine is better than Imported Port, and, since the the adulteration of the latter, it must take its place. It is pure; and really excellent and healthgiving.—*Troy Times.*

Members of the Board of Health of New York, and other prominent physicians use this wine for their patients and in their own families.

For sale by W. R. Preston, D. Kimball, F. B. Coleman, druggists, and H. F. Gerrish, grocer.

FRIDAY, FEBRUARY 6, 1880.

The Big Storm.

Late advices say that the schooner seen to go down off South Amboy, N. J., in the great gale, was the Kate Newman, of Ellsworth, Me., bound from Baltimore to Danversport with coal. She was in collision with the schooner Stephen Harding, a three-master loaded with yellow pine, and had her bow badly stove. One of the Newman's crew, Wm. H. Ryan, jumped on board the Harding at time of the collision, and got safely on shore when the latter vessel went on the beach at Sandy Hook; the rest of the Newman's crew, five men, were lost. The brig Eaglesborough, of Windsor, N. S., was dismasted and sunk in Long Island sound; all hands supposed to be lost. Schooner Juno, repairing at a wharf in Provincetown, was sunk by the sea, had her deck and stern smashed to pieces, and became a total loss.

News and Notes.

The New York *Herald* has opened a subscription in aid of the sufferers in Ireland, and heads the list with $100,000 on its own account.

Miss Edith Garceloo, daughter of Ex-Gov. Garceloo of Maine, is creating quite a sensation in the fashionable circles at Washington. She is the guest of her aunt, Mrs. Congressman Frye, and is receiving a good deal of attention. The young lady's father created quite a sensation in Maine not long since, but he has now gone into the obscurity from which he had better never have emerged, so far as his reputation is concerned.

The trial of Pennell, ex-treasurer of Cumberland county, Me., to recover moneys due the county, commenced in the supreme court at Auburn on the 4th inst. Mr. Pennell claimed that he was knocked down in the treasurer's office the night before his term of office expired, and the safe in the office robbed of some $10,000.

Two Indian tramps, seventy and eighty years of age respectively, were at the station house in Bangor, Me., on the 31st ult. They belong to the Passamaquoddy tribe, and one of them said he worked on the river sixty years ago.

A movement is on foot among the merchants and business men of Portland to establish an independent line of steamers between that city and Boston. The Portlanders complain that the Eastern railroad, the Boston & Maine and Portland & Rochester roads, and the Portland Steam Packet Co., have formed a combination inimical to Portland's interests, and unjustly discriminate against that city in the matter of freight and passenger rates.

Francis S. Sullivan of Boston, twenty-two years old, has been held in $1200 for trial on three charges of burglarizing the premises of Galvin Bros., florists, on Tremont street. Sullivan broke into the store for the first time on the 5th of December last, and stole $87; on this sum he got married, and has since been living high on the proceeds of other raids. Considerable of the stolen property was recovered.

Charles Jones died in Leadville, Col., in the fall of 1878, leaving to heirs in Starksboro, Vt., a one-fourth interest in a mining property in Leadville. The heirs were induced last spring to sell their interest in Jones' estate for $1,200, and the whole mine is now valued at $1,000,000.

Dixfield, Me., is the lawyers' paradise. The population of the town is 1,049, and it supports eight lawyers. There is but one church and no minister in town, and but one hotel.

James Emerick, an old and highly respected citizen of New Vernon, N. J., and a carriage maker in a large way of business, has been arrested on a charge of counterfeiting and burglary. Two young men who worked in Emerick's shop were also arrested. A large quantity of counterfeit money and counterfeiters' tools were captured, and considerable stolen property.

Samuel J. Holmes, a farmer of Lawrence, Kansas, on the morning of the 4th inst. attacked and brutally beat his stepdaughter, Mrs. Benfield, and her husband, with a club. The assault was made while Benfield and his wife were in bed, and both will probably die. Holmes has been arrested.

Edward Powers, a grocer of Chicago, was shot twice and probably fatally wounded, early in the morning of the 4th inst., by burglars found in his store, and who escaped unknown.

John Hazlewood, in defending himself from a pistol attack by John Davis at Parkersburg, Pa., on the 5th inst., broke Davis' skull, and the latter will die. Hazlewood was arrested, but was afterward discharged.

Melville Pierce of Wellfleet, Mass., who has been missing since last September, and was known to be insane, was discovered in the Methodist church at Wellfleet recently, perched on the top of the organ, by Nathaniel Snow, the organist. Supposing him to be a tramp, Mr. Snow summoned assistance. A few went into the church, and taking out the man found to their surprise that he was none other than Pierce. His hair had grown so long that it rested on his shoulders, and his face was covered with a beard, which gave him a wild look. An examination revealed that Pierce had been living in the church for some time, that he had a bed on top of the organ, and that he had also occupied the attic. A stolen tub of butter was found where Pierce had concealed it; Pierce had also a lot of canned meats, preserves, and other estables. Since the coming of cold weather it is thought Pierce has been living in the church, but he will not give any information of where he has been, or how he manged to remain so long in the vicinity without being discovered sooner.

Latest advices from Ireland are that 300,000 people are slowly starving, and can only be kept alive by great efforts on the part of their fellow creatures. Some of them are living on one meal a day of turnips or of meal. Thousands more are consuming their last potatoes.

The disastrous explosion of a 38-ton gun in the turret of the British iron-clad Thunderer a year or more ago will be remembered. A few days since the sister gun was burst in an experiment in England. One theory of the explosion on board the ship was that it was caused by two charges, one of eighty pounds of powder and a common shell weighing 600 pounds, with 110 pounds of powder and a 700-pound Palliser projectile on top. A similar charge was put in the gun experimented on, and it was blown in pieces.

The republican State convention of Pennsylvania met on the 4th inst., and after considerable discussion voted, 133 to 113, to instruct the state's delegation in the Chicago convention to vote as a unit, and to vote for Gen. Grant. The Blaine men claim to be much elated over the result, saying that his strength in the state must be greater than that of Cameron or Grant, when even Cameron's leadership only sufficed to secure a majority of twenty in a vote of 246.

New Hampshire Items.

Daniel W. Mullin, the reputed fire-bug of Nashua, who was arrested on four complaints, after a three-days' trial before the police court on one complaint was bound over in $3000 to appear before the supreme court at Manchester at the May term.

Mr. Alonzo Elliott, ticket agent of the Concord railroad at Manchester, and son of the collector of Tilton, has deposited $700 in bank to indemnify the town of Tilton for any loss that may be developed on examination of the old gentleman's books. The late collector is old and feeble, and it is reported that public opinion in the town has changed greatly since the first announcement of his loss of the town's money was made.

The Baptist church at Deerfield was burned on the 3d inst. Loss $3000; no insurance.

Simon D. Bennett of Sandwich, seventy years of age, and quite an extensive farmer and prominent citizen, hanged himself on the 4th inst.

Fred W. Drown, the liquor spotter to whose operations most of the liquor prosecutions in Manchester for a couple of years past have been due, has sued Silas C. Clatur for $571.47 for his services.

—A joint affair—Rheumatism.

Unless the breath is like a icy gale,
Unless the teeth gleam like the driven snow,
There is no dazzling smile or tender tale,
Graceful to woman's eye or ear, we know.
The tale would lose its charms—the smile be gaunt,

Brown's Household Panacea

Is the most effective Pain Destroyer in the world. Will most surely quicken the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic or acute, than any other pain alleviator, and it is warranted double the strength of any similar preparation.

It cures pain in the side, back or bowels, sore throat, rheumatism, toothache and all aches.

The great reliever of pain, "Brown's Household Panacea," should be in every family. A teaspoonful of the Panacea in a tumbler of hot water (sweetened, if preferred), taken at bedtime, will break up a cold. 25 cents a bottle.

Much Sickness,

Undoubtedly with children attributed to other causes, is occasioned by worms. Brown's Vermifuge Comfits, or Worm Lozenges, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely sure in eradicating worms, so hurtful to children. Twenty five cents a box. t,th,&f

AROUND HOME.

Messrs. Blake and Coggswell, state bank commissioners, are in town this week examining the condition of the three savings institutions of Portsmouth.

Elder H. Pratt is to give a course of public lectures at the Advent church, beginning on Sunday evening, the 22d inst., and continuing through the week to and including Sunday evening, the 29th.

The "Finnie haddies" cured by Mr. Dixon are excellent eating; they are salted and smoked just right, and a bit of one broiled, for breakfast, will tempt a very fastidious appetite. C. Sullivan & Co. have them for sale.

Mr. John Lynch, who was held by the police court to answer, at the April term of the supreme court, to a charge of aggravated assault on his son, John Lynch, Jr., was on Thursday taken to Exeter, preparatory to being committed to the insane asylum.

Miss Lillian Chandler, the wonderful child-violinist of Lynn, formerly of this city and well known here through her several appearances on Music hall stage, has joined Helen Potter's Pleiades at New York, having engaged to perform with that excellent company.

At about seven o'clock, Thursday evening, a hack and sleigh going in opposite directions came into collision in front of the Unitarian church, and the gentleman in the sleigh was pitched out, and into a snow-drift. The only damage done was the breaking of a part of the harness, and a slight injury to the sleigh.

The *Law Journal* calls attention to the fact that the law takes no notice of the 29th of February, but computes that and the 28th as one day. The supreme court of Indiana has just decided in a case referring to 1876, the last leap year, that the 28th and 29th pass for only one day in all deeds and written or verbal contracts.

Willis E. Nowell, son of Mr. Thomas S. Nowell, formerly of this city, who recently gave the Paganini concerto with such marked success at Chickering hall, New York, intends to go to Europe during the approaching summer to place himself under the musical direction of Joarchin, the celebrated violinist at Berlin. The young aspirant for perfection as a violinist will remain abroad as a pupil for five years. A portion of this period will be devoted to concertizing in the leading cities of Europe, after due pupilage under Joarchin. Mr. Nowell is at present engaged in teaching a large number of pupils in Boston and vicinity.

The man who was taken to the police station Wednesday night from the wharf at the foot of State street, proved to be Rienzi Rand of this city, cook of the fishing schooner Eva May of Gloucester, Mass., Merchant master. His injuries were so severe that he was unable on Thursday to give any intelligible account of the affair, and six of the schooner's crew were held (three of them in $300 each, and three in $50 each) to appear on Friday before the police court to tell what they know of the matter, in case Rand should then be in condition to testify. The man who gave the alarm that Rand was overboard was John Woodbury, one of the crew of the Eva May. The injured man was taken to his home Thursday evening.

Referring to Venner's prophecy of the storm of the 3d inst., an officer of the signal service says: "The signal office does not pretend to predict a week in advance. They ordered storm signals in New England for this last snow storm, which originated in the far southwest, and moved rapidly in a northwest direction, at twelve o'clock P. M. on the 2d inst. At that hour the storm was in the region of Philadelphia, and from New York to Maine the sky was clear." This signal officer also says that he "is constantly receiving complaints from the New England coast because storm signals are displayed too long before the arrival of the storm. Between the desire to display them soon enough and a wish not to exhibit them too soon, the office is often in a quandary. But their display on the night of the 2d inst. was thought perfectly opportune." The complaint here is that the signals are often not ordered up in this city till long after the storm has commenced, although they may have been up for many hours in Boston and Newburyport.

Col. William H. Hackett gave his lecture upon "sights seen in Europe" at the town hall in Newcastle on Thursday evening.

The referee hearing of the case between the Eastern and Portsmouth & Dover railroads will be held in this city March 22d.

The pensions committee of the United States senate has reported adversely on the petition of Harriet Flagg, of Dover, for a pension.

Two Gloucester fishing schooners which got caught in the bay by the gale of the 3d inst., rode it out at their anchors a mile or two off Newburyport bar.

Mr. H. W. Butler is rapidly fitting up the old Jarvis hosiery mill for a shoe factory, all the machinery and material from his late establishment in Rochester having arrived.

The Newburyport *Herald* says Charles W. Allen of that city has sold his drug store and business to a Portsmouth party, and will go west. The person referred to we are informed is Mr. William G. Kidder, late teacher of the Peabody school.

One hundred and fifteen shares of Portsmouth, Great Falls & Conway railroad stock sold at the brokers' board in Boston on Thursday, at the first call, for $35 a share; one share was sold at $34, and ten at $32 each; 331 shares of the Eastern railroad were sold, at $43.50, $43.75 and $44.

The Newburyport people have arranged for an excursion to this city next Friday, the last day of the musical convention, with the fare for the round trip placed at one dollar, provided a sufficient number of persons subscribe to pay expenses. The excursionists will return in a special train after the close of the last concert.

Portsmouth, England, the great naval station, has a population of 113,569; Portsmouth, Ohio, 10,592; Portsmouth, Virginia, 10,492; Portsmouth, N. H., 9,211; Portsmouth, Rhode Island, 2,003; Portsmouth, Ontario, 1,702; Portsmouth, Michigan, 1,660; Portsmouth, North Carolina, 341. Three of these Portsmouths have a Gosport near—those in England, New Hampshire, and Virginia; and there are Gosports also in Alabama, Indiana and Iowa.

Messrs. Joseph G. Barnard and Benjamin F. Tripp are to engage in the sash and blind manufacturing business under the firm of Barnard & Tripp, and will put up a building for that purpose on Hill street. The structure is to be thirty feet by forty on the ground, and will be fitted with a steam engine and the most approved modern machines for doing the work. We think these gentlemen could add a box-making branch to their business, and make it pay, for the fish-dealing firms of the city, alone, would use an immense quantity of the product every year. The shoe factories, too, would no doubt be heavy customers.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, regular meeting, Thursday evening:

A communication was received from the Portsmouth Shoe company requesting the city councils to exempt from taxation their building, machinery and capital:

The following resolution was passed under suspension of rules, and referred to the common council:

That the building, machinery and capital which may be used in the manufacturing of leather goods in this city by the Portsmouth Shoe factory and their associates, are hereby exempted from taxation for the term not exceeding ten years during which such business may be carried on in this city, agreeably to the laws of the state and a joint vote of the city councils passed April 19th, 1877.

Committee on fire department, to whom was referred the petition of extinguisher companies for increase of pay, reported without recommendation.

Voted that the extinguisher companies have leave to withdraw their petition.

THE CAUSE OF THE "BOOM."

The Boston *Transcript* of the 5th inst. says: "The reason for the advance in Eastern has long been a puzzle. The earnings of the road are improving under excellent management and the revival of business, but not enough to warrant any notable advance. But the cause developes to-day. 'Consolidation' is the magic word. The consolidation of the Eastern and Boston & Maine roads has long been talked of, and been looked upon as a desirable thing for both companies. Some time ago the Boston & Maine directors appointed a committee of five to consider the matter, and to-day the Eastern railroad directors held a special meeting and appointed another committee of five for a conference. The chances of the immediate consolidation are very slight, but the hope is that the two railroads may come together under a joint working contract, to the benefit of both. The Eastern railroad company has at least $14,000,000 of debt, and but $5,000,000 of stock. The Boston & Maine has only $3,500,000 of debt, $6,200,000 of stock, and $1,500,000 of surplus. The Eastern operates 282 miles of road, the Maine 206 miles. The earnings of the Eastern are $2,400,000, against $2,100,000 for the Boston & Maine."

THE MUSICAL CONVENTION.

The musical convention will commence on Monday evening next, to last through the week. Full particulars will be found in the advertisement. The expenses are very heavy, the attractions great, and no doubt much good will result to the cause of our home music. The next rehearsal, the first of the convention, will occur in Music hall on Monday evening, as per advertisement. *Singers* are requested to be at the stage-door on Warren street promptly at half-past seven o'clock, where tickets for those who have not secured them previously, will be for sale.

MASONIC FUNERAL.

The funeral of William W. Martin of Newcastle took place on Thursday afternoon from the Congregational church in that town. Delegates from St. John's Lodge, No. 1, of this city, and from the Knights of Pythias, were present. The Masonic ceremonies were conducted by W. M. Wm. H. Lovell of St. John's Lodge, and the Pythian services were by Herman Manson, Chancellor Commander of Damon Lodge. Rev. John A. Goss acted as chaplain of the Masonic lodge. A large number of persons attended the funeral. Mr. Martin was employed in the iron-plate shop at the navy yard, and was an exemplary man. He had been a member of St. John's Lodge for nearly twenty years, and stood in high estimation among his brethren and fellows.

YORK COUNTY ITEMS.

Mr. George Hutchings of Cape Porpoise says he saw a large black bear near the cape on Saturday, the 31st ult.

Mr. Justin M. Spinney of Kittery died on the 30th ult., at the age of about thirty years. He was a member of St. John's Lodge of Freemasons of this city, and of the Rochingham Masonic Mutual Relief Association.

The schooner Emma K. Smalley, from Calais, Me., bound to New York, while lying off Cape Porpoise, Sunday night, the 1st inst., lost an anchor and chain, and put back to Portland, where she arrived on the 3d.

Sailmaker Augustus A. Warren, U. S. N., on the 31st of January picked in his garden at Kittery two pansies in full bloom, grown in the open air without any special cultivation; in fact, the flowers bloomed entirely "on their own hook."

FIRES IN BIDDEFORD.

At about one o'clock in the morning on the 5th inst., fire broke out in the "marble block" on Main street, Biddeford, and the contents of the large structure were totally destroyed, and the building itself nearly so. The block was built and owned by Oren Staples, and cost $28,000; insurance $12,500. The lower floor was occupied by Staples, dealer in gentlemen's furnishing goods, and Smith Bros., tailors; the former's loss on goods is $9000; insurance $500. The second story was occupied by B. F. Hamilton and H. J. Tatterson, lawyers, and Dr. H. E. Hill, who together lose about $1500, on which there is partial insurance. In the third story were the quarters of two Masonic lodges, and of the Odd Fellows. The fire is supposed to have caught from the furnace.

The engines had hardly got back to their houses when fire broke out in Hooper's block, adjoining the marble block, and the upper story of that building was nearly burned off. The boot and shoe stock of Michael Burns was damaged about $2000; insured. A drug store and a millinery establishment in the lower story were drenched with water; but the loss could not be at once stated.

Naval Affairs.

The U. S. S. Enterprise arrived at Athens, Greece, Jan. 14th, from Constantinople; all well.

The secretary of the navy has changed the rating of several vessels of the navy, as follows: the Tennessee from second to first rate; the Vandalia from third to second rate; the Michigan is classed as fourth rate. This change of rating may make the vessels much more formidable as ships of war.

The committee on naval affairs of the United States senate on the 4th inst. discussed the nomination of First Lieut. Woodhull S. Schenck, U. S. M. C., to be captain and quartermaster in the marine corps. The proposed promotion meets with much opposition, as it involves the "jumping" of between thirty and forty of Lieut. Woodhull's seniors. The case was laid over for further consideration, but the indications are that it will be reported adversely.

Mrs. Partington says

Don't take any of the quack rostrums, as they are regimental to the human cistern; but put your trust in Hop Bitters, which will cure general dilapidation, costive habits and all comic diseases. They saved Isaac from a severe extract of tripod fever. They are the *ne plus ultra* of medicines.—*Boston Globe.*

Prof. Hind, who was employed by the agents of England and the United States to prepare tables of statistics for the use of the Halifax fisheries commission, asserts that the tables were grossly falsified after leaving his hands, to the great prejudice of the case of the United States. The inference is that the tables were altered at the instance or with the connivance of Delfosse, who was so strongly objected to by our government as a member of the commission, but who was worked in as its president by the trickery of the British government. At some time or another it is probable that the secret history of that outrageous swindle, the Halifax fisheries award, will be made public, in which case it will be shown that the United States, the swindled party, was the only party to the affair that acted with honor.

A Remarkable Scene.

"Percy" telegraphs to the Boston *Journal* as follows: "There was a novel scene in the United States supreme court room on Monday. Joel Parker of New Jersey, democratic candidate for presidential nomination, had just had his admission to the bar of the United States supreme court moved, when Mrs. Belva Lockwood, who was admitted to practice before the court by special act in the last congress, arose, and in a shrill, piping voice moved the admission of a lawyer from South Carolina, who, she certified upon honor, possessed the necessary qualifications to practice before the supreme court of the United States. The lawyer whose admission she moved arose, and proved to be a negro. Joel Parker, democratic candidate for president, and this negro then stepped forward to the clerk's desk, placed their hands upon the same Bible and were sworn in together, very near to the niche where the bust of Chief Justice Taney, the author of the Dred Scott decision, is placed. The most visionary prophets of the last decade would scarcely have ventured to predict that a negro, upon motion of a woman, who is a qualified counsellor before that court, would have been enrolled among the counsellors of the supreme court of the United States together with a democratic candidate for the presidency."

Milk Diet in Heart Disease.

M. See, in his book on the treatment and diagnosis of heart disease, regards milk as a powerful diuretic. He does not approve of exclusive milk diet, which, in his opinion, reduces the patient to a state of inanition, but prescribes a mixed milk diet of about two litres and a-half of milk per diem added to the patient's usual food. This does not in the least interfere with the diuretic effects of milk. These effects depend not be attributed merely to the water contained in the milk, as has been supposed by some authors, because the same quality of pure water would in no wise produce the same results.

It is evident, therefore, that only the sugar and salts possess the diuretic properties, their action being similar to that produced by salts of potash and soda by their osmotic. These diuretic properties seem to be much more powerful when the milk has not been boiled; and it should, therefore, be taken unboiled, and fresh from the cow if possible, or, at least, lukewarm, as cold milk does not act in the same way. It seems as if boiling the milk destroyed these properties; nevertheless, it must never be forgotten that some patients can digest milk only when boiled, so that the rule is not without exception.

Another curious point is the action of milk is that it is equally powerful in cases where the cardiac affection is not combined with dropsy. M. See has often observed that patients who neither suffered from dropsy, nor ever had suffered from it, were extremely benefitted by a mixed milk diet. The action of the heart became much calmer and more regular, and the palpitations disappeared altogether.—*Journal of Chemistry.*

A New Method in Medicine.

By this new method every sick person can get a package of the dry vegetable compound, Kidney-Wort, and prepare for themselves six quarts of medicine. It is a specific cure for kidney diseases, liver complaint, constipation and piles, and a grand tonic for the females.

—"Kind words can never die." How bitterly does a man realize that terrible truth when he sees all the kindest words he ever saw in his life glaring at him from his published letters in a breach of promise suit.

They Work Together.

When your system gets out of tune and you feel completely played out, it is pretty certain that you need a medicine to act on both the kidneys and liver, for these important organs work together in freeing the system of its waste, and keeping up the tone. Then take Kidney-Wort, for this is just what it does, for it is both diuretic and cathartic.

EXTRACTS.—For persons suffering from exhaustion of the powers of the brain and nervous system, from long and continued study or teaching, or in those cases of exhaustion from which so many young men suffer, I know of no better medicine for restoration to health than Fellow's Compound Syrup of Hypophosphites.

EDMUND CLAY, M. D., Pugwash, N. S.

Office of S. M. Pettingill & Co., No. 10 State Street, Boston.

It gives me great pleasure to say that Adamson's Botanic Balsam cured me of a severe cold, to which I have been subject, especially during the winter months, and I have in many instances recommended it to my friends, and all have been benefited by its use. We think it has no equal as a cough mixture.

KIDNEY-WORT

PERMANENTLY CURES
KIDNEY DISEASES,
LIVER COMPLAINTS,
Constipation and Piles.

DR. R. H. CLARK, South Hero, Vt., says, "In cases of KIDNEY TROUBLES it has acted like a charm. It has cured many very bad cases of PILES, and has never failed to act effectually."

NELSON FAIRCHILD, of St. Albans, Vt., says, "It is of priceless value. After sixteen years of great suffering from Piles and Costiveness it completely cured me."

C. S. HOGARON, of Yorkshire, says, "one package has done wonders for me in completely curing a severe Liver and Kidney Complaint."

IT HAS WONDERFUL POWER. WHY?

BECAUSE IT ACTS ON THE LIVER, THE BOWELS AND KIDNEYS AT THE SAME TIME.

Because it cleanses the system of the poisonous humors that develope in Kidney and Urinary diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia and Female disorders.

KIDNEY-WORT is a dry vegetable compound and can be sent by mail prepaid.

Cuticura
BLOOD AND SKIN HUMORS

The scourge of mankind.—Old methods of treatment and remedies a failure.

CUTICURA RESOLVENT, the Great Blood Purifier and Liver Stimulant, is the most searching, cleansing, and purifying agent of this century. It may be detected in the saliva, sweat, milk, blood, and urine in forty minutes after taking the first dose, showing that it has entered the circulation and been carried to every part of the system. It forever eradicates the virus of Syphilis, Scrofula, Cancer, and Canker, those terrible blood poisons that rot out the machinery of life, filling the body with foul corruptions. Taken internally in conjunction with the external application of CUTICURA, the Great Skin Cure, it speedily cures Scrofulous Ulcers and Old Sores, Salt Rheum, Tetter, Ringworm, Scald Head, Dandruff, and all Itching and Scaly Diseases of the Skin and Scalp.

ECZEMA ON THE SCALP,
Breast and Limbs Cured.

MESSRS. WEEKS & POTTER: *Gentlemen*,—I cannot refrain from adding my debt of gratitude to you for having placed within my reach the wonderful CUTICURA REMEDIES, which have rendered unnecessary all further experiment of physicians, and in a remarkably short space of time have rid me of a loathsome disease. I dispensed with all physicians two years ago, believing they did me no good. The CUTICURA has stopped this unsparing expense—even if it were necessary and I had the courage any longer to follow their advice—and brought the long-looked-for cure and happiness.

I have been afflicted with Eczema or Salt Rheum on my scalp, breast, and limbs for five years, during which time I have been under the treatment of physicians, or at mineral springs, or taking some kind of medicine. I have been treated by Drs. ——, Dr. ——, ——, and visited sulphur springs and taken numbers of patent medicines, all without the faintest approach to a cure.

April 1 last, I began the use of CUTICURA, which was immediately successful in my case, entirely curing me. I have not had a clean Scalp for 15 years until the use of the CUTICURA entirely healed it and left it clean and healthy. The other parts of my body were affected in a more aggravated form, but are now completely healed. I believe myself completely cured. I shall continue the CUTICURA RESOLVENT as directed, for its wonderful action on the stomach and bowels and cooling influence on the blood. It will afford me pleasure, as I have done in many cases, to urge the afflicted to use these wonderful remedies.

Yours, etc., STEPHEN CROWELL.
NEW BEDFORD, Sept. 30, 1878.

A RUNNING SORE
Cured in One Week.

MESSRS. WEEKS & POTTER,—Some three or four weeks ago I ordered a box of CUTICURA for a bad case of Salt Rheum. The back of one of my wife's hands was a running sore. In one week from the day it arrived her hand was well and has remained so up to to-day. E. P. DAGGETT.
MILFORD, ME., June 10, 1878.

NOTE.—Reader, don't you think these cures remarkable?

CUTICURA SOAP,
Medicinal and Toilet.

Is prepared from CUTICURA in a modified form, and is positively indispensable in the treatment of Skin and Scalp Diseases. We recommend it for the preservation of the skins of infants, for gentlemen who shave and are troubled with tender faces, for those who desire a clean and wholesome Skin and Scalp, and for all purposes of the toilet, bath and nursery. Its delightful and refreshing fragrance equals or surpasses the finest Parisian Soaps.

Prepared by Weeks & Potter, Chemists and Druggists, 360 Washington Street, Boston, Mass., and for sale by all druggists and dealers. Price of CUTICURA, small boxes, 50 cents; large boxes, containing two and one half times the quantity of small, $1. Resolvent, $1 per bottle. CUTICURA Soap, 35 cents per cake; by mail, 30 cents; three cakes, 75 cents.

COLLINS' VOLTAIC ELECTRIC PLASTERS. Pain and Weakness can not exist where they are applied. They vitalize, strengthen and support Weak and Painful Parts; cure Chronic Ailments and Diseases of the Liver and Kidneys; absorb Poisons from the Blood, and thus prevent Fever and Ague, Malarial and Contagious Diseases; stimulate the Stomach and Digestive Organs when placed over the pit of the stomach, and prevent Dyspepsia, Bilious Colic, Cramps and Pains.

New York Weekly Herald.

ONE DOLLAR A YEAR.

The circulation of this popular newspaper has more than redoubled during the past year. It contains all the leading news contained in the Daily Herald, and is arranged in handy departments. The

Foreign News

embraces special dispatches from all quarters of the globe. Under the head of

American News

are given the Telegraphic Dispatches of the week from all parts of the Union. This feature alone makes

The Weekly Herald

the most valuable chronicle in the world, as it is the cheapest. Every week is given a faithful report of

Political News

embracing complete and comprehensive dispatches from Washington, including full reports of the speeches of eminent politicians on the questions of the hour.

The Farm Department

of the Weekly Herald gives the latest results of the most practical suggestions and discoveries relating to the duties of the farmer, hints for raising Cattle, Poultry, Grains, Trees, Vegetables, &c., &c., with suggestions for keeping buildings and farming utensils in repair. This is supplemented by a well-edited department, wisely conducted, under the head of

The Home,

giving recipes for practical dishes, hints for making clothing and for keeping up with the latest fashions at the lowest price. Every line of cooking or economy suggested in this department is practically tested by experts before publication. Articles from our Paris and London correspondents on the very latest fashions. The Home Department of the Weekly Herald will save the housekeeper more than one hundred times the price of the paper. The interests of

Skilled Labor

are looked after, and everything relating to mechanics and labor, having a generality, recorded. There is a page devoted to all the latest phases of the business markets, Crops, Merchandise, &c., &c. A valuable feature is found in the specially reported prices and conditions of

The Produce Market.

Sporting News at home and abroad, together with a story every week, a Sermon by some eminent divine, Literary, Musical, Dramatic, Personal and Sea Notes. There is no paper in the world which contains so much as a story every week as the Weekly Herald, which is sent, postage free, for One Dollar. You can subscribe at any time.

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh year*, admittedly unrivaled and continuously successful. During the year it will give to its readers the productions of the most eminent authors, *above men d and many others*; embracing the choicest critical and short stories by the *Leading Foreign Novelists*, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the *foremost Essayists, Scientific, Critics, Discoverers and Editors*, representing every department of Knowledge and Progress.

THE LIVING AGE *is a weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents in the inexpensive form, several orders great amount of matter, with freshness, owing to its weekly issue, and with a completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific Biographical, Historical and Political Information, from the entire body of Foreign Periodical literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE compilation of an indispensable current literature, *indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

☞"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"It affords the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that the choicest pages alone to be possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Boston Daily Advertiser.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires to be informed upon the topics of the time, and is admirable and note worthy in the literary world."—*Post n Post.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Salem Advertiser.*

"The best literature of the day."—*New York Times.*

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or interrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name: no other preparation is a substitute for this under any circumstances.

CATARRH

NEVER-FAILING RELIEF

AFFORDED BY

SANFORD'S RADICAL CURE.

It is a fact that can be substantiated by the most respectable testimonials ever offered in favor of any proprietary medicine, that the RADICAL CURE FOR CATARRH does in every case afford instant and permanent relief. No matter of how long standing, or how severe the disease, the first dose gives such evidence of its virtues in the treatment of Catarrhal affections, the confidence is at once felt in its ability to do all that claimed for it. The testimony of physicians, druggists and patients is unanimous in the respect, and the amazing evidence is in point of respectability equal or to any ever before obtained in favor of a popular remedy. The proprietors, therefore, may justly feel proud of the position the RADICAL CURE has attained and believe it worthy of its reputation.

10 YEARS A SUFFERER.

From Hon. Theo. P. Bogert, Bristol, R.

Messrs. WEEKS & POTTER: *Gentlemen*,—Feeling thoroughly convinced of the efficacy of SANFORD'S RADICAL CURE FOR CATARRH, I can indeed say that although I have been sceptical of a cure in the treatment of Catarrhal affections, I do not ever found anything that promises such relief as climate once so that of Bristol.

I have been afflicted with this dreadful disease for over ten years, and not until recently could I hideous to be generally known. I had heard of Mr. HENRY WELLS, and can truthfully say that six bottles of your valuable remedy has done wonders in its curative properties. Hoping that others similarly afflicted like myself will be induced to make the trial, I remain, very truly, etc.,

THEO. P. BOGERT.

WASHINGTON, D. C., Feb. 5th.

It looks now as though the secretary of the treasury would make good his boast that before the end of his term of office he would reduce the public debt below two thousand million dollars. He says he will reach his object next month. The fact is, the business boom has so improved the government revenues that the debt will probably be reduced this year very much faster than ever before.

The committees in charge of the appropriation bills do not get along as fast as they anticipated, and unkind remarks are made about it. The most common criticism is that work is being delayed purposely until there will be such anxiety to go home that every body will be good natured, and have no desire for political debate. I find that both parties are already disposed to let well enough alone in the matter of contests like those of last session. But besides this, I think the committees really find more difficulty than they anticipated in arranging the appropriation bills satisfactorily, and hence the delays.

The Grant boomers seem to be somewhat discouraged over the evident progress of the Sherman boom in the south. Senator Blaine, too, seems likely to get some delegates in that section, which Grant was supposed to have solid. In fact, the triangular light going on in the republican party on the presidential question, is assuming very interesting proportions.

The bill to restore General Fitz John Porter to his rank and pay in the army will come up in the senate next week, and probably pass. Senator Logan and a few others will oppose it strongly, but every democrat and some republicans will vote for it. KNOX.

Keep Oote' Hairm's Way.

An Arbroath man, overfond of a wee drop, having beaten his wife at night, had forgotten all about the domestic difference by the morning, looked at her damaged face, and anxiously exclaimed: "Guoosss preserve us! Jessie wauar has ye been?" Enlightened as to his part in the matter, he cried, as though he were the aggrieved one: "O dear! IUS an awfu' thing ye wiuna keep oot o' hairm's way."—*Chambers' Journal.*

—As you go to Capitol hill, Washington, along Pennsylvania avenue, you come to a liquor shop with a sign extending over the sidewalk. On it are the words:—"The last chance." On the reverse side, seen as you come back from the capitol, are the words:—"The first chance." Possibly, a man, who understands the appropriate signals can find a chance for a drink at the house or senate restaurant; but nothing stronger than lager is drank publicly.—*Washington Letter.*

A New Method in Medicine.

By this new method every sick person can get a package of the dry vegetable compound, Kidney-Wort, and prepare for themselves six quarts of medicine. It is a specific cure for kidney diseases, liver complaint, constipation and piles, and a grand tonic for the females.

—It is both the curse and blessing of our American life that we are never quite content. We all expect to go somewhere before we die, and have a better time when we get there than we can have at home. The bane of our life is discontent. We say we will work so long, and then we will enjoy ourselves. But we find it just as Thackeray has expressed it. "When I was a boy" he said, "I wanted some taffy—it was a shilling—I hadn't one. When I was a man, I had a shilling, but I didn't want any taffy."—*Robert Collyer.*

They Work Together.

When your system gets out of tune and you feel completely played out, it is pretty certain that you need a medicine to act on both the kidneys and liver, for these important organs work together in freeing the system of its waste, and keeping up the tone. Then take Kidney-Wort, for this is just what it does, for it is both diuretic and cathartic.

—The preacher was talking to the Sunday school on the power of religion, and the devotion of the zealous to the cause and their attendance upon the services. Finally he asked if there was anything to which people would go twice every Sunday and through the week as they did to church, when a small boy with a twisted tongue on the front seat spoke out: "Yeth, thir, a thireus would ketch 'em every pop if they could git in free, like they do to church." The preacher thought it was time to sing.

Better than Foreign Port.

Speer's Port Grape Wine is better than Imported Port, and, since the the adulteration of the latter, it must take its place. It is pure; and really excellent and healthgiving.—*Troy Times.*

Members of the Board of Health of New York, and other prominent physicians, use this wine for their patients and in their own families.

For sale by W. R. Preston, D. Kimball, F. B. Coleman, druggists, and H. F. Gerrish, grocer.

The Fusion Infamy in Maine.

The "brute scoundrelism" of the Garcelon-Pillsbury gang in Maine is to be investigated, and the scoundrels will possibly find that their punishment is not to stop at the defeat of their villainous schemes.

Gov. Davis delivered his message to the legislature on the 5th inst. In it he declares in favor of hard money as the national currency of the country; speaks a good word for the beneficiary institutions of the state; says that the state debt has been greatly increased by the expenses incurred by the recent political complications; declares that all the departments of the state government are amenable to the law, and denounces the counting-out conspiracy as a gigantic usurpation of power by the executive. His language on the latter point is as follows: "Our government is one of checks and balances. It is divided into three departments, the executive, legislative and judicial. Each in its own domain has duties peculiar to itself, but each is amenable to law. For the first time in the history of our government the executive department has usurped a power never delegated to it. Instead of giving expression to the will of the people by counting the returns of votes according to law and the plainest dictates of common sense, the attempt was made to subvert the will of the people. The attempt did not succeed, but it did plunge the state into disgrace and almost revolution, only avoided by the patriotic and law-abiding qualities of our citizens. There can be no half-way ground in regard to this great public wrong. It should not be a question of party, but should receive the condemnation of every honest and patriotic citizen, that it may serve as a warning in the future to those who under a free government may attempt to trample upon the rights of the people. I would recommend an investigation of the whole subject of arranging, tabulating and counting the returns of votes, that the facts, so far as can be ascertained, may be made public."

In the legislature it was ordered that a committee of ten, consisting of seven members of the house of representatives and three members of the senate, be appointed, whose duty it shall be to examine into the condition of the election returns lately given up to the secretary of state, and the warrant and appropriation books and all other books and papers of the governor and council for 1879, and extending to the first Wednesday in January, 1880, and to report to the legislature what suppressions or alterations, if any, have been made in said returns, and what means have been resorted to for such purposes; and also in what cases and in what manner the will of the people, as shown in the last annual election, has been disregarded and attempted to be defeated, either by the illegal construction of said returns or by changing or tampering with them, and by whom the same has been done or attempted to be done. Said committee shall further report to the legislature upon all undue and illegal expenditures of the money of the state by or under the directions of the governor and council for the period before mentioned, or by any officer of the state by or under the directions of the governor and council for the period before mentioned, or by any officer of the state, or any employe of or contractor with the state during said time, and for such purpose said committee shall have power to send for persons and papers, and to employ such clerical and stenographic force as may be necessary.

New Hampshire Items.

The annual session of the Grand Lodge, Knights of Pythias, for New Hampshire, was held at Great Falls on the 5th inst. About one hundred and fifty delegates were present. The following officers were elected and installed by D. B. Woodruff of Macon, Ga.: Wm. E. Moore of Manchester, past grand chancellor; Rufus B. Foss of Farmington, grand chancellor; Frank N. McKinley of Manchester, vice grand chancellor; Wm. A. Frye of Newmarket, grand prelate; Lorenzo K. Peacock of Concord, grand master of exchequer; Frank K. Pillsbury of Concord, grand keeper of records and deeds; John N. Haines of Great Falls, grand master at arms; Edwin G. Wilson of Lincoln, grand inner guard; Fred G. Evans of Suncook, grand outer guard. The next session will be held at Suncook, in February, 1881.

A call has been issued for a meeting of the republican state committee at Concord on the 12th inst., to call a convention to elect delegates to the republican national convention.

Mrs. Emma J. Nichols, the leading soprano singer in Father Kemp's Old Folks' choir for twelve years, in this country and Europe, died at her home in Plaistow on the 5th inst., after a short illness.

Capt. John Perkins of Sanbornton died on the 3d inst., in the 96th year of his age. He had served in the legislature. One of his sons is Rev. Fred T. Perkins of Tilton. His father was Jonathan Perkins, a revolutionary soldier, and his grandfather Abraham Perkins of Ipswich, Mass., a soldier in the French and Indian war, and a captain of the revolution.

News and Notes.

Steam-tug Alert left New London, Conn., on the evening of the 2d inst., having in tow a yacht of fifteen tons register, with three men on board, and the brig Gainsborough, also with a crew of three men, bound for New York. In the gale of the 3d the tow broke adrift and was lost, the tug getting back to port badly damaged. The brig went ashore at Northport, L. I., and appears to have been run into by some vessel; the yacht, and the crews of both vessels, are missing.

Kenneth Albro, an elderly Texan, reports that on the 31st of January, as he was going up the steps of the sub-treasury in New York, carrying a satchel containing $120,000 in government 4 1-2 per cents, he was fooled by the drop-wallet game, and while picking up the wallet an unknown man threw him upon the stone steps, striking his head, causing his nose to bleed and creating so much confusion that he did not notice that an accomplice of the man who called his attention to the wallet had quickly walked off with the satchel and bonds.

The officers of the Kansas Freedmen's Relief Association desire to put in operation some practical methods of diverting the constantly increasing immigration of colored people to Kansas. An effort will be made to turn the tide into other states, which more need laborers, and where the people are better able to care for the destitute. The relief association have found it impossible to maintain the hundreds of immigrants who have lately arrived.

The pay roll of ice men on the Kennebec river, Me., amounts to $5,000 per day.

A negro cabin on the plantation of Capt. Wm. Stack, thirteen miles north of Columbia, S. C., was burned on the night of the 3d inst., and two men, one woman and six children perished in the flames.

A fire took place in a Chinese washhouse on Pine street, San Francisco, on the morning of the 5th inst. How many Celestials occupied the place is not known, but ten dead bodies were taken from the ruins in a short time after the fire was extinguished.

Hon. Adolph E. Borie, ex-secretary of the navy, died in Philadelphia on the 5th inst.

Several arrests have been made of persons suspected of complicity in the recent murder and burning of the three men and two women of the Donnolley family at Lucan, Ont., and warrants have been issued for many others. The excitement in that section of the country is intense.

One Auburn, Me., man has entered thirty-nine actions in the supreme court docket this term, on the "lightning pruning-saw" notes. He has bought of various parties notes of this kind to the amount of about $20,000.

An attempt to restore capital punishment in Maine is being made in the legislature, Senator Potter of Bangor being the leader; many members favor its revival, but the bill is not likely to pass this session.

Terence McCann has been missing from Lawrence, Mass., since Jan. 19th, and Peter McGovern, an inventor of some note in cotton machinery, has been missing since Jan. 31st; both men were of temperate habits, and it is feared they have been drowned or frozen to death.

The Bayley hat factory at Newburyport, burned some time ago, is to be rebuilt. The company have increased the capital $20,000, to make up for the loss by the fire.

Unless the breath is like a balmy gale,
Unless the teeth glean like the driven snow,
There is no dazzling smile or tender tale,
Graceful to woman's eye or ear, we know.
The tale would lose its charms—the smile be gone,
Till brought within the spell of SOZODONT.

Thirty Years' Experience of an Old Nurse.

Mrs. Winslow's Soothing Syrup is the prescription of one of the best Female Physicians and Nurses in the United States, and has been used for thirty years with never failing safety and success by millions of mothers and children, from the feeble infant of one week old to the adult. It corrects acidity of the stomach, relieves wind colic, regulates the bowels, and gives rest, health and comfort to mother and child. We believe it the Best and Surest Remedy in the world, in all cases of Dysentery and Diarrhœa in children, whether it is from teething or from any other causes. Full directions for using will accompany each bottle. None genuine unless the fac-simile of Curtis & Perkins is on the outside wrapper. Sold by all Medicine Dealers. 25 cents a bottle.

See a Woman!

In another column appears the card of SPEER'S WINE. It is an admirable article, used in hospitals and by the first-class families in Paris, London and New York, in preference to Brandy or California Wines; excellent for Lame-back and invalids.

This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, New York City.* D&W1Jan81

The new census will show that while there has been an increase of population in Lewiston, Biddeford, Portland, Bath, Auburn, Saco and one or two other large towns and cities in Maine, there has been a decrease during the past ten years in every county in the state except Aroostook. The country towns have nearly all lost, some very heavily. The development of the mining regions has sent a good many people into Hancock county recently, but whether they are to be permanent residents or not, remains to be seen.

William T. Thurston has been sentenced to one year's imprisonment by the police court of Lowell, Mass., for obtaining money on false pretences, by pretending to be deaf and dumb.

Gen. Hawley drew a fine distinction, in speaking of the late Senator Chandler, when he said: "He hated many things; I do not think he hated any man."

AROUND HOME.

It takes one hundred and forty thousand laths to go over the walls of the new Franklin building.

Messrs. Hayes & Mathes have chartered the schooner George H. Mills, and will load her with 3500 barrels of apples for Philadelphia.

Oliver H. Ham of this city, who has been teaching school in Rye, has resigned, and will take charge of the Plains school in this city for the balance of the school-year, ending July 3d, 1880.

Aaron Pinkham, of Dover point, sold 1,000,000 of bricks to parties in Portsmouth during the past year, and says he is now ready to supply parties with as many millions as are required.

The schooner Clara E. Simpson, Capt. Talpey, arrived at Eastern railroad wharf on Friday afternoon, with five hundred and eighty tons of coal. During the storm of the 3d inst. she laid at anchor off Race point, Cape Cod.

Mr. Samuel Dixon, of Eliot, sent off five hundred barrels of apples on Friday. They go to Boston by rail, and are shipped from there to Philadelphia. Messrs. Hayes & Mathes, of this city, shipped by the same conveyance two hundred barrels, on the same day.

Schooner George H. Mills, Tillotson master, arrived at the Concord railroad wharf on Friday morning from South Amboy, N. J., with four hundred tons of coal. This is the vessel previously reported as having put into Gloucester, Mass., with jibs split and sails otherwise damaged. One of the crew had both his hands quite badly frost-bitten on the passage.

The condition of Rienzi Rand on Friday being such that he could not appear, the investigation into the matter of how he came to be so battered was postponed until Saturday, Feb. 14th. James W. Marchant, Charles Ramsdell and John Woodbury were held in $500 each, George Felch in $300, and Horace M. Marchant, John Irwin and George H. Roberts in $50 each, to appear as witnesses. Felch, Irwin and Roberts recognized.

In the month of August last, two parties were at Exeter with horses for sale, and Henry Young, a well known teacher of that town, purchased a mare of one of the parties who gave the name of Saml. N. Davis, of Salem, Mass. Not long afterward David W. Dowst, proprietor of the Forest River house near Salem, came to this city in pursuit of a mare which he claimed had been wrongfully taken from him by one John Brewer of Salem, formerly of Seabrook. The mare was found at Exeter by Mr. Dowst and the sheriff, taken on a writ of replevin, and delivered to Dowst. At the present term of the supreme court the report of the referee, Hon. C. H. Bell, has been affirmed, and judgment rendered for Dowst, whereupon Young complains of Davis for obtaining money under false pretences, namely, representing that the mare was his property at the time of the sale. On Monday, the 2d inst., a warrant was placed in the hands of Sheriff Kent for Davis' arrest, and after much opposition the sheriff obtained a requisition from Gov. Long and on Thursday last brought Davis to Exeter, where he waived examination before Police Justice Bell, and in default of bail was committed to Exeter jail to await the action of the grand jury in April. Davis alleges that he acted as the agent of Brewer, and supposed the horse was all right.

The annual meeting of the Rockingham Farmers' Mutual Fire Insurance company was held in their office at Exeter on the 2d inst. William Conner of Exeter, George B. Webster of East Kingston, John S. Hobbs of North Hampton, Harrison G. Burley of Newmarket and John A. Blake of Kensington, were elected directors. At a meeting of the directors, immediately after the annual meeting, William Conner was elected president, and George W. Wiggin secretary. The company was organized and commenced business in 1833, and since that time has been ably managed. During this period of almost half a century it has had many losses, all of which, with one exception, have been promptly paid without litigation. The farmers of Rockingham county can congratulate themselves that they are able to sustain an insurance company so safe and reliable as the Rockingham Farmers' Mutual.

Among the grain receipts on Thursday were 700 bushels of malt for the Portsmouth Brewing Co., and 700 bushels for F. Jones.

From two to three thousand rough board boxes are purchased by the fish curing establishments in this city, yearly. They are made at Bar Mills, Me.

In locating the new Franklin buildings the huge structure was set back two feet from the line of the original block, on the Congress street front, thus adding two feet to the width of the sidewalk at that point.

The wages of the operatives of the Exeter Manufacturing company's mill have been advanced to the figures previous to the last reduction. The advance varies in the different departments from four to ten per cent, and averages about seven per cent. Although notice was not given till the end of the month, the increase took effect January 1st.

Either some of our brethren of the press are very remiss in mailing their exchanges, or else there is a screw loose somewhere in Uncle Sam's postal arrangements. Among other papers we exchange with the Dover *Democrat*, the Exeter *Gazette* and the Biddeford *Times*, all daily papers, and all containing more or less frequently items of interest to our readers; the CHRONICLE is regularly mailed to each of them, but we only get the *Democrat* about twice a week, the *Times* about once a week, and the *Gazette* not at all a week, sometimes. Where is the hitch?

The Eastern railroad "boom" is distanced by that of the Maine Central. It is said the latter road this fiscal year will earn $100,000 net, after paying all running expenses, and all charges for iron bridges and permanent improvements. Six months ago the stock could be bought for $9 or $10 per share; now it is in great demand at $45 to $48, and steadily advancing. The bonds, which a year and a half ago were down to 87 1-2, now bring 108 1-2 bid. The freight business of the road for months past has been enormous, and the passenger traffic good. A great deal of the success of the road is due to the excellent management of its present board of officers.

THE BUSINESS BOOM.

Mr. Daniel Mason, proprietor of the steam saw and planing mill on Green street, is making preparations to greatly enlarge the capacity of the building, and has purchased the necessary machinery for a large manufacture of window sashes, blinds, doors, boxes, box shooks, house trimmings and mouldings. Mr. Mason is to continue his present business at the mill, while the sash and blind manufacture will be conducted by two competent mechanics of extensive experience in that line of business.

The location of the wharf and building is admirable for any purpose. The facility for cheap and rapid transportation of raw material and manufactured articles cannot be surpassed, there being two railroads and a river within a stone's throw of the buildings.

Mr. Mason informs us that 75,000 feet of timber has already been felled at a wood-lot bordering the river, and will soon be in his dock, ready to be taken into the mill and converted into lumber of any dimensions, or manufactured into doors, sashes, blinds or any other article of wood that may be wanted here, or wherever a market can be created.

BOW MISSION HALL SERVICES.

There will be a young people's temperance meeting at the hall this (Saturday) evening, under the auspices of the Woman's Temperance League: speaking by members of the league, and recitations by several young misses. All are invited.

Prayer and conference meeting Sunday forenoon from nine o'clock to 10:30; bethel service at 4:15 P. M., conducted by a lady; reform club meeting at 7:30 P. M., with an address by Mr. Lyman Clark of Kittery, and remarks by members of the club. A general invitation is extended to the public, at each and all of those meetings.

SUPREME COURT.

THURSDAY, Feb. 5th; *Clark, J.*

No. 98, Mary E. Ames vs. Oliver Towle. This is an action for deceit. The plaintiff claims that she purchased a farm of the defendant, in Hampton, and that he misrepresented the value of the farm before the purchase; that he asserted that it was capable of producing larger crops than it was possible to raise upon it; that he misrepresented the value of certain cows, horses and other animals, and things appurtenant to said farm. The plff. closed her evidence Thursday morning, and the defence was opened, the defendant himself being the first witness. Several other witnesses were examined during the afternoon, but the case was not finished at the adjournment of the court. Lamprey and Eastman for plff.; Hatch for def.

In Robbins vs. Robbins, divorce was decreed. There were cross libels, referred to Chas. G. Conner; divorce in one case, and the second case refused. Harriman for Nathan Robbins; Drummond and Wallace Hackett for Emily Robbins.

FRIDAY, Feb. 6th; *Clark, J.*

Case Ames vs. Towle was argued, and given to the jury.

The Methodist chapel on Daniel street, during the autumn and winter months thus far, has been the scene of many musical, intellectual and literary feasts gotten up by the young people of that prosperous society, which for the general excellence of the entertainments given, the versatility of talent displayed, and a proper appreciation of what the public desire, would be difficult to surpass. On Monday evening next Rev. Mr. Pitblado's class, composed of adults, intend to eclipse all previous efforts in this direction, and have arranged a programme which promises a rich treat to all who attend, and a fitting prelude to a week full of musical pleasures. Piano duets, solos, (both vocal and instrumental,) dramatic readings, recitations, etc., will be among the attractions offered, and an essay by Mr. Pitblado, mirth-provoking and instructive, which will of itself we think be sufficient to crowd the chapel. In this connection we are glad to say that this eloquent clergyman is likely to remain with the Methodist society in this city another year.

Odd Fellows Mutual Relief, Rockingham County, N. H. The adjourned meeting to hear report of committee on revision of by-laws, will be held at committee rooms, Odd Fellows' hall, Tuesday evening, Feb. 10th, at 7:30 o'clock.

E. M. BROWN, President.

YORK COUNTY ITEMS.

The schooner Addie Jordan, of Saco, which went on Toddy rocks, below Boston, and bilged, some months ago, has been thoroughly repaired and now rates A 1.

The estimates of expenditures for the county expenses of York county during 1880, as forwarded to the secretary of state by the county commissioners, amount to $20,000.

The subject of Rev. Mr. McGinley's discourse on Sunday evening will be "Neutrality in Religion."

Political.

It is stated that Eben F. Pillsbury, who instigated the anti-draft riots at Kingfield, Me., during the war, and was chief engineer of the infamous fraud attempted by Garcelon and his gang, is to remove from the state of Maine shortly. His peculiar talents would be better appreciated in Mississippi.

Some boys of Oshkosh, Wis., who were members of a secret society, found themselves in a majority at one of their meetings, whereupon they voted to expel all the other members, and then sold the library to another society for a dollar. What excellent democratic members of congress and railroad wreckers these boys will make when they grow up.

Mr. W. R. Harper, son of the editor of the Okolona *Southern States*, has been elected reading clerk of the Mississippi senate. The senate was probably hired to elect him by Congressman Frye of Maine, who the democrats say hires the elder Harper to put ultra-robel editorials in his paper.

The Mormons.

An address upon "Mormons and Mormonism" was delivered in New York recently by Joseph J. Hawkins, an Englishman who was a member of the Mormon community from 1866 until last year. He said:

If Utah is made into a state the plan will be to drive out all outsiders by means of over-taxation. This is the great desire of the Mormons, for then they will have a Mormon legislature, Mormon judges and Mormon rule generally. They favor a democrat for president, because they believe that more quickly through that party they can obtain control. They are rapidly getting the Indians under their control, for their belief is that the Indian is in the future to fight their battles for them. Already their influence is widely extended over several tribes.

Besides this, the Mormons are purchasing arms and ammunition continually. This is done through the instruction of their bishops. They have now plenty of fire arms. The Mormons have a population of 130,000, and they can muster a force of 25,000 able bodied men. Salt Lake city is divided into wards, over each of which is placed two teachers, or chiefs. Each ward contains what is called a squad, which numbers one hundred and twenty-five men, well drilled and armed.

Every man, woman and child is required to pay to the Mormon government one-tenth of his or her earnings. An oath the Mormons do not regard binding unless it is taken before a priest. They regard a judge as having no authority, and thus they have no regard for an oath taken in court. There has been plenty of evidence for conviction in murder trials where the accused persons have been acquitted. There are murderers today walking about the streets of Salt Lake city who are known to be such, yet no one dares to accuse or arrest them.

Hints for Farmers.

Cider is not injured for vinegar by being frozen. Care must be taken, however, that none shall be drawn from the casks while partially frozen; otherwise the remainder will be spoiled for any use.

To clear the premises of rats apply to the stones and rafters in the cellar white-wash yellow with copperas. Put crystals of copperas in crevices and corners—the vermin will go. It is also a good disinfectant.

In winter cooked food is recommended for fowls. Meat is essential when they cannot get worms. The habit of giving much food in a short space of time is a bad one. In the natural condition the process of picking up their food is a very slow one.

If you desire to get a large yield of rich milk, give your cows every day water slightly warm and slightly salted, in which bran has been stirred at the rate of one quart to two gallons of water. You will find, if you have not tried this daily practice, that your cow will give twenty-five per cent more milk immediately under the effects of it.

A variety of suitable food will help the production of eggs in winter. Corn, grains, vegetables and meat are all good for fowls. Next in importance to a good variety of food is warmth. The better favored for warmth the quarters are, the better the prospect for eggs. Some people have warmed the quarters of their fowls artificially with profit.

In winter vegetable matter for poultry is more essential than in summer, as the fowls are then more confined to yards and houses. Cabbage is most easily kept for this purpose, the raw leaves of which they are quite fond of. They are also fond of raw onions chopped up fine. In the absence of these give potatoes or other roots, but these require boiling, and it is then better to mix up bran or meal of some kind with them before feeding.

Cows should be habituated to yield milk ten months, and to induce a long season of lactation the heifer should be fed liberally and milked carefully. It is important to establish this habit, and cause her to respond to liberal feeding. It is better to postpone the time of her second maternity to the end of fifteen to eighteen months, allowing her to recover from early maternity. Experiments show that you may thus develope her milking quality.

Hens fed on clear, sound grain, and kept on a clear grass run, give much finer flavored eggs than hens that have access to stable and manure heaps and eat all kinds of filthy food. Hens feeding on fish and on onions flavor the eggs accordingly, the same as cows eating onions or cabbage, or drinking offensive water, impart a bad taste to the milk and butter. The richer the food, the higher the color of the eggs. Wheat and corn give the best color, while feeding on buckwheat makes them colorless, making them unfit for some confectionery purposes.

It gives me great pleasure to say that Adamson's Botanic Balsam cured me of a severe cold, to which I have been subject, especially during the winter months, and I have in many instances recommended it to my friends, and all have been benefited by its use. Cuticura

BLOOD AND SKIN HUMORS

The scourge of mankind.—Old methods of treatment and remedies a failure.

CUTICURA REMEDIES, the Great Blood Purifier and Liver Stimulant, the most wonderful, gentle, and quickening agent of this century. It may be detected in the saliva, sweat, milk, blood, and urine in forty minutes after taking the first dose, showing that it has entered the circulation and been carried to every part of the system. It forever eradicates the virus of Syphilis, Scrofula, Cancer, and Cankerous, those terrible blood poisons that rot out the machinery of life, filling the body with foul corruptions. Taken internally in conjunction with the external application of CUTICURA, the Great Skin Cure, it speedily cures Scrofulous Ulcers and Old Sores, Salt Rheum, Pruritis, Tetter, Ringworm, Scald Head, Dandruff, and all Itching and Scaly Diseases of the Skin and Scalp.

ECZEMA ON THE SCALP,

Breast and Limbs Cured.

Messrs. WEEKS & POTTER: *Gentlemen*,—I cannot refrain from adding my testimony of gratitude to you for having placed within my reach the wonderful CUTICURA REMEDIES, which have rendered unnecessary all further experiment of physicians, and in a remarkably short space of time have rid me of a loathsome disease. I dispensed with all physicians two years ago, believing they did me no good. The CUTICURA has so proved this satisfactory experience—yes it is more satisfactory and I had the courage any longer to follow your advice—and brought the long-looked-for cure and happiness.

I have been afflicted with Eczema or Salt Rheum on my scalp, breast, and limbs for five years, during which time I have been under the treatment of physicians, or at mineral springs, or taking some kind of medicine. I have been treated by Drs. ——, of ——, Dr. ——, of ——, and visited sulphur springs and tried a numbers of patent medicines, all without the faintest approach to a cure.

April 1 last, I began the use of the CUTICURA, which was immediately successful in my case, entirely curing me. I have not had a clean so far for 15 years until the use of the CUTICURA entirely healed it and left it clean and healthy. The other parts of my body were affected in a more aggravated form, but are now completely healed. I believe myself completely cured. I shall continue the CUTICURA RESOLVENT as directed, for its wonderful action upon the blood and bowels and cooling influence on the blood. I will afford me pleasure, as I have done in many cases, to urge the afflicted to use these wonderful remedies.

Yours, etc., STEPHEN CROWELL.

NEW BEDFORD, Sept. 30, 1878.

A RUNNING SORE

Cured in One Week.

Messrs. WEEKS & POTTER,—Some three or four weeks ago I ordered a box of CUTICURA for a bad case of Salt Rheum. The back of one of my wife's hands was a running sore. In one week from the day it arrived her hand was well and has remained so up to date. Yours, E. P. DOGGETT.

MILFORD, ME, June 16, 1878.

NOTE.—Reader, don't you think these cures remarkable?

Medicinal and Toilet.

Is prepared from CUTICURA in a modified form, and is positively indispensable in the treatment of Skin and Scalp Diseases. We recommend it for the preservation of the skins of infants, for gentlemen who shave and are troubled with tender faces, for those who desire a clear and wholesome skin and Scalp, and for all purposes of the toilet, bath and nursery. Its delightful and refreshing fragrance equals or surpasses the finest Parisian Soaps.

Prepared by Weeks & Potter, Chemists and Druggists, 360 Washington Street, Boston, Mass., and for sale by all druggists and dealers. Price of CUTICURA, small boxes, 50 cents; large boxes, containing two and one half times the quantity of small, $1. Resolvent, $1 per bottle. CUTICURA SOAP, 25 cents per cake; by mail, 30 cents; three cakes, 75 cents.

COLLINS' VOLTAIC ELECTRIC PLASTERS

Pain and Weakness can not exist where they are applied. They vitalize, strengthen and support Weak and Painful Parts; cure Chronic Ailments and Diseases of the Liver and Kidneys; absorb Poisons from the blood, and thus prevent Fever and Ague, Malarial and Contagious Diseases; stimulate the Stomach and Digestive Organs when placed over the pit of the stomach, and prevent Dyspepsia, Bilious Colic, Cramps and Pains.

KIDNEY-WORT

PERMANENTLY CURES

KIDNEY DISEASES, LIVER COMPLAINTS, Constipation and Piles.

DR. E. E. CLARK, South Hero, Vt., says, "In cases of KIDNEY TROUBLES it has acted like a charm. It has cured many very bad cases of PILES, and has never failed to do effectually."

NELSON FAIRCHILD, of St. Albans, Vt., says, "It is of priceless value. After sixteen years of great suffering from Piles and Costiveness it completely cured me."

C. S. HOGADON, of Berkshire, says, "one package has done wonders for me in completely curing a severe Liver and Kidney Complaint."

IT HAS WONDERFUL POWER. WHY?

BECAUSE IT ACTS ON THE LIVER, THE BOWELS AND KIDNEYS AT THE SAME TIME.

Because it cleanses the system of the poisonous humors that develope in Kidney and Urinary diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia and Female disorders.

KIDNEY-WORT is a dry vegetable compound and can be sent by mail prepaid.

One package will make six qts of medicine.

PORT GRAPE WINE.

MEDICINAL WINE.

Speer's Sambuci Wine!

celebrated for its beneficial qualities, highly esteemed by eminent physicians, used in Kingston's American Hospitals and by the first families in Europe and America.

Excellent for weak and Debilitated persons, the aged and infirm; improving the appetite and benefitting ladies and children.

AS A DIURETIC,

it imparts a healthy action to the Kidneys and Urinary organs, very beneficial in Dropsy, Gout and Rheumatic affections and Consumption.

Very superior for colds if made hot and taken before retiring. 75 CENTS PER BOTTLE.

COMMUNION WINE.

SPEER'S PORT GRAPE WINE,

From the Oporto Grape, raised by Mr. Speer at his vineyards, is a rich, heavy-bodied Port, pronounced by Physicians to be one of California's finest imported Port; used by families for weddings, and as an evening wine; and by ladies and weakly persons for strengthening; also is a principal wine for communion purposes. $1.00 PER BOTTLE.

Speer's P. J. Sherry

is a Wine of Superior Character, and partakes of the golden qualities of the grape from which it is made. For purity, Richness, Flavor and Medicinal Properties, it will be found unexcelled. $1.00 PER BOTTLE.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION. It contains 300 pages, 125 prescriptions, and 25 engravings. Price only $1.00. Address PEABODY MEDICAL INSTITUTE, Boston, Mass.

Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

THE

New Hampshire Gazette

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

—THE—

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a week'y invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

POROUS PLASTER

CAPCINE

BENSONS CAPCINE

A Word to those who use Porous Plasters. It is a universally acknowledged fact that BENSON'S CAPCINE POROUS PLASTERS ARE SUPERIOR TO ALL OTHERS! The great demand for Benson's Porous Plasters has induced a number of unscrupulous parties to make and sell worthless imitations bearing similar sounding names. As the market is flooded with indifferent plasters selling at any price it is important to the consumer (if he would have the genuine article) to see that he gets BENSON'S CAPCINE POROUS PLASTER. It is a well known fact that some of the imitations have been found to be worse than useless, causing paralysis and other diseases. CAUTION—See that the word CAPCINE is on each plaster is genuine. New York Weekly Herald.

ONE DOLLAR A YEAR.

The circulation of this popular newspaper has more than trebled during the past year. It contains all the leading news contained in the Daily Herald, and is arranged in handy departments, like

Foreign News

embraces special dispatches from all quarters of the globe. Under the head of

American News

are given the Telegraphic Despatches of the week from all parts of the Union. This feature alone makes

The Weekly Herald

the most valuable chronicle in the world, as it is the cheapest. Every week is given a faithful report of

Political News

embracing complete and comprehensive despatches from Washington, including full reports of the speeches of eminent politicians on the questions of the hour.

The Farm Department

of the Weekly Herald will give the newest and most practical suggestions and discoveries relating to the duties of the farmer, hints for raising Cattle, Poultry, Grains, Trees, Vegetables, &c., with suggestions for keeping buildings and farming utensils in repair. This is supplemented by a separate department, widely copied, under the head of

The Home.

giving recipes for practical dishes, hints for making clothing and for keeping up with the latest fashions at the lowest price. Every item of news or economy suggested in this department is critically tested by experts before publication. Letters from our Paris and London correspondents on the very latest fashions. The Home Department of the Weekly Herald will save the housewife more than one hundred times the price of the paper. The interests of

Skilled Labor

are looked after, and everything relating to mechanics and industry is carefully recorded. Science is a page devoted to all the latest phases of science. A valuable feature is found in the specially-reported prices and conditions of

The Produce Market.

Sporting News at home and abroad, together with a Story every week, a Sermon by some eminent divine, Literary, Musical, Dramatic, Personal and Sea News. There is no paper in the world which contains as much reading matter as the Weekly Herald, which is sent, postage free, for One Dollar. You can subscribe at any time.

It is thus enabled to give, in compact form, a large amount of matter with freshness, owing to its weekly issue, and with a completeness rendered attainable only by the combination, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific Biographical, Historical and Political Information, from the entire body of Foreign Periodical literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE compilation of an indispensable current literature,—*indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it more completely, thoroughly and impartially."—*Times, Cincinnati.*

"It affords the best, the cheapest and most compete means of keeping abreast of the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the gleam of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that through its pages alone it is possible to be thoroughly well informed, in current literature as by the perusal of a long list of monthlies."—*Philadelphia Inquirer.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a thorough competent knowledge of all that is valuable and also worthy in the literature of the day."—*Boston Post.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Boston Advertiser.*

"The best literature of the day."—*New York Times.*

CATARRH

NEVER-FAILING RELIEF

AFFORDED BY

SANFORD'S RADICAL CURE.

It is a fact that can be substantiated by the most respectable testimonials ever offered in favor of any proprietary medicine, that the RADICAL CURE FOR CATARRH does in every case afford instant and permanent relief. No matter of how long standing, or how severe the disease, the first dose gives such evidence of a value in the treatment of Catarrh as affords a confidence in its ultimate ability to do all that is claimed for it. The testimony of physicians, druggists and patients is unanimous in this respect, and the mounting evidence is in point of respectability superior to any ever before obtained in favor of a popular remedy. The proprietors, therefore, may justly be proud of the position the RADICAL CURE has attained, and believe it worthy of its reputation.

10 YEARS A SUFFERER.

From Hon. Theo. P. Bogert, Bristol, R.

MESSRS. WEEKS & POTTER: *Gentlemen,*—I feel thoroughly convinced of the efficacy of SANFORD'S RADICAL CURE FOR CATARRH. I am induced to drop you line to say that although I have been accepted of the nostrums advertised as "radical cures," I have never found anything that promised such relief or ultimate cure as that of SANFORD'S.

I have been afflicted with this dreadful disease for more than ten years, and not until recently could I find anything to preserve with any until I read the letter of MR. HENRY WELLS, and can truthfully say that after the use of six bottles I am thoroughly convinced of its curative properties. Feeling that others similarly afflicted like myself will be induced to make the trial, I remain, very truly, etc.

The Lake Commerce.

The lake commerce of this country is liable to be under-estimated. A detailed statement made by the Chicago *Inter-Ocean* shows that no less than 3,087 American vessels are at present afloat on the lakes. Only about one-ninth of these are owned at Chicago, 198 being claimed by Cuyahoga, 220 by Buffalo Creek, and 546 by Champlain. In transportation it is shown that Escanaba surpasses all other ports in the shipments of iron ore, and that Duluth is rapidly advancing in commercial importance, having shipped three and a half millions of grain during the last season. The *Inter-Ocean* does not appear to think that comparisons are odious, for it presents a table of clearances and arrivals showing that Chicago had had more than twice as many as New York during the season of lake navigation—May 1st to November 30th. The following is this rather surprising table:

	ARRIVALS. No.	Tonnage.	CLEARANCES. No.	Tonnage.
New York	3,389	4,825,373	3,551	5,044,513
Boston	2,287	1,250,200	2,016	1,240,067
Baltimore	2,089	1,552,278	2,343	1,747,788
Philadelphia	1,902	1,2 9,952	1,890	1,268,105
Portland	667	370,332	667	370,332
Chicago	11,859	3,387,095	12,014	3,370,3[illegible]

Farmers' Vacations.

It is a blessed thing that darkness does cut short the labors of our hard working farmers. Some of them start with the robin in the morning and keep busy as long as the night hawk can be heard. Moonlight nights it seems as though they never would stop. Such men, however, are seldom long lived. At forty or fifty years they are apt to begin stiff as a foundered horse, and at sixty rheumatism lays them on the shelf, or under the sod. It is much better to recreate as we go along. The man who makes the most of life is seldom one who drives his mental or physical machinery too fast. It was a question with the southern planters whether to work negroes hard and let them die early, or work them moderately and get a long life use of them. Mere economy, without regard to the right and wrong of the thing, decided in favor of moderate work. Even a locomotive wears out quickly that is driven at sixty miles per hour and not laid up for thorough repairs occasionally.—*Houghman.*

Good Pressed Beef.

We commend to our many new housekeeping readers the following, which has been partly given in former years. Take any fresh, lean beef—the cheaper pieces, as the upper part of the leg above the "soup pieces," answer very well; that containing tendons or plenty of gelatine is even preferable, and some of the round steak or other lean portion may be used with it. Boil, closely covered, until so tender the meat will fall from the bones. It is better to keep a closely fitting pan of cold water over over the cooking kettle, to condense and cause to fall back the rising steam containing the escaping flavor. Use only so much water as is needed to prevent burning. Take out the meat, mix and chop it fine. Put it into a tin pan or other deep dish. Skim off any excess of grease from the cooking liquor, and add to it a tablespoonful of Cooper's or other good gelatine for each three or four pounds of meat. When dissolved pour it into the chopped meat; put on it a large plate or tin that will fit into the dish, and place upon this ten or twenty pounds weight—flat irons will answer. When cold it is a solid mass, from which thick or thin slices may be cut; that are marbled in appearance, and are very excellent for sandwiches or for a tea or breakfast dish, and it will keep several days in warm weather if set in a cool place. It is tender, juicy, digestible, nourishing, convenient and economical withal.—*American Agriculturist.*

Mrs. Partington says

Don't take any of the quack nostrums, as they are regimentated in the humanitarians; but put your trust in Hop Bitters, which will cure general dissipation, costive habits and all chronic diseases. They saved Isaac from a premature extract of tripod fever. They are the *no plus ultra* of medicines.—*Boston Globe.*

Better than Foreign Port.

Speer's Port Grape Wine is better than imported Port, and, since the adulteration of the latter, it must take its place. It is pure; and really excellent and healthgiving.—*Troy Times.*

Members of the Board of Health of New York, and other prominent physicians use this wine for their patients and in their own families.

For sale by W. R. Preston, D. Kimball, E. B. Coleman, druggists, and H. F. Gerrish, grocer.

Office of S. M. Pettingill & Co., No. 10 State Street, Boston.

It gives me great pleasure to say that Adamson's Botanic Balsam cured me of a severe cold, to which I have been subject, especially during the winter months, and I have in many instances recommended it to my friends, and all have been benefited by its use. We think it has no equal as a cough mixture.

C. L. PETTENGILL.

ENTRACTS.—For persons suffering from exhaustion of the powers of the brain and nervous system, from long and continued study or teaching, or in those cases of exhaustion from which so many young men suffer, I know of no better medicine for restoration to health than Fellow's Compound Syrup of Hypophosphites.

MURDER IN LONDONDERRY.

A despatch to the Boston *Herald* from Concord, Sunday morning, reported the murder of a woman at Londonderry by her nephew, who afterwards attempted to kill himself. Sunday afternoon County Solicitor Harriman received a despatch from Derry saying the murderer was in the lockup there and that threats of lynching were made. Sheriff Kent started for Derry Sunday evening, and Mr. Harriman goes by the first train this morning.

Who Shall Be Governor?

A week or two since we published an article from the pen of an occasional correspondent, in which the names of several possible candidates for governor were mentioned, among them occurring that of Mr. Bell of Exeter. That article seems to have disturbed several papers, which to us is a matter of profound grief.

The CHRONICLE has no disposition to criticise Mr. Bell, who is an eminently respectable man, and doubtless would be a good governor. Our correspondent from a distant part of the county, who seems to have aroused the ire of the Exeter *News-Letter*, which announces itself as having no candidate for governor, is in accord with the papers he referred to in the belief that Mr. Bell, though capable of being a good governor would not prove a good candidate. Democrats ready to push forward a man of great energy, liberal in his expenditures, with strong personal magnetism, and personally known all over the state, what would be the result of a contest with a republican candidate who would do nothing to influence votes for himself, not even allow the state committee to pay a cent for electioneering purposes? In a contest where parties are numerically so nearly of an equal strength, the result of a pushing man like Frank Jones bringing to the campaign his varied means of success, competing with the dignified candidate at Exeter, who has never sought position and would even accept the nomination under a quasi protest, would not be difficult to predict.

The republicans must select a fitting man as their candidate for governor; no matter where he lives or what he does for a living as long as his calling is respectable, but in addition to the manifest fitness he may possess for the discharge of the duties of the office, there must be work and energy displayed by him in his canvass, instead of his quietly folding his hands and expecting the volunteer efforts of the members of his party to accomplish a victory, which has not been done under any standard-bearer since the state was wrested from the control of the democracy.

We have often heard that very many of the Exeter republicans were quietly—not openly—opposed to Mr. Bell's nomination, but we did not suppose that the laudatory notice we thought we first saw in the *News-Letter* but which may have first appeared elsewhere, was simply inserted to please Mr. Bell. Like the *News-Letter* we have no preference in the matter of candidates, save that that selection shall be made which will ensure success rather than confer a compliment to be followed only by a defeat. This we are inclined to think the wisdom of the convention will care for.

News and Notes.

John H. Coates, a colored man of Fitchburg, Mass., fired two shots from a revolver at Michael Larkin, Friday. The trouble arose from Coates taking the windows out of the tenement Larkin lived in, because the latter did not pay his rent. Larkin's children are sick with the measles, and he was so enraged at Coates' action that he chased him into the street. Coates ran into a house, and fired as Larkin came up to the door. Although the powder burned Larkin's face he pushed the door open, when Coates fired again, but missed Larkin. Rev. Mr. Woods, who was passing, took the revolver from Coates and he was taken to the police station. He states that he was obeying orders of his employer in taking out the windows.

The schooner sunk two miles off the pier at Long Branch, N. J., has not yet been identified. The vessel was at first supposed to be the Charles Woolsey, but that vessel has arrived at New York all right.

Two very large iron tanks have washed on shore on the New Jersey beach, and are supposed to be wreckage from some large steamer broken up in the recent great gale.

Anson D. Stephenson, son of Charles Stephenson of Belfast, Me., is a clerk in a store on Chauncy street, Boston. On several occasions he befriended a young lady named Bass, who recently died, bequeathing to young Stephenson property valued at $50,000.

Charles Moulton, a prominent citizen of Portland, Me., shot his hostler Friday morning. Three shots were fired, all of which entered his face. Many stories are in circulation in regard to the cause of the act. Moulton was held for further examination. The man is said not to be dangerously wounded.

James Anderson, the tramp who brutally assaulted Mrs. Herrick at Falmouth, Me., has been bound over in $5,000.

The Providence *Journal* says the dreadful tragedy in Lucan, Ontario, recalls the memory of the burning of Wildgoose Lodge in the county Louth, Ireland, which took place in 1818, and is one of the most horrid remembrances of Irish agrarian crime. In that case the Lynch family of seven, including an infant in arms, were burned alive by a concourse of their neighbors, who surrounded the house and drove back the wretched inmates, who endeavored to escape, with bayonets and pikes, mocking their dying agonies as they perished in the flames. Both the Lynches and their destroyers were Catholics; the latter had made their rendezvous before going out on their night's work in the parish chapel; and the only offence of the murdered family was that the men had resisted an attempt of ribbon-men to take the arms from the house, and given testimony in the courts that resulted in the conviction of some of the party. This tragedy in Ontario appears to be equally atrocious except that the inmates were mercifully killed before the house was set on fire, and it is to be hoped that it will be as speedily followed by the punishment of the perpetrators. Such crimes make very black marks in the records of human nature.

The North Congregational church of Newburyport has extended a call to Charles P. Mills, a last year's graduate of Andover seminary.

A Bridgewater, Mass., damsel, taking advantage of her leap year prerogative, last week called at the town clerk's office and obtained a marriage license, properly filled out, for herself and swain.

The Providence & Worcester railway company recently bought 2,050 tons of steel rails at $45.86 per ton, and now the selling parties have offered $30,000 to be released from the contract.

Dr. Brooks O. Baker and family of Lowell, Mass., started Friday afternoon for Honolulu, Sandwich islands, where he has accepted a lucrative position at the disposal of the Episcopal bishop there.

Miss Celia Moulton, a niece of Gen. Sherman, was married at Cincinnati last Thursday, to Lieut. Rockwell.

An unknown vessel is reported as having gone to pieces off Stony Brook harbor, L. I., Tuesday night of last week. All hands were lost.

Royal B. Conant, late cashier of the Eliot national bank, was tried in Boston last week for embezzlement of the funds of the bank, and found guilty on all the counts. A motion for a new trial was filed, and bail in $30,000 was demanded.

The lighthouse supply steamer Fern sailed from Key West on the 26th of January for New York, but had not arrived on the 6th inst.

About three months ago a Fairhaven, Mass., grocer brought suit against one of his townsmen on a bill for groceries delivered to defendant's wife. The defendant came into court and testified that his wife died a considerable time previous to the dates of delivery of goods, and in this manner was relieved from the suit. It has since transpired that he neglected to testify that he was married again soon after the first wife died.

Miss Dolly Hartman, a beautiful and accomplished young lady of Allegheny City, Pa., died on the 3d inst. Before death she expressed a wish that her body might be burned, and her father, a wealthy man, in accordance with her wishes had her body cremated on the 7th. He proposes, so it is said, to sprinkle her ashes on a plat of ground, and plant it with flowers, of which the girl was passionately fond.

At a camp meeting in the woods in Burnett county, Texas, recently, the preacher spoke of the second coming of Christ. Instantly a tall old gentleman, with solemn face and gray beard, and enveloped in a white sheet, rose up in the crowd and exclaimed: "Christ is in your midst here." A panic seized the congregation, and a stampede ensued. Ladies shrieked and fainted; men, pale with terror, rushed out and ran over women and children, several of whom were seriously hurt. When quiet was restored it was found that an escaped lunatic had caused the panic.

Official despatches have been received at Madrid, Spain, giving details of a recent hurricane in the Phillippine island. Twenty-five vessels of various classes were wrecked, including four frigates. A large number of other vessels were damaged. Forty-six persons were drowned.

New Hampshire Items.

A sad drowning accident occured at Laconia on Tuesday of last week. Miss Annie Burns, employed in the Pitman manufacturing company's works, started to walk home through the storm, and not arriving there at the usual time, search was made for her. Her dead body was found in the canal in an erect position in ten feet of water, with her hands clutching the supporting rods of the bridge, and her feet standing on the bed of the canal. It is conjectured that she was blown off the bridge by the wind. The young lady was eighteen years old, and highly respected.

The jury at Manchester awarded Fred W. Drown, the liquor spotter, $475 on his suit against Silas C. Clatur.

The daily issue of the Exeter *Gazette* is given up; the weekly will be continued.

The office of the *Maine Standard* at Augusta was badly damaged by fire and water on Friday.

The farm buildings of Joseph White at Lyndeboro' were burned Friday afternoon, with 400 bushels of corn and a lot of potatoes and cider. Loss $700.

There was a meeting in Worcester, Mass., Saturday evening, of natives and former residents of New Hampshire now residing in central Massachusetts, for the purpose of forming a New Hampshire club.

WASHINGTON, D. C., Feb. 9, 2 A. M.

AROUND HOME.

Messrs. Cornelius Sullivan and George Herbert are intending to go into the fish-buying business, and have secured premises on Rollins' wharf.

Silver-plated knives at $2.50 per dozen, and all the articles usually found in a first-class hard-ware and paint store, can be found at Fred P. Wilson's, No. 37 Congress street.

A large number of friends of Mr. Daniel H. Spinney and wife, including many members of the grange, surprised them on Friday evening by a visit, the occasion being the twentieth anniversary of their marriage.

The family of Mr. Wm. H. Dennett, of Gravelly ridge, is sorely afflicted with diphtheria. One member of the family, a little boy eleven years of age, died on Saturday, and six others were down with the dreadful disease at the same time.

It is rumored that the Advent camp meeting, for several years past held in Seabrook, will be held in Hampton hereafter. The grounds and buildings at Seabrook were sold not long ago, the camp-meeting association being in debt.

Mr. John Braham, leader of the orchestra at the Boston museum, has been engaged by Messrs. Hilton and Jones to furnish music at hotel Wentworth next summer. He will have twenty first-class musicians in his orchestra, and is in negotiation with several eminent soloists.

A tent of the Knights of the Maccabees was instituted at Odd Fellows hall in this city on Friday evening, with forty-four charter members. The new organization is called Orion Tent, No. 200. Kittery has two tents of the order already; York Tent, at the foreside, and North Star Tent, at the point.

Samuel H. Goodall, Esq., of Boston, formerly of this city, is to erect a house in Seabrook this spring.

Newmarket has at least one citizen who is alive to the value to a town of a good local paper, and is willing to do a grown person's share toward sustaining the same. Mr. N. H. Leavitt not only subscribes for the Newmarket *Advertiser*, and pays for it in advance, besides advertising liberally, but regularly subscribes for eight or ten copies to be sent to friends in other places, and also successfully interests himself in procuring subscriptions from other persons.

At auction in Boston, on Saturday, Eastern railroad stock sold at $42.75; Portland, Saco & Portsmouth, $104; Northern railroad, $92; Boston & Maine, $120; Great Falls Manu. Co., $116; Salmon Falls Co., $367.50; York Co., of Saco, Me., $1262.50; Laconia Co., of Biddeford, Me., $550. Eastern railroad in New Hampshire has declined to $78, with but few shares to be had under $80. Ports., Gt. Falls & Conway mortgage bonds (4 1-2s) sold at $75.50, while Eastern bonds brought $90.

Mercer Goodrich, at his book store in the city hall building, has the Acme pads, papers and blotters, so generally used in offices and stores, and the use of which saves so much time. They are to be had at wonderfully low prices. Mr. Goodrich has also a full line of variously-tinted note papers, with envelopes to match, put up in boxes, which he is selling cheap preparatory to his contemplated removal to No. 1 Market street, where he will seasonably open his spring stock of room papers and borders before the house-cleaning period sets in.

SUPREME COURT.

In case No. 82, David Challis and Joseph B. Challis vs. Samuel P. Carter and Geo. G. Carter, reported last week, the jury found for the defendants. Hatch for plffs.; Marston & Eastman for defts.

In case No. 98, Mary E. Ames vs. Oliver Towle, the jury found for the plaintiff, assessing damages at $271. Lamprey and E. G. Eastman for plff.; Hatch for Towle.

No 116, Parsa Towle vs. Samuel C. Lawrence and Sarah B. Lawrence, action concerning a piece of land on Water street, Exeter, the title to which is claimed by either party, was opened, and the jury took a view of the premises. Trial to begin on Monday.

No. 127, Laura A. Bartlett vs. town of Epping, action to recover for injuries received through an alleged defective highway, is next in order.

The court adjourned on Friday to Monday forenoon.

POLICE COURT.

SATURDAY, Feb. 7; *Batchelder, J.*

Michael Goodman, a marine, for an assault on William Welch, was fined $4, costs $8.04.

William Welch, drunk, fined $3, costs $7.67.

George Marden and Luella Marden, drunk, fined $3, costs $6.90, each.

Amanda Walker, charged with keeping a disorderly house, adjudged probably guilty, and ordered to recognize in the sum of $100 for her appearance at the April term of the supreme court.

THE MUSICAL CONVENTION.

This evening at half-past seven o'clock, at Music hall, the musical convention will be opened with appropriate exercises, to be followed by a chorus rehearsal. All the signs promise well for a grand success, which has been well deserved by the promoters of the affair. A large number of season tickets have been taken up. The soloists engaged (see advertisement) are noted and favorite ones, and the chorus is large and composed of excellent material. The steamer James Sampson will run across the river during the week, to accommodate parties on the other side who wish to attend the convention. The programme for this evening is as follows:

Singing of the Doxology.
Prayer by Rev. Wm. A. McGinley.
Address by Rev. C. A. Holbrook.
Report of committee on permanent organization.
Chorus rehearsal.
Exercises to commence at 7:30 o'clock.

FISHERY NOTES.

The schooner Daniel C. Baker arrived on Sunday, with 4500 lbs. of fish.

As the schooner Una was under-running her trawls on Friday, the men in one dory found a seal on one of the hooks. When taken into the boat the creature appeared to be dead, but it shortly revived and showed fight to the fishermen, and made things so lively for them that they were obliged to knock it on the head. The seal was brought in, and found to weigh eighty-five pounds.

The schooner Mary S. Hontvet arrived Sunday morning, with 20,000 lbs. She left Georges on the 3d inst., and met the storm about twenty miles this side of it; shortened sail to a double-reefed foresail, which was carried away on the afternoon of the same day; she then laid to until the violence of the gale had subsided. The sea was continually breaking over her, and it was feared that some of the hands would be washed overboard, but she fortunately arrived without loss of life, and with comparatively little damage.

The Newburyport *Herald* of Saturday, says the schooner Miantonomah set her trawls, one day last week, and on going to haul them next day found they had been robbed, and so cut and slashed to pieces as to be worthless. The trawls were twenty in number, and bran new. A schooner fishing out of this port this winter, and which has been very successful, we are informed is more than suspected by the other fishermen as being one of the worst of the trawl-robbers that have committed so many depredations this winter. If the plundered parties could manage to catch a few of the plunderers and make examples of them, it would be a good thing; but the trouble is that the thieves take good care not to get caught.

WRECKS.

The steamer Falmouth, which arrived at Boston from St. John, N. B., on Friday last, reports that at noon on that day, five miles from Boon island, she passed a schooner of about one hundred tons, apparently a fisherman, with her mainmast gone, and standing to the north under foresail and jib and a jury-rigged trysail. In the afternoon on the same day, about two miles east-northeast of Thatcher's island, the steamer passed a wreck bottom up and with masts alongside, apparently a schooner of one hundred and fifty tons—a dangerous obstacle to vessels bound east past Cape Ann. This may be the wreck of schooner Riverside, of St. John, N. B., which struck on the Salvages on the night of the 5th inst., the crew having barely time to escape with their lives. The Riverside was from St. John and bound for Perth Amboy, N. J., with a cargo of condemned car wheels, but her bottom may have been stove on the rocks sufficiently to let the iron fall out.

HUNTING A THIEF.

A store in Cape Neddick was broken into, Saturday night, and about twelve dollars in money stolen, with some small articles. The supposed thief was traced to this city by his foot-marks, he wearing very small boots, and the tracks showing some peculiar nail-marks. City Marshal Entwistle was notified, went out "on the pick-up," and soon espied one "Angy" Wilson, who made a brilliant retreat on seeing the marshal, but was overhauled and captured after a lively chase by the officer, who lodged his prize in the lock-up. On examination, Wilson's boots were found to correspond with the tracks made by the burglar, and his account of his movements in this city, Saturday night, was contradicted by other parties. He said he was just out of jail at Augusta, Me., where he served four months for being a tramp; and that he "knew the marshal a mile off by his walk," and was afraid of being sent to Brentwood, from which place he is a deserter. The prisoner is a son of Samuel Wilson, Jr., who keeps house on the corner of Jackson and Wendell streets in this city. None of the stolen property was found on him, and he denied any knowledge of the robbery.

YORK COUNTY ITEMS.

The house and barn of Paul Benson at Kennebunkport were burned Friday afternoon. Loss $1000; insurance $500.

The schooner Active came off the Kittery marine railway on Saturday morning, and was towed to her berth at Pier wharf by the steamer James Sampson.

A lot of condemned boilers, from the Lancaster and other naval vessels, are being taken apart at the navy yard. The iron is to be sent in a compact form to the Washington yard, to be reworked.

A large number of bricks are made every year at Eliot, and sent to Boston. The vessels carrying these bricks are usually reported as arriving from Dover, instead of from Eliot.

Harry Walker of Sanford, aged about forty-five years, was married week before last to Abbie Stevens of Kennebunk, aged fifteen years. The girl had probably read the injunction, "Let still the woman take an elder than herself."

The co-opprative stove foundry company which recently removed to Biddeford from Portland, cast for the first time on Thursday afternoon last. This company manufactures a large line of stoves and ranges, and finds a ready sale for all that can be put into the market.

Aaron McKenny of Saco died very suddenly at his farm residence in that city on Friday evening, at the great age of one hundred and two years, one month and sixteen days. He retained full possession of his mental faculties to the last, and conversed freely with his friends within an hour of his death.

Political.

It is reported "on excellent authority" that Senator Conkling announces that under no circumstances will he permit the use of his name at Chicago as a candidate for the republican nomination for president. He says his name must not be thought of, and that all his influence in New York will be exerted in behalf of Gen. Grant.

—Leather petticoats are worn for walking by English women. They look like satin, and wear forever.

Important.

When you visit or leave New York city, save Baggage Expressage and Carriage Hire, and stop at *Grand Union Hotel*, directly opposite Grand Central Depot. 350 elegant rooms reduced to $1 and upwards per day. European Plan. Elevator. Restaurant supplied with the best. Horse Cars, Stages and Elevated Railroad to all depots. Be careful and see that "Grand Union Hotel" is on the sign where you enter office in the centre of the block. d&wtaoo7'80

Sale of Obsolete and Unserviceable Ordnance and Ordnance Stores.

UNITED STATES ORDNANCE AGENCY,
Corner Houston and Greene Streets,
(P. O. Box 1811,)
NEW YORK, January 23d, 1880.

SEALED PROPOSALS, in duplicate, will be received at this office for the purchase of Obsolete and Unserviceable Ordnance and Ordnance Stores, embracing Cannon, Carriages, Small Arms, Leather Work, Lead, Tools, and Scrap Materials, &c., at the various Arsenals, Forts, and Depots in the United States.

Bids will be opened at 12 o'clock, M., on Wednesday, the 25th day of February, 1880, for Stores located as follows, to wit:

Allegheny Arsenal, Pa; Frankford Arsenal, Pa., Fort Monroe Arsenal, Va.; Indianapolis Arsenal, Ind.; Kennebec Arsenal, Me.; Pikesville Arsenal, Md.; Rock Island Arsenal, Ill.; St Louis Arsenal, Mo.; National Armory, Mass.; Washington Arsenal, D. C.; Watervliet Arsenal, N. Y.; Watertown Arsenal, Mass.

And the Forts in the following named States, to wit:

Connecticut, Delaware, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Virginia.

Bids will be opened at 12 o'clock, M., on Wednesday, the 10th day of March, 1880, for Stores located as follows, to wit:

Augusta Arsenal, Ga.; San Antonio Arsenal, Texas; Benicia Arsenal, Cal.; Vancouver Arsenal, Wash. Ter.; Fort Union, New Mex.; U. S. Military Academy, N. Y., and the Forts in the following-named States and Territories, to wit:

Alabama, California, Florida, Georgia, Kentucky, Kansas, Louisiana, Minnesota, Mississippi, Missouri, Nebraska, Nevada, North Carolina, Oregon, South Carolina, Texas, Alaska, Arizona, Colorado, Dakota, Idaho, Indian, Montana, New Mexico, Utah, Washington, Wyoming.

For list of Stores in detail, location terms, &c., see catalogues, which can be procured on application at the Ordnance Office, War Department, Washington, D. C., at this Agency, or at any of the Arsenals or Depots; and the Commanding Officers of Forts will furnish on application information as to what Stores on hand at their respective posts are for sale.

Bidders will state explicitly the posts where the Stores are located which they bid for, and will give the kinds and quantities they propose to purchase.

Deliveries will only be made at the various posts where stored.

The Department reserves the right to reject all bids which are not deemed satisfactory.

Prior to the acceptance of any bid it will have to be approved by the War Department. Terms Cash. Ten per cent. at the time of award and the remainder when the property is delivered. Thirty days will be allowed for the removal of Stores.

Packing boxes will be charged at prices to be determined by the Department.

Proposals will be addressed to the U. S. Ordnance Agency, New York, (P. O. Box 1811) and must be endorsed "Proposals for purchasing Stores," with the names of the Arsenals, Forts or Depots where stored, and the names of States or Territories in which the Stores are located.

Russian discipline.

M Aurelien Scholl is responsible for the accuracy of the following amusing anecdote about the late Emperor Nicholas of Russia. The czar, he tells the trusting reader, was one day holding a grand review in honor of a lady remarkable for her great personal charms. Just as the cavalry were defiling past he suddenly ordered them to proceed "at the gallop." The colonel of the late regiment did not hear the command, and consequently did not change the pace of his troopers. Enraged at this seeming disobedience to his imperial behest the master of many legions advanced and cried, "At the gallop, to Siberia!" This time the command reached the colonel's ears, the men spurred their horses, and started off into exile. Soon afterward, the czar related what had happened to his fair companion, who, touched with pity at the fate of these victims of despotic will, asked for their pardon, eventually with success. The emperor relented, and sent a squadron to bring back the culprits. Now comes the touching part of this veracious tale. A pattern of discipline and obedience, the offending regiment had never drawn bridle, but maintained its headlong speed. Equally faithful to orders, the troops sent in pursuit, strained every sinew to overtake it, but without avail. The regiment kept galloping ahead, its pursuers continued in its wake, and from that day to this nothing has ever been heard of either!

—Don't be cross because you are turning gray. If you are grizzly, you need not be a grizzly bear.

—Dr. George C. Lorimer of Chicago, while pastor in a southern state, was called to perform a marriage ceremony in a poor white settlement. After the knot was tied, the mother of the bride placed before the guests refreshment in the form of rye whiskey. Dr. Lorimer, by virtue of his office as a Christian minister, remonstrated with her for thus starting in life the new couple. The mother, a large woman, about a foot taller than the doctor, placing her arms a-kimbo, and looking him strait in the eye, said: "Look a-yere, Mister Preacher, yer skin yere to marry this yere couple; yo've married this yere couple! *now git.*"

Two Organs.

Regulate first the stomach, second the liver; especially the first, so as to perform their functions perfectly and you will remove at least nineteen twentieths of all the ills that mankind is heir to, in this or any other climate. Hop Bitters is the only thing that will give perfectly healthy, natural action to these organs.—*Rhine Farmer.*

HOSTETTER'S CELEBRATED

STOMACH BITTERS

Do you feel that any one of your organs—your stomach, liver, bowels, or nervous system, failters in its work? If so, repair the damage with the most powerful, yet harmless, of invigorants. Remember that debility is the "Beginning of the End"—that the climax of all weakness is universal paralysis of the system, and that such paralysis is the immediate precursor of Death.

For sale by all Druggists and Dealers generally.

KIDNEY-WORT

THE ONLY MEDICINE

That Acts at the Same Time on THE LIVER, THE BOWELS, and the KIDNEYS.

This great organ are the natural cleansers of the system, but if any work will be perfect if they become clogged, dreadful diseases are sure to follow with

TERRIBLE SUFFERING.

Biliousness, Headache, Dyspepsia, Jaundice, Constipation and Piles, or Kidney Complaints, Gravel, Diabetes, Sediment in the Urine, Milky or Ropy Urine; or Rheumatism, Pain in the Side, Back and Limbs, Kidney-Wort will have been found a prompt, safe and effectual relief.

KIDNEY-WORT is a Dry Vegetable Compound and one package will go much further than other medicines of its class. It will reach the disease and work a permanent cure.

It acts easily on the bowels, yet cleanses thoroughly. Its action on the Kidneys, Liver and Bowels at the same time, is its peculiar merit. It has cured the worst cases of Chronic Constipation in a few days. It is a Diuretic, acting on the Kidneys, and a Cathartic, acting on the Bowels, and has the combined effect of both. It has also been used with great success for Dropsy, Suppression, Inflammation, Bright's Disease, Diabetes, Albuminous Deposits, Gravel, Dyspepsia, Jaundice, Nervous Disorders, Female Complaints, Piles, Rheumatism, Neuralgia, Nervousness, Sleeplessness, Nervous Debility, Pain in the Back, Side and Limbs, and all Fevers, Inflammations and Irregularities of the System.

Cuticura

BLOOD AND SKIN HUMORS

The scourge of mankind.—Old methods of treatment and remedies a failure.

CUTICURA RESOLVENT, the Great Blood Purifier and Liver Stimulant, is the most searching, cleansing, and purifying agent of this century. It may be detected in the saliva, sweat, milk, blood, and urine in forty minutes after taking the first dose, showing that it has entered the circulation and been carried to every part of the system. It forever eradicates the virus of Syphilis, Scrofula, Cancer, and Cancer, those terrible blood poisons that rot out the machinery of life, filling the body with foul corruptions. Taken internally in conjunction with the external application of CUTICURA, the Great Skin Cure, it speedily cures Scrofulous Ulcers and Old Sores, Salt Rheum, Psoriasis, Tetter, Ringworm, Scald Head, Dandruff, and all Itching and Scaly Diseases of the Skin and Scalp.

ECZEMA ON THE SCALP,

Breast and Limbs Cured.

MESSRS. WEEKS & POTTER: *Gentlemen,*—I cannot refrain from adding my mite of gratitude to you for having placed within my reach the wonderful CUTICURA REMEDIES, which have rendered unnecessary all the other experiments of physicians, and in a remarkably short space of time have rid me of a loathsome disease. I dispensed with all physicians two years ago, believing they did me no good. The CUTICURA has stopped this unsatisfactory expense—even if it were necessary and I had the courage any longer to follow their advice—and brought the long-looked-for cure and happiness.

I have been afflicted with Eczema or Salt Rheum on my scalp, breast, and limbs for five years, during which time I have been under the treatment of physicians, or at mineral springs, or taking some kind of medicine. I have been treated by Drs. ——, Dr. —— of ——, and visited sulphur springs and taken numbers of patent medicines, all without the least appreciable cure.

April 1 last, I began the use of CUTICURA, which was immediately successful in my case, entirely curing me. I have not had a clean scalp for 15 years until the use of the CUTICURA entirely healed it and left it clean and healthy. The other parts of my body were affected in a more aggravated form, but are now completely healed. I believe myself completely cured. I shall continue the CUTICURA REMEDIES as directed, for its wonderful action on the stomach and bowels and cooling influence on the blood. It will afford me pleasure, and I believe in many cases, to urge the afflicted to use these wonderful remedies.

Yours, etc., STEPHEN CROWELL.

NEW BEDFORD, Sept. 20, 1872.

A RUNNING SORE

Cured in One Week.

MESSRS. WEEKS & POTTER,—Some three or four weeks ago I ordered a box of CUTICURA for a bad case of Salt Rheum. The dark color of one of my wife's hands was a running sore. In one week from the day it arrived her hand was well and has remained so up to to-day. E. P. DAGGETT.

MILFORD, MI., June 19, 1872.

NOTE.—Reader, don't you think these cures remarkable?

CUTICURA SOAP,

Medicinal and Toilet.

It is prepared from CUTICURA is a modified form, and is positively indispensable in the treatment of Skin and Scalp Diseases. We recommend it for the preservation of the skin of infants, for gentlemen who shave and are troubled with tender skin, for those who desire a clear and wholesome skin and scalp, and for all purposes of the toilet, bath and nursery. Its delightful and refreshing fragrance equals or surpasses the finest Parisian Soaps.

Prepared by Weeks & Potter, Chemists and Druggists, 359 Washington Street, Boston, Mass., and for sale by all druggists and dealers. Price of CUTICURA, small boxes, 50 cents; large boxes, containing two and one half times the quantity of small, $1. Resolvent, $1 per bottle. CUTICURA SOAP, 25 cents per cake; by mail, 30 cents; three cakes, 75 cents.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work, published by the PEABODY MEDICAL INSTITUTE, Boston, entitled "THE SCIENCE OF LIFE; or SELF-PRESERVATION;" Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains 400 pages and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

POROUS PLASTER

CAPCINE

BENSONS CAPCINE

A Word to those who use Porous Plasters. It is a universally acknowledged fact that BENSON'S CAPCINE POROUS PLASTERS ARE SUPERIOR TO ALL OTHERS! The great demand for them has caused a number of unscrupulous parties to make and sell so-called Capcine Porous Plasters, resembling ours. As the market is also flooded with inferior, if not worthless, porous plasters, some of the cheap plasters have been examined and found to contain injurious ingredients which may do more harm than good. Ours are the only genuine Capcine Porous Plasters, containing no poisonous or other drugs. CAUTION.—See that the word CAPCINE on each plaster is in the name BENSON'S CAPCINE POROUS PLASTER. New York Weekly Herald.

ONE DOLLAR A YEAR.

The circulation of this popular newspaper has more than trebled during the past year. It contains all the leading news contained in the Daily Herald, and is arranged in handy departments, thus:

Foreign News

embraces special dispatches from all quarters of the globe. Under the head of

American News

are given the Telegraphic Despatches of the week from all parts of the Union. This feature alone makes

The Weekly Herald

the most valuable chronicle in the world, as it is the cheapest. Every week is given a faithful report of

Political News

embracing complete and comprehensive despatches from Washington, including full reports of the speeches of eminent politicians on the questions of the hour.

The Farm Department

of the Weekly Herald gives the latest as well as the most practical suggestion and discoveries relating to the duties of the farmer, hints for raising Cattle, Poultry, Grains, Trees, Vegetables, &c., &c., with suggestions for keeping buildings and farming utensils in repair. This is supplemented by a well-edited department, widely copied, under the head of

The Home.

giving recipes for practical dishes, hints for making clothing, and for keeping up with the latest fashions at the lowest price. Everything of cooking or economy suggested in this department is practically tested by experts before publication. Letters from our Paris and London correspondents on the latest fashions. The utility of this department of the Weekly Herald will save the housewife more than one hundred times the price of the paper. This consists of

Skilled Labor

are looked after, and everything relating to mechanics and labor-saving is carefully recorded. There is a page devoted to all the interests of the business markets, Crops, Merchandise, &c., &c. A valuable feature is found in the specially-reported prices and conditions of

The Produce Market.

Sporting News at home and abroad, together with a Story every week, a Sermon by some eminent divine, Literary, Musical, Dramatic, Personal and Sea Notes. There is no paper in the world which contains so much news matter every week as the Weekly Herald, which is sent, postage free, for One Dollar. You can subscribe at any time.

Hardy, Matthew Arnold, Henry Kingsley, W. W. Story, Turguenief, Carlyle, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh year*, admirably maintained and deservedly successful. During the year it will furnish to its readers the productions of the most eminent authors, *above-named and many others*; embracing the Choicest Serial and Short Stories by the *Leading Foreign Novelists*, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the *foremost Essayists, Scientists, Critics, Discoverers* and *Editors*, representing every department of Knowledge and Progress.

THE LIVING AGE is a *weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents in an inexpensive form, considering its great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE compilation of an indispensable current literature,—*indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"It affords the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that through its pages alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Philadelphia Inquirer.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a through compendium of all that is admirable and note worthy in the literary world."—*Boston Post.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Boston Advertiser.*

"The best literature of the day."—*New York Times.*

The Promoter and Perfector of Assimilation.

The Reformer and Vitalizer of the Blood

The Producer and Invigorator of Nerve and Muscle.

The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or enterrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name: no other preparation is a substitute for this under any circumstances.

CATARRH

NEVER-FAILING RELIEF

AFFORDED BY

SANFORD'S RADICAL CURE.

"It is a fact that can be substantiated by the most respectable testimonials ever offered in favor of any proprietary medicine, that the RADICAL CURE FOR CATARRH does in every case afford instant and permanent relief. No matter of how long standing, or how severe the disease, the first dose gives such evidence of value in the treatment of Catarrhal affections the confidence is at once felt in its ability to do all that claimed for it. The testimony of physicians, druggists and patients is unanimous in this respect, and the accumulating evidence is in point of respectability superior to any ever before obtained in favor of a popular remedy. The proprietors, therefore, may justly feel proud of the position the RADICAL CURE has attained and believe it worthy of its reputation.

10 YEARS A SUFFERER.

From Hon. Theo. P. Bogert, Bristol, R.

MESSRS. WEEKS & POTTER: *Gentlemen,*—I feel so strongly convinced of the efficacy of SANFORD'S RADICAL CURE FOR CATARRH, I am induced to drop you a line to say that although I have been a sceptical of a so-called patent medicine as "puffed and advertised" I never found anything that promises such relief as the ultimate cure so that of SANFORD'S.

I have been afflicted with this dreadful disease for more than ten years, and not until recently could I be induced to persevere with any until I read the letter of Mr. HENRY WELLS, and can truthfully say that after using five or six bottles I am thoroughly convinced of its curative properties. Hoping that others similarly afflicted like myself will be induced to make the trial, I am, gentlemen, very truly, etc.

Ventilation.

An illustration of popular ignorance as to ventilation is furnished by the *Sanitary Engineer*, and is as follows:

A gentleman while attending church one evening found that his feet were icy cold, so that he had to raise his feet from the floor. Calling the attention of the sexton to the fact, the latter said, with some perplexity:

"Yes, we have a good many complaints of cold feet from others, but I don't understand the reason why we can't keep the church warm; we surely have fires enough."

So saying, he pointed to a register in the floor directly behind the gentleman, in the adjoining pew. Looking around the latter could see that there was a hot fire in the furnace beneath, and yet no heat came up. When a handkerchief was laid over the register it scarcely stirred. The visitor asked the sexton:

"Have you any means of ventilation?"

"No, sir."

"Are there no windows open?"

"None whatever."

"How, then, can you expect the air to come in here if it can't get out somewhere?"

There was no reason—the man was non-plussed. "Did you ever try to blow in a bottle?" continued the inquirer.

"No, sir."

"Do you think if you did that you could force any more air into the bottle by blowing than there was in it before?" He couldn't say. Never had he thought of it.

"Well" continued the gentleman, "you would soon find, if you tried, that it was impossible, and neither can you force air into this church through a register if you don't open a window or some other orifice."

"But," the sexton demurred, "opening a window would let in cold air, wouldn't it?"

"You just try it," was the reponse. "Raise some of the windows on the leeward side of the church, and see what will happen."

It was done, and instantly the handkerchief lying on the register rose half way to the ceiling with the force of the ascending current. The sexton stood and stared in astonishment.

A New Method in Medicine.

By this new method every sick person can get a package of the dry vegetable compound, Kidney-Wort, and prepare for themselves six quarts of medicine. It is a specific cure for kidney diseases, liver complaint, constipation and piles, and a grand tonic for the females.

—At a farmer's house, not far from Arbroath, Scotland, a party met recently to celebrate the reconciliation of two neighboring farmers who had long been at enmity. The host was pressing and hospitable; the party sat late, and consumed an immense quantity of whiskey toddy. The host's wife was penurious, and grudged the out-lay. When at last, in the small hours, the party dispersed, the lady, who had not slept in her anxiety, looked over the stairs, and eagerly asked the servant girl, "How many bottles of whiskey have they used, Betty?" The lass, who had not to pay for the whiskey, but had been obliged to go to the well to fetch the water for the toddy, replied: "I dinna ken, mem; but they've drucken sax pails o' water."

They Work Together.

When your system gets out of tune and you feel completely played out, it is pretty certain that you need a medicine to act on both the kidneys and liver, for these important organs work together in freeing the system of its waste, and keeping up the tone. Then take Kidney-Wort, for this is just what it does, for it is both diuretic and cathartic.

—The Duke of Argyll was once giving evidence before a committee of the house of commons on the temperance question. "But," said a member inquiringly, "one Bailie MacPherson, apparently a person of authority, deposes that he never saw any one drunk in his district?" "Very likely," replied his grace; "Scotchmen will hardly allow a man to be drunk so long as he can lie still on the floor."

Better than Foreign Port.

Speer's Port Grape Wine is better than Imported Port, and, since the the adulteration of the latter, it must take its place. It is pure; and really excellent and healthgiving.—*Troy Times.*

Members of the Board of Health of New York, and other prominent physicians, use this wine for their patients and in their own families.

For sale by W. R. Preston, D. Kimball, F. B. Coleman, druggists, and H. F. Gerrish, grocer.

—An exchange remarks, "The only jokes women like to read are those which reflect ridicule on men." "Yes" adds another, "on taking up a paper a woman invariably turns to the marriage column."

Office of S. M. Pettingill & Co., No. 10 State Street, Boston.

It gives me great pleasure to say that Adamson's Botanic Balsam cured me of a severe cold, to which I have been subject, especially during the winter months, and I have in many instances recommended it to my friends, and all have been benefited by its use. We think it has no equal as a cough mixture.

U. L. PETTENGILL.

EXTRACTS.—For persons suffering from exhaustion of the powers of the brain and nervous system, from long and continued study or teaching, or in those cases of exhaustion from which too many young men suffer, I know of no better medicine for restoration to health than Fellow's Compound Syrup of Hypophosphites.

The Londonderry Murder.

The facts concerning the murder, as related Monday, are that Mr. E. V. Dillingham of Londonderry on Saturday went to Manchester, leaving at home his wife Sarah, a comely and highly respected lady thirty-three years old, and his nephew, Frank Dillingham, aged twenty years. About three o'clock in the afternoon Mrs. Dillingham's brother, William Wallace, called at the house, but finding the doors locked and curtains down supposed his sister was asleep, and went away. Not long after this Frank Dillingham called at a store kept by Frank Burns, and said "I have shot Aunt Sarah," but refused to give any details when questioned, or to say whether the shooting was accidental or not. He was very much excited, and covered with blood from a bullet wound in his forehead, he having attempted to kill himself, though his courage failed him after firing a shot which did not kill him. He was arrested, and a party went to Mr. Dillingham's house, where Mrs. Dillingham was found insensible, with a bullet hole through her head at the base of the brain, a rope drawn tightly about her neck, several garments thrown over her, and her clothing disarranged; her injuries were at once pronounced fatal by the physicians who were called. The murderer was arraigned at nine o'clock at night before a justice of the peace, and held for further examination; there is little doubt that he committed another crime besides murder, either before or after the shooting of the unfortunate lady.

Political.

The Iowa house of representatives on Saturday voted, fifty-seven to thirty-one, in favor of a resolution for a constitutional amendment making women eligible to the legislature.

The democratic national convention it is now said will be held at Cincinnati. That city is the place where Thurman wants the convention held.

The democratic journals which were so prone to prate of "nepotism" a few years ago, now generally neglect even to mention that among the clerks of senate committees, at salaries of $2000 to $2500 a year, are Senator Eaton's son, Senator Morgan's son, Senator Vance's son, Senator Johnston's son, Senator Withers' son, Senator Wallace's son, Senator McDonald's son-in-law, Senator Saulbury's nephew, Senator Voorhees' son, (two committees,) and Senator Voorhees' law partner's son.

News and Notes.

The father of Miss Fanny Kellogg, the vocalist, died at the Massachusetts general hospital, February 7th.

Solon Chase will start a greenback paper to be called the *Inquirer*, at Chase's Mills, Me., this week.

George W. Pierce, a wealthy farmer of Thomaston, Me., committed suicide, Saturday night, by hanging himself in his barn. He was dead when discovered. No cause is assigned. An inquest was considered unnecessary.

The business now being done by the Auburn, Me., shoe factories is unprecedented in the history of the manufactures of Auburn. Looking back over a record of nine years, an instance cannot be found where the shipments have been so large at this season of the year as they are at present. The total number of cases shipped last week was 1,983 against 1,670 cases the previous week, and 962 cases in the corresponding week of last year. Manufacturers are now receiving very heavy invoices of leather.

Capt. Alexander Atcherson of Westminster, Vt., a veteran fox hunter, now in his 69th year, has caught and collected more furs of various kinds this season than in any of the more than forty years of his experience. He has just made a sale of about $3,000 worth to a Boston firm.

The examination of Stearns K. Abbott, the alleged Groton murderer, at Ayer, Mass., Saturday, resulted in his being held to await the action of the grand jury. The circumstantial evidence against the prisoner was very strong. Several witnesses positively identified him as the man seen at and about the house during the afternoon of the murder. Abbott was taken to the Lowell jail.

Friday night three burglars entered a bank at Knoxville, Ill., seized the president, E. C. Kunkle, who sleeps in the building, and, after gagging and beating him and burning his feet in a shocking manner to compel him to give up the combination, departed, taking $3,200 which had not been locked up. There was a time lock on the safe, and Kunkle was unable to give the combination. There is no clue to the perpetrators.

The number of vessels belonging to, or bound to or from ports in the United States, reported totally lost and missing during January is twenty-four, of which sixteen were wrecked, five abandoned, one sunk by collision, one foundered, and one is missing. The list comprises one steamer, two ships, thirteen barks, two brigs and six schooners, and their total values, exclusive of cargoes, is estimated at $672,000.

During the year 1879, twenty-seven vessels registered at San Francisco, aggregating 8,233 tons, were wrecked, involving a loss of $700,000. Of these, nineteen were schooners, three barks, one steamer, two sloops, one brig and one ship. The largest single loss was that of the steamer Great Republic, valued at $360,000. The number of persons drowned was forty-four, and three were killed by the breaking of a capstan. Nearly all the wrecks occurred through the vessels being driven ashore.

One of the lighthouses on Sandy Hook had its foundations so badly washed out in the great gale last week, that the keeper abandoned it. The structure is in a tottering condition.

Major Reno, the drunken and dishonorable officer whose retention in the army has been a disgrace for several years past, is to be dishonorably dismissed from the service, the cabinet having approved the findings of the court martial.

Captain R. H. Jackson, First Artillery, brevet brigadier-general U. S. A., and Captain Royal T. Frank, First Artillery, brevet lieutenant-colonel U. S. A., have filed a vigorous protest against the passage of the bills introduced in the senate to restore William A. Winder and Dunbar R. Ransom to their service. They state that Winder resigned in 1866, after less than five years service, and that Ransom was dismissed after eleven years service. To restore them to the service above the grade of second-lieutenant is to do great injustice to officers remaining in the service, and especially to Captains Jackson and Frank, who are at the head of the list of captains of artillery, and are entitled to the next promotions to the grade of major. They observe that if these bills pass, it will be a direct invitation to all officers who have resigned or been dismissed to obtain a reappointment by act of Congress.—*Army & Navy Register.*

New Hampshire Items.

H. P. Coolidge has been appointed register of probate for Cheshire county in place of D. W. Backminster, deceased.

The Ashland woolen mill at Plymouth, which has not been in operation for nearly two years, will commence running this week.

Mrs. Eleanor McCrae of Keene slipped and fell in the house, Friday, 31st ult., and died of the shock on Monday, Feb. 2d. She was nearly ninety-four years old. She was married in 1812, her husband entering the American army soon after, and dying three years ago, aged ninety years.

Newell Blaisdell, of East Rochester, committed suicide Friday by hanging himself. He was up in the morning as usual, and his family neither saw nor suspected anything wrong until he was missed. No case is assigned.

John Andrews, Arthur King, Cinin Gregway and Louis Lettoner were arraigned at Lancaster, Friday, charged with the robbery and assault committed at Whitefield railroad station on the previous Sunday night, and in default of bail were committed to jail to await examination. The three last named are Frenchmen, and all are residents of Whitefield. Their examination will occur on the 12th inst.

At Eaton a few days ago five men were knocked down by a mad bull before he could be despatched, and one of them, a young man named Baraman, was gored in the abdomen so severely that fears are entertained of his death. The animal had escaped from Carter Jenness, who was leading it to the barn of Mr. John Woods.

Only Democrats Wanted.

No republican teachers need apply in Monroe county, Mississippi. The democratic county committee have adopted the following resolution:

Be it resolved, That it is the opinion of the executive committee that there should no longer be any radical school teacher employed in the capacity of public school teacher in the county of Monroe, and that the superintendent of education be specially requested to decline giving any radical a certificate as teacher.

And the superintendent of education of the county has required that the applicant for a position as teacher shall certify that he has been, and will continue to be a democrat. The superintendent's requirement is thus worded:

"I hereby certify that I have been a democrat, and that I will hereafter support the candidates of the democratic party, and work with that party." The above is required before I approve a contract.

Naval Affairs.

In accordance with the recommendation of the house committee on naval affairs, the secretary of the navy will adopt the British method of plating war vessels with armor, using iron and steel combined instead of iron alone. A layer of iron and one of steel, whose combined thickness is eleven inches, are equal in power of resistance to a layer of iron fourteen inches thick. The British method was explained and advocated before the committee by Nathaniel McKay, of Philadelphia, who has obtained particulars from the head of the British naval office.

Just Like Mayne Reid.

Treed by pigs is not exactly the position in which we should expect to find a colonial secretary—at least not often. But when Mr. Fowler, colonial secretary of the Honduras, was recently exploring the interior of the colony he was overtaken by a drove of peccaries and had only time to take a snap shot at the first of them and scramble up a tree, dropping his rifle in the performance, before the whole pack were around his perch, gnashing their teeth at him, grunting and sharpening their tusks against his tree. Now the peccary is not only ferocious but patient, and rather than let an object of its anger escape will wait about for days, so that the Secretary had before him only two courses—either to remain where he was until he dropped down among the swine from sheer exhaustion and hunger, or else to commit suicide at once by coming down to be eaten there and then. While he was in this dilemma, however, what should come along—and looking out for supper, too—but a jaguar. Never was beast of prey so opportune, for the jaguar has a particular fondness for wild pork, and the peccaries know it, for no sooner did they see the great ruddy head thrust out through the bushes than they bolted helter-skelter, forgetting, in their anxiety to save their own bacon, every meal they were themselves leaving up the tree. The jaguar was off after the swine with admirable promptitude, and the secretary finding the coast clear came down—reflecting, as he walked towards the camp, upon the admirable arrangements of Nature, who, having made peccaries to eat colonial secretaries, provided also jaguars to eat the peccaries.—*London Telegraph.*

Good Hotels.

Hotel accommodations for travellers are of the greatest importance to persons who have to move about the country on business or for pleasure. "Just where to go" is what every man wants to know when he leaves home. The Grand Union Hotel, opposite Grand Central Depot, New York city, is a very popular resort, because the attendance there is prompt and satisfactory. The charges are reasonable and the menage complete; try it. Families can live better for less money at the Grand Union Hotel than at any other first-class Hotel in the city. Be careful to see that Grand Union Hotel is on the sign where you enter.

—A small boy, boasting of his father's accomplishments, said: "My father can do almost anything; he's a notary public, and he's an apothecary and can mend teeth, and he is a doctor, and can mend wagons and things and play the fiddle; he's a jackass at all trades."

Unless the breath is like a balmy gale,
Unless the teeth gleam like the driven snow,
There is no dazzling smile or tender tale,
Grateful to woman's eye or ear, we know.
The tale would lose its charms—the smile be gaunt,
Till brought within the spell of SOZODONT.

Brown's Household Panacea

Is the most effective Pain Destroyer in the world. Will most surely quicken the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic or acute, than any other pain alleviator, and it is warranted double the strength of any similar preparation.

It cures pain in the side, back or bowels, sore throat, rheumatism, toothache and all aches.

The great reliever of pain, "Brown's Household Panacea," should be in every family. A teaspoonful of the Panacea in a tumbler of hot water (sweetened, if preferred), taken at bedtime, will break up a cold. 25 cents a bottle.

Much Sickness,

Undoubtedly with children attributed to other causes, is occasioned by worms. Brown's Vermifuge Comfits, or Worm Lozenges, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely sure in eradicating worms, so hurtful to children. Twenty-five cents a box. t,th&f

THE WEATHER.

Probabilities for New England. To-day.

WASHINGTON, D. C., Feb. 10, 1 A. M.

Northerly winds; shifting to east and south, with slowly rising temperature, slowly falling barometer; and clear or fair weather.

AROUND HOME.

Mr. John Treat and wife arrived home last week from their trip to the west.

Next Saturday is St. Valentine's day, and many of the store windows are gaily decked out with temptations for the young men and maidens.

The tide in the river was lower on Monday afternoon than we have seen it for years. A considerable piece of the south beacon ledge was bare at low water.

The vacancy in the north school at Rye occasioned by the resignation of the late teacher, Mr. Oliver H. Ham, is to be filled for the remainder of the term by by Mr. Valentine M. Coleman of Newington.

A comparative statement of the gross earnings of the Eastern railroad for the three months of the present fiscal year, shows a gain of nearly fifteen per cent over last year's report for the same months.

St. Mary's Catholic church in this city has contributed $150 to the Irish relief fund, and St. Mary's Benevolent society has given $50 more; individual subscriptions from members of the parish have made up the total to about $300.

The schooner Jesse Williamson, Jr., having been sold to Capt. Andrew P. Craig of Calais, Me., sailed for that port Monday forenoon, to load lumber for for New York. She now hails from Boston, and is commanded by her owner.

The New York *Herald* acknowledges the receipt of $200 from the employes of the national house of representatives, for the sufferers in Ireland. In the list of donors occurs the name of Mr. Samuel Rowe of this city, of the capitol police.

The change in tone of the *Times* when referring to temperance or church matters, consequent on the recent change of control, is very striking; and the absence of personal flings from its columns is also subject of very general and approving remark.

Angy Wilson, who was arrested in this city on Sunday on suspicion of robbing a store in Cape Neddick, Me., was on Monday held as a deserter from the Rockingham county farm. The evidence offered as yet is insufficient to connect Wilson with the burglary.

The "marble block" which was nearly ruined by fire in Biddeford, Me., last week, was one of the finest structures in the city. It was built in 1875, was four stories in height, had a handsome white marble front, and was finished inside in walnut and hard woods of various kinds.

A pair of team horses said to belong to C. Morris Tredick indulged in a runaway, Monday afternoon, and when near the Vaughan street railroad-crossing ran the sleigh into a cradle-hole, which caused the transom-bolt to be unshipped and let the horses go off with the forward runners. The driver got out with remarkable promptness, but was not injured.

On Tuesday night of last week, the night of the big storm, as Mr. John Jones was going home he found a stout German, who is employed in one of the breweries and rejoices in the sobriquet of "Bismark," stuck fast in a snow-drift and thoroughly exhausted with unavailing efforts to extricate himself. It is more than likely that had Mr. Jones not happened along as he did the unlucky Bismark would have furnished a larger item than this, as he was stuck beyond his power to get away, and a brief exposure in such a position on such a night would suffice to finish a man.

Odd Fellows Mutual Relief, Rockingham County, N. H. The adjourned meeting to hear report of committee on revision of by-laws, will be held at committee rooms, Odd Fellows' hall, Tuesday evening, Feb. 10th, at 7:30 o'clock.

E. M. BROWN, President.

THE MUSICAL CONVENTION.

The convention opened at Music hall, Monday evening, with a fair audience in attendance. The exercises began shortly before eight o'clock, with the singing of a doxology by the chorus and audience, followed by prayer by Rev. Wm. H. McGinley, and a brief and appropriate address by Rev. Charles A. Holbrook. The committee on permanent organization reported a list of officers, as follows:

President, Charles A. Sinclair;
Vice Presidents, Ex-Gov. Ichabod Goodwin, Hon. Frank Jones, William H. Sise, Rev. Charles A. Holbrook, A. A. Hanscom, Rev. James DeNormandie, Chief Engineer D. B. Macomb, U. S. N., Lewis W. Brewster, Rev. Dr. W. A. Alden, Rev. E. M. Grant, F. W. Miller, Rev. W. A. McGinley, W. H. Hackett, John Christie;
Secretary, L. V. Newell;
Treasurer, L. S. Butler;
Executive Committee, Henry Harlow, D. E. Leavitt, J. L. Butler, E. B. Goodall, S. W. Cole, Appleton Tredick, Dr. R. C. Grant;
Conductor, S. W. Cole.

After the acceptance of the report Mr. Sinclair made a few remarks suggestive of the interest and future maintainance of the society. There were about one hundred singers present, and the choruses were well sustained by all parts. Mrs. Shepard, the pianist, has assisted at several musical conventions, and her skill and thorough knowledge of the music are of great assistance in the rendering of the choruses.

This evening's programme will consist mostly of chorus singing. "The heavens are telling," "Achieved is the glorious work," and "Despairing, cursing rage," from the Creation, are among the selections. There is considerable expense and labor attending the getting up of this convention, and our citizens should show their appreciation of these efforts by their presence.

JOSEPH C. PERKINS.

Mr. Joseph C. Perkins died at the residence of his father-in-law, Gen. Josiah G. Hadley, on Monday, leaving a widow, one son and two daughters. He was a native of this city, and a printer by trade, having learned the business in the NEW HAMPSHIRE GAZETTE office. He worked at his trade for some years, and then became associated with Gen. Hadley as one of the proprietors of the Franklin house, where he remained until 1870, when he took charge of the National hotel. Two or three years ago he went to Boston and opened the hotel New Hampshire, from which failing health obliged him to retire last year.

SUPREME COURT.

MONDAY, Feb. 9th; *Clark, J.*

No. 116, Parna Towle vs. Samuel C. Lawrence and Sarah B. Lawrence. The trial of this case, which was commenced on Friday, was continued Monday. The plaintiff offered several witnesses to prove that the defendants had represented the land to be of greater dimensions than it proved to be on actual survey after the purchase. The defts. will open their side of the case on Tuesday morning, and it will probably be given to the jury during the day.

No. 126, Mary E. Blaisdell vs. town of Epping. A jury was impanelled in this case, and a brief opening was made by counsel for the purpose of aiding the jury, in taking a view of the premises, to understand the question in dispute. It is proposed by the plaintiff to offer testimony in support of the fact that on the 18th day of November, 1877, the plff. was returning from church in the afternoon; the ground was frozen and there was a large ditch by the side of the road which the water had washed out, and which the town of Epping had neglected to repair, near the Congregational meeting house in that town. The plff. was driving carefully along, and without her fault the wheel of her carriage went into the ditch, and she was thrown out and both her wrist were broken, and she sustained other injuries, which have caused her great suffering and expense. The jury took the train at 1:30 o'clock P. M., for Epping, to make such examination of the premises as they may be able to do under the present circumstances, with the ground covered with snow, etc. The trial of the case will be continued on Tuesday.

FISHERY NOTES.

The schooner Grace Choate arrived at this port on Saturday from Eastport, with about 120,000 frozen herring.

The schooner Good Templar, one of the vessels which has suffered this winter from the stealing of trawls, has the name of a vessel which was seen in the act of stealing them, and has taken measures to bring the thief to justice.

About 60,000 lbs. of fish were landed at this port on Monday, the bulk of the lot being bought by Messrs. Randall & Caswell. This firm has been doing an extensive business this winter, and employed several extra hands; but notwithstanding the large quantites they have purchased, the supply has been no more than adequate to meet their orders. As high as $8.50 per hundred was paid on Monday, which was regarded with much favor by the fishermen.

BOW MISSION HALL MEETINGS.

The young people's temperance meeting at this hall, Saturday evening, under the auspicies of the Woman's Temperance League, was very interesting; the president of the league, Mrs. Samuel Hooper, presided, and several ladies and gentlemen addressed the audience. Recitations were given as follows: by Miss Estella Cobb, "King Herod's triumph;" by Miss Maud Woodward, "The little slaves;" by Miss Alice Ayer, "Somebody's mother." There will be another similar service at the same place next Saturday evening, when it is expected the hall will be filled.

At the bethel service, Sunday afternoon, the hall was crowded, and many persons had to go away. Mr. Joseph Pettigrew had charge of the service, and several ladies and gentlemen took part; the singing at this service is always a very pleasant feature, in which all present seem to take much interest. The mission hall is far too small for the bethel services, where always the "toilers of the sea" find a hearty welcome as they gather from the cares of the week and the monotonous life on board their vessels—and often, too, their voices are heard in hymns of praise, and testimony for temperance and religion.

At the meeting of the reform club, Sunday evening, Mr. Lyman Clark and Mr. Eaton, both of Kittery, addressed the audience. Mr. Clark argued in favor of the Maine law, and the value of temperance in any community; he also gave reminiscences of his own experience as a drinking man. Mr. Eaton urged the value of the order of Good Templars; he said that the objects of this and similar institutions are to receive *recruits* from the reform clubs, and to build up a true temperance sentiment in the community. It was voted by the meeting to request Rev. James DeNormandie to have published in tract form for circulation through the city, the sermon on "Temperance in the home" delivered by him on Sunday, Feb. 1st, at which time the reform club was invited to attend.

L.

YORK COUNTY ITEMS.

James H. Anderson, who for some time was night operator of the Eastern railroad telegraph at Conway Junction, has been appointed manager of the Eastern depot office at Portland.

The Great Falls *Journal* says "the contract for building the new Eliot bridge has, we learn, been awarded to the same gentleman who won undying fame in the construction of the prematurely played-out bridge" at Salmon Falls.

A very largely attended course of lectures is being given this winter at the First Methodist Episcopal church in Eliot. The opening lecture was by a Boston clergyman. Rev. Messrs. DeNormandie and Pitblado, and Col. Wm. H. Hackett, are among the number of lecturers who either have already appeared, or are engaged so to do in this course. The church is about a mile east of the Portsmouth, Saco & Portsmouth railroad station, and is well filled at every lecture.

Old Time Chronicles, No. 185.

BY UNCLE JOSEPH.

LEGISLATURE OF 1839. That was forty years ago last year. The house of representatives consisted of 246 members, and there were three or four vacanies. That was a fair number. As the constitution was till its late revision, it increased till there were about 380 members. For the present political year it is 280, or thirty-four more than forty years ago.

In 1839 John Page of Haverhill was governor. John L. Elwyn of Portsmouth was councillor in district one, and Thomas B. Laighton of Portsmouth senator in the first senaforial district. The representatives of Portsmouth were Richard Jenness, Simpson B. Lord, Thomas P. Treadwell, Nehemiah Moses, James H. Helsey, Samuel Langdon. Of the councillors, Enos Stevens of Charlestown and John H. White of Lancaster were afterwards candidate for governor.

Daniel Adams of Mont Vernon, of the senate, was a scholar, and author of an arithmetic long in popular use. The clerk of the senate was Asa Fowler, afterwards one of the judges of the superior court, and but a few years ago speaker of the house of representatives. The asst. clerk was Peter Sanborn, since for many years state treasurer. The clerk of the house was Daniel H. Collins, a native of Deerfield, who died not much later. The assistant clerk was Harry Hibbard, afterwards a senator and representative in congress.

Moses Norris was speaker. He was afterwards a member of congress, and died in office. Benjamin Jenness was representative from Deerfield; afterward he was senator, councillor and high sheriff. From Newmarket was W. W. Stickney; he was afterwards judge of probate of Rockingham county; from Exeter was Daniel Connor, and from Barrington George M. Daniel, both for a time wardens of the state prison. From Dover was D. M. Christie, among the ablest lawyers in the state. From Concord was Ira Perley, also a judge later. From Franklin, G. W. Nesmith, also a judge. From New London, Anthony Colby, in 1846 governor. From Northfield, Asa P. Cate, afterwards senator, and candidate for governor. From Sutton, Jonathan Harvey, for some years a senator, councillor and representative in congress. From Amherst, Charles H. Atherton, afterwards senator in Congress, and who died in office. From Nashua, George Y. Sawyer, afterwards a judge of the superior court. From Keene, Thomas M. Edwards, afterwards representative in congress. From Haverhill, Samuel Swasey, afterwards speaker of the house. From Rumney, Josiah Quincy, afterwards senator. From Lancaster, John S. Wells, afterwards speaker of the house, senator, and candidate for governor.

The legislature that year evidently contained a large number of talented men. The session was but thirty-two days long, including Sabbaths; and yet forty acts were passed, and twenty-three resolutions. One act was for a scientific, mineralogical and geological survey of the state, which was the beginning of that work.

Grant and the Presidency.

We never believed that the candidacy for president of General Grant was demanded by the best interests of the republican party or of the country. In fact, we have felt that it might not be the part of wisdom for the republican party to nominate him for re-election this year. In this we have not shared the feelings of a very large majority of Tennessee republicans, who are heart and soul for General Grant, and have been. But we have never for a moment believed there was a reason why he should not be re-elected again if the people desire to elect him. We believe he would make a faithful, upright, honest, patriotic and efficient president. We do not believe he would surround himself with corrupt men, or that the civil service would deteriorate under his administration.

But least of all have we any sympathy with the efforts of Gen. Grant's enemies, who would belittle his record as a military man and as chief magistrate of the nation. The man who does this, does it through malice, and is provoked by some act of Grant in not failing to recognize the superiority of his claims to official preferment. One of those who engage in that business is Dana, the learned blackguard of the New York *Sun*. He never allows an opportunity to pass to traduce and vilify General Grant, in the most cowardly, slanderous and unscrupulous manner. Some other politicians, whose merits the ex-president has never seen as they themselves see them, join with the *Sun* in their efforts to undermate his achievements in military and civil life.

Such attacks have but one effect, and that is to make Grant stronger with the people. his friends who desire to see him nominated at Chicago could not work in a more effective way perhaps to secure such a result than to get the New York *Sun* and kindred journals to traduce him and say all manner of evil about him.

The republican party is not so scarce of Presidential material as to make it absolutely necessary that any one man should be nominated. The republicans may nominate Blaine, Sherman, Washburn, Edmunds, Wheeler, Garfield, Hamilton Fish or Stewart L. Woodford, and elect either one of them. But if they want to nominate Grant, and do it, he will also be elected, all the predictions of the so-called independent press to the contrary notwithstanding. — *Knoxville (Tenn.) Chronicle.*

—This, from the New York *Post*, is rather severe: "It is said that Mrs. S. S. Cox renders her husband valuable assistance in the preparation of his speeches. She clips out all the new witticisms which appear in the daily newspapers."

—Terrible vengeance of a husband whose wife has gone off with a handsomer man—"Dear sir," he writes, "please hand the enclosed set of false teeth to my late wife, and ask her to be so good as to return my father's, which, in the hurry of the moment, she took by mistake."

ONE DOLLAR A YEAR.

The circulation of this popular newspaper has more than trebled during the past year. It contains all the leading news contained in the Daily Herald, and is arranged in handy departments. The

Foreign News

embraces special dispatches from all quarters of the globe. Under the head of

American News

are given the Telegraphic Despatches of the week from all parts of the Union. This feature alone makes

The Weekly Herald

the most valuable chronicle in the world, as it is the cheapest. Every week is given a faithful report of

Political News

embracing complete and comprehensive despatches from Washington, including full reports of the speeches of eminent politicians on the questions of the hour.

The Farm Department

of the Weekly Herald gives the latest as well as the most practical suggestion and discoveries relating to the duties of the farmer, hints for raising Cattle, Poultry, Grains, Trees, Vegetables, &c., &c., with suggestions for keeping buildings and farming utensils in repair. This is supplemented by a well-edited department, widely copied, under the head of

The Home,

FELLOWS' COMPOUND SYRUP OF HYPO-PHOS-PHITES

The Promoter and Perfector of Assimilation.

The Reformer and Vitalizer of the Blood

The Producer and Invigorator of Nerve and Muscle.

The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or enterrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name: no other preparation is a substitute for this under any circumstances.

CATARRH

NEVER-FAILING RELIEF

AFFORDED BY

SANFORD'S RADICAL CURE.

It is a fact that can be substantiated by the most respectable testimonials ever offered in favor of any proprietary medicine, that the RADICAL CURE FOR CATARRH does in every case afford instant and permanent relief. No matter of how long standing, or how severe the disease, the first dose gives such evidence of relief as to the treatment of Catarrhal affections the confidence is at once felt in its ability to do all that is claimed for it. The testimony of physicians, druggists and patients is unanimous in this respect, and the unsolicited evidence is in point of respectability superior to any ever before obtained in favor of a popular remedy. The proprietors, therefore, may justly be proud of the position the RADICAL CURE has attained and believe it worthy of its reputation.

10 YEARS A SUFFERER.

From Hon. Theo. P. Bogert, Bristol, R.

MESSRS. WEEKS & POTTER: *Gentlemen,*—Feeling thoroughly convinced of the efficacy of SANFORD'S RADICAL CURE FOR CATARRH, I am induced to drop you line to say that although I have been sceptical of the nostrums advertised as "radical cures," I have never found anything that promised such relief as ultimate cure as that of SANFORD'S.

I have been afflicted with the dreadful disease for more than ten years, and not until recently could I indorse a preparation with any until I tried the little. Mr. HENRY WELLS, and can truthfully say that after using five or six bottles I am thoroughly convinced of its curative properties. Hoping that others similarly afflicted like myself will be induced to make the trial, am, gentlemen, very truly, etc.

General Grant's Dislike for Military Life.

The following is from John Russell Young's "Around the World with General Grant:"

"I was never more delighted with anything," said the general, "than the close of the war. I never liked service in the army—not as a young officer. I did not want to go to West Point. My appointment was an accident, and my father had to use his authority to make me go. If I could have escaped West Point without bringing myself into disgrace at home, I would have done so. I remember about the time I entered the academy there were debates in congress over a proposal to abolish West Point. I used to look over the papers and read the congress reports with eagerness to see the progress the bill made, and hoping that the school had been abolished and that I could go home to my father without being in disgrace. I never went into a battle willingly or with enthusiasm. I was always glad when a battle was over. I never want to command another army. I take no interest in armies. When the duke of Cambridge asked me to review his troops at Aldershot, I told his royal highness that the one thing I never wanted to see again was a military parade. When I resigned from the army and went to a farm I was happy. When the rebellion came I returned to the service, because it was a duty. I had no thought of rank; all I did was to try and make myself useful. My first commission as brigadier came in the most humiliating indorsement of the delegation from Illinois. I do not think I knew any of the members but Washburne, and I did not know him very well. It was only after Donelson that I began to see how important was the work that Providence devolved upon me. And yet after Donelson I was in disgrace and under arrest, and practically without a command, because of some misunderstanding on the part of Halleck. It all came right in time. I never bore Halleck ill-will for it, and we remained friendly. He was in command, and it was his duty to command as he pleased. But I hardly know what would have come of it, as far as I was concerned, had not the country interfered. You see Donelson was our first clear victory, and you will remember the enthusiasm that came with it. The country saved me from Halleck's displeasure. When other commands came I always regretted them. When the bill creating the grade of lieutenant-general was proposed, with my name as the lieutenant-general, I wrote Mr. Washburne opposing it. I did not want it. I found that the bill was right and I was wrong, when I came to command the army of the Potomac—that a head was needed to the army."

—Mamma—"Well, Johnny, I shall forgive you this time, and it's very pretty of you to write a letter to say you're sorry." Johnny—"Yes, ma; don't tear it up, please." Mamma—"Why not?" Johnny—"Because it will do for the next time."

"My Back Aches So,"

And I feel miserably," said a hard-working man. The doctor questioned him and found that he had been habitually costive for years, that now his kidneys were disordered and his whole system deranged. Kidney-Wort was recommended and faithfully taken and in a short time every trouble was removed. The cleansing and tonic power of this medicine on the bowels and kidneys is wonderful.

—The superintendent of public schools in Boston is preparing a school reader which will contain more fairy tales and less stories about honest farmers. May he be found a stone in the bottom of his jar of butter.—*Detroit Free Press.*

Keep your bowels and kidneys in a healthy state by the use of Kidney-Wort.

If you have a cold take *Adamson's Botanic Balsam.* A sure cure for coughs, sore throat, and all pulmonary complaints. To the afflicted we recommend a trial of this superior remedy.—*Boston Saturday Evening Express.*

STRATFORD, ONT., Aug. 1, 1874.

Having become almost entirely cured of extreme debility through the use of Fellow's Compound Syrup of Hypophosphites, I feel it but just to put the fact on record. My case had resisted all other medicines, but succumbed to three bottles of Fellows' Hypophosphites.

BRIGHTON CATTLE MARKET.

For the week ending Wednesday, Feb. 4.

[Reported for the Boston Journal.]

Amount of stock at market—Cattle 2415; sheep and lambs 3383; swine 19,410; number western cattle 2034; eastern cattle 261; milch cows and northern cattle 120.

Prices of beef cattle per 100 lbs. live weight—Extra quality $5 62½ and $6; first quality $5 12½ and $5 50; second quality $4 62½ and $5; third quality $4 25 and $4 50; poorest grades of coarse oxen, bulls, &c., $3 25 and $4 12½.

Working Oxen—There was a fair supply in market, but on account of the storm there was not much call for them, and drovers tied their stock up early. We quote sales 1 pr, girth 6 ft 8 in, live weight 2030 lbs, at $130; 1 pr, girth 6 ft 8 in, live weight 2700 lbs, $110; 1 pr, girth 6 ft 10 in, live weight 2800 lbs, at $125; 1 pr, girth 6 ft 6 in, live weight 2400 lbs, $110; 1 pr, girth 6 ft 2 in, live weight 2200 lbs, $100; 1 pr very nice ones, girth 7 ft, live weight 3500 lbs, $140; 1 pr, girth 6 ft 3 in, live weight 2100 lbs, $115; 1 pr, girth 6 ft 6 in, live weight 2000 lbs, $115; 1 pr 3-year-old steers, $50; 1 pr, girth 6 ft 6 in, live weight 2600 lbs, $105.

Milch Cows—Extra $45 and $70; ordinary $30 and $44; springers $18 and $35; farrow cows $18 and $27 per head. We quote sales of 2 springers at $25 each; 1 springer and 1 new milch cow for $83 the lot; 2 springers at $25 to $45 per head; 3 nice springers at $35 each; 2 cows and calves at $30 each.

Store Cattle—Not any in market. Most of the small cattle that are in fair condition are bought up by butchers to slaughter.

Sheep and Lambs—Those from the west were mostly owned by butchers and taken direct from the cars to the slaughtering establishments, and cost from 5 to 7c per lb, landed at Brighton.

Swine—The fat hogs were from 5¾ and 5½c per lb, live weight.

Nitro Glycerine Explosion.

At Bradford, Pa., Monday forenoon, Howard Hackett and James Feeney started for Coleville in a two-horse sleigh, carrying one hundred pounds of nitro glycerine. At a point in the road four miles from Bradford the sleigh upset, and caused an explosion of the compound. Feeney jumped from the vehicle just as it was going over. Hackett was thrown fifty feet from the scene, instantly killed and terribly mangled, his right leg being shattered to a mass of shapeless flesh, and his shoulder and left side torn in a shocking manner. A hole was torn in the frozen road-bed twenty feet in length and fifteen feet wide; in this excavation Feeney was found, covered with debris, but still alive. His escape from instant death is regarded as almost a miracle, but he may recover. The sleigh was blown to atoms, and both horses killed. The house of Charles Seeley, fifty feet distant, was shaken to pieces by the concussion, but Mrs. Seeley, who was sitting in the house, escaped serious injury. The large frame dwelling of Henry Dolloff, five rods away, was also completely wrecked, but did not fall; and Mrs. Dolloff and six children who were in the building suffered no further injury than a terrible shock. A barn was also wrecked by the concussion. Hackett, the man killed, was twenty-seven years of age, and unmarried.

News and Notes.

On Monday morning, Pentecost Sweet, foreman of the machine shop at the Quidnick company's mills at Warwick, R. I., went into the wheel-pit to take some measurements, when he was struck on the head by the arm of a pulley, and killed.

Conductor Welsh, on the way freight from Boston to Providence, while climbing up on to the cars at West Mansfield, Mass., Monday afternoon, fell and had his left leg cut off below the knee, the right leg badly hurt, and a big gash cut on his head. His injuries are fatal.

Evidences of gold have been discovered on the premises of Smith Cushman in Milford, Mass. Digging has been prosecuted for two or three days past, the result being the finding of black lead, iron ore, silver ore and gold quartz, but whether in sufficient quantities to make it profitable to work has not been ascertained.

William L. Baker, assistant keeper at Race Point light, fell dead Monday morning while on duty.

The city hall at Albany, N. Y., was burned Tuesday. One fireman was killed, and two fatally hurt, by a falling wall.

Two opera companies have cancelled their engagements in Ottawa, Ont., on account of the prevalence of small-pox, and it is reported that objection is made to holding the coming session of parliament there for the same reason.

Boyd, the English oarsman, on Monday defeated Elliott in a boat race for $1000 a side. Boyd won as he pleased, coming in four lengths ahead. He has challenged Hanlan to row a race for $1000 a side, the championship of England and the sportsman's challenge trophy.

Advices from Las Vegas, New Mexico, say that three of the ruffians concerned in the recent killing of Sheriff Carson, named West, Henry and Dorsey, who were in jail, were on Sunday morning taken out by a lynching party of seventy-five heavily armed citizens, who took them to the plaza with ropes around their necks. West was hung. Henry and Dorsey were placed on the platform to be hung also, but the mob became enraged, and fairly riddled them with bullets.

Two white and three colored culprits were publicly whipped at Newcastle, Del., Saturday.

The treasury department has received information of the arrest, near Jackson, Miss., of David Finn, for manufacturing and dealing in counterfeit gold and silver coin. He admits having manufactured counterfeit money at intervals for the past forty years. Russell Hollis, alias W. Stanley, was arrested at Greenville, Miss., a few weeks ago, with about $400 in counterfeit $10 gold pieces, and $200 in counterfeit silver coins, which Finn confessed to have manufactured and sold to Hollis; James E. Parker, another customer of Finn, has also been arrested at Mobile, Ala., for passing some of the base money.

A Cynthiana, Ky., report says a quarrel on Friday between Wm. Clifford and John Shadd at Tickum was settled after the Kentucky style. Shadd threatened Clifford's life, and went home to get his gun. Clifford took arms and concealed himself, and when Shadd returned fired both loads from his shotgun into his enemy, one taking effect in Shadd's neck, the other in his legs. Shadd cannot live. Clifford surrendered himself.

A valuable patented invention known as Hanson's button machine has been got up at Bar Mills, Me., and is said to be one of the most ingenious devices for saving labor ever discovered. It can manufacture from 800 to 15,000 shapes a day at a cost of $15, which by hand carving would cost $800. Dr. T. A. Hill of Portland, and many others have examined it, and pronounce it a success. A company in Portland has been formed for working it, with a capital of $50,000.

A sharper disposed of a hundred brass rings at an average of a dollar apiece at Logansport, Ind. His method was to go into a store or office, say that he had found a gold ring, inquire if there was a pawnbroker in the place, and finally accept whatever offer was made for the article.

The editor of the Mount Sterling (Ky.) *Scorcher* had a call from 200 masked men, who requested him to publish their warning against the horse thieves of the country. He said it was against his rule to print anonymous communications, but he thought he could make an exception in this instance.

The town of Waltham, Vt., is eighty-three years old, and has never had a church or post-office within its limits.

Rev. Mr. Taylor of Richmond, Ind., undertook to escort a young lady from his church to her home, in order to protect her from the attentions of a suitor who was disliked by her parents; but the suitor waylaid the clergyman, whipped him savagely, and eloped with the young lady.

Naval Affairs.

The U. S. S. Ranger, Commander Robert Boyd commanding, arrived at San Francisco on Sunday from the Sandwich islands.

The senate on Monday confirmed Captain Clark H. Wells to be a commodore.

Carpenter Henry L. Philbrook, of Kittery, is ordered to the New London naval station, relieving Carpenter A. O. Goodsoe, who is placed on waiting orders.

Carpenter S. N. Whitehouse is detached from the New York navy yard, and placed on waiting orders.

New Hampshire Items.

There are seven cases of small-pox in Newport, and two deaths have resulted. The disease broke out in the boarding-house of the mill of Coffin & Nourse, flannel manufacturers, two miles from the village, and was brought there from Canada by a French family by the name of Lord. The authorities have quarantined all the employes, forbidding their going to the village, established two pest houses, and prohibited all social gatherings, singing schools, etc., for ten days.

Hon. James F. Briggs' eulogy upon the late Senator Chandler (whose birth-place was in Mr. Briggs' district,) pronounced in the national house of representatives, is said to have been in very fitting terms and delivered with fine effect.

Young Dillingham, the Londonderry murderer, is said to have been an eager reader of yellow-covered literature and "boys' story papers."

Mount Horeb Commandry of Knights Templar, of Concord, have voted to tender their services as escort to the Grand Commandry of New Hampshire, on the occasion of their attendance upon the Triennial Conclave of the Grand Encampment of Knights Templar of the United States, which is to be held in the city of Chicago, Ill., on Tuesday, Wednesday and Thursday, Aug. 17th, 18th and 19th. They propose leaving Concord on Saturday morning, Aug. 14th, and will be absent about one week; and have extended an invitation to all Sir Knights throughout the state who propose going, to unite with them.

Twenty-four below zero at Hanover, Tuesday morning.

The Manchester *Union* of Monday says: "The old time interest over 'March meeting' in this state seems to have vanished entirely. Nothing is said in the newspapers, and scarcely a word is uttered in general conversation among the people, which calls to mind the fact that election day is at hand, and yet in every town in the state, on Tuesday, March 9th, town officers will be chosen, and all the important business of the year transacted."

The masters of the state granges of New England held a session at Nashua, Monday. Benjamin P. Ware presided, with George Noyes of the *Ploughman* as secretary. It was decided to hold three or four mass meetings in the different New England states during the present year, according to a vote passed by the national grange at New York at its last meeting. The meetings in Massachusetts will be held at Pittsfield, Greenfield and Worcester, and those for New Hampshire at Manchester. Hon. J. J. Woodman, master of the national grange, of Michigan, will address the meeting.

Mrs. Partington says

Don't take any of the quack nostrums, as they are regimental to the human cistern; but put your trust in Hop Bitters, which will cure general dilapidation, costive habits and all comic diseases. They saved Isaac from a severe extract of tripod fever. They are the *ne plus ultra* of medicine.—*Boston Globe.*

Can Any One Tell!

Can any one tell why men who cannot pay small bills, can always find money to buy liquor, and treat when among friends? Can any one tell why young men who are always behindhand with their landlords, can play billiards night and day, and always be ready with a game of cards when money is at stake? Can any one tell how men live and support their families, who have no income and no work, when others who are industrious are starved? Can any one tell why four fifths of the young women prefer a brainless fop under a plug hat with tight pants and a short coat to a man with brains? Can any one tell why it is that some mothers are ready to sew for the distant heathen, when their own children at home are ragged and dirty? Can any one tell how a man who is always complaining that he cannot afford to subscribe for the village newspaper, and from week to week borrows it of his neighbors, can afford to attend every ball and entertainment given in the village" halls?—*Exchange.*

—"If we are to live after death, why don't we have some certain knowledge of it?" said a skeptic to a clergyman. "Why don't you have some knowledge of this world before you come into it?" was the caustic reply.

—The following message, intended to break bad news gently, was sent to the widow of a man who had just been killed by a railroad accident: "Dear Madam—Your husband is unavoidably detained for the present. To-morrow an undertaker will call upon you with the full particulars."

Distance lends Enchantment!

Maud had a fine figure, good face and pretty name. One should see her at a distance. When she began to talk, you realized that she never used SOZODONT. Her breath was unlike the breezes of Araby the blest.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle. 4

See a Woman!

In another column, picking grapes for SPEER'S WINE. It is an admirable article, used in hospitals and by the first-class families in Paris, London and New York, in preference to Hock, Sherry or California Wines; excellent for Invalids.

And Yet He is Not Happy.

An event that has recently stirred up Evansville, Ind., is stated in cold type of the local papers thus: "GOOD LUCK!!! TWO EVANSVILLIANS WHO HIT THE LOUISIANA STATE LOTTERY GRAND CAPITAL PRIZE at the 116th Grand Monthly (January 13th last) Drawing, after sending one dollar to M. A. Dauphie, at New Orleans, La., and who received $15,000." As they are named Albecker and Zapp, they probably are of the German persuasion, but there is a clog to every sweet. Albecker has "hit" the same lottery a score of times, all the way from $5 to $500, and the edge of appreciation is dulled.

THE WEATHER.

Probabilities for New England, To-day.

WASHINGTON, D. C., Feb. 11, 2 A. M.

Light snow in the northern portion and partly cloudy or clear weather; in the southern portion, with south to west winds; slight rise in temperature; and slightly rising, followed by falling barometer.

AROUND HOME.

To-day is Ash Wednesday, the first day of Lent.

Quite a number of our citizens are desirous of securing the services of the "reverend" western gentlemen who last week "exposed Free Masonry" in Boston, to do a similar work here. Should he come he would draw a big audience.

The greenbackers of this city will hold a meeting in the old custom house on Daniel street, Friday evening at half-past seven o'clock. Mr. Lafayette Cheeley, late greenback candidate for congress, will be present and address the meeting.

Mr. Edw. F. Swasey started in a boat from Spring hill on Sunday, the 1st inst., to go to Badger's island, but the heavy wind blew him out of his course, and he finally landed on Seavey's island with his boat full of water, his ears frost-bitten and his blood chilled, but very glad things were no worse.

On Sunday last a fox was chased by a party of men from Madbury, and in trying to escape took to the Dover point bridge. The gate-keeper saw the animal coming and headed him off, whereupon he jumped overboard and started to swim away, but was shot in the water by one of the Madbury party, who carried off the pelt in triumph.

The rehearsal at Music hall on Tuesday evening was a treat to the audience, and must have been most satisfactory to the performers. Mr. Torrens has a very happy and effective style in conducting a large number of singers, and the improvement upon Monday evening was very decided. The concerts on Thursday and Friday evenings cannot help being successful.

It has frequently been asked why the tide gates of the south-end bridge cannot be arranged so as to overflow the pond after a snow storm, and thus make a fine skating rink. It would cost but little, and the enjoyment it would give to hundreds who always bail the chances of this sport with much satisfaction, would fully recompense for the slight outlay required to perfect the arrangement.

Frank Dillingham, the murderer of his aunt at Londonderry, was brought to this city Monday night, and lodged in jail. Sheriff Kent will take all possible precautions to prevent his making a second attempt to end his life, though it is not believed he has the courage to try it again.

Mrs. Dillingham died at 2:25 o'clock P. M., Tuesday. The pistol with which she was shot has been found.

Tuesday morning was cold—so those persons report who got up early enough to know from personal observation. At the Eldredge Brewing Co.'s brewery the thermometer indicated sixteen degrees below zero—the lowest reading for the winter, so far, in this city; at the Jones brewery, a few hundred feet away, the temperature was not so low by seven degrees. On Dennett street the mercury was down to fourteen below, and in other places the temperature varied from five to eleven below.

The parties who contracted for the wood work of the National block have also secured the contracts for the Franklin building and the hotel Wentworth. They at present occupy the lower floor of Mason's saw-mill, and are now making the circular sashes that top the windows of the Franklin opera hall. Mr. Mason is fitting up the upper rooms of his mill with machinery necessary to do all kinds of work required for the finish of a first-class house, such as circular stairs, doors, sashes and blinds, mouldings, cornices, etc., and will be ready for the party on the first of March. The ventilators, nine feet in diameter, were placed on the roof of the Franklin building on Monday.

Mr. George Noyes, formerly a conductor on the Concord & Portsmouth railroad, died in Concord on Saturday. He had been blind for four years past. When the railroad between this city and Concord was opened he was made station agent at Suncook, subsequently became a conductor on the road, and later ran upon the Concord railroad. While upon the Concord & Portsmouth line he was injured at South Newmarket junction by being caught between two cars. He was ever courteous and polite as a conductor, and an honorable and upright man. He had been a director in the Holliston national bank since its organization. His funeral took place on Tuesday.

On Sunday last the sum of $766 was collected in St. Mary's church at Dover for the Irish relief fund.

The schooner Jesse Williamson, Jr., having been sold, the Unison has been put on in her place to take ice to the Shoals.

Dover had a go-as-you-please race of twenty-seven hours' duration last week. It was conducted by Harriman, the well-known tramp, and there were four prizes. The winner, J. Alberts of Philadelphia, went 129 miles. Harriman lost money by the affair.

We understand that the stock of hardware in the store on Market street formerly occupied by the late John H. Bailey, has been purchased by two young men of this city, who have formed a copartnership and will continue to carry on the same business at the long established stand.

Prof. Vennor, the Canadian who sent as the big storm of the 3d inst., hasn't been able to manage the weather as he promised to do since that time. Glad of it; what does he suppose we want of him or his imported goods, when we have a service of our own ready to furnish all the weather required, and of the genuine United States variety?

FISHERY NOTES.

The schooner Lizzie D. Saunders, of Rockport, Mass., brought into this port 40,000 lbs. of fish, Tuesday afternoon; the entire fare was purchased by Seavey & Brown, of Boston, at $3.95 per hundred.

Schooner A. T. Haines, bound from Eastport for Boston with a cargo of frozen herring, struck a ledge near Thatcher's island, Tuesday morning, and bilged. The crew escaped in the schooner's boat.

The schooner Mary S. Hontvet on the first of this week finished fitting out for her second trip to Georges, intending to sail on the 11th inst. if favorable weather. When the Hontvet was leaving Georges on Tuesday, the 3d inst., her crew saw a lumber loaded brig on the northeast side, shortening sail and drifting rapidly toward the shoal; and they consider it almost a certainty that she became a wreck. They also spoke a schooner which reported passing another vessel with her mainmast gone.

PORTSMOUTH GAS-LIGHT CO.

The annual meeting of the stockholders in this corporation was held at the company's office in Market street on Tuesday afternoon. Ex-Gov. Goodwin, president of the corporation, occupied the chair. The following named officers were elected without opposition:

Directors, Ichabod Goodwin, Christopher C. Jackson, John Sise, Ezra H. Winchester, David Kimball;

Ichabod Goodwin, president;

David Kimball, treasurer;

Aaron Akerman, superintendent.

From the earnings for the six months last past a dividend of four per cent, payable March 1st, was voted.

HORSE DROWNED.

While the schooner Unison was being loaded with ice for the Shoals hotels, at Pier wharf on Tuesday afternoon, a team belonging to Mr. Rienzi Ridge backed off the wharf, and went overboard, the horse in the fall striking on the vessel's rail, injuring his back. He swam around the wharf into the adjacent dock, and was within a few feet of the shore when he laid over on his side, and died. Mr. Ridge had his feet entangled in the reins as the horse fell, and was pulled overboard, but fortunately extricated himself in time to escape injury. The accident was owing to the reins being hung over one of the poles of the sled, and in the turning of the horse the reins tightened, drawing him backward into the river. The animal was six years old and valued at $125, and had been but about a week in possession of Mr. Ridge, who is ill able to bear the loss.

MASONIC EXCURSION.

A large delegation of the masonic brethren of Portsmouth left this city by an especial train over the Eastern railroad on Tuesday evening, going by the Portsmouth, Great Falls & Conway road to Rochester. It was the occasion of the official visit of the officers of the Grand Lodge of New Hampshire to the lodge in that town. The brethren were joined by Masons from Great Falls and other places en route, and on arriving at Rochester repaired to the lodge, where what was said and done was doubtless in accordance with the customs of the ancient and time-honored order. A banquet followed, with speeches, sentiments, exchange of courtesies and fraternal greetings, and at the close the brethren from Portsmouth sought the cars at the station and the special train brought them home; and as they repaired to their respective places of abode in the small hours of the morning, they were unanimous in the belief that the Rochester brethren did everything to make the visit agreeable, and that the evening had been one of profit to all the visitors.

THE MUSICAL CONVENTION.

The concert Tuesday evening shew a marked improvement of the chorus over the previous evening, the members having evidently profited greatly by the drill. The attendance was larger than on the opening evening.

This afternoon at three o'clock the children's matinee will be given, the programme including songs, duets, quartets and choruses.

The grand entertainments of the convention will be given on Thursday and Friday evenings. On Thursday evening the famous Temple quartet of Boston will appear; also Miss Edith Wendell of this city, and Miss Emma J. Flanders. Friday evening the closing concert will be given, with a prominent soprano of Boston, Wm. S. Winch, tenor, and John F. Winch, basso, assisting. A portion of Hadyn's "Creation" will be given as the first part of the closing concert, and a miscellaneous programme for the second part.

SUPREME COURT.

TUESDAY, Feb. 10th; *Clark, J.*

Towle vs. Lawrence et al., was argued, and given to the jury at three o'clock. At half-past four the jury returned a verdict giving the plaintiff $1365, with interest from commencement of suit. Eastman and Frink for Towle; Hatch for defts.

Mary E. Blaisdell vs. town of Epping was put on trial, and was unfinished at the adjournment of the court. Bartlett and Frink for plff.; Wiggin and Copeland for town.

The other panel of jurors was excused until Thursday morning.

E. R. Ingalls, ex-treasurer of Candia, has furnished bail and been released from jail.

Samuel N. Davis, who was arrested by Sheriff Kent in Salem, Mass., for obtaining money under false pretences, has been liberated on bail.

John Lynch of this city, who is in jail at Exeter, will probably be sent to the asylum at Concord in a few days.

YORK COUNTY ITEMS.

A gentleman of seventy-five winters and a lady of fifty-five summers, were united in marriage in South Berwick last week.

In Kittery, Tuesday morning, the thermometer indicated from five to ten degrees below zero, in different localities; and on the navy yard zero was registered.

In the Maine senate, on the 2d inst., George Wakefield of South Berwick presented a numerously-signed remonstrance against the Eliot bridge. As the bridge referred to was under contract before the remonstrance was presented, the remonstrants seem to have been a little bit late.

A woman named Brown, about twenty years old, was found insensible on the street in Biddeford on Monday forenoon, and it was found that she had been knocked down and ran over by a recklessly driven team, whose unknown driver did not stop to see what harm he had done. The young woman, though considerably bruised, was not seriously injured.

—When two couples of young people start out riding in a two-seated sleigh they are as happy as four loving clams until the shades of evening approach, and then the couple in the front seat begin to realize that the crying need of this great, free and majestic country of ours is a two-seated sleigh with the front seat behind.

—Going through one of the passages I was suddenly startled and astonished at meeting a mule. The mule did not display any emotion whatever at meeting me. He was the same calm, impassive, imperturbable mule 1200 feet below the level of the sea that he was when he lived in the sunlight; the same patient, sphynx-like face, seven feet long, and he manifested the same placid intention of walking calmly and dispassionately over the entire crowd if we didn't get out of the track and stand in the mud.—*Burdette in a coal mine.*

The Terrible Grocery Store Book.

"Now, I'll just tell you what it is, no man can save a dollar when his wife keeps a grocery book."

The speaker was a well-known clothing merchant, and the statement was made during a conversation on the cost of living.

"Yes, sir," he proceeded, "it is a fact. You can't always tell why, but when you hear of a man of moderate means living beyond his means, just ask him the question, 'Does your wife keep a grocery book?' He will say 'Yes,' and there you have the reason."

"But," suggested the other participant in the conversation, "may not poverty compel him to resort to the credit system in the first instance?"

"It may; but that has nothing to do with the habit of keeping a running account at a grocery. If a man makes any reasonable debt he can pay it, and that ends it. Not so with the other. It is a habit—a ruinous habit. Any man who keeps it up in times of hardship will not assert his independence when his fortune changes. If he fails to slip it in the bag, he will fill a pauper's grave."

"You have stated a fact," said his friend, as they stood against the lamp-post, "now give a reason. Why should it cost a man any more for what he buys on credit than for what he buys for cash?"

"Well, in the first place the grocer claims, or rather assumes, the right to charge more for what he sells in that way. Then again the purchaser will buy, or rather his wife will buy, a great deal on credit that she would not buy for cash. Suppose I cite an instance of the effects of the system. I deal with facts more than reasons. Some time ago a policeman was reported to headquarters for a bill of $75. He could not pay, and did not know how the bill had been contracted. He was in great distress about the matter, the grocer having lost patience and created a great furore by reporting the thing to the board and to the captain of the district. The officer stood in peril of losing his commission. The captain, however, knew him to to be a good and worthy man, and he took it upon himself to investigate the case. He called the officer before him, and demanded an explanation. The latter had not read the itemized bill, and he could not tell why the amount was so large. He told the captain that he was in the habit of giving his wages to his wife, who always contracted and paid the bills. She kept a grocer's book, and paid the man at the end of every month. The book was produced and examined. It was found that every time a payment had been made the bill amounted to more than there was money to pay. Well, sir, that settled it with the captain. He'd been there himself, and he knew how it was. He didn't blame the officer. He merely looked upon it as a boyish act of inexperience. He told the officer to pay the bill and burn up the books. With this he ordered him to his beat and sent a favorable report to headquarters about it. That officer found on looking at the book that his wife had been buying pies, wine, cake, candy, and no telling what all. He paid the bill, stopped the leak, and now he's got money in the bank."

"Did you ever try the system yourself?" was asked.

"Yes, my wife did; but I found out that I'd be a poor man all my days if I did not put a stop to it, and so I did. I lived meaner during that period than ever before or afterwards. I was always in debt, too."

The man pulled out his wallet. It was a little blue silk wallet, well filled and bedecked with bonds. The wallet is well-known, for many a time it has been loosened to befriend the needy. Its possessor is rich—as rich in lucre as in experience. Hence no one may doubt that he has profited by the advice he gives to others.

"Yes, sir," he repeated, as he blew the foam off his glass, "officer B.'s as good a man as there is on the force. Yet he came within an ace of losing his position, and for what? Because his wife kept a grocer's book."—*St. Louis Republican.*

—There is one man in Nevada who has never been shot at. His experience is limited to being stabbed twice, buried in an avalanche and kicked into a mine shaft by a mule. His neighbors say he'll see something of life, if he stays in Nevada long enough.

—"Little Bopeep" is a name that has a sweet and pastoral sound to the father of a family and suggests an inexpensive costume in which he would willingly see his daughter clothed for a fancy ball, and so when a young lady on a certain avenue asked her father's permission to go to a recent New Year's ball as the aforesaid shepherdess, he said, "Yes, my dear." He said something else when he received a bill for a green silk gown trimmed with plaitings of pale rose color, and a cambric under-dress with ruffles of Valenciennes, a French hat with a knot of roses made especially for the costume and a basketful of roses and mignonette, and a crook wreathed with roses.

ZINGIBER, the botanical name for ginger, by its sound, suggests its use as a proper beverage for the heats of summer or the chills of winter. In *Sanford's Jamaica Ginger* its delicious and invigorating properties may be found in perfection.

Cuticura

BLOOD AND SKIN HUMORS

The scourge of mankind.—Old methods of treatment and remedies a failure.

CUTICURA RESOLVENT, the Great Blood Purifier and Liver Stimulant, is the most searching, healing, and purifying agent of this century. It may be detected in the saliva, sweat, milk, blood, and urine in forty minutes after taking the first dose, showing that it has entered the circulation and been carried to every part of the system. It forever eradicates the virus of Syphilis, Scrofula, Cancer, and Canker, those terrible blood poisons that rot out the machinery of life, filling the body with foul corruptions. Taken internally in conjunction with the external application of CUTICURA, the Great Skin Cure, it speedily cures Scrofulous Ulcers and Old Sores, Salt Rheum, Psoriasis, Tetter, Ringworm, Scald Head, Dandruff, and all Itching and Scaly Diseases of the Skin and Scalp.

ECZEMA ON THE SCALP,

Breast and Limbs Cured.

MESSRS. WEEKS & POTTER: *Gentlemen,*—I cannot refrain from adding my debt of gratitude to you for having placed within my reach the wonderful CUTICURA REMEDIES, which have rendered unnecessary all further experiment of physicians, and in a remarkably short space of time have rid me of a loathsome disease. I dispensed with all physicians two years ago, believing they did me no good. The CUTICURA has stopped this annoying disease—yes (if it were necessary) and I had the courage any longer to follow their advice—and brought the long-looked-for cure and happiness.

I have been afflicted with Eczema or Salt Rheum on my scalp, breast, and limbs for five years, during which time I have been under the treatment of physicians, or at mineral springs, or taking some kind of medicine. I have been treated by Drs. ——, Dr. —— of ——, and visited the sulphur springs and taken numbers of patent medicines, all without the faintest approach to a cure.

April I last, I began the use of CUTICURA, which was immediately successful in my case, entirely curing me. I have not had a clean scalp for 15 years until the use of the CUTICURA entirely healed it and left it clean and healthy. The other parts of my body were affected in a more aggravated form, but are now completely healed. I believe myself comp etely cured. I shall continue the CUTICURA RESOLVENT as directed, for its wonderful action on the stomach and bowels and cooling influence on the blood. It will afford me pleasure, as I have done in many cases, to urge the afflicted to use these wonderful remedies.

Yours, etc., STEPHEN CROWELL.
NEW BEDFORD, Sept. 30, 1878.

A RUNNING SORE

Cured in One Week.

MESSRS. WEEKS & POTTER,—Some three or four weeks ago I ordered a box of CUTICURA for a bad case of Salt Rheum. The back of one of my wife's hands was a running sore. In one week from the day it arrived her hand was well and has remained so up to to-day. E. P. DAGGETT.
MILFORD, ME., June 10, 187—.

NOTE.—Reader, don't you think these cures remarkable?

CUTICURA SOAP,

Medicinal and Toilet.

Is prepared from CUTICURA, in a modified form, and is positively indispensable in the treatment of Skin and Scalp Diseases. We recommend it for the prevention of the skins of infants, for gentlemen who shave and are troubled with tender tetes, for those who desire a clean and wholesome skin and scalp, and for all purposes of the toilet, bath and nursery. Its delightful and refreshing fragrance equals or surpasses the finest Parisian Soaps.

Prepared by Weeks & Potter, Chemists and Druggists, 360 Washington Street, Boston, Mass., and for sale by all druggists and dealers. Price of CUTICURA, small boxes, 50 cents; large boxes, containing two and one half times the quantity of small, $1. Resolvent, $1 per bottle. CUTICURA SOAP, 25 cents per cake; by mail, 30 cents; three cakes, 75 cents.

Patents are obtained on the best terms. A special notice is made in the *Scientific American* of all inventions patented through this Agency, with the name and residence of the Patentee. By the immense circulation thus given, public attention is directed to the merits of the new patent, and sales or introduction often easily effected.

Any person who makes a new discovery or invention, can ascertain, *free of charge*, whether a patent can probably be obtained, by writing to MUNN & Co. We also send *free* our Hand Book about the Patent Laws, Patents, Caveats, Trade-Marks, their costs, and how procured, with hints for procuring advances on inventions. Address for the Paper, or concerning Patents,

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,897,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & Co. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & Co., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co., is thus secured. We desire to win success by deserving it. Address

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION.

Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail postpaid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to JOS. S. FISHER, president; W. L. P. INGRAHAM, vice-president; W. FAINE, M. D.; C. S. GAUNTT, M. D.; H. J. DOUCET, M. D.; E. H. KLINE, M. D.; J. R. HOLCOMB, M. THE

New Hampshire Gazette

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

New York Weekly Herald.

ONE DOLLAR A YEAR.

The circulation of this popular newspaper has more than trebled during the past year. It contains all the leading news contained in the Daily Herald, and is arranged in handy departments. The

Foreign News

embraces special dispatches from all quarters of the globe. Under the head of

American News

are given the Telegraphic Despatches of the week from all parts of the Union. This feature alone makes

The Weekly Herald

the most valuable chronicle in the world, as it is the cheapest. Every week is given a faithful report of

Political News

embracing complete and comprehensive despatches from Washington, including full reports of the speeches of eminent politicians on the questions of the hour.

The Farm Department

of the Weekly Herald gives the latest as well as the most practical suggestions and discoveries relating to the duties of the farmer, hints for raising Cattle, Poultry, Grains, Trees, Vegetables, &c., &c., with suggestions for keeping buildings and farming utensils in repair. This is supplemented by a well-edited department, widely copied, under the head of

The Home,

giving recipes for practical dishes, hints for making clothing and for keeping up with the latest fashions at the lowest price. Every item of choking or economy suggested in this department is practically tested by experts before publication. Letters from our Paris and London correspondents on the very latest fashions. The Home Department of the Weekly Herald will save the housewife more than one hundred times the price of the paper. The interests of

Skilled Labor

are looked after, and everything relating to mechanics and labor-saving is carefully recorded. There is a page devoted to the latest phases of the business markets, Crops, Merchandise, &c., &c. A valuable feature is found in the specially-reported price and conditions of

The Produce Market.

Sporting News at home and abroad, together with a Story every week, a Sermon by some eminent divine, Literary, Musical, Dramatic, Personal and Sea Notes. There is no paper in the world which contains so much news matter every week as the Weekly Herald, which is sent, postage free, for One Dollar. You can subscribe at any time.

CATARRH

NEVER-FAILING RELIEF

AFFORDED BY

SANFORD'S RADICAL CURE.

"It is a fact that can be substantiated by the most reliable testimonials ever offered in favor of any proprietary medicine, that the RADICAL CURE FOR CATARRH does in every case afford instant and permanent relief. No matter of how long standing, or how severe the disease, the first dose gives such evidence of its value in the treatment of Catarrhal affections the confidence is at once felt in its ability to do all that is claimed for it. The testimony of physicians, druggists and patients is unanimous in this respect, and the cumulative evidence is in point of reliability superior to any ever before obtained in favor of a popular remedy. The proprietors, therefore, may justly be proud of the position the RADICAL CURE has attained and believe it worthy of its reputation.

10 YEARS A SUFFERER.

From Hon. Theo. P. Bogert, Bristol, R.

MESSRS. WEEKS & POTTER: *Gentlemen,*—I feel thoroughly convinced of the efficacy of SANFORD'S RADICAL CURE FOR CATARRH, I am forced to drop my line to say that although I have been sceptical of a so nostrums advertised as "radical cure," I have never found anything that promises such relief as ultimate cure as that of Sanford's.

I have been afflicted with that dreadful disease for more than ten years, and not until recently could I indorse any remedy as being worth trying. Little "Mr. HENRY WELLS, and can truthfully say that after using five or six bottles I am thoroughly convinced of a curative properties. Hoping that others similarly afflicted may be well will be induced to make the trial, gentlemen, very truly, etc. THEO. P. BOGERT.

The Fight for Life.

Shall we Drive Slow Poison from our Breakfast Table?—More about the Adulteration of Baking Powders.—The Subject Discussed before the American Social Science Association at Saratoga.

A nuisance that troubled Europe fifty years ago is beginning to attract attention here—that is, putting alum in the bread we eat. The bread must be "light" that it may be digested; that is, it must be filled by the well-known cells we are accustomed to see in it. Bicarbonate of soda and cream of tartar, or tartaric acid, are the usual constituents of a good baking powder. Cream of tartar sells at from sixty cents to eighty-five cents a pound. This high price has led "cheap baking powders" to be made of alum, as a substitute for some or all of the cream of tartar. Alum will make bread look whiter, so that bakers can make an inferior flour salable as bread by its use; and they use it, in some places calling it "rock," so that no inadvertent expression may let "outsiders" know that alum is used. Alum is an injurious article to the human constitution in large quantities, or in small quantities often repeated. It is the small quantities, taken every meal, that do the mischief in bread. Alum is cheap—three cents a pound—in the pocket, but it takes what is so saved out of the stomach, and takes it with fearful interest. Alum is an astringent, and is used by dyers and others as such. Taken frequently on the human stomach, it produces heartburn, indigestion, griping, constipation, dyspepsia, and kindred troubles resulting from irritation of the mucous membrane, produced by the astringent properties of alum. All these are nice things to be inflicted by the bread eaten morning, noon, and evening. To young children, growing girls, persons of weakly frame and sedentary occupations, this alum bread is poison most especially. If the reader wants to know something of alum let him suck a lump of it, notice its effect upon the mouth, which is something like that of an unripe persimmon; then let him reflect how it acts upon the tender, delicate coats of the stomach. Dr. Henry A. Mott, the celebrated analytical chemist, analyzed twenty-three of the baking powders most in use and found alum in all but one. It is time we took measures to stop this bread-poisoning that kills our little ones and perpetuates dyspepsia and cholera. Dr. Mott, in his review of the subject in the *Scientific American*, makes special mention of having analyzed the Royal Baking Powder, and found it composed of wholesome materials. He also advises the public to avoid purchasing baking powders as sold loose or in bulk, as he found by analysis of many samples that the worst adulterations are practiced in this form. The label and trade-mark of a well-known and responsible manufacturer, he adds, is the best protection the public can have. Prof. Angell in his paper recently read before the Social Science Association at Saratoga, said that much timely alarm is felt on account of the gross adulteration of baking powders; that eminent physicians have been consulted, and that it appears that more than 500 alum baking powders are manufactured in America; that the price of alum is less than three cents a pound, while cream of tartar costs more than thirty cents; that the makers of these powders substitute alum for cream of tartar in part or altogether, and the result is the numerous disorders of the human system.

"The best cough medicine in the world." The Old Vegetable Pulmonary Balsam. Cutler Bros. & Co., Boston. Small reduced to 35c; large, $1. eod&wtuay

Speer's Wine for Delicate Females.

It is a pure article from the juice of cultivated Sambucus, prepared and fermented by a new process, without the addition of any spirits. It is one of the most comforting cordials we have ever tested for female weakness and kidney difficulties, consumption and general debility, and especially good for those who object on principle to stimulants, as it has all the properties of warmth and energy which occasionally render a resort to them absolutely medicinal. Each vintage must lay four years before put in the market. His success is remarkable, as it is being ordered by families, merchants and druggists, from all parts of this country, from South America, England, and even from the wine districts of France. It is getting a large sale in England, for female weaknesses.

For sale by W. R. Preston, D. Kimball, F. B. Coleman, druggists, and H. F. Gerrish, grocer.

STRATFORD, ONT., Aug. 1, 1874.

Having become almost entirely cured of extreme debility through the use of Fellow's Compound Syrup of Hypophosphites, I feel it but just to put the fact on record. My case had resisted all other medicines, but succumbed to three bottles of Fellows' Hypophosphites.

CHS. H. ROBERTSON.

Keep your bowels and kidneys in a healthy state by the use of Kidney-Wort.

If you have a cold take *Adamson's Botanic Balsam.* A sure cure for coughs, sore throat, and all pulmonary complaints. To the afflicted we recommend a trial of this superior remedy.—*Boston Saturday Evening Express.*

"My Back Aches So,"

And I feel miserably," said a hard-working man. The doctor questioned him and found that he had been habitually costive for years, that now his kidneys were disordered and his whole system deranged. Kidney-Wort was recommended and faithfully taken and in a short time every trouble was removed. The cleansing and tonic power of this medicine on the bowels and kidneys is wonderful.

Manliness of Christ.

The Manliness of Christ. By Thomas Hughes, Q. C., author of "Tom Brown's School Days," etc. Boston; Houghton, Osgood & Company.

The title of this little book at once suggests the thought which runs all through it: it is to look at the life of Christ in a way which will commend it to that phase of life which is particularly pleasing to Englishmen, we might say to the natural man everywhere, a robust, physical manhood, and to show, that put to the severest tests Christ all through his life reveals a manliness which cannot be denied, and that just in the forms he exhibited it the truest manliness consists.

It would hardly occur to any one to say that Jesus was not manly, but it is plain that the world has an idea that the weakest specimens of human nature run to religion, that piety is not the accompaniment of a rugged, independent, vigorous manhood. In the early history of Germany the inhabitants regarded Christ and the apostles from the common portrayal of them by the monks as a faint-hearted people, and would have nothing to do with Christianity until the clergy acquired military habits, and legends of brave and chivalrous soldier-saints became familiar. The feeling has not died out; it is perhaps stronger than ever—that religion is more for women and children. Many a man engrossed in business thinks his religion can be attended to by his wife; she may go to the church ceremonies and sacraments, but he will stay away; she can pray, and pray for him. There is an impression that a man can be religious when he is too old, or feeble, or unfortunate to be anything else, and that a child too weak to be anything else can be a religious teacher. A very large proportion of the conference, and prayer, and experience meetings of the churches are led by those and constantly addressed by those in whom as a whole the community has the least confidence, of whom it is somewhat suspicious, whom it regards as feeble, twaddling, pimping, as poorly fitted for the heavy work of life—in a word as unmanly; and it is this impression which Mr. Hughes would correct.

He shows how the patience of Christ, "a resolute waiting on God's mind," is a type of the noblest manhood, far greater than is exhibited in the deeds of physical courage, which now and then so startle us.

"There is," says Hughes, "no severer test of manliness than our behavior to powerful persons, whose aid would advance the cause we have at heart," but with Jesus there was "the entire absence of any expediency, or forgetting the means in the end; no balancing of phrases, or playing with religious shibboleths to catch the wealthy or to conciliate powerful rulers."

One hardly stops to consider the theology of this little book, so interested is he in its practical bearing, and led on by that simple and beautiful style which has commended Mr. Hughes' writings to the English reading world—but the theology is of that liberal school in the established church, which is such a constant surprise to one who does not know how entirely contradictory a state institution of religion may be in its traditional and actual theology; so that ministers and laymen are constantly expressing views directly opposed to the articles of their professed faith. The author of "The Manliness of Christ" is very clear that Christ "had only the same means as the rest of us of becoming conscious of his relationship to God," or else He is no example to us; and he adds, "it seems to me to be going quite beyond what can be proved, or even fairly assumed, to speak of his miracles as supernatural, in the sense that no man has ever done or can ever do the like."

There is no use in commending this book to the public; for of course it will be read everywhere; its style and its subject alike insure that. It will not only be read, but we believe it will do much good. It will set the life of Christ before Christendom in a light more winsome than any of the great volumes of the theologians has done, and it will greatly help to establish in the public mind the idea that true piety is a manly quality—that religion needs all the strength of the most noble and fully-developed manhood, joined to all the tenderness and intuition of womanhood.

The book is for sale by W. G. Myers, price $1.00.

A Den of Thieves.

A rendezvous of thieves in Manchester was broken up at four o'clock in the morning of the 11th inst. by the police of that city, and an immense quantity of stolen property, consisting of household furniture, carpenters' and farming tools, harnesses, old junk, and a great variety of other articles were recovered. George E. Randall, Clarence M. Randall, John Henry Dowery and John J. Sanderland were taken into custody. Their house in the outskirts of the city was literally packed with plunder, and it is known that a large sleigh load was recently sent to Lowell and sold. Part of the property has been identified by parties from Pelham and Derry, and by Mr. Robert Duncan, who has an unoccupied residence near Massabesic lake, which was recently robbed.

Death of Hon. Francis Cogswell.

Hon. Francis Cogswell died at Andover, Mass., on the 11th inst., at the age of seventy-nine years. He was a native of Atkinson, in this State, and a graduate of Dartmouth college. He was at one time clerk of court in Strafford county, and for twelve years was president of the Boston & Maine railroad. He removed to Andover in 1842, and was for some time cashier of the Andover bank; he was also for many years treasurer of the Maryland Manu. Co.; he was a trustee of Gilmanton academy, Atkinson academy and the Punchard free school in Andover; and for six years he was an overseer of Harvard college.

News and Notes.

Andrew Smith, for twelve years past treasurer of North Andover, Mass., has confessed himself a defaulter. It is believed his stealings amount to $30,000.

At the burning of the Theatre Royal in Dublin, Ireland, Feb. 10th, one woman and seven men were killed, and thirteen workmen and firemen were injured.

The New York *Herald's* Irish relief fund amounts to over $140,000. On the 10th inst. Bouclcault telegraphed to Mackay, the bonanza king, asking him to give something for the *Herald's* fund. An answer came promptly, notifying Bouccicault that Mackay had ordered his New York agents to pay over the sum of $10,000.

Steamship Chimborazo, from England for Australia, has returned to Plymouth, having sustained damage during a gale off Ushant. Two persons were washed overboard, two killed and seventeen injured. The steamer lost six boats and sustained other damage. The French steamer Valentine, bound from Cardiff for Dieppe, has foundered, and sixteen persons were drowned.

Rev. Edward Cowley, on trial for starving and ill-treating children in the Shepherd's Fold, New York city, has been admitted to bail in $7,500, his bondsmen being Rev. Dr. Morgan Dix and Rev. Robert S. Howland, who qualified in $10,000. Cowley has resigned the superintendency of the institution; his resignation has been accepted and a committee of ladies appointed to take charge.

Jesse Whitmore, machine-tender in the Montague paper mill at Turner's Falls, Mass., on the 10th inst., was killed by being caught in some shafting.

Gloucester exported nineteen cargoes of fish during 1879, aggregating 19,249 quintals of dried, 1,412 barrels pickled, and fifteen casks and forty-eight bags of guano.

In the police court of Gloucester, Mass., on the 10th inst., John Brannagan was fined $290 on three liquor cases, and sentenced to three months in the house of correction. He appealed.

Mr. Curtis Doane, aged about seventy-five years, fell on the ice at Provincetown, Mass., on the 10th inst., near his home, striking his head and dying almost immediately from the injury.

A Constantinople report says that during a recent fete a barrack three stories high near the city suddenly collapsed, and 200 soldiers were killed and 300 wounded.

Gonzales, who attempted to assassinate the king of Spain, has been sentenced to death.

The will of the late Adoph E. Borie of Philadelphia has been presented for probate. The testator gives all his property to his wife, Elizabeth D. Borie, for life, with power to use as much of the principal as she desires, and to dispose of the residue by her last will. In default of such disposition, he disposes of such residue as follows: After sundry legacies to personal friends and relatives, amounting to $34,000, and including therein a legacy to Gen. Grant of $10,000, he makes charitable bequests to the extent of $80,000. The testator then divides his remaining estate into one hundred equal parts, to be distributed among his nephews and nieces.

Three water spouts were seen on Long Island sound, opposite Bridgeport, Conn., a few days ago.

Six men, two women and three girls were baptized by immersion at Bridgeport, Conn., on the 8th inst., with Advent rites. The performance of such a ceremony in extreme cold weather occasioned considerable criticism.

The bill of Prof. Johnson of Yale college for services in the Riddle murder case is $2,380. The state of Connecticut having employed him because they didn't like the size of Prof. Doremus' bill of $1,300 in the Cobb-Bishop case, are disappointed, and will oppose it. Prof. Johnson's work lasted ninety-three days.

The libel suit of Dr. William J. Sweet vs. the Cincinnati *Commercial* for publishing a dispatch stating that the plaintiff, a prominent physician of Nashville, had disappeared with another man's wife, has been decided, the jury awarding the plaintiff $250.

Newburyport having a $35,000 legacy from Rev. William Horton for a new almshouse, will build at once. The total expense will probably be $60,000. The city also proposes extensive additions to the city hall.

David Nye, selectmen of Sandwich, Mass., has been notified that the town of Sandwich will have to pay all the expenses of Charles F. Freeman, the Pocasset fanatic, while he is incarcerated within the walls of the Danvers insane asylum.

At Newburyport, on the 9th inst., notices were posted in the four cotton mills that there would be an increase of wages, to begin on Monday, February 16th, of about ten per cent. This is done without a strike, or even solicitation on the part of the operatives.

Jacob Frye, a respected citizen of Peoria, Ill., was almost instantly killed on the street, on the 10th inst., by his daughter's husband, Luther B. McKinney. A divorce suit pending against McKinney was the cause.

The Atchison and Santa Fe railroad is completed to Santa Fe, New Mexico.

A woman named Lizzie Newman, about thirty years of age, died very suddenly in Bangor, Me., on the night of the 10th inst. She arrived in that city in the afternoon, with her mother and a fellow named Sherry, to take the evening train for Boston, but after checking their trunks and purchasing their tickets they went up town and drank considerable liquor. In the evening they started for home again, got lost, and finally were taken into a house about a mile from the city. At this time the woman gave little evidence of life and a physician was sent for, but when he reached the house he pronounced the woman dead. He states that she died from the effects of liquor and exposure.

Mrs. John Jacob Astor recently attended a ball in Washington, wearing over $800,000 worth of diamonds. Her earrings, two wonderful solitaires, were valued at $50,000 each. In addition to the costly necklace and head ornaments, the lady wore, arranged in a diagonal fashion across the corsage, a diamond chain composed of 500 stones of the value of $1,000 each.

"The Disadvantages of City Boys."

Some months ago, Rev. Washington Gladden, of Springfield, Mass., believing that if he could find out how the active and prominent men of his own city spent their boyhood, it would help to solve the problem of what is the best training for boys, prepared the following circular, which was sent to the one hundred men who could fairly be said to stand at the head of the financial, commercial, professional and educational interests of the city.

My Dear Sir:—I desire to find out, for the benefit of the boys, how the leading men of this city spent their boyhood. Will you be kind enough to tell me

1. Whether your home during the first fifteen years of your life was on a farm, in a village, or in a city, and,

2. Whether you were accustomed, during any part of that period, to engage in any kind of work when you were not in school?

I should be glad, of course, to have you go into particulars as fully as you are disposed to do; but I do not wish to tax your patience, and I shall be greatly obliged for a simple answer to these two questions.

No less than eighty-eight of the busy gentlemen who received this circular were kind enough to answer the questions,—some of them briefly, most of them quite fully, and it turned out that few had been brought up like most of the boys who crowd the ball-grounds and fill the streets of our cities in these later days. Here is a brief summary of the returns:

Of these eighty-eight men, twelve spent the first fifteen years of their life in the city, twelve in villages, and sixty-four were farmers' boys.

But of the twenty-four who lived in villages and cities, six were practically farmers' boys, for they lived in small villages, or on the outskirts of cities, and had the same kind of work to do that farmers' boys have. One of these village boys said:

"I learned to hoe, dig and mow; in fact, I was obliged to work, whether I liked it or no. In winter I went to school, and worked nights and mornings for my board."

Another said: "I used to work away from my home some on a farm in the summer and fall. In the winter, when going to school, we three boys used to work up the wood for winter use."

Four others told substantially the same story. As these were about the same as farmers' boys, we may add them to that list, so that seventy out of eighty-eight, almost four-fifths of all these men,—had the training of farm-life.

Now how was it with the eighteen city and village boys on the list? Did they have an easy time of it? Five of them did, as they testify; five of them had no work in particular to do, but one of the five says that he studied law when out of school, and that was not exactly play. The rest of the eighteen were not paupers by any means, but children of the humbler classes, many of them in narrow and needy circumstances,—and though they lived in cities or villages, they were accustomed from their earliest years to hard work.

"Was generally employed," says one, "during the summer months, and in vacations, in doing any kind of work that offered."

Four of the city boys were newsboys. One of them says: "The last year I was connected with the press, I earned one hundred dollars before breakfast."

Another: "I have paid my own way since eight years of age, without any assistance except my board from my eighth to my eleventh year."

Of all these eighty-eight boys, five only had nothing particular to do.

While these boys were growing and working, a great many others,—sons of merchants and lawyers,—were growing up in Springfield, going to school and amusing themselves as boys of their class are apt to do. Where are they? Only five *of this class* are heard from among the eighty-eight solid men of that city. Some of them, perhaps, are prosperous men in other cities, but the number cannot be large, for in Springfield only five men out of eighty-eight *came from this class*. Ninety-four and a half per cent were either farmers' boys or poor and hard-working town-boys.

Mr. Gladden has rewritten the lecture, and his interesting facts and logical deductions will appear in one of the leading magazines for March.

AROUND HOME.

The supreme court for Strafford county commenced a session at Dover on the 10th inst., Judge Foster presiding.

A Mrs. Howarth, while walking on Market street, Tuesday afternoon of this week, slipped on the ice and broke one of her arms by the fall.

The S. F. E. Moses H. Goodrich will be tested by the committee on fire department this (Thursday) afternoon at the reservoir at the Universalist church, at about one o'clock.

A valuable horse belonging to Mr. Isaac Varney of Dover point was badly injured recently by falling through a scuttle-hole in the barn floor, which happened to be open.

The Portsmouth Temperance Relief association has sixty-eight members, and $257 in treasury. There were two applications for membership at the last meeting. A benefit of $3 a week is paid for ten weeks, when a member is sick.

The subject of placing safety gates at the Vaughan street railroad-crossing, which the aldermen of Portsmouth have ordered, and the Eastern road opposes, has been referred by the supreme court, now in session at Exeter, to the county commissioners.

The ship Glendon, a new vessel of 1869.98 tons, built in Kennebunkport and owned in New York, arrived in Portsmouth lower harbor from Kennebunkport on Tuesday evening of this week, in tow of tug Knickerbocker of New York, and resumed her trip on Wednesday.

The parties engaged in hauling ice from Foye's pond, Rye, have a hard time of it. Instead of taking the usual and shortest route, they are obliged to go through woods filled with springs, and the horses slump through and wade in two feet of water for some distance, dragging from one to two tons of ice after them.

The *Weekly* says: "Boston parties have got the contract to build the elegant new residence of Mr. E. H. Winchester, at his splendid farm on Lafayette road. The entire cost will probably be from $30,000 to $35,000, and it will form, with its location and surrounding, one of the finest estates in our suburbs. There were several bidders in Portsmouth and Boston, and an actual difference between the lowest and highest of 100 per cent—that is, one asked double the amount of the other."

On Tuesday evening, the 10th inst., Sheriff Kent told Dillingham, the Londonderry murderer, that he had bad news for him, when Dillingham asked, "Is she dead?" and after that appeared indifferent. Dr. J. F. Hall, who is attending the prisoner, says he could not be more comfortable or appear better physically. He cannot find any indications of a ball in the head. Judge Clark, who will preside at the April term of the supreme court, has assigned J. S. H. Frink and Calvin Page as counsel for the prisoner, and he will be tried at that term. A preliminary examination will be held on Saturday.

The newspapers have a grievance. In the general advance in wages and prices there is one thing that has risen quite out of proportion to the rest, and that is white paper. Within the last few weeks the price of this commodity has advanced fully fifty per cent. To a newspaper this is a great item, a large additional outlay without any compensating advantage. With the eastern journals the price of subscription is the same that it was when bottom prices prevailed for everything; and advertising rates, too, remain as they were. Out west, however, the publishers have come to the conclusion that something must give way, and already most of the papers there have been raised in price or reduced in size, and the semi-weekly or tri-weekly supplements cut off entirely.

THE MUSICAL CONVENTION.

The rehearsal at Music hall on Wednesday evening shew a better finish in the rendering of the choruses than those given on previous evenings. The selections, "I waited for the Lord," with obligato solos, sung by Mrs. C. A. Sinclair and Miss E. J. Flanders, and the "Tramp chorus," obligato sung by Miss Flanders, were well received. The piano solo by Mrs. Shepard, also brought an encore.

This evening the first of the two grand concerts of the convention will be given, when will appear, in addition to the large and fine chorus, the famous Temple quartet of Boston, Miss Edith Wendell and Miss Emma J. Flanders.

FISHERY NOTES.

About 10,000 lbs. of fish was received at this port Wednesday.

The schooner Mary S. Hontvet sailed for Georges at two o'clock on Thursday morning.

There is but very little boat-fishing carried on from Seabrook beach this winter. Shoemaking is brisk, there being plenty of work and fair wages, and the Seabrookers generally prefer the comfortable shop-work to the hardships of winter fishing.

The schooner Lizzie A. Robie brought in 4300 lbs. of fish on the 10th inst., which immediately created an uproar in the market. The fare finally became the property of Randall & Caswell, who paid $4 per hundred, the catch bringing the fishermen the nice little sum of $172.

John Felch of Seabrook, after having gone boat-fishing from the beach for forty-one consecutive winters, has this year been obliged to give up that business, old age and rheumatism proving too much for him. The only wonder is that there is enough of him left to have rheumatism.

OVERBOARD.

The fishing schooner "Fair of the List" anchored in the lower harbor on Tuesday, the 10th inst., and sent her fish (about 4000 pounds) up to the wharf in boats. On their return down the river in the evening, one of the crew, who was in a dory loaded with bait, slipped and fell overboard. After some maneuvering he was got into the boat again, and rowed with a will for the schooner to get a dry suit of clothes.

Edward Downs, a son of Mr. Ephraim H. Downs, fell overboard from Rollins' wharf on Wednesday forenoon of this week, but was immediately pulled out.

As James Carter, one of the crew of the schooner Christie Campbell, was taking a keg buoy from Dixon's wharf to the vessel on the 10th inst., he stumbled over a plank and pitched overboard headforemost, keg and all. Not being able to to swim, he drifted some distance before a boat could reach him. His situation was somewhat precarious, and had he not clung to the keg his chance of being saved would have been small. Mr. Sol White, of the schooner Grace Choate, was his rescuer.

SUPREME COURT.

WEDNESDAY, Feb. 11th; *Clark, J.*

Blaisdell vs. town of Epping occupied the day. The defence commenced putting in testimony at noon. It is expected the trial will occupy all of Thursday.

Sheriff Kent brought into court Wm. H. Bryant of Salem, charged with selling liquor, arrested upon old indictments. In default of bail he was committed, to await the attendance of County Solicitor Harriman.

YORK COUNTY ITEMS.

Sufficient money has been raised in Biddeford and Saco for the purchase of two hundred European quails, and the birds will probably arrive during the coming spring and be let loose in that vicinity.

Mr. E. A. Broyers, who has for a short time past been engaged in the meat business in Biddeford, was assaulted at the door of his house on Sunday evening, the 8th inst., by two unknown men, and robbed of $122 and left in an unconscious condition. He was not seriously injured. The thieves called him out of his house at about nine o'clock in the evening.

Aaron McKenny, the Saco centenarian who died a few days ago, had lived in Saco about eighty years, and been a widower more than forty years. A number of years since a bevy of females, pretending to have been commissioned by the Almighty, arrived at Mr. McKenny's house, saying the Lord had instructed them to remain with him until his death. They gradually got control of the old gentleman, and it is asserted that they have for a number of years had him under complete subjection. He left a large property, which he willed to the females before referred to. Very likely there will be a contest when the will is offered for probate. There are quite a number of heirs who do not propose to go without a slice of the property if they can help it.

Naval Affairs.

Ex-Chief Naval Constructor Isaiah Hapgoom, U. S. N., is reported to be dangerously ill at his residence in Washington.

Chief Engineer Elbridge Lawton is detached from the New York navy yard, and placed on waiting orders.

Chief Engineer Charles H. Loring is ordered to the New York navy yard.

New Hampshire Items.

Scarlet fever is very prevalent at Pittsfield. There have been thirty cases, five of them fatal.

Isaac E. Richardson's saw mill at Bethlehem was burned on the 10th inst. Loss about $3000; insured $2000.

Not a "Cook's Tourist."

The following story of General Grant in Germany is told by the London (Eng.) *Tobacco Plant*: "Among the Swabians I heard a tale of the much-travelling Gen. Grant, the American ex-president, who became a great favorite with the Germans during his journeyings among them a year ago. The teller of the story happened to be at Hamburg last year during the races, and found the American warrior and statesman staying in that city. He was received with all the honors due to a distinguished guest who had made his mark in cotemporary history. A reserved place in the principal balcony was placed at his disposal. The ex-president is notoriously a passionate smoker, and he asked as a favor that he might be allowed to light a cigar. Consent was freely given by the race committee. The general made himself thoroughly comfortable, and was evidently enjoying himself when an officious martinet, a rich merchant of Altoona, ignorant of the arrangement made between the statesman and the race committee, called one of his servants and ordered him to 'go to that Englishman and tell him at once that he must put out his cigar.' The general politely complied, but at the same moment he rose up, called his carriage and drove away to his hotel before the race committee was aware of the peremptory insolence of the man of Altoona. The latter bit his lip with vexation when he learned the distinguished character of the man whom he had supposed to be an ordinary 'Cook's tourist,' and he will probably never be allowed by his neighbors to forget his tactless trick."

—Roysterer (to respected parent, who had come to bail him out)—"Hullo, Gov'ner! You here? Don't mean to say they've run *you* in!"

—It is leap year of course, but after all it doesn't look well for a young lady to go home about two o'clock in the morning after sparking her beau.

—At a recent sale of autographs a note written by Goldsmith, asking Boswell to call on him in the evening, that they might wait on Dr. Johnson together, and observing that "the punch over night was infernal strong, and still hunts me with a headache," brought $150.

Brown's Household Panacea

Is the most effective Pain Destroyer in the world. Will most surely quicken the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic or acute, than any other pain alleviator, and it is warranted double the strength of any similar preparation.

It cures pain in the side, back or bowels, sore throat, rheumatism, toothache and all aches.

The great reliever of pain, "Brown's Household Panacea," should be in every family. A teaspoonful of the Panacea in a tumbler of hot water (sweetened, if preferred), taken at bedtime, will break up a cold. 25 cents a bottle.

Much Sickness,

Undoubtedly with children attributed to other causes, is occasioned by worms. Brown's Vermifuge Comfits, or Worm Lozenges, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely sure in eradicating worms, so hurtful to children. Twenty-five cents a box. t,th&f

Green Peas.

G. W. Campbell of Delaware, Ohio, gives the *Practical Farmer* a brief statement of his mode of raising peas, which accords with that adopted by some other successful cultivators. For a succession he formerly planted two weeks apart; but the late plantings had small crops and mildewed pods. He now plants all at a time, and as early as the season will permit, using early and late varieties. When planted deep the plants continue longer in bearing, and endure the drouth. He plants early sorts six inches deep, and late ones rather deeper. For this depth the soil should be rather loose and porous. His earliest is Carter's First Crop, the latest, Champion of England.

J. C. Weston of Bangor, Me., says that after a trial of twenty years he finds the following method of raising peas in small gardens the most profitable and satisfactory: A warm, sheltered situation is selected, and trenches are dug about one and a half feet wide and three feet apart; the bottom is filled with old manure which is covered with loam. The soil being light, he then sows the peas and covers them six inches deep with soil. After the first hoeing, the sticks are inserted for their support. The manure imparts great vigor to the plants, the depth of covering prevents the effects of drouth, and the bed furnishes peas for nearly a month.

Cuticura

BLOOD AND SKIN HUMORS

The scourge of mankind.—Old methods of treatment and remedies a failure.

CUTICURA RESOLVENT, the Great Blood Purifier and Liver Stimulant, is the most searching, cleansing, and purifying agent of this century. It may be detected in the saliva, sweat, milk, blood, and urine in forty minutes after taking the first dose, showing that it has entered the circulation and been carried to every part of the system. It forever eradicates the virus of Syphilis, Scrofula, Cancer, and Cankerous terrible blood poisons that rot out the machinery of life, filling the body with foul corruptions. Taken internally in conjunction with the external application of CUTICURA, the Great Skin Cure, it speedily cures Scrofulous Ulcers and Old Sores, Salt Rheum, Psoriasis, Tetter, Ringworm, Scald Head, Dandruff, and all Itching and Scaly Diseases of the Skin and Scalp.

ECZEMA ON THE SCALP,

Breast and Limbs Cured.

MESSRS. WEEKS & POTTER: *Gentlemen,*—I cannot refrain from adding my debt of gratitude to you for having placed within my reach the wonderful CUTICURA REMEDIES, which have rendered unnecessary all further experiment of physicians, and in a remarkably short space of time have rid me of a loathsome disease. I dispensed with all physicians two years ago, believing they did me no good. The CUTICURA has stopped this unsatisfactory expense—even if it were necessary and I had the courage any longer to follow their advice—and brought the long-looked-for cure and happiness.

I have been afflicted with Eczema or Salt Rheum on my scalp, breast, and limbs for five years, during which time I have been under the treatment of physicians, or at mineral springs, or taking some kind of medicine. I have been treated by Dr. ——, of ——, Dr. —— of ——, and visited sulphur springs and taken numbers of patent medicines, all without the faintest approach to a cure.

April 1 last, I began the use of CUTICURA, which was immediately successful in my case, entirely curing me. I have not had a clean scalp for 15 years until the use of the CUTICURA entirely healed it and left it clean and healthy. The other parts of my body were affected in a more aggravated form, but are now completely healed. I believe myself completely cured. I shall continue the CUTICURA RESOLVENT as directed, for its wonderful action on the stomach and bowels and cooling influence on the blood. It will afford me pleasure, as I have done in many cases, to urge the afflicted to use these wonderful remedies.

Yours, etc., STEPHEN CROWELL.
NEW BEDFORD, Sept. 30, 1878.

A RUNNING SORE

Cured in One Week.

MESSRS. WEEKS & POTTER,—Some three or four weeks ago I ordered a box of CUTICURA for a bad case of Salt Rheum. The back of one of my wife's hands was a running sore. In one week from the day it arrived her hand was well and has remained so up to to-day. E. P. DAGGETT.
MILFORD, ME., June 10, 1878.

NOTE.—Reader, don't you think these cures remarkable?

CUTICURA SOAP,

Medicinal and Toilet.

Is prepared from CUTICURA in a modified form, and is positively indispensable in the treatment of Skin and Scalp Diseases. We recommend it for the preservation of the skins of infants, for gentlemen who shave and are troubled with tender face, for those who desire a clear and wholesome skin and scalp, and for all purposes of the toilet, bath and nursery. Its delightful and enrapturing fragrance equals or surpasses the finest Parisian Soaps.

Prepared by Weeks & Potter, Chemists and Druggists, 360 Washington Street, Boston, Mass., and for sale by all druggists and dealers. Price of CUTICURA, small boxes, 50 cents; large boxes, containing two and one-half times the quantity of small, $1. Resolvent, $1 per bottle. CUTICURA SOAP, 25 cents per cake; by mail, 30 cents; three cakes, 75 cents.

COLLINS' VOLTAIC ELECTRIC PLASTERS

Pain and Weakness can not exist where they are applied. They vitalize, strengthen and support Weak and Painful Parts; cure Chronic Ailments and Diseases of the Liver and Kidneys; absorb Poisons from the blood, and thus prevent Fever and Ague, Malarial and Contagious Diseases; stimulate the Stomach and Digestive Organs when placed over the pit of the stomach, and prevent Dyspepsia, Bilious Colic, Cramps and Pains.

CAPCINE

BENSONS CAPCINE

A Word to those who use Porous Plasters. It is a universally acknowledged fact that BENSON'S CAPCINE POROUS PLASTERS ARE SUPERIOR TO ALL OTHERS! The great demand for them has caused a number of unscrupulous parties to make and sell worthless imitations under similar sounding names. As the market is flooded with inferior plasters selling on the reputation of BENSON'S CAPCINE, we would caution the public to see that they get some of the genuine article, which can be easily distinguished from all others by the word CAPCINE on each plaster, the remaining parts of the name being optional. can be done," said she, loftily.

"And if I don't want to try?"

"Then the other puppy must make you. Here he is, just in time. Here Rolla, good dog! At, at him, sir!"

And Kitty clapped her white hands together, and tried to whistle, as she had seen her papa do, to the great amusement of the gentleman.

But instead of gallantly rushing to the attack, at command of his mistress, Rolla frisked up to the stranger with extravagant demonstrations of delight.

"Oh, he knows you!" said Kitty, contemptuously, "and so you didn't run."

"Yes; Rolla knows his friends. In fact, he's my namesake—an honor conferred upon me by the admiring partiality of Farmer Hawes."

"He belongs to *me*, now, and I mean to change his name," said Kitty, positively.

"Pray don't! You have no idea of how musically it sounded across the field. I fancied some wood-nymph or dryad was calling to me. Belongs to you now, does he? Happy dog!" And he stooped and patted Rolla's head.

Kitty turned sharply.

"Are you going away, sir, or shall I?" she demanded.

"Oh, I would not for the world incommode you! And I beg you to remember that I came only because I fancied you were calling me, having probably seen me passing. I saw you from the bank above. Pray excuse the mistake, and allow me to wish you a good evening."

And, with a courteous bow, he disappeared among the bushes.

Kitty stood looking indignantly after him until he disappeared.

"The impudent puppy!" she murmured, "I never heard of such assurance."

And then a slow smile rippled over her face, which she remorselessly checked by biting the corner of her red under lip.

"Come, Rolla," she called, in a subdued voice—"come, sir, and go home; and see how you get me into scrapes again."

She climbed the bank into the meadow, the dog following with a subdued and culprit-like mien. But suddenly he gave a sharp bark, and at the same moment another and stranger sound smote upon Kitty's ear. It was a low, hoarse, sobbing murmur, which seemed to swell into an angry roar.

"If I were in Africa, I should fancy that a lion's roar!" thought Kitty, curiously looking around.

In an instant her cheeks became deathly pale, and she stood breathless and transfixed, as a huge animal, with lowered head and eyes gleaming through shaggy forelocks, emerged from a thicket at some distance, and came slowly toward her, tearing up the earth with hoofs and horns.

Rolla, after a burst of obstreperous barking, turned and ignominiously fled.

Kitty strove in vain to follow his example. Her limbs felt paralyzed, and she turned faint and sick.

The bull came slowly onward, now lowering his head, now uplifting it, and staring, fiercely and threateningly, at the figure in the centre of the field.

Sons and Daughters of New Hampshire.

The natives and former residents of this state now residing in Worcester, Mass., and vicinity, had a meeting on Saturday evening, the 7th inst., and formed a permanent organization to be known as "The Sons and Daughters of New Hampshire." Sixty-eight names were subscribed during the evening on the secretary's book for membership in the association, and a committee consisting of the following-named persons was appointed to perfect the rules by which the organization is to be governed: E. B. Crane, M. V. B. Richardson, Wm. T. McNiel, John W. Hadley, Geo. N. Newhall, Mrs. H. M. Richardson, Mrs. Wilson K. Lindsey, Mrs. Ephraim Tucker, Mrs. James P. Hall, Mrs. Dexter Rice, Messrs. Louis Friendly, F. E. Barker, George L. Clark, and Jehiel Todd.

A Feminine Duel.

Louisa Wise and Margaret Downing, two young women of Onancock, Va., had a savage fight on the 7th inst. about one Benjamin Young, who had been paying attention to both, and of whom both were enamored. Miss Downing had a club and Miss Wise a three-tined pitchfork; the former was wounded fourteen times with the fork, and the latter was terribly beaten about the head. The physicians say both girls will die. Young left town at once, and has not since been seen.

New Hampshire Items.

Miss M. E. Colby, sister of Hon. Ira Colby of Claremont, left on Tuesday for South Africa, where she is to engage in teaching for five years.

The governor and council had a hearing on the charges preferred against the management of the state prison, at Concord on the 11th inst. Only indefinite and general charges were brought, and another hearing is to be had.

The jury at Manchester on Thursday returned a verdict of $3000 for Martha Hazen of Goffstown in a suit for damages against the Concord railroad. It is understood to be a compromise verdict, some of the jurors being in favor of a much larger sum. Mrs. Hazen was thrown from a wagon August 14th, 1877, and severely injured, her horse being frightened by escaping steam from a locomotive near the crossing at the Manchester depot. The jury were out fifteen hours.

Eaton & Calhoun's block, at Littleton was partially burned on the morning of the 11th inst. Loss $1000; insured.

During the recent removal of earth near Amoskeag falls, Manchester, various bones which were portions of the skeletons of Indians who were buried there several hundred years ago, were uncovered. Also arrow heads, stone gouges, pieces of Indian pottery, etc. It was at this spot that Wonolanset, the great chief of the Penacooks, held his court or council, and it was here that large numbers of the tribe congregated in the season to avail themselves of the privilege of taking salmon, shad and alewives which swam in the Merrimack two centuries ago. It was here, too, that Elliott, the great apostle to the Indians, preached, about the year 1680.

Naval Affairs.

Passed Asst. Paymaster S. D. Hurlburt has reported his return home, having been detached from duty as naval storekeeper at Honolulu, and ordered to settle his accounts.

Chief Engineer H. B. Nones is ordered to special duty in connection with the U. S. S. Galena.

The senate committee on the nomination of First Lieut. W. S. Schenck, U. S. M. C., to be captain and assistant quarter-master, recommend his rejection on the ground that he would otherwise "jump" thirty-five senior officers.

News and Notes.

Mr. Charles Orr of Knightsville, Me., had two boys, twins, three years of age. Sunday morning, the 8th inst., one of the little fellows got out of bed, and toddling around the room found some matches, one of which he lighted and set his nightdress on fire. His cries awoke his parents, but before the fire could be extinguished the child was fearfully burned, and he died the next day.

The heaviest owner of Maine Central railroad stock in Maine is Darius Alden of Augusta, who owns 3,500 shares, or about one-tenth of the whole number. Alden has hung on to his stock through thick and thin, and the advance on his Maine Central holdings alone has been nearly a million dollars during the past year or two.

Within eighteen months there has been an advance in Lewiston, Me., manufacturing stocks of $2,600,000. Most of the stocks are held in Boston, not over $300,000, probably, being held in Lewiston.

It will require one hundred and fifty vessels to remove the ice that will be housed and stacked this winter on the Penobscot river in the immediate vicinity of Bangor, Me.

There is over a foot of snow in the woods, along the east and west branches of the Penobscot, and the lumbering crews could not ask for better weather than they are now having. The lumbermen anticipate a better business in the spring than for many years past. Prices promise to rule very high as compared with past seasons, and orders will doubtless be plenty.

Two years ago the estate of the late Mr. Bates, who founded the Bates college and Bates mills at Lewiston, Me., was adjudged to be almost worthless on account of the great decline in stocks. In his estate was an item of 5000 shares of Little Rock & Fort Smith railroad stock, appraised at $2.50 a share. That stock has advanced since the appraisal to $80 a share, an advance of 2,400 per cent. That stock, appraised at $13,000, is now worth $800,000, an advance of $787,000 in two years. Mr. Bates held a large quantity of Bates mills and other stocks, which have largely advanced, so that some think his estate can now pay the Bates college subscription and all the other liabilities, and leave a clean surplus of at least half a million dollars.

Mr. Alexander Staten, formerly of Lynn, Mass., who deserted his wife and four children fifteen years ago on account of the habits of the former, and has since lived in Texas, where he married again, has returned to Lynn in search of his children. One, a daughter, has been found, but prefers to remain in her present home, where she has received kind treatment.

The residence of George H. Norman, on Beacon street, Boston, was entered Wednesday evening, the 11th inst., and about $11,000 worth of jewelry, bonds and money stolen. The robbers escaped.

The Good Templars of Essex county, Mass., held their quarterly convention in Newburyport on the 10th inst. Reports from lodges in the county show a great falling off in membership.

The mangled remains of W. H. Costigan, a blacksmith of Wallingford, Conn., who had evidently been killed by a night freight train, were found by the track of the railroad near Meriden on Tuesday morning, the 10th inst.

The Westport, Conn., national bank was robbed of between $3000 and $4000 at an early hour in the morning on the 11th inst., by five men, who first knocked down, gagged and bound the village watchman. The inside of the bank was wrecked by the explosion of powder which the thieves used to blow open the door of the vault.

It is reported from New Haven that Rev. Herbert H. Hayden is to be re-arrested and retried at an early date. The trial, it is expected, will not last more than a week or ten days, and the state will introduce little or no expert testimony.

At Lehighton, Pa., on the night of the 10th inst., Edward Mulherin visited the house of a man named Goldberger, for the purpose of contradicting a scandalous story circulated about himself and Goldberger's wife. After some discussion Goldberger seized a gun and shot Mulherin in the abdomen, from which he died in a few minutes. Goldberger was arrested. Mulherin leaves a wife and seven children.

At a wedding reception in Kentucky, not far from Rome, Ohio, while a dance was in progress a crowd came with guns and bells, and demanded money for a treat. Their demand was complied with and they went away, but shortly returned and demanded more money. This was refused, and a fight followed in which one man was shot to death and many others wounded, several of them fatally.

Capt. Auld, from whom Fred Douglass ran away over forty-five years ago, died at St. Michaels, on the eastern shore of Maryland, on Sunday the 8th inst. He was buried on the 11th, but duties in court prevented Mr. Douglass from attending.

Alexander Grant, a Montreal foundry proprietor, was arrested on the 11th inst. for abducting Miss Henrietta Graham, an attractive young lady belonging to a good family, and who is only sixteen years of age. The mother of the girl is a widow, and alleges that her daughter has been seduced by the prisoner.

Advices from Havana say the insurgents have been defeated at Monterruz. Their camp, arms and horses were captured by government troops. They were pursued and again defeated, and 222 insurgents surrendered.

Political.

The national democratic committee will meet in Washington on the 23d inst., to fix upon the time and place for holding the national convention.

In the city election at Binghampton, N. Y., on the 10th inst., the republicans elected the mayor and a majority of the board of aldermen, and gained three supervisors. The previous city government was democratic.

The Amount of Candy Made.

The amount of candy manufactured in this country is far greater than is usually thought, the Americans — the women, mainly—eating more, it is said, than all the rest of the world combined. New York has until recently made most of the candy, but now Boston is a large manufacturer. Within a few years many small houses, mostly French, have sprung up here, and reduced the price materially. Boston has three large manufactories, employing some 300 workmen, and producing over 4000 tons of candy annually. Not more than one-fourth of this is consumed in New England, the remainder going chiefly to the provinces and the west. Boston makes, altogether, more than 5,000 tons, using something over 25,000 barrels of sugar for the purpose. This city, it is estimated, makes about 6,500 to 7,000 tons, which goes to all parts of the Union, a good deal of it being, it is said, exported to the West Indies, South America, and even to Europe. It has been supposed that French candies were the best, but we now make candy regarded superior to those. Outside of Boston and New York, not much candy is made, though the Philadelphia make has considerable reputation.—*New York Times.*

Mrs. Partington says

Don't take any of the quack nostrums, as they are regimental to the human cistern; but put your trust in Hop Bitters, which will cure general dilapidation, costive habits and all comic diseases. They saved Isaac from a severe extract of tripod fever. They are the *ne plus unum* of medicines.—*Boston Globe.*

Important.

When you visit or leave New York city, save Baggage Expressage and Carriage Hire, and stop at *Grand Union Hotel*, nearly opposite Grand Central Depot. 350 elegant rooms reduced to $1 and upwards per day. European Plan. Elevator. Restaurant supplied with the best. Horse Cars, Stages and Elevated Railroad to all depots. THE WEATHER.

Probabilities for New England, To-day.

WASHINGTON, D. C., Feb. 13, 2 A. M.

Slight fall in temperature, partly cloudy weather; followed by rain or snow, during the afternoon or evening, variable winds; and slight rise followed by falling barometer.

AROUND HOME.

Messrs. Rider & Cunningham commenced moving goods into their new store on Thursday.

A special train will run from this city to Newburyport this evening after the concert in Music hall.

The assessors have organized with Rufus K. Oxford as chairman and Daniel J. Vaughan as secretary.

The New York *Herald* acknowledges the receipt of $5 for the Irish relief fund from "M. D. and M. B. L." of Portsmouth, N. H.

Schooner Mary J. Adams, of this port, Fitzgerald, master, bound from Mobile for Trinidad, put in at Key West on the 11th inst., leaking and with her bowsprit carried away.

Mr. John Lynch of this city, recently arrested for assault and who was proved to be mentally irresponsible for the act, and committed to the Exeter jail to await the action of the supreme court, was on Thursday taken to the insane asylum at Concord.

A small wooden building in Dover, ten feet by sixteen on the ground, and occupied by Edwin Frost as a carpenter shop, was totally destroyed by fire on the night of the 10th inst., with a quantity of lumber, several refrigerators, and all Mr. Frost's tools. Loss $250; insurance $200, of which $50 was on the building.

The members of the Rockingham Masonic Mutual Relief association have been called on to pay three special assessments within as many weeks, consequent on the deaths of Justin M. Spinney of Kittery and Wm. Wallace Martin of Newcastle, members of St. John's Lodge, and of Joseph Parry, a member of St. Andrew's Lodge.

The site upon which Samuel H. Goodall, Esq., of Boston, formerly of this city, proposes to put up a summer residence as soon as the weather becomes favorable, is on Seabrook beach, and is a part of the strip of beach land over the ownership of which Richard Fowler of Seabrook and the town of South Hampton have for some years been carrying on a war in the courts, Mr. Goodall having been counsel for Fowler. We are informed that the contest was finally settled by reference, the referees deciding in Fowler's favor.

The schooner Riverside, before reported wrecked on a ledge near the Salvages, was four years old, and with her cargo of old car-wheels was valued at $7000, on which there was about $6000 insurance. She put into the lower harbor to escape the storm of the 3d inst., and sailed on the Thursday following, striking the ledge that night. When she struck the blow seemed so light that no trouble was anticipated, and the vessel kept on her course, but after running about half a mile she was found to be sinking, and the crew had only time to save a few articles when she went down in ten fathoms of water.

ENGINE TRIAL.

The steam fire engine Moses H. Goodrich had a trial on Thursday afternoon, taking water from the reservoir near the Burroughs field. She made steam in four minutes, but did not commence playing until her gauge shew one hundred pounds pressure, which took eleven minutes. Her first trial was with a line of hose two hundred feet long, and a single pipe, and she threw water a distance of two hundred and forty feet, having at the time one hundred and seventy pounds water pressure. With two pipes she shortened her hose to one hundred feet, and threw streams one hundred and ninety feet, with one hundred and twenty-five pounds water pressure. With three streams, one hundred feet of hose to each pipe, she threw water one hundred and eighty feet, having seventy pounds water pressure. The engineer expressed perfect satisfaction as to her working, and the company feel that they have an engine to be proud of. We understand that the test was entirely satisfactory to the city authorities. The engine was weighed after the trial, and found to weigh 7335 lbs.

THE MUSICAL CONVENTION.

The concert Thursday evening was a success in every way, the attendance being very large, though the execrable walking no doubt kept many persons away. Miss Flanders was unable to take part, owing to indisposition, and Miss Edith Wendell took several numbers assigned to Miss Flanders on the programme, receiving persistent encores for each one, as did the Temple quartette, and Mrs. Shepard for her piano solo. Mr. Henry Harlow and Mrs. Shepard performed a violin and piano duet, which was well received; and the choruses were given with spirit and precision.

This evening the closing concert will be given, the first part to consist of a portion of the oratorio of the "Creation," and the second part of a miscellaneous programme.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, regular meeting, Thursday evening:

Bills to the amount of $2066.88 were presented and ordered paid.

Communication was received from Wilbur I. Trafton in relation to a telephonic fire alarm; accepted and placed on file.

Committee on fire department to whom was referred the request of Chief Engineer Marston to have the police station connected with the breweries by wire for a fire alarm, reported reccommending that it be done. Report accepted, and further consideration postponed for one week.

The committee on police to whom was referred the request of Asst. Marshal Gray, asked for further time.

A vote was passed authorizing the committee on fire department with mayor added, to ascertain the probable cost of a new hook and ladder truck, and the cost of repairing the one now in use.

A resolution was passed requesting the city government to ascertain if possible a more economical method of lighting the streets and city building.

Message was received from the common council notifying the board that they had concurred in the resolution exempting the Portsmouth Shoe factory from taxation for the term of ten years.

Repairs needed at Walker school house were referred to committee on city land and buildings with power.

The matter of printing city book was referred to committee on printing, with instructions to advertise for bids, the contract to be awarded to the lowest practical bidder. The number to be printed to be one thousand.

Committe on city land and buildings were granted further time to report on request of Chief Engineer Marston in relation to engine room in city building, and request of W. I. Trafton for transfer of lease of store.

FISHERY NOTES.

About forty fishing vessels were in the lower harbor on Thursday.

Over twenty fishing vessels arrived on Thursday, but with very light fares. It seems that the fish have "let up" on them for a while, as the total catch brought in Thursday would not amount to over 20,000 lbs.

The schooner Queen of the Seas, Saunders master, of Pigeon cove, Gloucester, set her trawls, consisting of nine tubs, off this harbor one afternoon recently, and next morning found they were gone, having been stolen during the night.

A wreck is reported on the "Cuckoo," about two miles southeast of the Salvages, with her stern out of water and her bows under, and her anchors down—probably the fishing schooner A. T. Haines, of Tremont, Me., wrecked on the morning of the 10th inst., while on the way from Eastport to Boston with a cargo of frozen herring. The wreck is directly in the way of vessels running between Boston and eastern ports, making a very dangerous obstruction. [A despatch of the 12th inst. says: "The schooner A. T. Haines has been hauled off the rocks by tugs Wm. Woolley and S. E. Wetherell, and towed into Gloucester harbor.]

Years ago, when the Black Ball line of New York and Liverpool packet ships was famous for the immense amount of business it carried on, and notorious for the scoundrelly character of the sailors employed in its vessels and for the outrageous brutality with which they were treated, "First up—best dressed!" was a standing rule among the packet crews. From all we hear we should judge that the fishermen who set their trawls between Cape Ann and Cape Neddick have almost universally adopted a somewhat similar rule, viz.: "First on the grounds, haul the most trawls." The analogy holds good all through; for as the "packet rat" who had his clothes stolen in one watch, by turning out a few minutes earlier next time could not only replevin his own clothes but could steal some other fellow's in addition, so the fishing schooner whose trawls are garcelloned one night can, if sufficiently enterprising, on the next night steal all the trawls belonging to *two* other schooners, and not unfrequently does so. This is a very poor way of conducting business, but we are assured by a fisherman that all the trawl-stealing carried on in the bay this winter cannot be charged to any one schooner, nor to any half dozen.

YORK COUNTY ITEMS.

At Kennebunkport, on the 4th inst., Benjamin Jackson launched a fishing schooner of 10.65 tons register, built for parties in Rockport, Mass. Her name is "Pinafore."

William Emery, county attorney, has sent a petition to the Maine house of representatives, asking that the compensation of the county commissioners and county attorney in York county be reduced.

Somebody in Biddeford desiring a little creature comfort to help him through the cold weather which Prof. Vennor is going to send us, had a keg of whiskey expressed to him, directed to George L. Strout of Biddeford. The expressman was not let into the secret, and the man who ordered the whiskey did not look out for it, so the precious package was delivered to Mr. Strout, who happens to be a well known temperance man, and on finding out what was in the keg rolled it out of doors and smashed the head in.

New Publications.

Appleton's Journal for March opens with the first installment of a novelette from the French, entitled "The return of the princess," which gives some striking inside views of harem-life at Cairo. The Duke of Argyll's second and concluding paper, "First impressions of the New World," is given. There is a most interesting article on "Russian Nihilism;" a very striking satirical essay, under the title of "A Turkish Effendi on Christendom and Islam;" a biographical essay on Theophile Gautier; and two papers, respectively designated "Flesh-Color" and "Life at High Pressure," which embody numerous anecdotes and some telling hits at social folies, and the latter of which is a paper that every pushing, driving, hard-working man can read with profit. The freshest feature of the number is a group of three poems, translated from the French poet Francois Coppee, accompanied with an introductory note. These poems are intensely dramatic, and in their way very notable. One, called "The benediction," made a great hit in France when it was first published. It describes a thrilling incident in the siege of Saragossa—of a priest who, with a fatal bullet in his breast, finished with his dying breath the benediction which closes the mass, with his murderers grouped before him. This poem is likely to become very popular with American readers. The editor discusses current topics and reviews the new books. D. Appleton & Co., Publishers, New York; $3 per year.

—The man who pretends to have religion, but who somehow always gets the better end of every bargain, is not unlike the Hibernian who wrote a letter to his grandmother in very large characters, because, as he said, "the old lady is very deaf."

Brown's Household Panacea

Is the most effective Pain Destroyer in the world. Will most surely quicken the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic or acute, than any other pain alleviator, and it is warranted double the strength of any similar preparation.

It cures pain in the side, back or bowels, sore throat, rheumatism, toothache and all aches.

The great reliever of pain, "Brown's Household Panacea," should be in every family. A teaspoonful of the Panacea in a tumbler of hot water (sweetened, if preferred), taken at bedtime, will break up a cold. 25 cents a bottle.

Much Sickness,

Undoubtedly with children attributed to other causes, is occasioned by worms. Brown's Vermifuge Comfits, or Worm Lozenges, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely sure in eradicating worms, so painful to children. Twenty-five cents a box. t,th&f

IS PERFECTION.

A Noble Record: near Half a Century. Established 1832. Improved 1879.

The nature of the great improvement is in its wonderful life-properties to faded or fading hair, and MORE QUICKLY CHANGING GRAY OR WHITE HAIR to its natural youthful COLOR and BEAUTY.

IT IS NOT A DYE.

It requires only a few applications to restore gray hair to its youthful color and lustrous beauty, and induce luxuriant growth, and its occasional use is all that is needed to preserve it in its highest perfection and beauty. DANDRUFF is quickly and permanently removed.

Imagination.

The *Lancet* is often very good reading, even to folks who have nothing the matter with them, and are looking for a parallel case. The last number describes a gentleman who swallowed his false teeth, and felt them in his pharynx (whatever that is—my own medical knowledge ends with the larynx). A doctor was sent for, who introduced a probang, which touched the teeth (as the patient said) but he was afraid to proceed to extremities with that instrument, because they were described to him as a complete set of molars." He then "bent a 10-inch military silver probe and tried to hook the teeth up," but the spasms of the larynx were too severe and the secretions from the pharynx so excessive that these dredging operations had to be suspended. The patient began to get *in extremis*; so presently another doctor was telegraphed for, who found the missing teeth on the top of a chest of drawers. This gentleman, reporting on the matter, very justly observes that this curious effect of imagination upon a strong and healthy man throws light on many a case of supposed hydrophobia.—*Exchange.*

Compliment to the Weather Bureau.

The German government recently paid the highest compliment to the United States by addressing, through the German minister at Washington, a letter requesting to be exactly informed as to the processes by which the signal service bureau so promptly collects at the war department the meteorological reports from all parts of the United States—an extent of territory greater than Europe—and so rapidly draits and publishes them upon the printed daily weather map. These maps are issued three hours after the records are read at the distant stations. When it is remembered that the request comes from a government noted for its skilled chartographers, and standing first in Europe, the force of the compliment will be appreciated.

American Watches in Europe.

Take the business of making watches and clocks. A heavy duty was imposed on the import of these articles in America. This led many to engage in the business. Machinery was soon invented which at once reduced and perfected the cost of production, and at present the American clocks and watches are sold for less than those of English and Swiss manufacture in England and Switzerland. And yet I suppose that the skilled labor in this business is not cheaper in America than with us. Therefore, by sheer superiority of intelligence and of perfection of machinery, we have been able to give the Americans of a trade in which we formerly held our own. The same may be said of a dozen other trades, in which we have stood still while the Americans have progressed.—*London Truth.*

—Writs of error—Love letters to another man's wife.

Two Organs.

Regulate first the stomach, second the liver, especially the first, so as to perform their functions perfectly and you will remove at least nineteen twentieths of all the ills that mankind is heir to, in this or any other climate. Hop Bitters is the only thing that will give perfectly healthy, natural action to these organs.—*Maine Farmer.*

—An attempt to introduce one-cent coins in San Francisco is meeting with vigorous opposition from the small dealers. At a public meeting, a cigar dealer denounced their circulation as a movement of capitalists in favor of the Chinamen. The circulations of cents where five-cent pieces have heretofore been given, he said, would injure the white man, and introduce bankruptcy, and cause many small storekeepers to sell out at less than cost within a month. Another speaker said that the penny had no more to do with hard times than the rising of the sun, but, a vote being taken, there were found to be only two advocates of the cent piece present.

"My Back Aches So."

And I feel miserably," said a hard-working man. The doctor questioned him and found that he had been habitually costive for years, that now his kidneys were disordered and his whole system deranged. Kidney-Wort was recommended and faithfully taken and in a short time every trouble was removed. The cleansing and tonic power of this medicine on the bowels and kidneys is wonderful.

—A dark preacher in the south took the text from Psalm, lvii., 8: "Awake, psaltery and harp." He read it peaseltree and harp, and expended his time and energy on the peaseltree, describing its size and flowers and fruit, and how it was cultivated and used solely to hang harps on. Unfortunately, he said, it could not be raised in this country!

Keep your bowels and kidneys in a healthy state by the use of Kidney-Wort.

—An excellent chest protector for a cold day is a folded newspaper buttoned under the overcoat. But in case a paper is used on which the subscription is unpaid, the party is liable to be frozen to death in a very short time.

Speer's Wine for Delicate Females.

It is a pure article from the juice of cultivated Sambucus, prepared and fermented by a new process, without the addition of any spirits. It is one of the most comforting cordials we have ever tested for female weakness and kidney difficulties, consumption and general debility, and especially good for those who object on principle to stimulants, as it has all the properties of warmth and energy which occasionally render a resort to them absolutely medicinal. Each vintage must lay four years before put in the market. His success is remarkable, as it is being ordered by families, merchants and druggists, from all parts of this country, from South America, England, and even from the wine districts of France. It is getting a large sale in England, for female weakness.

For sale by W. R. Preston, D. Kimball, F. B. Coleman, druggists, and H. F. Gerrish, grocer.

If you have a cold take *Adamson's Botanic Balsam.* A sure cure for coughs, sore throat, and all pulmonary complaints. To the afflicted we recommend a trial of this superior remedy.—*Boston Saturday Evening Express.*

HOSTETTER'S CELEBRATED

STOMACH BITTERS

Do you feel that any one of your organs—your stomach, liver, bowels, or nervous system, falters in its work? If so, repair the damage with the most powerful, yet harmless, of invigorants. Remember that debility is the "Beginning of the End"—that the climax of all weakness is a universal paralysis of the system, and that such paralysis is the immediate precursor of Death.

For sale by all Druggists and Dealers generally.

KIDNEY-WORT

THE ONLY MEDICINE

That Acts at the Same Time on THE LIVER, THE BOWELS, and the KIDNEYS.

These great organs are the natural cleansers of the system. If they work well, health will be perfect; if they become clogged, dreadful diseases are sure to follow with

TERRIBLE SUFFERING.

Biliousness, Headache, Dyspepsia, Jaundice, Constipation and Piles, or Kidney Complaints, Gravel, Diabetes, Sediment in the Urine, Milky or Ropy Urine; or Rheumatic Pains and Aches,

are evidence that the blood is poisoned with the humors that should have been expelled naturally.

KIDNEY-WORT

will restore the healthy action and all these destroying evils will be banished; perfect health will follow.

Thousands have proved it. Try it and you will add your testimony to theirs. Take it and health will come; sickness will depart.

Why suffer longer from the torment of an aching back?

Why bear such distress from Constipation or Piles?

Why be so fearful because of disordered urine?

Remember that Kidney-Wort is a vegetable compound, and

One Package is equal to quarts of Medicine.

Cuticura

BLOOD AND SKIN HUMORS

The scourge of mankind.—Old methods of treatment and remedies a failure.

CUTICURA RESOLVENT, the Great Blood Purifier and Liver Stimulant, is the most searching, cleansing, and purifying agent of this century. It may be detected in the saliva, sweat, milk, blood, and urine in forty minutes after taking the first dose, showing that it has entered the circulation and been carried to every part of the system. It forever eradicates the virus of Syphilis, Scrofula, Cancer, and Canker, those terrible blood poisons that rot out the machinery of life, filling the body with foul corruptions. Taken internally in conjunction with the external application of CUTICURA, the Great Skin Cure, it speedily cures Scrofulous Ulcers and Old Sores, Salt Rheum, Psoriasis, Tetter, Ringworm, Scald Head, Dandruff, and all Itching and Scaly Diseases of the Skin and Scalp.

ECZEMA ON THE SCALP,

Breast and Limbs Cured.

MESSRS. WEEKS & POTTER: *Gentlemen,*—I cannot refrain from adding my debt of gratitude to you for having placed within my reach the wonderful CUTICURA REMEDIES, which have rendered unnecessary all further experiment of physicians, and in a remarkably short space of time have rid me of a loathsome disease. I dispensed with all physicians two years ago, believing they did me no good. The CUTICURA has stopped this unnecessary expense—even if it were necessary and I had the courage any longer to follow their advice—and brought the long-looked-for cure and happiness.

I have been afflicted with Eczema or Salt Rheum on my scalp, breast, and limbs for five years, during which time I have been under the treatment of physicians, or at mineral springs, or taking some kind of medicine. I have been treated by Drs. ——, of ——, Dr. —— of ——, and visited sulphur springs and taken numbers of patent medicines, all without the faintest approach to a cure.

April 1 last, I began the use of CUTICURA, which was immediately successful in my case, entirely curing me. I have not had a clean scalp for 15 years until the use of the CUTICURA entirely healed it and left it clean and healthy. The other parts of my body were affected in a more aggravated form, but are now completely healed. I believe myself comp etely cured. I shall continue the CUTICURA RESOLVENT as directed, for its wonderful action on the stomach and bowels and cooling influence on the blood. It will afford me pleasure, as I have done in many cases, to urge the afflicted to use these wonderful remedies.

Yours, etc., STEPHEN CROWELL.

NEW BEDFORD, Sept. 30, 1878.

A RUNNING SORE

Cured in One Week.

MESSRS. WEEKS & POTTER,—Some three or four weeks ago I ordered a box of CUTICURA for a bad case of Salt Rheum. The back of one of my wife's hands was a running sore. In one week from the day it arrived her hand was well and has remained so up to to-day. E. P. DAGGETT.

MILFORD, ME., June 10, 1878.

NOTE—Reader, don't you think these cures remarkable?

CUTICURA SOAP,

Medicinal and Toilet.

is prepared from CUTICURA in a modified form, and is positively indispensable in the treatment of Skin and Scalp Diseases. We recommend it for the preservation of the skin of infants, for gentlemen's shaving, and are troubled with tender noses, for those who desire a clean and wholesome skin and Scalp, and for all purposes of the toilet, bath and nursery. Its delightful and refreshing fragrance equals or surpasses the finest Parisian Soaps.

Prepared by Weeks & Potter, Chemists and Druggists, 360 Washington Street, Boston, Mass., and for sale by all druggists and dealers. Price of CUTICURA, small boxes, 50 cents; large boxes, containing two and one half times the quantity of small, $1. Resolvent, $1 per bottle. CUTICURA SOAP, 25 cents per cake; by mail, 30 cents; three cakes, 75 cents.

POROUS CAPCINE PLASTER

BENSON'S CAPCINE POROUS PLASTERS ARE SUPERIOR TO ALL OTHERS!

A Word to those who use Porous Plasters. It is a universally acknowledged fact that the great demand for them has caused a number of unscrupulous parties to make and sell worthless imitations under similar sounding names. As the market is flooded with inferior plasters sold as genuine, it is a matter of the utmost importance to the public to know that some of the cheap plasters are found, and found to contain injurious ingredients which are not to be found in BENSON'S CAPCINE PLASTERS. CAUTION—See that the word CAPCINE on each plaster is surrounded by a circle of stars.

New York Weekly Herald.

ONE DOLLAR A YEAR.

The circulation of this popular newspaper has more than doubled during the past year. It contains all the leading news contained in the Daily Herald, and is arranged in handy departments. The

Foreign News

embraces special dispatches from all quarters of the globe. Under the head of

American News

are given the Telegraphic Dispatches of the week from all parts of the Union. This feature alone makes

The Weekly Herald

the most valuable chronicle in the world, as it is the cheapest. Every week is given a faithful report of

Political News

embracing complete and comprehensive despatches from Washington, including full reports of the speeches of eminent politicians on the questions of the hour.

The Farm Department

of the Weekly Herald gives the latest as well as the most practical suggestions and discoveries relating to the duties of the farmer, hints for raising Cattle, Poultry, Grains, Trees, Vegetables, &c., &c., with suggestions for keeping buildings and farming utensils in repair. This is supplemented by a well-edited department, widely copied, under the head of

The Home,

giving recipes for practical dishes, hints for making clothing and for keeping up with the latest fashions at the lowest price. Every item of cooking or economy suggested in this department is practically tested by experts before publication. Letters from our Paris and London correspondents on the very latest fashions. The Home Department of the Weekly Herald will save the housewife more than one hundred times the price of the paper. The interests of

Skilled Labor

are looked after, and everything relating to mechanics and inventoring is carefully recorded. There is a page devoted to all the latest phases of the business markets, Crops, Merchandise, &c., &c. A valuable feature is found in the specially-reported prices and conditions of

The Produce Market.

Sporting News at home and abroad, together with a Story every week, a Sermon by some eminent divine, Literary, Musical, Dramatic, Personal and Sea Notes. There is no paper in the world which contains so much for a dollar every week as the Weekly Herald, which is sent, postage free, for One Dollar. You can subscribe at any time.

THE GREATEST LIVING AUTHORS, such as Prof. Max Muller, Rt. Hon. W. E. Gladstone, Jas. A. Froude, Prof. Huxley, R. A. Proctor, Edw. A. Freeman, Prof. Tyndall, Dr. W. B. Carpenter, Frances Power Cobbe, The Duke of Argyll, Wm. Black, Miss Thackeray, Mrs. Mulock-Craik, Geo. MacDonald, Mrs. Oliphant, Jean Ingelow, Mrs. Alexander, Thos. Hardy, Matthew Arnold, Henry Kingsley, W. W. Story, Turguenief, Carlyle, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh* year, admittedly unrivalled and continuously successful. During the year it will furnish to its readers the productions of the most eminent authors, *above named and many others*, embracing the Choicest Serial and short stories by the *Leading Foreign Novelists*, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the *foremost Essayists, Scientist, Critics, Discoverers* and *Editors*, representing every department of Knowledge and Progress.

THE LIVING AGE *is a weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly, at a comparatively inexpensive price, considering its great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attained by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Biography, Scientific Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only substantially fresh and COMPLETE compilation of the indispensable current literature,—*indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly, and impartially."—*Times, Cincinnati.*

"It affords the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that through its pages alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Philadelphia Inquirer.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"What it does, a reader may fairly keep up with all that is important in the literature, politics and science of the day.'—*The Methodist, New York.*

"It holds the undisputed place of rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a through compendium of all that is admirable and note worthy in the literary world."—*Boston Post.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Boston Advertiser.*

"The best literature of the day."—*New York Times.*

CATARRH

NEVER-FAILING RELIEF

AFFORDED BY

SANFORD'S RADICAL CURE.

It is a fact that can be substantiated by the most respectable testimonials ever offered in favor of any proprietary medicine, that the RADICAL CURE FOR CATARRH does in every case afford instant and permanent relief. No matter of how long standing, or how severe the disease, the first dose gives such evidence of value in the treatment of Catarrhal affections that confidence is at once felt in its ability to do all that is claimed for it. The testimony of physicians, druggists and patients is unanimous in this respect, and the accumulating evidence is in point of respectability superior to any ever before obtained in favor of a popular remedy. The proprietors, therefore, may justly feel proud of the position the RADICAL CURE has attained and believe it worthy of its reputation.

10 YEARS A SUFFERER.

From Hon. Theo. P. Bogert, Bristol, R.

MESSRS. WEEKS & POTTER: *Gentlemen,*—Feeling strongly convinced of the efficacy of SANFORD'S RADICAL CURE FOR CATARRH, I am induced to drop you line to say that although I have tried many of the so-called nostrums advertised as "radical cures," I have never found anything that promises such relief as the RADICAL CURE AND IMPROVED INHALER. I have been afflicted with this dreadful disease for one-fourth of my time, and not until recently could I be induced to persevere with any until I read the letter of Mr. Harvey Ward, whose testimony may that after using five or six bottles I am thoroughly convinced of a complete cure. Considering the years I have suffered I feel bound to make the trifling sacrifice of time in this testimonial, very truly, etc., THEO. P. BOGERT.

An Impudent Puppy.'

Suddenly a voice shouted:

"Don't be afraid! Throw away your red shawl! Now, run—run to the nearest fence—while I keep him off!"

The assurance of help at hand inspired her. She tore off the light scarlet zephyr shawl which had attracted the attention of the bull, and—ran as fast as her trembling limbs would carry her.

How she got over the high fence she never knew. Indeed, she knew nothing distinctly until the gentleman whom she had characterized as an "impudent puppy," lightly leaping the fence, threw himself rather breathlessly and heated, on the grass near where she had sunk the moment she had found herself in safety.

"Oh," said Kitty, half sobbing, "I am so glad you came! That awful creature would have killed me."

"I fortunately heard his bellowing, and remembering you, came just in time to keep him off."

"Weren't you afraid?"

"Oh no! I used, when a boy, to bait these animals for my own amusement. But you see I can be of more use to you than the other puppy.' Where is *he?*"

"Gone. Deserted me in my hour of need," she replied, smiling faintly as she dried her tears. "But I've had enough of him. I'll give him away and get a better and bigger dog to accompany me on my walks, if they are to be as dangerous as this one."

"Am I big enough?" inquired the gentleman. "I'll take the very best care of you."

"Oh, I don't know you yet, you see! I will ask papa," she answered, demurely.

"Certainly, by all means ask papa!" said he, eagerly.

Kitty blushed, with a strong inclination to smile, which she repressed, as beneath her dignity.

"I'm going now," she said, rising.

"Won't you permit to see you safe? There may be more wild cattle about, to say nothing of snakes and owls."

"Well, I think you may come, though we are near home now. I can see papa, sitting on the piazza, reading; and there, in the orchard, is my basket of apples, which I gathered for the pigs. If you won't mind, I'll feed them now, and carry the basket back to Mrs. Hawes."

"I shall enjoy it of all things," he asserted.

Lifting the basket he carried it for her to the sty, where she amused herself with tossing the fruit one by one, to the eager, pushing crowd within.

"Do you take an interest in these poetic animals?" remarked her companion, as he stood curiously looking on.

"I feel sorry for them—they are so ugly and dirty. Nature seems to have treated them unjustly, poor things, in making them so inferior to other animals. But then, the little ones, with their pink noses and funny eyes, do look so chubby and so innocent."

She tossed some apples to the little ones, and looked thoughtful.

"They remind me of a picture which I saw lately—Circe, surrounded by a herd of swine, into which she had transformed her admirers. And you would never have imagined how much expression there was in the way that they wriggled and groveled at her feet."

"I see that picture now, at least something like it," the gentleman remarked, looking from Kitty to the pigs.

And again Kitty repeated to herself, "What an impudent puppy!" as she dropped more apples into the sty.

And this was the spectacle which greeted the horrified gaze of Mrs. Carrington as she stepped on the piazza where her husband was reading, and looked across the lawn to the orchard. The tea-table was ready, and she was expecting Kitty.

"Mercy on me!" she gasped. "Why, Mr. Carrington, only look! There is actually Kitty, with Judge Bolton's son, *feeding the pigs!*"

Mr. Carrington chuckled.

"Well, my dear, I don't see the harm of it, if they like it. Though where she could have picked him up I can't imagine."

Meanwhile, Kitty and her companion leisurely crossed the orchard and the lawn.

"Now I'll introduce you to papa," she said. "Only I don't know your last name."

"Oh perhaps he knows it and will introduce me to you. Meantime, call me anything you like."

So Kitty walked straight up to her father, and putting her hand on his shoulder, said:

"Papa, I've had an awful fright. I was chased by a raging mad bull, and my puppy, Rolla, ran away from me, and another, with the very same name, saved me, so I've brought him home with me," nodding in an introductory manner toward the guest.

"Eh?" said papa, looking up; and, catching the expression of the two faces before him, he fell into the humor, and as he rose, said, with a wave of his hand toward the waiting tea-table, "Very well, my dear, we'll feed him."

So Mr. Boland Bolton sat down to the table with the family, and with an utter absence of that unpleasant constraint which Mrs. Carrington had remarked in his intercourse with Miss Abbott; and, despite her vexation at Kitty, the meal passed off most agreeably.

Of course this was not Mr. Bolton's last visit to the Carringtons—of course there were frequent subsequent calls, walks and rides, in all of which he fulfilled his promise of taking the very best care of Kitty; and, when, at length, he asked the privilege of taking care of

her through life, she did not say nay.

Lately, when Mr. Bolton was boasting that his wife had accepted him on their very first interview, by referring him to papa, Kitty looked around and said:

"You were an impudent puppy that day, Rolla, as you are still."

SATURDAY, FEBRUARY 14, 1880.

Meeting of the State Committee.

The republican state committee held a meeting on the evening of the 12th inst., in Phenix hall, Concord, to fix the time for holding a convention to elect delegates to the republican national convention; it was presided over by Chairman House. After some discussion the 6th of May was unanimously agreed upon as the time for holding the convention. The matter of apportionment was then taken up, and it was arranged on the following basis: Every town or city which chooses representatives at every election shall have double the number of delegates that they have members of the legislature, and all other places, whether classed or otherwise, shall have one delegate each. Following the completion of the meeting were speeches by various gentlemen present, among whom were Hon. L. D. Mason, Hon. Charles H. Bell, Hon. Mason W. Tappan, Gov. Head, Ex-Govs. Smyth and Prescott, Hon. William E. Chandler and Hon. O. C. Moore. The national issues were more or less discussed, but nothing was said to indicate the preference of the speakers as to the candidates for president. The name of Blaine was, when mentioned, received with enthusiasm, which was claimed by the Blaine men as an indication of the latter's popularity with the party.

News and Notes.

Mr. Raymond, the hostler recently shot by Charles R. Moulton, at Portland, Me., has brought a civil suit against Moulton for $15,000 damages for injuries inflicted, and attached property to cover the amount.

Mr. Albert F. Gould of Wiscasset, Me., is the latest victim of the lightning-saw swindle. He was decoyed into signing a note for $180 on thirty days, dated September 26th, 1879. Mr. Gould does not intend to pay the note without a fight in the court.

The Fisk University Jubilee Singers (colored) were refused accommodations at two hotels in Bridgeport, Conn., one night recently.

The Connecticut state board of health has saved Meriden nearly $400,000 by perfecting a plan of drainage which is to cost $154,772, the city being about to undertake a scheme to cost $550,000.

The Hartford *Courant* has returns from one hundred and fifty-one towns in Connecticut as to the working of the tramp law, which went into effect last May. There is a unanimous verdict in favor of the law as having driven tramps from the state, greatly lessening town expenses, giving security to the rural districts, and inflicting no wrong on any man.

The trial of William Bucholz for the murder of John H. Schulte at Norwalk, Conn., in December, 1878, is arranged for the 17th inst., at Bridgeport. Bucholz was once convicted of murder in the first degree, but the verdict was set aside on account of the indiscretion of a juror. It is understood that both sides will introduce new and interesting evidence.

The cost of the Hayden murder trial to the state of Connecticut is said not to be over $30,000.

In Bangor, Me., on the 10th inst., Joseph Baldue pleaded guilty of the murder of James J. Norris, at Bradley, and Judge Peters passed life sentence. It will be remembered that on the morning of November 8th last, the dead body of Mr. Norris was found lying beside the way with the throat cut, evidently by an axe. Suspicion fell upon Baldue, who had had some difficulty with Mr. Norris, and he was arrested on a Maine Central train at Newport, on his way out of the country. He is a French Canadian.

A Mr. Johnson of Lorett, Ind., grew angry with his grown-up daughter the other night, and taking her by both wrists gave her a slap in the face with his open hand. The effect produced was unexpected, and altogether startling to Mr. Johnson. The daughter, as the report runs, "turned upon him and beat him in a terrible manner, so that he had to be put to bed."

At Richmond, Va., on Tuesday night, the 10th inst., John E. Poindexter, under sentence of two years imprisonment for killing Charles C. Curtis, a shoe clerk, was married just before his departure for the penitentiary, to Miss Isabell Cottrell. Miss Cottrell some time ago complained to Poindexter, then her affianced, of improper remarks addressed to her by Curtis. Poindexter administered a horse-whipping, which Curtis resented, and the latter was fatally shot. All efforts to clear Poindexter, whose connections are of the highest, proved unavailing.

The British steamer Constance, bound from Cardiff for Malta with coal, foundered off Lamb's End on the 9th inst., and all hands but two were lost.

An elevator in Chicago was blown down by the wind, Thursday morning, and 125,000 bushels of grain scattered about. Loss $200,000.

Hon. Samuel G. Arnold, thrice lieutenant governor of Rhode Island, and once a United States senator from that state, died in Providence on Thursday.

The pawnshop of Samuel Weeks, in Lowell, Mass., was entered by burglars Wednesday night, the 11th inst., and a large lot revolvers, jewelry, etc., stolen therefrom.

Sidney Shores, a wealthy farmer of Princess Anne county, Maryland, has recently married his step-daughter, Gussie Shores, a girl only twelve years old, and his own cousin.

S. H. Brammett, editor of the Hollister, Cal., *Enterprise*, was fatally shot on Thursday by G. W. Carleton, editor of the *Telegraph* of the same town. The latter paper, in its issue of that day, called Brummett a horse thief; the two editors met on the court house steps soon after, and Brummett asked Carleton why he published such a lie about him, receiving for answer a pistol bullet through his head. The murderer was locked up.

J. Powers, an oil refiner of St. Louis, reported to be worth half a million, committed suicide by shooting himself through the heart at the Continental hotel in Philadelphia, Thursday afternoon. He had been in that city three days, under treatment for insomnia.

Henry Shute, a married man forty years old, with a wife and child at New Haven, Conn., has eloped with the twelve-years-old daughter of his employer, a fisherman named Hulse, of Port Jefferson, L. I.

It is announced from England that a number of the Episcopal ritualists are shortly to go over to the church of Rome. They won't be tired out by the distance they have got to go to get there.

The British barque Alaska sailed from New York for Sligo, Ireland, Oct. 24th, with a cargo of meal and staves, and a crew of thirteen men; the Italian barque Catrinna sailed from Baltimore on the same date, with a cargo of wheat and a crew of twelve men, bound for Queenstown, Ireland. They have neither been heard of since, and are given up as lost, with all hands.

From Sydney, N. S. W., comes an account saying the island of New Caledonia was visited by a fearful cyclonic storm on January 24th, which resulted in enormous destruction of property and loss of life. The sea rose to an almost unprecedented height, ships were driven upon the rocks and wrecked, while houses were demolished, burying the inmates in the ruins, and trees throughout the island were broken off or torn up by the roots.

Because of the extra session of congress the public printer has been compelled to report a deficiency of $450,000, made necessary by printing ordered and done for the democrats at the extra session.

New Hampshire Items.

The house of Miss Anna Archer of Orford, occupied by Josiah H. Archer, was burned on the evening of the 10th inst., with all its contents except one bed and a stove. The fire originated in a chamber from a defective chimney.

The funeral of Mrs. Dillingham, the victim of the late tragedy in Londonderry, occurred Thursday at the Presbyterian church in that town. Notwithstanding the damp weather, there was a very large attendance of people, including many from Londonderry and delegations from all the neighboring places. There were prayers at the late home of the deceased, after which the remains were conveyed to the church, followed by a long funeral cortege.

Naval Affairs.

Commander Robert Boyd; Lieut. W. P. Randall; Masters J. A. Barber, H. F. Ficklobm, H. W. Schaefer and G. E. Calhoun; Ensigns B. O. Scott, G. E. Hatter and Alfred Reynolds; Passed Assistant Surgeon H. L. Law, Chief Engineer J. B. Carpenter, Passed Assist. Engineer W. L. Bailie and Boatswain Peter Johnson are detached from the U. S. S. Ranger, and placed on waiting orders. Passed Asst. Paymaster Z. T. Brown is detached from the Ranger, and ordered to settle his accounts.

Passed Asst. Engineer G. W. Baird is detached from the Vandalia and ordered home.

Passed Asst. Engr. E. A. Magee is detached from the New York navy yard, and ordered to the Vandalia.

The following is from Washington, under date of Feb. 13th: "The Adams and the Kearsarge have been sent to sea under sealed orders. Officers surmise that this is in connection with the Isthmian canal project. The Adams sailed from San Francisco and the Kearsarge from Key West. There is authority for the statement that one of the ships will go to Panama and the other to Aspinwall, and that naval stations will be established at or near those points."

Keep Your Sheep.

There is likely to be, indeed there is now, a sharp demand for store sheep, which enables farmers to dispose of what they have at prices which they little thought of getting six months ago, but if we owned a thrifty flock we should hold on to them for the present. The wool business has picked up wonderfully of late, and the demand has practically cleaned out all the stocks on hand, so that the clip of next summer is sure to be taken as soon as sheared at good prices, not at inflation prices, but at those which will make sheep as profitable as any other stock. This will in turn make a good demand for store sheep and lambs next fall, and we can see no reason for fearing that present prices will not be maintained. At any rate, if we were in the business we would risk it. Again, it will pay to keep the sheep well, to give them liberal feed and patient care through the winter and to see to it that no lambs are lost through neglect next spring.—*Mirror.*

Two Organs.

Regulate first the stomach, second the liver; especially the first, so as to perform their functions perfectly and you will remove at least nineteen twentieths of all the ills that mankind is heir to, in this or any other climate. Hop Bitters is the only thing that will give perfectly healthy, natural action to these organs.—*Maine Farmer.*

—The man who got hurt by stopping suddenly said it was the result of his bringing up.

—When Marshall Narvez, it is related, was on his death-bed, his confessor asked him if he freely forgave all his enemies. "I have no enemies," replied the dying marshal proudly. "Every one must have made enemies in the course of his life," suggested the priest, mildly. "Oh, of course," replied the marshal, "I have had a great number of enemies in my time, but I have none now. I have had them all shot!"

—A clergyman recently left Liverpool in a large ocean steamer, and beginning to feel uncomfortable after leaving the mouth of the river, sought the captain to learn if there was any danger. The captain, in response, led the clergyman to the forecastle and told him to listen to what was going on. The clergyman was shocked to hear the sailors swearing vigorously, and expressed his horror to the captain. The captain merely remarked: "Do you think these men would swear in such a manner if there was any real danger?" whereupon the parson seemed satisfied, and retired. A day or two after, during a severe storm, the captain saw the clergyman proceeding with difficulty to the forecastle, and on his return heard him exclaim: "Thank heaven! they're swearing yet!"

FELLOWS' COMPOUND SYRUP OF HYPO-PHOS-PHITES

The Promoter and Perfecter of Assimilation.

The Reformer and Vitalizer of the Blood

The Producer and Invigorator of Nerve and Muscle.

The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or interrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name; no other preparation is a substitute for this under any circumstances.

THE WEATHER.

Probabilities for New England, To-day.

WASHINGTON, D. C., Feb. 13, 2 A. M.

Rain and snow, north east to south east winds; on the coast falling, followed by rising barometer; and during the afternoon or evening, winds shifting to north and west, with colder clearing weather. Cautionary signals continue from Smithville, to Eastport.

AROUND HOME.

St. Valentine's day, to-day.

A great many strangers were in town Friday in attendance on the musical convention.

Found, a railroad baggage-check, which the loser can recover by applying at this office.

The employes of the Direct Cable company at Rye have contributed $17 to the New York *Herald* Irish relief fund.

The schooner Union Flag, of this port, one hundred and ninety-seven tons register, has been sold to parties in Portland.

D. Frank Fellows of Brentwood has been appointed mail agent on the Portsmouth, Great Falls & Conway railroad, and has entered upon his duties.

The buildings at Concord railroad wharf are being taken down, preparatory to the erection of the coal pockets. A large force of workmen is employed.

The Mechanics' association have received a valuable lot of western papers from Winslow A. Nowell, a son of Portsmouth now a resident of Milwaukee, Wisconsin.

Miller's Weekly and the *Times* have just found out that Joshua had a daughter born unto him, New Year's eve. The CHRONICLE made note of that important event six weeks ago.

Morris C. Foye, at No. 23 Market street, has a special line of edgings, laces and cotton trimmings, and a large display of the most approved style of corsets, from fifty cents upward.

John Keenan, aged fifteen years, was caught in the shafting at the Cocheco print works at Dover, Friday afternoon, and had his thigh broken and was severely injured internally. It is feared he is fatally hurt.

It will interest navy yard workmen to know that Congressman Murch of Maine on the 10th inst. presented twenty-one petitions asking legislation enforcing the national eight hour law. The house committee has adopted a resolution for enforcing the eight hour law of June, 1868, which declared that government employes shall receive a full day's wages for eight hours' work, and which has lately been a dead letter. The resolution will be reported to the house as soon as Chairman Goode can obtain the floor.

A reader in search of knowledge has propounded the following conundrums and preamble: "It is generally supposed that lent consists of forty days, and I have always supposed so with the rest of the ignoramuses. But can you tell me why in 1880, from Ash Wednesday to Easter Sunday, the prescribed lenten season, contains forty-seven days? Is it the fault of the almanac-makers?" We do not pretend to know all there is of church matters and ceremonies, but we were quite prepared to exonerate the almanac-makers, and to charge the increased duration of the lenten season this year—as assumed by the questioner—to a conspiracy of the fish dealers, concocted to add a week to their trade; but before giving the querist this valuable information we asked a good churchman how it was that lent this year extended over forty-seven days, and he replied: "Why, it always does—forty days of lent, and Sundays, which are feast days and do not count."

THE TELEPHONE.

Prof. Quimby, agent of the Bell Telephone company, has engaged the rooms in Mechanics' block recently occupied by Dr. Donaldson, as a central office and district exchange, similar to those established in large cities. The circuit will for the present include all the prominent towns within a radius of twenty miles, with a prospect in the near future of connecting with Portland and Boston. The rooms engaged are admirably suited for the purpose intended. Prof. Quimby expects to have his lines in full running order by the first of April.

THE MUSICAL CONVENTION.

The closing concert, Friday evening, drew a very large audience, and the performance was more than pleasing. The solo singers, Miss Edith Wendell, Miss Kellogg and the Messrs. Winch were enthusiastically applauded, and deserved it; and the manner in which the chorus went through their numbers shew remarkable improvement on their first attempt. Mrs. Shepard too was encored, and all three of the ladies received beautiful floral tributes.

After the close of the first part of the concert a vote of thanks to Messrs. Cole and Torrens was passed, to which Mr. Cole responded.

The convention has been quite as much of a success as the originators hoped for, notwithstanding the unfavorable weather and walking through the week, which undoubtedly greatly lessened the attendance; and the good work done this year will give the next convention a favorable start "from the word go."

FISHERY NOTES.

The fishing vessels kept their lines out at the wharves, Friday, on account of the thick fog.

During January the schooner Josie Johnson, of Newburyport, which has been fishing out of this port this winter, divided $1800 among her crew, as the result of her fishing trips. During the two months up to January 20th she stocked $3500, which gave $240 to a man.

A CORRECTION.

We were called upon Saturday by Mr. N. S. Bean of the Manchester locomotive works, who assured us that there is no truth whatever in the report that the company repaired the old steam fire engine Dearborn (purchased of this city, in trade, for $400,) at a cost of $1200, and then sold her to New York parties for $3300; but that on the contrary, she was broken up for the scrap heap, which was all she was good for. Mr. Bean further says that the company has never repaired any old engine and put it on the market.

SUICIDE IN ELIOT.

A Mrs. Shapley, living at Sandy hill, Eliot, committed suicide Friday evening by hanging herself in the shed-chamber of her premises. She was a widow lady, and aged about seventy years. She was found by Mr. Augustus Fernald, who with the aid of some neighbors cut the body down.

SUPREME COURT.

No. 126, Mary E. Blaisdell vs. town of Epping, suit for damages occasioned by defect in highway. The case was submitted late on Thursday, and on the coming in of the court on Friday the decision of the jury was announced in favor of the defendant. Frink and Bartlett for plff.; Copeland and Wiggin for deft.

No. 139, Jonathan E. Brown vs. Nelson Copeland. An action of trespass for assault and battery. The only witnesses produced of any consequence were the parties themselves, and the testimony of one was almost a direct contradiction of that of the other. The case was given to the jury about three o'clock P. M., Friday; they deliberated about an hour, and arrived at the conclusion that the plaintiff had not established his case, and so gave their verdict for the defendant. Leavitt for plff.; Towle for deft.

No. 118, Wm. H. Dodge vs. George Janvrin. An action in which the plff., a lawyer of Dover, seeks to recover for professional services rendered to the defendant. The trial was commenced at four o'clock Friday afternoon. Dodge and Towle for plff.; Hatch for deft. The trial will probably be concluded Saturday forenoon.

Distance lends Enchantment!

Maud had a fine figure, good face and pretty name. One should see her at a distance. When she began to talk, you realized that she never used SOZODONT. Her breath was unlike the breezes of Araby the blest.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle. 4

Angora Goats.

W. D. Parish, who has been extensively engaged in the Angora goat business in Texas for a number of years, gives it as his opinion that when properly conducted it can beat sheep-raising all to pieces. He has now upon his ranch, 1,119 goats,—825 grade and eleven thoroughbred females, 175 grade and eight thoroughbred males, 100 wethers. It costs him $1,000 a year to take care of them, and he figures his profits last year at $2,000. The goats shear about two pounds of hair, each, which sells for fifty-five cents a pound in this country, and seventy-five cents in Liverpool. The meat is claimed to be better than mutton, and Mr. Parish says the goats can be much more cheaply kept than sheep, and are less trouble. The first hair is taken from wethers. He believes that with proper breeding a flock could be made to shear three pounds per head.

Pumpkins Among Corn.

Having had more than thirty years' experience in raising corn, I am willing to give my brother farmers the benefit thereof. In commencing farming, I followed the prevailing practice and planted pumpkin seeds—getting a fair crop of corn, plenty of vines, and sometimes a good crop of pumpkins. While pursuing this practice, it required a longer time for my corn to ripen than it has since discarding the pumpkin vines. For many years past, I have not allowed pumpkins among my corn, and have been rewarded with 100 to 160 bushels of ears of sound corn per acre; and the increase in the corn crop has, in my opinion, more than compensated for the loss of the pumpkins. My theory is that the ground, not the corn leaves, requires all the benefit it can get from the sun's rays, as the warm soil favors a good and early matured crop. If I thought it desirable to have pumpkins, I should by all means plant them by themselves. One of my neighbors, who formerly lived in Ohio, told me that he once planted several acres to corn and put his pumpkins on one acre by themselves, getting a fine crop of both. At another time I will give you my experience in planting corn, both in hills and in drills.—*W. E. C., in Country Gentleman.*

Fashion Notes.

Spanish lace is now the most popular of all varieties for the toilet, in both white and black.

Medium and dark shades of kid gloves are more worn for full dress than for many seasons past.

Changeable silks are in great demand for the strings of bonnets, and are very suitable for this purpose.

Large collars appear on all handsome dresses for children, and round shapes are taking the place of square ones.

Black kid gloves are the most popular for dress occasions, because they make the hand look small and shapely.

Carriage and reception dresses are now made of high colors and the richest materials. The former are generally of walking length.

Feather turbans grow in popularity. Peacock blue is a favorite shade, though some gray ones made of owl's feathers, are very handsome.

A walking boot for ladies has made its appearance, which laces over the instep like a gentleman's shoe, instead of buttoning at the side. It has a broad sole and low heel.

Handkerchiefs finished on the edge with inch and a half borders of foulard silks in fancy grounds, with little bouquets of several colors, are made into pretty breakfast caps.

In the spring the polonaise will be generally revived. Its composition will be somewhat changed, but it will be the polonaise again. Princesse dresses will be worn also, but with certain changes.

Pretty trimming for dresses is bouquet ribbon loops. These are made of twelve loops of different colored, inch wide satin ribbon, each loop one and a half inches deep. They are made up close together, similar to a bouquet of flowers.

Long lace jabots, extending below the point of the corsage, and buttoned up within the bodice and at the waist line, and cropping above and below that point, are worn with dressy toilets in the evening.

The newest patterns in Hamburg embroideries are known as the Russian lace stitch, and the fine open mesh work. Both come in lengths of four and a half yards, with narrow edging and insertion to match.

The throat is dressed high and close, and ruffles are worn as full as they can be made. Among other new materials for dressing the neck is figured French mull. It has a soft, silky ground of cream white, with sprays and bouquets in miniature sizes and of mixed colorings.

The cloak that will be made for early spring is an ulster, close fitting, with coat seams across the waistband, long skirt, with lappel folds and square pockets. They are made in light colored cloth, with small breast pockets. The dolman in its various forms will be in all suitable fabrics for early spring wear.

The most fanciful piece of jewelry now worn is the bracelet, and many go so far as to wear it instead of the linen cuff or other lingeries at the wrist. The wide gold bands are abandoned for dress, and instead is a very thin, light, band of gold, with ornamental medallion or diamonds or colored stones on top of the arm.

One essential preliminary in renovating silks, or any other half worn fabric, is that of ripping carefully with a small sharp pen knife, and picking out all loose threads. In washing, the material should be lifted up and down in the water until it is thoroughly saturated and made clean, and afterward changed from the soap bark water to clean tepid or cold water.

White fur is popular in Paris and England and Russia. White bear muffs are the novelty at present. They are handsome for evening wear and look well with dark street costumes, or as well as muffs of any kind ever look. There has been less demand for muffs since the era of seal skin sacques, and as women progress in the matter of artistic dress, they will grow more and more undesirable by ladies of taste and style.

Hand-made fur capes are so convenient, and give so elegant a finish to a rich costume, that they will be worn in the street when cloaks and winter wraps are dispensed with. The two styles are fichus, which pass over the shoulders, cross in front, and turning back over the hips, are caught together at the back, and round capes, reaching just over the shoulders. These shoulder wraps are finished with jet or crimped silk fringe.

—A sign which reads "Positively no admittance" will stop a libre just about as long as a bullet made of butter. Money can be saved by cutting off the "positively."

"The best cough medicine in the world." The Old Vegetable Pulmonary Balsam. Cutler Bros. & Co., Boston. Small reduced to 35c; large, $1. eod&wtuniay

STRATFORD, ONT., Aug. 1, 1874.

Having become almost entirely cured of extreme debility through the use of Fellow's Compound Syrup of Hypophosphites, I feel it but just to put the fact on record. My case had resisted all other medicines, but succumbed to three bottles of Fellows' Hypophosphites.

Cuticura

BLOOD AND SKIN HUMORS

The scourge of mankind.—Old methods of treatment and remedies a failure.

CUTICURA RESOLVENT, the Great Blood Purifier and Liver Stimulant, is the most searching, cleansing, and purifying agent of this century. It may be detected in the saliva, sweat, milk, blood, and urine in forty minutes after taking the first dose, showing that it has entered the circulation and been carried to every part of the system. It forever eradicates the virus of Syphilis, Scrofula, Cancer, and Cankerous, these terrible blood poisons that rot out the machinery of life, filling the body with foul corruptions. Taken internally in conjunction with the external application of CUTICURA, the Great Skin Cure, it speedily cures Scrofulous Sores and Old Sores, Salt Rheum, Psoriasis, Tetter, Ringworm, Scald Head, Dandruff, and all Itching and Scaly Diseases of the skin and scalp.

ECZEMA ON THE SCALP,

Breast and Limbs Cured.

MESSRS. WEEKS & POTTER: *Gentlemen*,—I cannot refrain from adding my debt of gratitude to you for having placed within my reach the wonderful CUTICURA REMEDIES, which have rendered unnecessary all further experiment of physicians, and in a remarkably short space of time have cured me of a loathsome disease. I dispensed with all physicians two years ago, believing they did me no good. The CUTICURA, for the first, gave satisfactory expense—even if it were necessary and I had the courage now left to follow their advice—and brought the long-looked-for cure and happiness.

I have been afflicted with Eczema or Salt Rheum on my scalp, breast, and limbs for five years, during which time I have been under the treatment of physicians, and almost exhausted my means in consequence. I have been treated by Drs. ——, of ——, Dr. —— of ——, and visited sulphur springs and taken a number of patent medicines, all without the faintest approach to a cure.

April 14th, I began the use of CUTICURA, which was immediately successful in my case, entirely curing me. I have not had a clean skin for 15 years until the use of the CUTICURA entirely healed it and left it clean and healthy. The other parts of my body were affected in a more aggravated form, but are now completely healed. I believe it will come entirely cured. I shall continue the CUTICURA RESOLVENT as directed, for its wonderful action on the stomach and bowels and cooling influence on the blood. It will afford me pleasure, as I have done in many cases, to urge the efficacy of these wonderful remedies.

Yours, etc., STEPHEN CROWELL.

NEW BEDFORD, Sept. 30, 1878.

A RUNNING SORE

Cured in One Week.

MESSRS. WEEKS & POTTER,—Some three or four weeks ago I ordered a box of CUTICURA for a bad case of Salt Rheum. The book of one of my wife's hands was a running sore. In one week from the day it arrived her hand was well and has remained so up to to-day. E. P. DAGGETT.

MILFORD, MIC., June 16, 1878.

NOTE.—Reader, don't you think these cures remarkable?

CUTICURA SOAP,

Medicinal and Toilet.

Is prepared from CUTICURA in a modified form, and is positively indispensable in the treatment of Skin and Scalp diseases. We recommend it for the preservation of the skins of infants, for gentlemen who shave and are troubled with tender faces, for those who desire a clean and wholesome Skin and Scalp, and for all purposes of the toilet, bath and nursery. Its delightful and refreshing fragrance equals or surpasses the finest Parisian Soaps.

Prepared by Weeks & Potter, Chemists and Druggists, 360 Washington Street, Boston, Mass., and for sale by all druggists and dealers. Price of CUTICURA, small boxes, 50 cents; large boxes, containing two and one half times the quantity of small, $1. Resolvent, $1 per bottle. CUTICURA SOAP, 25 cents per cake; by mail, 30 cents; three cakes, 75 cents.

These great organs are the natural cleansers of the system. If they work well, health will be perfect; if they become clogged, dreadful diseases are sure to follow with

TERRIBLE SUFFERING.

Biliousness, Headache, Dyspepsia, Jaundice, Constipation and Piles, or Kidney Complaints, Gravel, Diabetes, Sediment in the Urine, Milky or Ropy Urine; or Rheumatic Pains and Aches,

are developed because the blood is poisoned with the humors that should have been expelled naturally.

KIDNEY-WORT

will restore the healthy action and all these destroying evils will be banished; neglect them and you will inevitably suffer.

Thousands have been cured. Try it and you will add one more to the number. Take it and health will once more gladden your heart.

Why suffer longer from the torment of an aching back?

Why bear such distress from Constipation and Piles?

Why be racked with the horrible misery of disordered urine?

KIDNEY-WORT will cure you. Try a package at once and be satisfied.

It is a dry vegetable compound and One Package makes six quarts of Medicine.

You Druggists buy it, or we will get it for you. Insist upon having it. Price, $1.00.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; or SELF-PRESERVATION; Exhausted vitality, nervous and physical debility, or vitality lost by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard, medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

THE

New Hampshire Gazette

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

—THE—

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

POROUS PLASTER

CAPCINE PLASTER

BENSON'S CAPCINE

A Word to those who use Porous Plasters. It is a universally acknowledged fact that BENSON'S CAPCINE POROUS PLASTERS ARE SUPERIOR TO ALL OTHERS! "The great demand for them has created a number of unscrupulous parties to make and sell worthless imitations, which are put up so closely like the genuine article as to deceive the unsuspecting public. It is important for the consumer to know which is the best. It is well known that some of the cheap plasters have been examined and found to contain injurious ingredients which make them worse than useless. To avoid these, see that the genuine BENSON'S CAPCINE POROUS PLASTER is correctly applied. CAUTIONS—See that the name CAPCINE on each plaster is correctly spelled. PRICE 25 CENTS. (feb20)

ONE DOLLAR A YEAR.

The circulation of this popular newspaper has more than trebled during the past year. It contains all the leading news contained in the Daily Herald, and is arranged in handy departments. The

Foreign News

embraces special dispatches from all quarters of the globe. Under the heading

American News

are given the Telegraphic Despatches of the week from all parts of the Union. This feature alone makes it

The Weekly Herald

the most valuable chronicle in the world, as it is the cheapest. Every week is given a faithful report of

Political News

embracing complete and comprehensive despatches from Washington, including full reports of the speeches of eminent politicians on the questions of the hour.

The Farm Department

of the Weekly Herald gives the latest as well as the most practical suggestions and discoveries relating to the duties of the farmer, hints for raising Cattle, Poultry, Grains, Trees, Vegetables, &c., &c., with suggestions for keeping buildings and farming utensils in repair. This is supplemented by a well-edited department, widely copied, under the head of

The Home,

giving recipes for practical dishes, hints for making clothing and for keeping up with the latest fashions at the lowest price. Every item of cooking or economy suggested in this department is practically tested by experts before publication. Letters from our Paris and London correspondents on the very latest fashions. The Home Department of the Weekly Herald will save the housewife more than one hundred times the price of the paper. The interests of

Skilled Labor

are looked after, and everything relating to mechanics and labor-saving is carefully recorded. There is a page devoted to all the latest phases of the business markets, Crops, Merchandise, Stocks, &c. A valuable feature is found in the specially-reported prices and conditions of

The Produce Market.

Sporting News at home and abroad, together with a Story every week, a Sermon by some eminent divine, Literary, Musical, Dramatic, Personal and Society Notes. TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable and successful* practitioners by whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more competent to employ for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1849, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasion to employ the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1880. 3awtjan181

THE GREATEST LIVING AUTHORS, such as Prof. Max Muller, Rt. Hon. W. E. Gladstone, Jas. A. Froude, Prof. Huxley, R. A. Proctor, Edw. A. Freeman, Prof. Tyndall, Dr. W. B. Carpenter, Frances Power Cobbe, The Duke of Argyll, Wm. Black, Miss Thackeray, Mrs. Muloch-Craik, Geo. MacDonald, Mrs. Alpha, Jean Ingelow, Mrs. Alexander, Thos. Hardy, Matthew Arnold, Henry Kingsley, W. W. Story, Turgenieff, Carlyle, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh* year, admittedly unrivalled and continuously successful. During the year it will furnish its readers the productions of the most eminent authors, *of some of and many others*, embracing the Choicest Serials and Short Stories by the *Leading Foreign Novelists*, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the *foremost Essayists, Scientists, Critics, Discoverers and Editors*, representing every department of Knowledge and Progress.

THE LIVING AGE *is a weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents in an inexpensive form, giving its great amount of matter with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Papers Scientific Biographical, Historical and Political information, from the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only means of a fresh and COMPLETE compilation of an indispensable current literature, *—indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

☞"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

☞"It stands the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

The Promoter and Perfector of Assimilation.

The Reformer and Vitalizer of the Blood

The Producer and Invigorator of Nerve and Muscle.

The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or interrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name: no other preparation is a substitute for this under any circumstances.

Look out for the name and address J. L. FELLOWS', St. John, N. B., on the yellow wrapper in watermark, which is seen holding the paper before the light.

CATARRH

NEVER-FAILING RELIEF

AFFORDED BY

SANFORD'S RADICAL CURE.

It is a fact that can be substantiated by the most respectable testimonials ever offered in favor of any proprietary medicine, that the RADICAL CURE FOR CATARRH does in every case afford instant and permanent relief. No matter of how long standing, or how severe the disease, the first one gives such evidence of a value in the treatment of Catarrhal affections the confidence is at once felt in its ability to do all that is claimed for it. The testimony of physicians, druggists and patients is unanimous in this respect, and the accumulating evidence in point of respectability and worth is any ever before obtained in favor of a popular remedy. The proprietors, therefore, may justly be proud of the position the RADICAL CURE has attained and believe it worthy of its reputation.

10 YEARS A SUFFERER.

From Hon. Theo. P. Bogert, Bristol, R.

MESSRS. WEEKS & POTTER: *Gentlemen.*—Feeling thoroughly convinced of the efficacy of SANFORD'S RADICAL CURE FOR CATARRH, I am induced to add my line to say that although I have been sceptical of a so universally advertised as "radical cure," I have never found anything that promises such relief as disease care as that of Sanford's. I have been afflicted with this dreadful disease for more than ten years, and now multiply testimony, induced to preserve with any until I read the letter of Mr. HENRY WELLS, and can truthfully say that after using five or six bottles I am thoroughly convinced of its curative properties. Hoping that others similarly afflicted like myself will be induced to make the trial, as I am, gentlemen, very truly, etc.

THEO. P. BOGERT.

NEW HAMPSHIRE.

[The following poem, written for the Historical Society of New Hampshire, and read at one of its anniversary celebrations, was pronounced by Mr. Whittier, while in Boston, recently, as one of the grandest poems produced in this country. The poem has not been published in magazine or book form and is, therefore, new to the public.—*Exeter News-Letter.*]

"A goodly realm!" said Captain Smith,
Scanning the coast by the Isles of Shoals,
While the wind blew fair, as in Indian myth
Blows the breeze from the Land of Souls;
Blew from the marshes of Hampton spread
Level and green that summer day,
And over the brow of Great Boars Head,
From the pines that stretched to the west away,
And sunset died on the rippling sea,
Kre to the south, with the wind sailed he.
But he told the story in London streets,
And again to court and princes sat King.
"A t uce," men cried, "to Virginia beats;
The North is the land of hope and spring!"
And in sixteen hundred and twenty-three,
For Dover meadows and Portsmouth river,
Bold and earnest they crossed the sea,
And the realm was theirs and ours forever!

Up from the floods of Piscataqua,
Slowly, slowly they made their way
Back to the Merrimack's eager tide,
Poured through its meadows rich and wide;
And the river that runs like a joyous brook—
Monadnock's darling, the Contoocook—
And westward turned for its warmer gales
And the wealth of Connecticut's intervales;
And to Winnipesaukee's tranquil sea,
Bosomed in hills and bright with isles
Where the alder grows and the dark pine tree,
And the tired wind sleeps and the sunlight smiles;
Up and up to the mountains piled,
Peak o'er peak, in the northern sky,
Home of streams and of winds that wild
Torrent and tempest valeward bear,
Where the Great Stone Face looms changeless, calm,
As the Sphinx that couches on Egypt's sands,
And the fir and the sassafras yield their balm,
Sweet as the odors of morning lands,
Where the eagle floats in the summer noon,
While his comrade clouds drift silent by
And the waters fill with a mystic tune
The lane the cliffs have built to the sky!
And beyond, to the woods where the huge moose browsed,
And the dun deer drank at the rill unroused
Be hound or horn, and the partridge brood
Was alone in the leafy solitude;
And the lake where the loner housed her young,
And the loon's shrill cry from the border rung,
The lake whence the Beauteous River flows,
Its fountains fed by Canadian snows.

What were the labors of Hercules
To the toils of heroes such as these?
Guarding their homes from savage foes
Cruel as beasts in craft and scorn:
Felling the forest with mighty blows;
Planting the meadow plots with corn;
Hunting the hungry wolf to his lair:
Trapping the panther and prowling bear;
Bridging the river; building the mill,
Where the stream had leapt at its frolic will;
Bearing, in faith by sorrow tried,
The church and the school house, side by side;
Fighting the French on the long frontier,
From Louisburg, set in the sea's domains,
To proud Quebec and the woods that hear
Ossian's lone sunset plaint;
And when rest and comfort they yearned to see,
Risking their all to be nobly free!

Honor and love for the valiant Dead!
With reverent breath let their names be read—
Hiltons, Pepperells, Sullivans, Weares,
Broad is the scroll the list that bears
Of men as ardent, and brave and true
As ever land in its peril knew,
And women of pure and glowing lives,
Meet to be heroes' mothers and wives!
For not alone for the golden maize,
And the fisher's spoils from the teeming bays,
And the treasures of forest, and hill and mine,
They gave their barks to the stormy brine.
Liberty, Learning, righteous Law
Shone in the vision they dimly saw
Of the Age to come and the Land to be;
And, looking to Heaven, fervently
They labored and longed through the dawning gray
For the blessed break of the larger day.

When the wall of Harvard in sore distress
Came to their ears through the wilderness—
Harvard, the hope of the colonies twain,
Planted with prayers, by the lonely main—
It was loyal, struggling Portsmouth town
That a n this gracious message down:
"Wishing our gratitude to prove,
And the country and General Court to move
In the infant college beset with fears,"
(Its loss an omen of ill would be!)
We promise to pay it, for seven years,
Sixty pounds sterling, an annual sum,
Trusting that fuller aid will come."
And the Court and the country heard their plea,
And the sapling grew to the wide-boughed tree.

And when a century had fled,
And the war for freedom thrilled with dread
Yet welcome summons every home,—
By the fireit hearth, 'neath the starry dome,
They vowed that never their love should wane,
For the holy cause they turned to gain,
Till right should rule, and the strife be done!
List to the generous deed of one:
In the Revolution's darkest days
The Legislature at Exeter met;
Money and men they fain would raise,
And despair on every face was set,
As news of the army's need was read;
Then, in the hush, John Langdon said:
"Three thousand dollars have I in gold;
For as much I will pledge the plate I hold;
Eighty casks of Tobago rum;
All is the country's. The time will come,
If we conquer, when amply the debt shall pay;
If we fail, our property's worthless." A ray
Of hope cheered the gloom, while the Governor said:
"For a regiment now, with Stark at its head!"
And the boon we gained through the noble lender
Was the Bennington Day and Burgoyne's surrender!

Conflict over and weary quest,
Hid in their hallowed graves they rest:
Nor the voice of love, nor the cannon's roar
Wake them to field or fireside more!
Did the story go from the hills with them?
Nay! for the sons are true to the sires!
And the gems they have set in our diadem
Burn with as rare and brilliant fires;
And the woodland streams and the mountain aire
Sing of the father's fame with theirs!
One, in the shadow of lone Kearsarge
Nurtured for power, like the fabled charge
Of the gods by Pelion's wooly marge;

So lofty his eloquence, stately his mien,
That, could he have walked the Olympian plain
The worshipping, wondering crowds had seen
Love descend o'er the feast to reign!
And one, with a brow as Balder's fair,
And his life the grandeur of love and peace;
Easing the burdens the race must bear,
Toiling for good he might not share,
Till his white soul found its glad release!
And one—a tall Corinthian column,
Of the Temple of Justice prop and pride—
The judge unstained, the patriot tried,
Gone to the bar supernal, solemn,
For left his peer by Themis' side!
Ah! when the Old World counts her kings,
And from splendor of castle and palace brings
The dainty lords her monarchies mould,
We'll turn to the hills and say, "Behold
Webster and Greeley and Chase for three
Princes of our Democracy!

Stand of the cliff, the stream, the pine,
Blessing and honor and peace be thine!
Still may thy giant mountains rise,
Piling their snows to the blue of June,
And the south wind breathe its tenderest sighs
Over thy fields in the harvest moon!
And the river of rivers, Merrimac,
Whose current shall never faint or slack
While the lake and the crystal springs remain—
Welcome thy myriad brooks and rills,
Winding through meadows, leaping from hills,
To brim its banks for the waiting wheels,
That thrill and fly to its dash and roar
Till the rocks are passed, and the sea fog steals
Over its tide by Newbury's shore—
For the river of rivers is Merrimac,
Whether it foams with the mountain rain,
Or toils in the mill race, deep and black,
Or, conqueror, rolls to the ocean plain!
And still may the hill, the vale, the glen,
Give thee the might of heroic men,
And the grace of women pure and fair,
As the May flowers bloom when the woods are bare!
And Truth and Freedom aye find in thee
Their surest warrant of Victory!
Land of fame and of high endeavor,
Strength and glory be thine forever!

An Important Decision.

The lottery men, sawdust swindlers, "put and call" sharps, and other men who live by their wits and trickery, have won a victory in a decision of the United States attorney general, who has informed the president and cabinet that there is no law empowering the government to withhold letters from persons to whom they are addressed, and that they must be delivered to such persons upon demand.

Fitz John Porter's Case.

The congressional bill to relieve Fitz John Porter—that is, the bill to restore him to the rank in the army from which he was dismissed by sentence of a court martial for treason and disobedience of orders during the rebellion—does not seem to progress so fast as it was at one time supposed it would do. Some weeks ago this bill was made the special order for the 13th inst., in the house, but Bright of Tennessee, a democrat of course, opposed its consideration, and the house refused to consider it, only forty-one members voting in the affirmative.

News and Notes.

Mrs. Preston, long known as a persistent litigant in the Maine courts, and who has exhausted in her one case every resource of the present laws, now petitions the legislature for an enactment that shall compel court and jury to give her a verdict.

The Grand Trunk railway has completed its connection to Chicago, and now controls the entire distance between Chicago and Portland. The freight business of the last year has been enormous. It has averaged $220,000 a week, a gain of $30,000 a week over the previous year.

A. J. Harriman of Belfast, Me., has a more that is noted for her intelligence. During one of the recent icy periods, the animal, which was smooth shod, was let out from the owner's stable. The horse very deliberately and carefully marched down Main street, and entered the blacksmith shop of Mr. Swift, who sharpened her shoes.

The Maine state college farm has paid its way the current year, and earned about $200 more than its expenses. The amount of field crops raised and secured in excellent condition is as follows: 120 tons of hay, 900 bushels of potatoes, 90 bushels of wheat, 561 bushels of barley, 12 bushels of peas and wheat mixed, for hog-fodder; 38,000 pounds of sugar-beets for the Maine sugar-beet company, 800 bushels beets for the use of stock, and 708 bushels for sale.

Albert Payne Richardson has disappeared from Melrose, Mass., leaving a wife and child six years old in destitute circumstances. A young lady about eighteen years old, of highly respectable parentage and previously of good reputation, has also left the town, and circumstances go to show that the pair eloped together.

The Rhode Island legislature has passed a bill prohibiting the shooting of pigeons as a test of marksmanship. This will be the means of breaking up the Narragansett Gun club, of Newport, of which James Gordon Bennett is president.
